By your purchase of merchandise, you agree to the following terms and conditions.

COD

We ship COD's by FEDEX only.
FEDEX requires that you have a cashiers check or money order for the exact amount of the COD. Therefore all COD orders must be handled by telephone. No COD orders will be accepted through the mail or web site.
A **$19.00** COD charge will be added to cover the FEDEX fee for collecting payment on any COD.

Prepaid

We accept the following methods: Cashier's check, money orders, business, and personal check. Cashier's checks and money orders will be processed promptly.
Any orders paid with business or personal check, will be held one week. If for any reason a prepaid order does not include sufficient funds to cover the total invoice price, your order will be held until we are able to contact you to determine how to handle. Tennessee Law requires that any unclaimed refund checks or credit balances, be tracked and maintained on a companies books for a period of 5 years, therefore, due to the expense involved in tracking and managing these checks and balances, we have adopted the policy of automatically donating any refund due of 99¢ or less to the NRA Foundation's Youth Education Endowment.
Any overpayment of $1.00 or greater will be refunded. By your purchase of merchandise, you agree to these terms and conditions.

Stock Availability & Back Orders

If we are out of stock, your money will be refunded. Mail orders only, you may request that we hold the order until available or request a back order.

Charge Cards

We accept MASTERCARD, VISA, DISCOVER & AMERICAN EXPRESS -
Please have your card number ready when placing your order.

Pricing & Typographical Errors

All prices and fees are subject to change without notice. We are not responsible for typographical errors or price misprints contained in this catalog.

Damages/Shortages

All damaged shipments must be reported to our customer service department and the carrier for claims handling. Any damages or shortages must be reported to us within 24 hours of receiving your order. ***In the event of any damage or shortage, all boxes and packing material regarding that order, must be kept on hand until the problem has been resolved and any claims paid in full.***

Defectives

All merchandise is guaranteed by the manufacturer. Please return any defective merchandise directly to the manufacturer for replacement or repair, as we are not a warranty repair station.

Returns

All returned merchandise must be returned within 15 days of invoice date. No returns accepted COD.
All returns must be in the factory packaging and in new condition.
Due to safety concerns, we do not accept returns on ammunition, powder, primers, or food products.

International Orders

General Information:
We no longer ship internationally. We do accept credit card billed Internationally, but it must ship to an address within the United States.

Hazardous Materials

When shipping FEDEX Ground Service a **$22.99** FEDEX hazardous material handling charge will be added to your order for each box containing powder, primers, or flares. When shipping by Air Service a $105.00 UPS hazardous materials handling charge will be added to your order for each box containing ammo or primers Powder can not be shipped by air. *Note: All hazardous orders require a signature.*

Restricted Items

Shipping Requirements For Restricted Items -

Certain products available for purchase from Natchez Shooters Supply may be restricted by Local, State or Federal law. These items may include, but are not limited to airguns, ammunition, black powder guns, blank guns, blow guns, bows, crossbows, exploding targets, fuses, knives, machetes, magazines, paintball guns, pellet guns, pepper spray, powder, primers, slingshots, stun guns, and swords. You must be 21 years of age to purchase any of the items listed above. These items can not be sold to anyone convicted of a crime of domestic abuse, convicted felons, or anyone with a chemical dependency. Further, any person placing an order warrants that pursuant to the Local, State, and Federal laws which govern them, that they are under no legal restriction that would prohibit them from ordering, owning, possessing or transferring said items.

Ordering Information and Policies for Mail-In Orders

By your purchase of merchandise, you agree to the following terms and conditions.

A. Due to the added cost of processing mail-in orders caused by manufacturers' price increases, incorrectly totaled orders, insufficient freight, lack of clarity in written orders and lack of 2nd choices being named as acceptable substitutions for unavailable items, we have implemented the following policies.

B. All orders will be shipped FEDEX unless you clearly and specifically request delivery by U.S. Mail. FEDEX will not deliver to a P.O. Box, therefore please include complete physical street address. Any order being shipped by air or U.S. Mail cannot include pressurized containers, powder, primers, chemicals, solvents, or any other hazardous materials. Ammo can be shipped by FEDEX only.

C. General Policies on Mail-In Orders

1.) If your order includes scopes, bases, rings, bullets, shellholders, brass, primers or loaded ammo please give a 2nd choice. If your 1st choice item is not available and no 2nd choice item is named, your order will be shipped as is.

2.) **Please refer to PREPAID information above.**

3.) At our discretion and according to product availability, orders will be shipped as completely as possible unless a major item affects the rest of the order. For example: if you ordered a press and dies and the press was unavailable, the order would not be shipped.

4.) Due to the manner in which mail orders are processed, **mail-in orders cannot be changed or altered**. Therefore, please check your order carefully before mailing. If your have any questions concerning your mail-in order BEFORE PLACING YOUR ORDER, please feel free to call 1-800-251-7839. Someone will be happy to answer any questions you might have concerning your order.

5.) To help us overcome any potential problems please include a **day time** phone number.

Order Form - Please Use Catalog Number When Ordering

Your use of this form indicates that you have access to our ordering information. We hope that you have taken the time to read our policies and that you fully understand them. If you have any questions concerning our policies, please call 1-800-251-7839. Someone will be happy to answer any questions you might have concerning your mail order.

Guidelines and Instructions for Exchange and Returns

It is not necessary to call prior to returning merchandise unless assistance is needed. If you would like to exchange or return an item, simply follow these instructions.

1. All merchandise must be returned within 15 days of invoice date
2. Please complete the return form with all required information. Failure to answer all sections completely may delay the processing of your return
3. Complete the return label for attachment to the outside of the shipping box. Please do not use merchandise package as a shipping box.
4. Enclose the return form in the package with the merchandise.
5. If the return was caused by an error on our part we will refund your freight up to th cost of **standard ground freight.**
   - A. Please keep your receipt, as proof of return freight may be required to assume proper credit.
   - **B. Any additional freight or processing fees charged by packaging centers will not be refunded.**
   - C. Shipping charges must be prepaid. Packages returned COD will not be accepted.
6. For your protection we strongly recommend that you insure that package for its full value.
7. All merchandise being returned must include all warranty papers and instructions, be in the original factory packaging and be in new condition.
8. Due to Manufacturer Warranty guidelines the following brands must be returned directly to the manufacturer for repair or replacement.
   Burris, Do-All, Galco, LaCrosse, Leupold, FLiR, TenPoint, Carbon Express, Sig Sauer & Ravin
9. Due to safety concerns Ammunition, Food Products, Powder & Primers, Swimwear & Undergarments can not be returned.
10. If no instructions are included, return will automatically be credited.

LEUPOLD

Mark 5HD Riflescopes

Get behind one and you'll see the difference, from the superior edge-to-edge clarity and extreme low-light performance, to the versatility of the Combat Competition Hunter reticle. With three revolutions of elevation adjustment, the Mark 5HD was built to max out the performance of the latest long-range rifles and ammo. Ergonomically designed with more tactile, audible click adjustments, larger numbers, and a high-speed throw lever so you can put accurate fire downrange faster.

• 100% Waterproof and Fogproof • 2nd Generation Argon/Krypton Waterproofing
• 35mm Maintube • 5:1 Zoom Ratio • 6061-T6 Aircraft Quality Aluminum
• Dial Illumination Control • Dual Use • European Style Fast-Focus Eyepiece
• Front Focal Plane (FFP) • Generous Eyebox • M5C3 ZeroLock Adjustments • Throw Lever
• Twilight Max HD Light Management System • 1/10th MIL Click Adjustment
• Flip Open Lens Covers • Side Focus

Mark 3HD™ Riflescopes

Complete with MIL-based adjustments, HD performance, an exposed elevation adjustment dial, and a low-profile power selector ring, this series of riflescopes is perfect for anyone who needs a rugged, precise, and repeatable MIL-based scope. The illuminated FireDot® reticle with seven settings gets you on target fast, even in harsh daylight. And like all Leupold riflescopes, it's designed, machined, and assembled in the USA and guaranteed for life.

Integral Mounting System (IMS™)

Designed specifically for tactical use, Leupold's IMS™ system is available in Mark 1, Mark 2, Mark 4 and Mark 8 configurations, and features a monolithic, cantilever design that is strong and durable under the most intense conditions. The integral base/ring (formed from one piece of bar stock) affixes securely to the Picatinny rail of most AR and other tactical rifles. The one-piece design provides for easier mounting as ring spacing is pre-set, and more accurate return-to-zero as you only need to mark one location on the rail.

Trophy®

It's a new breed that delivers an unbeatable combination of edge-to-edge clarity, best-in-class light transmission and affordability. With seven configurations and six reticle options, there's a Trophy to fit every hunting application. The shorter 1-piece tube stays out of your way while fully multi-coated optics provide a brighter, clearer image in any weather. And its Fast-Focus eyepiece and side parallax adjustment make dialing in your next trophy as easy as deciding which end of a backstrap to eat first.

Now featuring Bushnell's new No Questions Asked Lifetime Warranty.

SWAROVSKI OPTIK

X5 & X5(i) Riflescopes

The right estimate, a smart decision, and a clean shot. It doesn't matter whether you're shooting over long distances or honing your shooting skills, you always need to have the right equipment by your side. The X5(i) from SWAROVSKI OPTIK redefines accuracy. Its new spring retention system and turrets are part of the total package promoting accuracy and offering you across the entire adjustment range an accurate impact point adjustment of 1/4 or 1/8 MOA in terms of both elevation and windage (X5/X5i 5-25x56 P), even in the most extreme situations To help you hit close targets accurately, you can use the SUBZERO function to go below the sight-in distance. Thanks to its outstanding optical performance, this rifle scope is the ultimate expert at long-range shooting.

Z8i

As a riflescope designed to meet the highest requirements, the X5i from SWAROVSKI OPTIK offers maximum optical performance across the whole magnification range. Its large field of view facilitates rapid target acquisition over long distances. The high image quality and high-contrast reticle allow you to make out every detail, meaning that the X5i sets the benchmark in terms of optical quality.

dS Riflescope

The dS projects relevant information in the field of view in real time without any distraction, and automatically displays the correct aiming point. This includes taking into account all the key factors, such as distance, air pressure, temperature, and angle. No manual adjustment is required. The aiming point is calculated on the basis of the individual ballistic data for the firearm-ammunition combination. The data are input via the dS Configurator app and the calculated ballistic curve is transferred directly to the dS via Bluetooth.

• Objective lens dia.: 48-52mm • Exit pupil diameter: 9.6-2.1mm • Exit pupil distance: 95mm • Field of view (ft/100 yds): 21.9"-4.5" • Field of view: 4.2-0.84° • Light transmission: 83%

Z5 Riflescopes

SWAROVSKI OPTIK

- 5x zoom in a 1 inch rifle scope
- Large eye relief of 95mm for more safety
- High image quality thanks to completely innovative optics design
- Large field of view for faster target acquisition
- Practical reticles in the second image plane: The target is enlarged while the reticle remains the same size
- Microstructure grooves for high efficiency baffling prevent residual reflections inside the tube for crystal clear, high-contract images, even in intense light

Z5 3.5-18x44 P

The Sheep Hunter

When hunting in the mountains on rough terrain or when long-range shooting on plains, you can guarantee that the Z5 3.5-18x44 P (BT) will be your trusty companion. The outstanding features offered by this 1-inch rifle scope are crystal-clear optics, the reliable sturdy mechanical design, and lateral parallax correction.

SWAROVSKI OPTIK Introduces Its New-Generation Ballistic Program!

Owners of SWAROVSKI OPTIK rifle scopes can now use the innovative ballistics program to assist accurate impact at long range. Free of charge, user-friendly, straightforward and with an added expert function, the program opens up new possibilities in the accurate calculation of long-distance shots. It is the established long-range optics manufacturer's response to the increasing demand from hunters for accurate aiming points, especially over longer distances.

M7Xi IFS 2.9-20x50

- The short overall length of the scope creates more rail space for clip-on devices (e.g. thermal imaging or night vision devices) for superior operational capabilities in any combat situation.
- Precise windage/elevation adjustments.
- Low profile turrets.
- Extreme ruggedness and reliability achieved throug durable materials and reliable design.
- IFS - intelligent firing solution with individually customizable display in the field of view showing all required information in real time – once set you'll never lose sight of the target.
- Built in Ballistic Calculator and Sensor Suite determines the bullet point of impact in real time.
- Individual customizable display provides information about levelling and the current turret setting, allowing you to know the current exact shooting position in the field of view. Display and user interface can be customized to user needs.
- Bluetooth-connectivity for easy set-up on the smart phone. All information can be moved freely or deactivated if needed via smartphone app.

U.S. OPTICS

The Foundation Series®

The Foundation Series® is domestically manufactured and establishes a new standard for reliability, durability, and performance for which US Optics™ is renown.
The Foundation Series® line of optics incorporates and improves upon core components that U.S. Optics™ has developed, proven, and popularized since 1991. The Foundation Series® is machined from aircraft grade 6061-T6 aluminum, and features a low profile ER3K elevation knob with a zero stop, capped US#1 windage knob, adjustable integrated parallax and illumination knob, rapid adjustable 180° magnification throw, and customizable options to easily meet the needs of every end-user. Build your foundation with confidence; Build it with U.S. Optics™.

FDN 10X – 1.8-10x42mm

The FDN 10X 1.8-10X features a 42mm objective, 6061-T6 aluminum 34mm tube, low-profile ER3K elevation knob with a zero stop, ergonomic capped US#1 windage knob, integrated illumination and parallax knob, rapid adjustable 180° magnification throw, and customization options that will undoubtedly meet your needs.

KONUS®
Optical & Sport Systems

KonuShot Riflescopes

The Konushot riflescopes are designed as a great choice for shooters who are looking for an inexpensive yet dependable instrument, as well as they are supremely suited as "first scopes" for every beginner sportsman. The zoom models are ideal for marksmanship and hunting.

Power	Finish	Reticle	Item No.	Price
4x32mm w/Rings	Matte	30/30	C23KL7350	$37.49
3-9x32mm w/Rings	Matte	30/30	C23KL7351	$52.49
3-12x40	Matte	30/30	C23KL7235	$66.99

KonusPro Riflescopes

Introducing KonusPro: the first line of riflescopes dedicated to the sportsman with a tactical styled engraved (glass etched) reticle. This technology is typically reserved for military and tactical scopes because of their ruggedness and their ability to withstand extreme forces. The KonusPro riflescope reticles are actually etched on precision, multi-coated optical glass; thus eliminating the chance of breaking or misalignment. A full range of fixed and zoom magnifications are available with illuminated and non-illuminated reticles.

• 100% Waterproof Fogproof, Shockproof. • Fully multi-coated optics - Nitrogen purged.
• 1/8 M.O.A. finger adjustable windage + elevation adjustments.
• Heavy caliber recoil proof reticle. • Engraved (glass-etched) reticle.

Power	Finish	Reticle	Item No.	Price
4x32mm w/Rings	Matte	30/30	C23KL7262	$69.99

*Includes Sunshade

KonusPro-Plus Riflescope

These brand new models come with an array of spectacular assets, including a special engraved reticle with dual illumination (red and blue) that will be perfectly visible even in the most unfavorable light conditions or whenever it is necessary to instantly acquire a fast moving target. Fully multi-coated optics, one piece tube construction and newly designed turrets are other invaluable features that will greatly enhance you performance on the field. All the KonusPro-Plus models feature a dual illumination in red and blue with lateral switch

• Reticle placed in the second focal plane • New finger adjustable tactical turrets
• Waterproof fogproof, shockproof • Optical Coating: fully multi coated.
• Illuminated with 5 different intensities for each color.

Power	Finish	Reticle	Item No.	Price
6-24x50mm*	Matte	Illum. Fine Crosshair	C23KL7274	$179.49

Includes Sunshade c/o = Closeout

KonusPro-550 Riflescopes

This new series of riflescopes features the exclusive 550 reticle that Konus developed for ballistic purposes. This reticle gives you the ability of shoot with utmost precision out to 550 yards or 500 meters, thus effectively taking your game to the next level. It provides you with a system of reference lines and hash marks that literally lead your bullet to the target. The 3-9x40 model is available in two versions with or without illumination, while the 4-16x50 model comes complete with adjustable objective too.

• The lateral hash marks allow for compensation in case of strong crosswinds
• The upper aiming point is set at 50m/yds.
• For the 550 reticle to work with maximum precision, the magnification of the scope must be set to the correct power (9x on a 3-9x40mm and 16x on a 4-16x50mm)
• Waterproof • Fogproof • Shockproof • Multi-Coated

Power	Finish	Reticle	Item No.	Price
3-9x40mm	Matte	550 Ballistic	C23KL7275	$91.99
3-9x40mm	Matte	30/30	C23KL7276	$113.99
4-16x50mm	Matte	550 Ballistic	C23KL7277	$159.99

KonusPro-275 Riflescopes

The KonusPro-275 models help to remove the guesswork out of shooting, since their reticle is featuring several aiming points that are calibrated from 75 to 275 yards and coincide with the most popular black powder loads. Lateral hash marks have also been added to compensate for wind. These riflescopes consequentially provide an undeniable advantage in terms of improved accuracy and better performance.

• Finger adjustable turrets • Nitrogen purged, 100% waterproof • Shockproof
• Fogproof • Multi-coated optics • Ballistic 275 reticle

Power	Finish	Reticle	Item No.	Price
3-9x40mm	Matte	275 Ballistic	C23KL7278	$91.99
3-10x40mm	Matte	Illum. 275 Ballistic	C23KL7279	$139.49

KonusPro M-30 Riflescopes

The result of a multi-year development project, the technology of these KonusPro M30 riflescopes finally combines in a single unit the most advanced features, and the most professional specifications that the market has ever seen up to today. In particular their turrets are not only lockable with 1/10 Mil adjustments too, which is an ideal combination when paired with a mil-dot reticle. These models really stand out as the best and ultimate riflescope and will give every avid sportsman the chance to step on the field knowing that they can now successfully take even the most prohibitive shot.

• Engraved (glass-etched) Reticle • Waterproof, Fogproof, Shockproof
• Locking tactical turrets knob • Nitrogen filled
• Fully multi coated optics • Flip-up covers included
• 45° offset illuminator switch with 5 intensities for color
• Mid-sized parallax wheel (down to 10 yards) • Precision 1/10 Mil adjustments
• Reticle placed in the second focal plane • Built-in anti canting bubble system

F-30 Riflescopes

Combining the utmost precision of the first focal plane construction system with a never-before-seen affordability, these brand new riflescopes are truly ideal for performance-driven long distance, target and bench-rest shooters. Their modified Mil-Dot reticle is engraved and illuminated in two colors, while the windage and elevation adjustments are resettable to zero and incorporate a push/pull locking mechanism to avoid unwanted movement. They also come with 30mm tube, parallax wheel and anti-canting internal level bubble.

• 1st Focal Plane Scopes • Waterproof, Fogproof, Shockproof
• Locking Tactical Turrets Knobs • Nitrogen Filled • Fully Multi Coated Optics
• 45° Offset illuminator switch with 5 intensities for color
• Mid-Sized Parallax Wheel (down to 10 yards) • Precision 1/10 Mil Adjustments
• Reticle placed in the first focal plane • Built-in anti canting bubble system
• Includes: Flip-Up covers, sunshade, level bubble • Engraved (glass-etched) Reticle

Fullfield E1™ Riflescopes

This state-of-the-art reticle has cascading windage and elevation dots, so you can execute long-range shots out to 500 yards in still or windy conditions.
Superb optical glass is precision ground. The lenses are multi-coated for glare resistance and maximum efficiency in low-light hunting conditions.
Fullfield E1 6.5-20x50mm riflescope has a sleek profile. It features upgraded windage and elevation knobs. And the separated power ring and eyepiece accepts flip-up lens caps. The scope is housed in a 1-piece, stress-free tube. Its internal assembly is double spring-tensioned for shockproofing. The riflescope is resistant to a lifetime of field use, heavy recoil, and harsh vibration. It is protected by the Burris Forever Warranty™ .

Handgun Scopes

Handgun hunting is exciting and challenging and the right combination of handgun and scope will greatly increase your odds for success. No other scope manufacturer offers the selection and versatility to outfit any handgun, in any caliber, for any application. Burris handgun scopes withstand the recoil of the heaviest magnums. To combat the effects of recoil, we offer the only handgun scope with Posi-Lock so the point-of-aim stays put under any recoil condition or field abuse.

Veracity® Riflescopes

FOREVER WARRANTY · NO QUESTIONS ASKED

The series is designed to help you capture prairie predators, elusive elk, or dangerous game. Its 5-times zoom system provides a wide field of view and powerful ranging.
The front focal plane reticle design allows accurate computation of distances at any magnification. It also provides both trajectory and windage reference points. Accurate and repeatable quarter-MOA adjustments allow for fine-tuning. And side-adjustable parallax lets you instantly correct parallax while maintaining your shooting position.
Veracity riflescopes are backed by the Burris Forever Warranty

M.A.D. Modular Adjustment Dial System

FOREVER WARRANTY · NO QUESTIONS ASKED

The Modular Adjustment Dial (M.A.D.) System allows you to choose from competition- style exposed knobs or capped knobs on both windage and elevation adjustments in any combination you desire.
The complete windage and elevation turret adjustment system has been re-engineered to accept the M.A.D. System knobs.
Zero Click Stop function is standard in both knob styles. This new design also allows for custom knobs to be added to the riflescope to perfectly match the trajectory of your ammunition.

SIMMONS®

.22 MAG® Rimfire Scopes with Rings

- Fully-coated • Waterproof, fogproof, shockproof
- *TrueZero*™ Flex Erector System
- *QTA*™-Quick Target Acquisition eyepiece • *TrueZero*™ windage and elevation dials
- *SureGrip*™ rubber surfaces
- Superior quality optics
- America's Rimfire Scope: Built just like their big bore counterparts, the 22 Mag Series is America's preferred choice in a rimfire scope
- *Each 22 Mag scope listed below comes complete with a set of rimfire- style rings.*

Truplex

Power	Reticle	Finish	Eye Relief	Item No.	Price
3-9x32mm	Truplex	Silver	3.75"	C23SN511037	$62.99
3-9x32mm	Truplex	Matte	3.75"	C23SN511039	$62.99

ProTarget Rimfire

- Interchangeable 1/4 MOA, .17HMR and .22LR elevation turrets for most popular rimfire calibers
- Fully Multi-Coated lenses ensure the brightest image to squeeze the perfect shot
- Fixed and variable power options satisfy the need of any hunter up close or reaching out to touch 'em
- Weaver style rings included to ensure the perfect fit
- Waterproof, fogproof, and shockproof so all you need to worry about is the hunt

2-7x32mm	Truplex	Matte	C23SNSRF2732	$76.99

AETEC Riflescope

- Exclusive Aspherical Lens technology provides flat, distortion-free image
- Edge-to-edge clarity for the entire field of view
- Fully-multi coated optics for incredible brightness
- Target and capped turret options to fit every shooter's preference
- Generous eye relief ideal for shooters who wear glasses
- Truplex reticle available in illuminated and non-illuminated options
- Waterproof, fogproof and shockproof for the utmost in reliability and durability

Power	Reticle	Finish	Item No.	Price
2.8-10x44mm c/o	Truplex	Matte	C23SN5A281044	$193.86

8- Point® Riflescopes

All models come with fully coated optics for a brighter, higher-contrast image, and 1/4-MOA SureGrip™ audible-click windage and elevation adjustments for effortless adjustment. Select Simmons® models include many premium features – like our TrueZero™ windage and elevation adjustment system that stays locked tight to zero, through even the most strenuous conditions, and the QTA™ eyepiece for easy target acquisition.

- *Truplex Reticle • Fully-coated • Waterproof, fogproof, shockproof*
- *QTA™-Quick Target Acquisition eyepiece*
- *TrueZero™ windage and elevation dials • Superior quality optics*
- *SureGrip™ rubber surfaces*

Power	Reticle	Finish	Eye Relief	Item No.	Price

OPTiMA

Optima Air Riflescope

- Fixed parallax at 30 yards
- Mil-Dot Reticle
- Fully multi-coated optics for clear, bright images
- 1/4 MOA click adjustments
- Scope caps and 11mm dovetail mounts included
- One piece 1″ diameter tube
- Dry nitrogen filled
- Water, fog and shock resistant

Power	Reticle	Finish	Item No.	Price
4x32mm AO	Mil-Dot	Matte	C23EKHA90505	$52.49
3-9x40mm	Mil-Dot	Matte	C23EKHA90501	$45.49

Optima E-SFT Riflescope

- Integrated sunshade reduces glare
- Side-focus parallax setting for quick, precise adjustments
- Fully multi-coated optics for clear, bright images
- Illuminated mil-dot reticle with 11-position variable brightness settings
- 1/8 MOA click adjustments
- Large turrets are easy to manipulate, even when wearing gloves
- One-piece 30mm diameter tube • Dry nitrogen filled
- Water, fog, and shock resistant • 11mm dovetail mounts included

Power	Reticle	Finish	Item No.	Price
4-16x44mm	Illum. Mil-Dot	Matte	C23EKHA90507	$142.49
6-24x44mm	Illum. Mil-Dot	Matte	C23EKHA90508	$147.99
8-32x50mm	Illum. Mil-Dot	Matte	C23EKHA90509	$153.49

ProTarget Riflescopes

- Exposed Mil turrets for quick, in-field adjustments
- Mil-Dot reticle provides simple windage, elevation holdover
- 30mm rings included for easy, out-of-box setup (medium rings for 40mm objective; high rings for 44mm objective) • Flip-up scope caps included for superior lens protection
- Side focus ensures perfect focus at variable magnifications (4-16x and 6-24x only)
- Fully-coated lenses for ultra-clear, ultra-bright images
- Waterproof, fogproof and shockproof for the utmost in reliability and durability

Power	Reticle	Finish	Item No.	Price
2.5-10x40mm w/ Rings	Mil-Dot	Matte	C23SNSIM251040	$124.99
4-16x40mm w/ Rings	Mil-Dot	Matte	C23SNSIM41640	$134.99
6-24x44mm w/ Rings	Mil-Dot	Matte	C23SNSIM62444	$154.99

Optima First Focal Riflescope

- First Focal Plane – zooms reticle with image for more accurate range estimation
- Illuminated Mil-Dot Reticle
- Easy to adjust side focus objective eliminates parallax error
- Fully multi-coated optics for clear, bright images
- 1/8 MOA click adjustments
- Scope caps and dovetail mounts included
- One piece 30mm diameter tube • Dry nitrogen filled
- Water, fog and shock resistant • 11mm dovetail mounts included

Power	Reticle	Finish	Item No.	Price
4-16x50mm - FFP	Illum. Mil-Dot	Matte	C23EKHA90510	$209.99

SWAMPFOX

Arrowhead LPVO Series

- Second Focal Plane construction provides a consistent reticle size at all magnifications
- Included Throw Lever
- Locking Windage & Elevation Turrets: Arrowhead features push-pull locking turrets that require no tools and can be quickly used out in the field. Push the turrets towards the scope body to lock them in place. Pull them away from the scope body to adjust • Dual LED emitters
- Arrowhead's advanced optical engineering results in a wider field of view and superior overall brightness, without sacrificing eye relief or eye box characteristics, even at full magnification

Power	Tube	Reticle	Click Value	Finish	Item No.	Price
1-6x24mm	30mm	BDC - Red	1/2 MOA	Matte	C22IQARH16241B	$375.00
1-8x24mm	30mm	BDC - Red	1/2 MOA	Matte	C22IQARH18241B	$415.00
1-10x24mm	30mm	BDC - Red	1/2 MOA	Matte	C22IQARH11024B	$470.00
1-10x24mm	30mm	BDC - Green	1/2 MOA	Matte	C22IQARH11024GB	$470.00

Tomahawk LPVO Series

- The larger reticle vs. the target size at lower magnifications afforded by the SFP is ideal for 3-Gun competition or tactical shooting, allowing you to find and hit those short range targets faster.
- Both the BDC and MOA illuminated etched reticles are designed to instantly acquire your target at short and medium range from a preset 50/200 yard battle sight zero

Power	Tube	Reticle	Click Value	Finish	Item No.	Price
1-4x24mm	30mm	Guerrilla Dot BDC	1/2 MOA	Matte	C22IQATK14241B	$239.00
1-6x24mm	30mm	Guerrilla Dot BDC	1/2 MOA	Matte	C22IQATK16241B	$279.00
1-8x24mm	30mm	Guerrilla Dot BDC	1/2 MOA	Matte	C22IQATK18241B	$325.00

Kentucky Long Series

Kentucky Long precision riflescopes boast excellent edge-to-edge clarity, first focal plane construction, glass etched illuminated reticles, and a monster 6x zoom ratio. Turrets are locking and zero re-settable. Sharpshooter MOA reticles are available in all magnifications, using 0.25 MOA-per-click turret adjustments. RECCE MIL reticles are available in 2-12x44 and 3-18x50 magnifications. All Kentucky Longs include high quality flip caps, 3" sun shade, and both low- and high-profile throw fins.

Power	Tube	Reticle	Click Value	Finish	Item No.	Price
4-24x50mm	30mm	Sharpshooter MOA	1/2 MOA	Matte	C22IQKTK424504L	$485.00
5-30x56mm	30mm	Sharpshooter MOA	1/2 MOA	Matte	C22IQKTK530564L	$510.00

Patriot Precision Series

The Patriot precision rifle scope is 100% battery free and delivers the performance your rifle deserves. The optimized internal design maximizes eye box, a clear sight picture from edge to edge, even at high magnification. Use the included low- or high-profile throw fins to make instant magnification changes.

Power	Tube	Reticle	Click Value	Finish	Item No.	Price
4-16x44mm	30mm	Grid Reticle MIL	1/2 MOA	Matte	C22IQPAT41644L	$315.00
6-24x50mm	30mm	Grid Reticle MIL	1/2 MOA	Matte	C22IQPAT62450L	$365.00

Warhawk Precision Series

The Warhawk is Swampfox Optics' latest high magnification precision rifle scope series, featuring crystal clear glass, tough construction, and intelligent FFP Sharpshooter reticles. Standout features include a 34mm main tube, superior field of view, and night vision compatible reticle illumination.

Power	Tube	Reticle	Click Value	Finish	Item No.	Price

5-25x56mm	30mm	Sharpshooter MOA	1/2 MOA	Matte	C22IQTWK525563L	$589.00

EOTECH

VUDU™

1-6x24mm Precision Riflescope

Vudu 1-6x is compact, yet fully loaded. Crafted with the 3-gun and serious hunter in mind, this is an optic that feels as much at home on the AR platform as it does on your favorite bolt-action rifle. The EOTech Speed Ring reticle allows for fast target engagement at low power, but at higher power provides the resolution and accuracy required to tackle longer shots. The Vudu 1-6x is the perfect solution for short to medium range applications that require the highest level of durability and accuracy.

- *Exposed Optical Surface Treatment Lens Coating - Broadband anti-reflection coating*
- *Windage and Elevation Increment Per Click - SR2, SR3 Models: Approx. 0.5 MOA / SR1 Model: Approx. 0.2 MRAD*
- *Total Elevation Adjustment Range About Factory-Defined Zero Reference - ± 14.5 min MRAD or ± 50 MOA*
- *Total Windage Adjustment Range About Factory-Defined Zero Reference - ± 14.5 min MRAD or ± 50 MOA • Battery Type - CR2032*
- *Auto Power Shut-Off, Typical Time Interval at Which Power Will Shut Down to Preserve Battery Life - Approx. 2 hrs Battery Life, Typical Time of Use at Middle Brightness Setting at Room Temperature - Approx. 500 hrs*

1-6x24mm FFP	SR3 - Green	C23YZVDU16FFSR3G	$1329.00

1-8x24mm Precision Riflescope

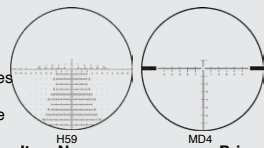
Boost your speed advantage up close and add next-level surgical precision at distance. The new 1-8x24 Second Focal Plane riflescope will deliver magnification governed by a throw lever and featuring a daylight-visible illuminated Triplex BDC reticle. Bright, ultra-clear HD glass with fully multi-coated lenses optimize target acquisition, all locked in a virtually indestructible single-piece T6 aircraft-aluminium tube. Controlled by smooth, exacting, low-profile turrets. So you can dial in your finest performance at any range.

- *Magnification: 1-8x • Objective Lens: 24mm • Focal Plane: Second Focal Plane*
- *Battery Type: CR2032 • Auto Power-Down to Sleep Mode • Approx. 2 hrs*
- *Battery Life, Typical Time of Use at Room Temperature*
- *Approx. 500 hrs at middle brightness setting 5* • Tube Diameter: 30mm 1-Piece Tube*

Model	Reticle	Item No.	Price
1-8x24mm FFP	HC3	C23YZVDU18SFHC3	$1339.00
1-8x24mm FFP	HC3- Green	C23YZVDU18SFHC3G	$1339.00

1-10x28mm Precision Riflescope

EOTECH's Vudu 1-10x28 offers a robust 34mm, one-piece aircraft aluminum tube and single-piece eyepiece that includes a removable throw-lever for fast changes in magnification. The low profile elevation turret includes a push/pull locking system and a capped windage turret for a secure zero. The illuminated, glass-etched reticle and first focal plane design allows for distance estimation at any magnification and lighting condition.



- *Magnification: 1-10x • Objective Lens: 28mm • Focal Plane: Front Focal Plane*
- *Battery Type: CR2032 • Auto Power-Down to Sleep Mode • Approx. 2 hrs*
- *Battery Life, Typical Time of Use at Room Temperature*
- *Approx. 500 hrs at middle brightness setting 5**
- *Tube Diameter: 30mm 1-Piece Tube*

1-10x28mm FFP	SR5 - MOA	C23YZVDU110FFSR5	$1749.00

5-25x50mm FFP Precision Riflescope

The New Vudu 5-25 x 50 mm is ideal for the short platform rifles. At approximately 11.2 inches in length, the 5-25x is one of the shortest first focal plane rifle scopes on the market. The elevation turret includes a push/pull locking system and EOTECH's EZ Chek Zero Stop allowing for quick adjustments and return to zero. One unique advantage of the short design is that it provides the ability to attach either a clip-on night-vision or thermal device in front of the scope and still allow the user to make adjustments to the device without leaving the scope.

Model	Reticle	Item No.	Price
5-25x50mm FFP	H59 - MRAD	C23YZVDU525FFH59	$2259.00

BSA®

Tactical Weapon™ Scope

The Tactical Weapon Series scopes are engineered specifically for use with tactical style firearms. Select Tactical Weapon models offer one-piece weaver mounts, AR handle mounts, or AR & SKS mounts and rings.

• Fully multi-coated optics • 4X magnification
• 30mm objective lens
• 100 yard parallax setting • Mil-dot reticle
• Includes: 2 piece weaver style ring mounts, AR style carry handle mount, SKS mount, Micro Fiber Lens Cloth

4x30 Mil-Dot Reticle Matte *w/ AR & SKS Mount* ..... C230STW4X30 ..... $60.49

Sweet 6.5™ AO Series

The BSA® Sweet 6.5 AO Riflescope is specifically designed for the 6.5 Creedmoor cartridge. Complete with three ballistically calibrated turrets for 120-, 129- and 140-grain cartridges, the Sweet 6.5 AO also features an adjustable objective, fully coated lenses, 30/30 reticle and two-piece weaver rings. Matte black finish. Waterproof, shockproof and fogproof.

Trijicon®

ACOG® (Advanced Combat Optical Gunsight)

The Trijicon ACOG (Advanced Combat Optical Gunsight) is a fixed power, compact riflescope with an illuminated reticle pattern for use in bright to low/no light. The ACOG is designed to be extremely durable and reliable. Combining traditional, precise distance marksmanship with CQB speed, many variants include a bullet drop compensated (BDC) reticle. Every feature of its design was chosen for a single purpose: to provide increased hit potential in all lighting conditions.

Power	Reticle	Mount	Item No.	Price

DI = Dual Illuminated / SSRH = Short Special Ring Housing

VCOG™ (Variable Combat Optical Gunsight)

The Trijicon VCOG (Variable Combat Optical Gunsight) is a rugged variable powered riflescope with an LED illuminated first focal plane BDC reticle. The VCOG is designed for extreme durability and features superior glass quality. The magnification range accommodates CQB and long distance marksmanship. The VCOG is a MIL-spec grade optic, robust enough for any application.

Features: *• First Focal Plane Reticle • Superior Quality Glass • Waterproof to 20 Meters (66 ft.) • Rugged Aluminum-Alloy Housing • Adjustable Brightness Settings • Bullet Drop Compensation & Ranging Reticle • Constant Eye Relief • No Rings Needed*

Trijicon

TRMROC2300018

TRMROC2300017

MRO® Patrol
2.0 MOA Adjustable Red Dot

The Trijicon Miniature Rifle Optic (MRO®) is a reflex-style, sealed sight intended for use on rifles, carbines, and shotguns to provide fast target acquisition. It is designed to be used with both eyes open, providing the operator with maximum situational awareness. The large aperture and tapered light path maximizes the viewing area in such a small optic, allowing for fast target engagement – especially from non-standard shooting positions. Advanced lens coatings and electronics produce a crisp red dot. The brightness control dial on the MRO is specifically designed for ambidextrous usage. With a mid-adjustment "off" position and eight discernible brightness settings, this brightness dial allows for quick and ergonomic adjustments.
Hard-anodized, forged 7075-T6 housing is fully sealed and waterproof, providing durability in demanding conditions. The MRO Patrol includes an Ocular Lens Cover to protect glass from damage and to reduce glare and reflections as well as an Objective cover and ARD.

• *Includes: (1) Ocular Cap, (1) Objective Cap, (1) ARD, (1) Trijicon Logo Sticker (PR15)*
(1) Lens Cloth, (1) Manual, (1) Warranty Card, (1) MRO Mount Guide

Trijicon RMR®
(Ruggedized Miniature Reflex)

The Trijicon RMR (Ruggedized Miniature Reflex) sight is the most rugged miniature red dot sight available. It is made from 7075-T6 aluminum to MIL-spec standards and has a patented shape that absorbs impacts and diverts stresses away from the lens, increasing durability. Available in LED, Adjustable LED, or Dual Illuminated versions, and with dot sizes ranging from 1 MOA to 13 MOA you are sure to find what fits your needs. The RMR is a versatile sight that illuminates in any lighting condition.

Features:
• *Unique Patented Housing Shape • Easy Adjustable Windage / Elevation*
• *True-Color Multi-Coated Lenses • Parallax-Free • Waterproof to 20 Meters (66 ft.)*

Model	Reticle	Mount	Item No.	Price

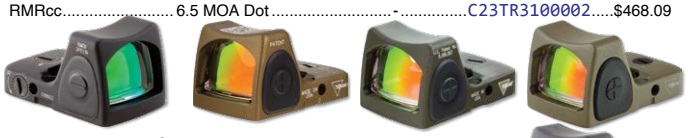
RM05	DI 9.0 MOA Amber Dot	-	C23TRRM05	$403.49

DI = Dual Illuminated



Trijicon RMR®cc

Split seconds matter.
The new Trijicon RMR®cc as a thinner, lower-profile design that reduces the risk of snags for a faster and easier draw.
Although smaller, the RMRcc keeps all the great features of the Trijicon RMR®. Easy-to-use buttons, a common 2032 battery with up to 4 years of illumination, and a wide variety of mounts to fit today's popular concealed carry pistols, the RMRcc is the clear choice in personal defense.

• *Designed for concealed carry • True-color, Multi-coated lens • Upgraded Electronics • Button "Lock-In" Mode • Button "Lock-Out" Mode • 8 Brightness settings*

Model	Reticle	Mount	Item No.	Price
RMRcc	3.25 MOA Dot	-	C23TR3100001	$468.09
RMRcc	6.5 MOA Dot	-	C23TR3100002	$468.09

Trijicon RMR® Type 2
(Ruggedized Miniature Reflex)

The redesigned and upgraded electronics in the new RMR Type 2 passed extensive endurance testing, providing optimal performance when mounted on a pistol slide and/or other small arms platforms. Included in the new RMR Type 2 is a button lock mode, and battery saving features, which make this optic ideal for concealed carry and Law Enforcement use. The Trijicon RMR is extremely versatile as a primary optic on handguns, rifles, carbines and shotguns. When paired with a magnified optic, the RMR is an excellent solution as a secondary CQB optic, and as a backup sight.

• *Adjustable LED RMR • Button Lockout • Battery conservation mode*
Unique Patented Housing Shape • Easy Adjustable Windage / Elevation
• *True-Color Multi-Coated Lenses • Parallax-Free • Waterproof to 20 Meters (66 ft.)*

LEUPOLD

DeltaPoint Micro

The DeltaPoint Micro is fast on target, extremely accurate, and built Leupold® tough. But it's the low-profile, concealable design that really makes it stand out from the competition. Mounted at the same height as factory iron sights, the DeltaPoint Micro aligns the red dot with the front sight, making target acquisition fast and intuitive and improving your accuracy, all while maintaining a compact profile.

• Windage & Elevation Adjustment: Microfriction
• Professional-Grade Red Dot Optical System
• Nightvision Compatible • Elevation Range: 100 (MOA) / 29 (MIL)
• Windage Range: 180 (MOA) / 52 (MIL) • Unlimited Eye Relief
• 100,000 hr Battery Life • 8 Illumination Settings

DeltaPoint Pro Reflex Sight

The lightweight aluminum housing is shrouded by spring steel for the ultimate in ruggedness while the aspheric lens generates a wide field-of-view with some of the best image quality ever seen in a reflex sight. Leupold's patented Motion Sensor Technology™ discerns any movement of the sight and automatically activates the illumination which is inset into a light tunnel to reduce the light signature in tactical situations.

• DiamondCoat • Dual Use: long-range hunting & varminting
• MST (Motion Sensor Technology) • Aspheric Lens Technology • Auto-Brightness Sensor
• Extended Battery Life • Locking Adjustment System • 100% Waterproof & Fogproof
• Removable, adjustable rear sight • Lightweight aluminum housing
• Shrouded in rugged spring steel • DeltaPoint Mounting Solutions. • Weight: 1.95 oz.
• Elevation Adjustment Range: 50.00 MOA • Windage Adjustment Range: 50.00 MOA

VMX-3T Magnifier

Simple, fast, effective—
the VMX-3T Magnifier will work with any of our red dots but it is not recommended for use with the prism scopes. The push-button design of the VMX-3T engages and disengages the flip-mount, allowing the magnifier to lock in place. The result, 3x magnified or unmagnified views at will. Optics are fully multi-coated for optimal light transmission. Lightweight and tough; hard-coat-anodized machined-aluminum construction ensures durability. Internally nitrogen purged for reliable waterproof/fogproof performance.

Burris FIND WHAT MATTERS

FastFire™

FastFire™ Red-Dot Reflex Sight

Fast Fire weighs in at just 2 ounces, fully mounted, and with its all-metal housing construction and advanced circuitry, the Fast Fire sight is extremely robust, shrugging off recoil forces up to 1000 G's. Installation on most rifles, carbines, and some handguns require the included Picatinny/ Weaver Mounting Plate. Most other handguns require a different Mounting Plate.

Model	Reticle	Finish/ Feature	Item No.	Price
FastFire III	3 MOA Dot	Matte w/ Picatinny Mount	C23BU300234	$229.99
FastFire III	8 MOA Dot	Matte w/ Picatinny Mount	C23BU300236	$229.99

FastFire™ Mounts

These mounts allow any generation FastFire™Series red dot sight to be securely mounted on a specific firearm.
Options are available for mounting to handguns, rifles, and shotguns, which each have different mounting requirements.
• AR-F3 Mount, for quick mounting to any AR.
• Scope Tube FastFire Mounts, for mounting to primary optic

Firearm Model	Item No.	Price
Beretta 92/96/90 - TWO/Taurus PT99	C23BU410324	$48.99
Glock® (All models) & Beretta® PX4 Storm	C23BU410319	$48.99

AR-F⁴ Flatop FastFire Mount

• 3 MOA Dot • Matte Finish • Mount Included
AR-F⁴ Flattop FastFire Mount ..... C23BU410347 ..... $95.49

AR-F³ Flatop FastFire Sight

For AR and carbine shooters, Burris offers a complete package with the AR-F³ Flattop FastFire Sight.
This bundles a FastFire III with 3 MOA dot and rugged protective mount that's range-ready right out of the box.
It's the simplest and most effective way to mount the FastFire III on an AR flattop as a stand-alone sight or as a co-witness for your iron sights. The FastFire sits low in the mount and a pair of metal wings on each side of the lenses protects the sight from impact or unintentional abuse.
For added convenience, there is a lower compartment for spare battery storage, open-end wrench and Torx® wrench.
Fits any Weaver or Picatinny-style base.

Model	Reticle	Finish/ Feature	Item No.	Price
FastFire III	3 MOA Dot	Matte w/ Mount	C23BU300215	$299.99

AR-F³ Mount

The AR-F3 (Flattop FastFire Mount) is the simplest and most effective way to mount the FastFire II on an AR flattop stand alone or as a Co-witness for your iron sights.
The FastFire sits inside the mount for extra protection, and it also features a compartment for carrying a spare battery, open end wrench and TorxU wrench.
Fits any Weaver or Picatinny-style base.
AR-F³ Mount ..... C23BU410348 ..... $83.99

SPEEDBEAD™

SpeedBead System FastFire III

Apply the ease, speed, and accuracy of a red dot sighting system to your favorite shotgun with this unique mounting system. The SpeedBead mounts a FastFire™ optic between the stock and receiver of many popular shotguns. Your line of sight will fall naturally just above the vented rib, allowing for accurate and instinctive aiming. At 1x magnification, it's designed for both-eyes-open shooting. That's ideal for shooting clays and hunting waterfowl, upland birds, and turkeys.
• All part numbers use a FastFire 8-MOA Dot Reticle

Power	Fit	Item No.	Price
1x	Benelli Super Black II 12 Ga	C23BU300240	$299.99
1x	Benelli M2, Montefeltro, and Ultra Light	C23BU300241	$299.99
1x	Remington 870 12 Ga.	C23BU300245	$299.99
1x	Remington 1100 and 1187	C23BU300248	$299.99

RT-5™ 5x Prism Sight

Acquire close to mid-range targets quickly with the new Burris RT-5TM Prism Sight designed specifically for tactical and competition shooters. The one-piece aluminum body is compact, lightweight, and rugged. The 5X magnification Ballistic reticle provides fine aiming lines for elevation, windage, and holdover compensation for precise shot placement at a distance.
• *Compact and lightweight*
• *Fine aiming lines for elevation and windage adjustment, precise shot placement at distance.*
• *Proven broken circle design with center dot for ultra-fast engagement at short distances*
• *Center illumination is daylight bright and won't wash out in harsh light*
RT-5™ 5x Prism Sight ..... C23BU300263 ..... $469.99

AR-1X™ Prism Sight

Don't miss a thing with both eyes open shooting with the Burris AR-1X Prism Sight. The Ballistic CQ 1X reticle is made for ultra-fast shooting when the stakes are high.
A black reticle is etched onto the prism so the optic is usable even without battery power, and simple push-button activation allows for instant adjustment between green or red reticle settings. Easy-to-see reticle hash marks offer trajectory compensation out to 600 yards. One lithium AA battery will yield up to 5,000+ hours of service, while the compact design leaves room on your rail for a flip-out tripler.

FOV@100 yds	Reticle	Finish	Item No.	Price
75 ft	Ballistic CQ 1X	Matte	C23BU300214	$328.23

**Kit Includes: AR-1X optic, AR-Tripler™, and AR-Pivot Ring™, Quick Detach*

Picatinny Protector Mount

Use the Picatinny Protector mount for severe duty applications. The FastFire sits low in the mount and a pair of metal wings on each side of the lenses protects the sight from impact or unintentional abuse. Perfect for pistols, rifles or shotguns with Weaver and Picatinny-style bases.
Picatinny Protector Mount

SIG SAUER

ROMEO ZERO™ Reflex Sight

Designed for use on subcompact handguns like Sig Sauer's P365 and P365XL, the RomeoZero is a micro red dot sight that will take your shooting to a new level. It's ultra-compact WeaponsGrade™ polymer body is optimized for concealed carry with no sharp or catching edges. Sig Sauer's own SpectraCoat™ HD lens system and provides a clear dot and sight picture.

BRAVO3 Battle Sight

The BRAVO3 delivers an industry leading 40 percent wider field of view than current battle sights. The notably flat, distortion-free image boasts an unprecedented edge-to-edge clarity by means of a combination of Low Dispersion (LD) glass and aspherical lens design. Lightweight yet durable magnesium housing with integrated Picatinny top rail for additional accessories such as MRDs and lasers. Adjustable eyepiece with +/- 2 diopter correction. Dependable IPX-7 waterproof (to 400 mbar or 13 ft) and fog-proof performance. The BRAVO3 was engineered with the centerline of the optical axis at 1.535" above the top of an M1913 Picatinny rail interface for night vision compatibility.

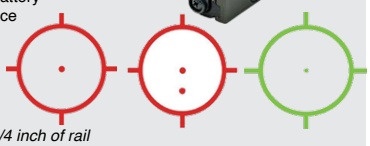
EOTECH®

HHS I™

Holographic Hybrid Sight I™

EXPS3-4 with a G33.STS Magnifier



For the infantryman, target ranges vary in ever-changing battlefield conditions. The HHS provides a solution for engaging threats in CQB situations, then quickly transitioning to a 500m targeting or surveillance situation, and then quickly back to a 25m room clearing exercise. Instant transition is achieved through a quick Switch-to Side (STS) mount that offers a simple, quick disconnect feature to remove the magnifier and base. This durable, night vision compatible system offers wide field optical performance with superior light transmission for visibility in extreme low light conditions. The EXPS3-4 is configured with a new ballistic matching reticle image for the M4 carbine. The battle tested circle/dot reticle will be offered along with a series of 1 MOA aiming dots that are vertically aligned and calibrated specifically for the ballistic drop of .223 caliber ammunition. The reticle provides 4 aiming dots for target distances of 0-300m, 400m, 500m, & 600m. The use of a magnifier is strongly recommended.

- *Aiming dots may not be distinguishable from each other without magnification.*
- *Single transverse 123 battery to reduce sight length*
- *Ballistic reticle specific to .223 caliber munitions*
- *Compatible with Gen I-III+ Night Vision Systems (tandem operation)*
- *Shortened base only requires at most 2 3/4 inch of rail space*
- *Battery cap and latch are eliminated and replaced with a simple O-ring, tethered cap; better sealing is achieved*
- *Average battery life at brightness level 12 is roughly 600 hours*
- *Side buttons, NV compatible with an adjustable, locking, quick detach lever for easy attachment and removal*

HHSI Sight & Magnifier ..... C23YZHHS1 ..... $No Match!

Model XPS

Shortest model sight yet! This sight is smaller than the former N-cell battery sight (511/551) and runs on a singl 123 battery. It also has a longer battery life than the N-cell style sights. Smaller,lighter and always fast with three reticle options. With the new single battery configuration, the XPS allows more rail space than ever, leaving more room for rear iron sights or NV Mount.

Features:

- *Single transverse 123 battery to reduce sight length*
- *Shortened base only requires at most 2-3/4 inch of rail space compared to the 4 inch N battery sights*
- *Battery cap and latch are eliminated and replaced with a simple O-ring, tethered cap; better sealing is achieved*
- *Battery compartment is now separated from the base to allow it to hover over the delta ring of the rifle*
- *Average battery life at brightness level 12 is roughly 500-600 hours, 3X battery life of N cell sights*
- *Three reticle options: 0- 68MOA circle with 1 MOA aiming dot, 1-single 1MOA aiming dot, 2-68MOA circle with two 1MOA aiming dots*
- *Optics: Transmission holography - parallax free • Magnification: 1x • Eye Relief: Unlimited*
- *Length/Width/Height: 3.8" x 2.1" x 2.5" • Weight: 9 oz (250 grams)*
- *Mount: Weaver or Picatinny (MIL-STD-1913) rail*
- *Field of View (100 yds): 30 yds (28m) at a 4\" eye relief*
- *Battery Life: 600 continuous hours at nominal setting 12*
- *Brightness Settings: 30 settings with scrolling feature (10 settings for NV use)*
- *Auto Battery Check Indicator: Flashing reticle upon start-up*
- *Auto Shut-down: At 8 hrs- programmable to 4 hrs*

EOTECH

Model 518 & Model 558 Holographic Weapon Sights

The 518 and 558 run on easy to find AA batteries but offers all of the features found in EOTech's EXPS top of the line sight. With side button functionality you can reduce rail space when partnering the 518 or 558 with an EOTech magnifier. The 518 and 558 are also compatible with the drop-in Laser Battery Caps that EOTech designed to enhance aiming through the use of visible and IR lasers. Quick-Detach mount is secure and is easy to remove.

- *The 518 has 20 daylight brightness settings*
- *The 558 is compatible with all Gen-I-III night vision and has 20 daylight and 10 NV settings*
- *Length/Width/Height: 5.6" x 2.2" x 2.9" (140 x 56 x 71 mm)*
- *Weight: 13.8oz (377 g) • Water Resistant: Submersible to 33 ft. depth*
- *Mount: 1" Weaver or MIL-STD-1913 rail*

Model	Reticle	Finish	Item No.	Price
518	A65	Matte Black	C23YZ518A65	$595.00
558	A65	Matte Black	C23YZ558A65	$699.00

Model 512

- Reticle: 68 MOA circle with 1 MOA aiming dot
- Includes rugged aluminum hood assembly and knobbed, tool-less mounting bolt
- Interfaces to 1" Picatinny (MIL-STD-1913) or Weaver rail
- Length/Width/Height: 5.6"x2"x2.5"
- Weight: 11.5oz • Submersible to 10ft depth
- Non reflective black with hard coat finish
- Return to Zero: repeatable to 1 MOA after re-mounting • No Night Vision Compatibility
- 2x 1.5V AA batteries (supports lithium, alkaline, or rechargeable
- 1,000 continuous hours (lithium) at nominal setting12; 600 continuous with AA alkaline

512 Tactical HWS ..... C23YZ512A651 ..... $499.00

Model 552™ Military / Tactical

Standardized by the DEA, ATF, and FBI HRT, the Model 552 offers night vision-compatibility. The AA battery model is the sight of choice by military units like Stryker Brigade, 10th Mountain and 3rd Infantry. It is battle-proven to withstand the abuse that any harsh environment, high-powered weapon platform or military mission can dish out.

- *Length/Width/Height: 5.6"x2"x2.5" • Weight: 11.5 oz.*
- *Submersible to 33 ft depth • Mount: (MIL-STD-1913) rail*
- *2x 1.5V AA batteries (supports lithium, alkaline, or rechargeable)*
- *Reticle: 68 MOA Circle with quadrant ticks with 1 MOA aiming dot*
- *Night Vision Compatible. Standardized by the DEA, ATF, and FBI SWAT, the Model 552 is by far the most popular HWS model.*

552 Military/Tactical HWS ..... C23YZ552A651 ..... $629.00

HHS VI™

Regardless of the scenario, the Holographic Hybrid Sight VI (HHS VI), featuring an EXPS3-2 with a G43 magnifier can provide accurate shooting at any distance. The night-vision compatible EXPS and compact G43 3X magnifier require very little rail space but provide significant shooting advantages.

HHS VI™ ..... C23YZHHSVI $1239.00

G33 Magnifier w/STS Mount

The new G33 magnifier is shorter and lighter than the G23. It offers a new and improved mount providing faster transition from 3x to 1x, tool free azimuth adjustment, larger field of view and an adjustable diopter for improved, more precise focusing. It offers more eye relief with windage and elevation adjustments that can be manipulated by hand, without any tools. The new slap to side mount (STS) is incredibly durable and operates with the slap of your hand, knocking the mount to the side. Comes with a 7mm riser to accommodate the 7mm raised sights.

G33.STS Magnifier w/STS Mount, Black..... C23YZG33STS $599.00

G43 Magnifier w/STS Mount

New for 2020 this is a miniaturized version of our battle-tested G33 Magnifier making it one of the most compact and lightweight magnifiers available. The mount provides fast transitioning from 3X to 1X and the optic offers tool-free vertical and horizontal adjustments with a large field-of-view. The G43 works with all EOTECH HWS models.

G43.STS Magnifier w/STS Mount, Black..... C23YZG43STS $619.00

G45 Magnifier w/STS Mount

5 Power Magnifier

G45.STS Magnifier w/STS Mount, Black..... C23YZG45STS $659.00

EFLX™ Mini Reflex Sight

Designed for pistol use, the EFLX base is configured to the Leupold® Delta Point Pro™ footprint and will adapt to appropriately milled slides or onto a rear dovetail mounting adapter. The EFLX is also ideal as a 1X solution on rifles with magnified optics. Its durable, heavy duty aluminum housing provides a large, square viewing window, similar in shape to EOTECH's HWS, that makes the 3 or 6 MOA aiming dot easy and quick to find.

A top load, single 2032 battery provides roughly 20,000* hours of run time.

• Dimensions: 1.9"L X 1.2"W x 1"H • Weight: 1.4 oz. • Water Resistant: 33" • Mount: Leupold Delta Point Pro • 1 MOA Windage & Elevation Adjustment • Brightness Settings: 7 Daytime, 1 Ultra-Bright, & 1 for Gen I – III+ night vision devices • CR2032 Battery

EFLX™ – 3 MOA Dot (25,000hr Battery) ..... C23YZEFLX3RWBLK $369.00

EFLX™ – 6 MOA Dot (20,000hr Battery) ..... C23YZEFLX6RWBLK $369.00

Extreme EXPS3

Offering true 2 eyes open shooting, a transversely mounted lithium CR123 battery, and 7 mm raised base offering iron sight access, the new Extreme-XPS (EXPS) features easy to adjust side buttons and an adjustable, locking, quick detach lever for easy attachment and removal.

- *Single transverse CR123 battery to reduce sight length*
- *Shortened base only requires at most 2 3/4 inch of rail space compared to the 4 inch N battery sights*
- *Battery cap and latch are eliminated and replaced with a simple O-ring, tethered cap; better sealing is achieved*
- *Battery compartment is now separated from the base to allow it to hover over the delta ring of the rifle*
- *Average battery life at brightness level 12 is roughly 500-600 hours, 3X battery life of N cell sights*
- *Two reticle options: 0- 68MOA circle with 1 MOA aiming dot, 2-68MOA circle with two 1MOA aimingdots*
- *Side buttons, NV compatible with a single quick detach throw lever*

EXPS3, 68 MOA Ring with Single 1 MOA Dot, Black ..... C23YZEXPS30 ..... $749.00

EXPS2™

- Length/Width/Height: 3.8"x2.3"x2.9"
- Weight: 11.2 oz
- Mount: 1" Weaver or (MIL-STD- 1913) rail
- Night Vision Compatibility: None
- Power Source: (1) CR123 lithium battery
- Battery Life: approx. 600 hours
- Reticle is a 68MOA circle with 1 MOA aiming dot
- Single transverse CR123 battery to reduce sight length
- Shortened base only requires at most 2 3/4 inch of rail space
- Battery cap and latch are eliminated and replaced with a simple O-ring, tethered cap; better sealing is achieved
- Battery compartment is now separated from the base to allow it to hover over the delta ring of the rifle
- Average battery life at brightness level 12 is roughly 600 hours
- Side buttons with an adjustable, locking, quick detach lever for easy attachment & removal

EXPS2 - **Red Dot** ..... C23YZEXPS20 ..... $645.00

EXPS2 - **Green Dot** ..... C23YZEXPS20GRN $749.00

Model 300™ Blackout

The XPS2-300 offers a 2-dot ballistic drop reticle that allows the shooter to zero either subsonic or supersonic rounds in the same reticle pattern. Offered in the XPS2 platform, it is the shortest and lightest HWS sight available. Featuring a .300 Blackout custom laser etched hood and waterproof capability up to 10ft, functionality and durability are at the forefront.

- *Reticle: 68 MOA Ring with (2) 1 MOA aiming dots*
- *Mounts to a Weaver or MIL-STD1913 rail*
- *Repeatable to within 1 MOA when remounting*
- *Runs 600 continuous hours at setting 12 on (1) CR123 lithium battery*
- *Waterproof: Submersible to 10ft (3m) depth*

Model 300™ Blackout ..... C23YZXPS2300 ..... $609.00

SWAMPFOX

Kraken Closed Emitter Sight

From the depths of the swamp, the Kraken has emerged to redefine expectations of optics-ready shooting. This heavy-duty closed emitter Shake N Wake 1-16x dot sight comes in both red and green dot options. With its double barrel waterproof 7075 aluminum housing, it is built to take a beating and keep on ticking. This bad boy does not sacrifice precision for durability. The ultra-crisp day light bright dot has 10 settings, including two for Night Vision, and is adjustable with 0.5mm MOA clicks on its flush, embedded turrets.

• Battery Life: 2yrs (Shake Awake) • Illumination Positions: 10 settings • Finish: Black • Power Supply: (1) CR 2032 Lithium Battery • Reticle: Red Dot • Weight: 2.5 oz

Kraken Closed Emitter Sight ..... C23IQKRK001163R $298.00

SWAMPFOX

Blade Prism Sight

Swampfox Blade Prism Sight is the mission-driven, wide angle 1x prism scope dedicated for home defense and law enforcement. It sports handy Auto-On Shake N' Wake technology. Blade's revolutionary Bullet Rise Compensating reticle compensates for optic height over bore at just 5, 10, and 15 yards when mounted on an AR-15. Blade is an excellent choice for shooters with astigmatism who have issues with dot sights.

• Battery Life: 3000 hours • Brightness Settings: 12 settings • Click Value: 1/2 MOA • Finish: Black • Night Vision Compatible: Yes • Power Supply: CR-123A Battery • Reticle: Red IR BRC • Sight Type: Prism Sight • Weight: 13.1 oz

Blade Prism Sight ..... C23IQBPS00125R $205.00

Trihawk Prism Sight

Swampfox Optics Trihawk is the 3x prism scope featuring a super wide, true ten-degree field of view. Looking through Trihawk, you'll see a 52ft field of view from edge to edge at 100 yards. Yet Trihawk still offers greater eye relief than comparable prism scopes from other brands. Trihawk's Trident reticle is great for fast acquisition up close while also providing capability for medium range engagements using either a 5.56/.308 BDC or MOA ladder

• Battery Life: 3000 hours • Brightness Settings: 12 settings • Click Value: 1/2 MOA • Finish: Black • Night Vision Compatible: Yes • Power Supply: CR-123A Battery • Reticle: Red IR MOA • Sight Type: Prism Sight • Weight: 15.4 oz

Trihawk Prism Sight ..... C23IQTPS00330RM $245.00

Justice Reflex Sight

Narrower and shorter than their previous Kingslayer series, Justice is made from tough 7075 aluminum, has a large 1x27mm window size and is packed with advanced features that make every day use worry free. Greatly improved battery life, Shake 'N Wake motion sensing illumination, scratch-resistant hardcoat finish-- Justice checks every box. Fits RMR Footprint.

• Battery Life: 4500 hours • Brightness Settings: 10 settings • Finish: Black • Power Supply: (1) CR 1632 Lithium Battery • Reticle: Red Dot • Weight: 1 oz

Justice Reflex Sight ..... C23IQJTC001273 ..... $205.00

Liberty Reflex Sight

Swampfox Optics Liberty is the all new open reflex red dot sight intended for every day carry and law enforcement duty use on pistols, carbines, and shotguns. Narrower and shorter than our previous Kingslayer series, Liberty is made from tough 7075 aluminum, has a 1x22mm window size and is packed with advanced features that make every day use worry free. Greatly improved battery life, Shake 'N Wake motion sensing illumination, scratch-resistant hardcoat finish-- Liberty checks every box. Fits RMR Footprint.

• Battery Life: 4500 hours • Brightness Settings: 10 settings • Finish: Black • Power Supply: (1) CR 1632 Lithium Battery • Reticle: Red Dot • Weight: 1 oz

Liberty Reflex Sight ..... C23IQLBT001223 ..... $195.00

Kingslayer Reflex Sight

For pistol slide platforms, remove the included 1913 Picatinny mount and use the RMR-compatible footprint underneath. With the Picatinny mount installed, Kingslayer works great on rifle and shotgun applications. Kingslayer is waterproof, fog resistant and features a scratch resistant, anti-glare lens multicoating. Built like a tank, Kingslayer will maintain its zero on reciprocating pistol slides, 12 gauge shotguns and even .308 battle rifles.

• Battery Life: 1500 hours • Brightness Settings: 10 settings • Finish: Black • Power Supply: (1) CR 1632 Lithium Battery • Reticle: Red Dot • Weight: 1.3 oz

Kingslayer Micro Reflex Sight – Green Dot .. C23IQOKS00122GC $160.00
Kingslayer Reflex Sight – Red Dot ..... C23IQOKS001222 ..... $160.00
Kingslayer Reflex Sight – Red Circle Dot ..... C23IQOKS00122RC $160.00

Sentinel Micro Red Dot

A photosensitive sensor on the left side of the scope body provides a bright dot relative to ambient light in all conditions, day or night. There are no manual controls at all, no Shake 'N Wake - no way for Sentinel-A to be accidentally shut off, ever. Install the CR2032 battery underneath Sentinel-A and you're good to go for two years straight. Sentinel will fit Glock 43X and Glock 48 MOS, Sig P365XL, Springfield Hellcat OSP, Canik Elite SC, S&W Shield 2.0 Optics Ready, Walther PPS M2 Optics Ready.

• Battery Life: 2 yrs • Brightness Settings: 10 settings • Finish: Black • Power Supply: CR 2032 • Reticle: Red Dot • Weight: .62 oz

Sentinel Micro Red Dot ..... C23IQSNL00116RD $210.00

Liberator Mini Red Dot

Lightweight but tough, it is waterproof, fog resistant and features hydrophobic and anti-scratch lens multi-coatings. Use the included absolute co-witness mount for AR-15s or use the included low mount for AKs or shotguns. The scope body is compatible with industry standard T1 mounts

• Battery Life: 3000 hours • Brightness Settings: 10 settings • Click Value: 1 MOA • Finish: Black • Power Supply: CR 2032 • Reticle: Red Circle Dot • Sight Type: Red Dot • Weight: 3.49 oz

Liberator Mini Circle Dot Sight ..... C23IQRDLR122RC $110.00
Liberator Mini Red Dot Sight ..... C23IQRDLR1222RD $145.00

Pricing subject to change without notice. Not responsible for typographical errors.

MEPROLIGHT®

MEPRO 21 Day/Night Illuminated Reflex Sight

- Battle proven, reflexive to use, deadly accurate, and totally reliable
- Features large 30mm diameter lens which allows rapid target acquisition with both eyes open
- Rugged, armor-protected design operates under all weather and temperature condition
- Parallax-free
- Reticle illumination is achieved by the protected fiber optic light collector system during the day and by the miniature self-powered tritium light source at night
- Transition between the two systems is instantaneous and automatic to assure good contrast between the aiming dot and the target area
- Night vision and magnifier compatible • Tritium Illumination is warranted for 10 years
- Weight: 13.1219 oz • Length: 4.48819 inches • Width: 2.16535 inches
- Height: 2.75591 inches • Black and grey finish

MEPRO 21 Reflex Sight ..... C23MKML62621 ..... $429.99

MEPRO 21 Polarizer & Flash Guard Kit

The Meprolight M21 Polarizer and Flash Guard Kit helps solve the problems of reflex sights and the washout that is experienced when going from dark to light. The polarize filter creates a more vivid image in the M21 in more diverse lighting conditions. The flash guard protects the 30mm lens of the M21 from scratches while reducing the glare as well.

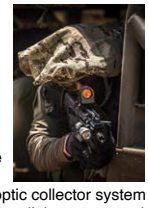
• Helps Filter Light • Adjustable Clickable Settings • Easily Screws In
• Reduces Glare • Can Use Separately or Screwed in Together

MEPRO 21 Polarizer & Flash Guard Kit ..... C23MKM21PFK $59.99

MEPRO Foresight

- Innovative optical sight providing essential tactical data projected on a transparent optical lens
- Integral data sensors - digital compass, active leveler
- Automatic Zeroing - Just upload your grouping, and you are good to go • Five preset Reticles
- Integral shot counter and magazine bullets countdown
- Built-in light sensor for automatic brightness adjustment
- Mobile APP connection (Android and iOS) • Rechargeable battery using USB - C
- Magnification x1 • Display Window Dimensions 33 x 20 mm • Reticle Patterns 5
- Power Supply Rechargeable Battery, USB-C port • Weight 9.9 oz.
- Dimensions (L x W x H) 4.6" x 2.35" x 2.68" (117 x 60 x 68 mm)

MEPRO Foresight ..... C23MKML68553 ..... $599.99



MEPRO MicroRDS

- One sight fits all platforms – handguns, rifles, and shotguns
- Clear aiming point for all light conditions
- Patented, quick detach mount
- Mepro microRDS mounts directly to Meprolight's TruDot™ self-illuminated pistol sights
- Self-illuminated backup night sight
- Battery change does not require removal of sight from pistol slide. Keeps the sight zeroed at all times
- No need for co-witness tall sights
- Weight (Sight + Adaptor): 2.3 Oz • Dimensions (LxWxH) (Sight Only): 1.8″ x 1.3″ x 1″
- Aiming Point Diameter: 3 MOA • Battery Type: 1 x CR2032
- Weapon Adaptor: Weapon Adaptor Adjustable to Most Handguns
- Interface: Dovetail (Backup Sight) • Illumination: Tritium
- Supported Sights Micro red dot sights: Trijicon RMR ,EOTech MRDS, Leopold Delta, Docter, CMORE, Vortex, Burris
- Operation Time: 10 Years (Self-illuminated night Sights)

MEPRO MircorRDS ..... C23MKML880500 ..... $349.99

MEPRO 21 Day/Night Illuminated Reflex Sight

MEPRO 21 offers a large 30mm diameter lens which allows rapid target acquisition with both eyes open. This was the first reflex sight in the world designed for close quarter combat. Illumination of the aiming point is achieved by a fiber optic collector system during the day, and by a miniature self-powered tritium light source at night. Transition between the two systems is instantaneous and automatic to assure good contrast between the aiming dot and the target area.

• No batteries or switches
• Aim & shoot faster than ever-with both eyes open
• Self-illumination means always available
• Operates under all weather and temperature conditions
• Large 30mm diameter lens assures large FOV
• Rapid target acquisition means quicker shooting in urban areas
• Quicker shooting in urban areas and rapid target acquisition
• Effective use of sight under extreme conditions such as bad weather, firing after physical stress and firing under pressure

MEPRO Illum. Reflex Sight ..... C23MKMEPROM21B $429.99
MEPRO Illum. Reflex Sight w/Dust Cover Triangle ..... C23MKMEPROM21T $429.99

MEPROLIGHT®

MEPRO TruVision™

The MEPRO TRU-VISION™ electro-optical MIL-SPEC red dot sight is shockproof, waterproof, and durable. Its short-length, compact, and lightweight design addresses the need for co-mounting multiple tactical devices (magnifiers, laser pointers, etc.) on your Picatinny rail.
The large non-reflective display window (1.14″ x 0.78″) and clearly defined 2 MOA red dot reticle ensure rapid target acquisition with both eyes open and unlimited field of view while remaining parallax free. Zeroing elevation and windage adjustment screws move the reticle by 0.5 MOA per click.

Trijicon Bright & Tough™ Night Sights

Trijicon Bright & Tough(TM) Night Sights are three-dot iron sights that increase night-fire shooting accuracy by as much as five times over conventional sights. Equally impressive, they do so with the same speed as instinctive shooting - and without the need for batteries. Housed in a metal body and cushioned within silicone rubber, Bright & Tough Night Sights feature a unique shock-resistant design. Each lamp is capped with a sapphire jewel to help evenly distribute the light while protecting the lamp from solvents and puncture. Contained within aluminum cylinders for additional protection.

Trijicon HD XR™ Night Sights

The Trijicon HD XR™ Night Sights were specifically designed with the ever evolving challenges of law enforcement agencies in mind. Building on the features of the current HD™ Night Sights, the Trijicon HD XR™ night sights are for the next level of advanced target identification and engagement at increased distances. A thinner front sight post allows shooters to have a larger field of view which further enhances the ability to identify targets, expedite engagements and see location of hits on target at longer distances.

XS® SIGHTS

FASTEST SIGHTS IN ANY LIGHT™

Long Rail with Ghost Ring

• For Ruger® GunSite Scout Rifle

Long Rail with Ghost Ring ..... C23AQRU5000RN $94.99

Marlin Optic Mounts & Ghost Ring Sight Sets

• The XS Lever Rail Ghost Ring WS upgrades Marlin Rifles to allow for an optic mounting in multiple positions and adds rugged all-steel backup iron sights.

Fit: Marlin 336 ..... C23AQML10025 .... $164.99
Fit: Marlin 1894 ..... C23AQML10045 .... $164.99

Lever Rail

Lightweight, anodized aluminum rail is machined to Picatinny specs and allows scope mounting directly over the receiver or forward for scout scopes or red dot sights. Installation requires the removal of factory rear sight. All screws torque to 20 INCH-pounds; over-torquing can fracture or break screws.

Fit: Marlin 336 & 308M - No Sights ..... C23AQML6004RN $64.99
Fit: Marlin 1894 - No Sights ..... C23AQML6005RN $64.99

Ghost Ring Aperture White Stripe Front Sight Set

Our notch and post, black-powder rifle sights mount further back, which provides a longer sight radius. Longer sight radiuses are more forgiving and allow for smaller misses when not perfectly tuned. In the rear, our ghost ring sight provides a window to look through and eliminates an additional focus point. Now your focus can be on the front sight and the target.

Fit: Ruger 10/22

C23AQRU00015 ..... $94.99

Fit: TC Encore & Omega Muzzleloader

C23AQTC00025 ..... $84.99

Fit: TC New Englander, Grey Hawk, Dovetail Front

C23AQTC00105 ..... $68.99

Weaver Backup Ghost Ring Sights

The XS Sights Low Weaver and Tall Weaver Backups are a fast alternative open sight that will save your hunt if your scope fails. Perfect for use on in-line muzzleloaders when hunting no-scope areas. Attaches in just seconds to any Weaver-Style base. Allows for easy load development when switching between optics and ghost ring sights. XS Ghost Ring WS is fully adjustable for windage and elevation and comes with two apertures, .230" and .191" inside diameter, for different lighting conditions. The large Ghost Ring affords great field of view for fast target acquisition.

Low ..... C23AQWB2000NL $69.99
Tall ..... C23AQWB2001NT $74.99

Inline Sight Pusher Kit for Glock

- Multi-function handle / magnetic steel Glock front sight tool
- Fits all Glock OEM and Aftermarket slides
- Glock MOS Compatible – Install sights with optic mounted on pistol
- Non-marring brass bit prevents scratching sights or slides
- Built-in Centering Scale – 1/16" scale
- Bolt Thread Pitch: 1/16" – 1.5 Bolt rotations equals 1/16" of travel

Glock Front Sight Tool ..... C23AQIRSTGL1 .... $199.99

Lyman®
Brands that Perform

57 & 66 Universal Receiver Sights & Peep Sights

Long favored by shooters and hunters. 57 is for rounded receivers, 66 for flat receivers. Audible-click micrometer adjustments for elevation and windage, quick-release slide, coin-slotted "stayset" knobs and two interchangeable aperture discs (large hunting aperture and small target aperture) for any shooting condition.
66A fits Win. 94 - Pre Angle Eject ..... C23LY3662214 ..... $99.99
66LA fits Marlin 336, 1894, 1895 ..... C23LY3662215 ..... $99.99

No.16 Folding Leaf Sight

This open rear sight with adjustable elevation blade, is the perfect auxillary sight for scope-mounted rifles. Folds close to the barrel when not in use.

#16 Folding Leaf Sight 16A *(.400 high, elevates to .500)* ..... C23LY3161066 ..$17.79

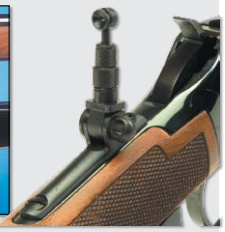
57 SML Receiver Sight

The most popular black powder receiver sight. Features 1/4 minute micrometer click adjustments for elevation and windage, quick release slide. Fits Deerstalker of Trade Rifle. Other models may require D.&T.

57GPR Receiver Sight ..... C23LY3090112 ..... $99.99

1886 Receiver Sight 66WB

With reintroduction of the Winchester and Browning Models of the 1886 Winchester Lever Action came requests for a receiver sight for more precise aiming. The new 66WB features 1/4 minute audible clicks for windage and elevation and new semi target knobs for precise adjustments. It is supplied with hunting and target aperture disks and quick release slide.
66WB 1886 Receiver Sight ..... C23LY3662265 ..... $99.99



20 MJT Globe Sight

20 MJT Globe Front Sight 7/8" diameter for 3/8 dovetail. 20 MJT height .700" from the bottom of dovetail to the aperture center supplied with seven Anschutz size steel apertures
20 MJT Globe Front Sight ..... C23LY3201150 ..... $50.49
For 20 MJT - LJT, 93 MATCH includes Anschutz size inserts. Two post inserts .067 - .102 wide. Five aperture inserts, .126 - .133 - .154 - .161 - .169 - .177.
Series 20 & 93 Insert Set ..... C23LY3201165 ..... $19.29

No. 2 Tang Sight

When Lyman recreated the No. 2 Tang sight in 1994 for the Winchester 94 Centennial, the popularity of this classic sight soared. This model fits most new and old 94 models plus these other historic Winchester Models: 1892 and 1894.
The No. 2 will also fit other models when adjusted to full height. (Note: Will not work on Win. Models with Tang Safety.)
#2 Tang Sight for Win. 94, 1892, 1894 Rifles ..... C23LY3902094 .$90.49
#2 Tang Sight for Henry Lever Action ..... C23LY3902095 ..$90.49
#2 Tang Sight for Marlin Lever Action 336, 30, 1895 ..... C23LY3902100 ..$90.49

Series 17A Target Front Sights

17A Target Sights are machined from a solid piece of steel and are designed to be mounted in 3/8" dovetail slots. They are supplied with eight interchangeable inserts that are locked in place with a threaded cap.

XS SIGHTS
FASTEST SIGHTS IN ANY LIGHT™

F8 Night Sights

Shoot better day and night. XS F8 night sights increase front sight focus by using a large, high-contrast front sight for fast sight acquisition. The wide U-notch increases front sight visibility and easily aligns with the front sight. XS F8 night sights give you the best notch and post solution for fast sight acquisition in all lighting conditions.

- *Tritium Powered Front & Rear Sight - Glows in low light to aid in sight alignment*
- *Colored Front Sight Ring - Highly visible orange ring designed for maximum visibility in bright to low light levels*
- *Photoluminescent Ring - Photoluminescent particles absorb ambient light and glow in low light*
- *Overhung Rear Sight- Reduces rear sight glare in bright daylight for greater sight definition*
- *Rounded Rear Notch - Draws focus to top edges of sight for proper alignment*
- *Rear Sight Ledge - Aids in one-handed slide manipulations*
- *10 Year Warranty - No Questions Asked Night Sight Warranty*
- *Easy Installation - Easily install by hand or sight pusher tool*
- *Wide Rear Sight Gap - Increases the amount of light around the front sight for greater visibility in low light*

RAM Night Sights

- Proprietary "Ember Glow Dot" Technology
- Ember is charged by ambient light and the tritium vial
- Uses a blacked out rear sight, less bright tritium, and anti-reflective lenses to drive focus to the front sight
- Rear notch is 15% wider than front sight to increase sight picture
- Reduce glare in daylight and increased contrast in low light

NIGHT FISION™ PRECISION TRITIUM

Perfect Dot™ Tritium Night Sights

When it comes to tritium gun sights, aluminum sleeves and painted-on white rings are the norm. Night Fision breaks the mold, literally. Our patent-pending injection molded sleeve design not only holds our tritium vials securely in place, it creates a brighter and more durable ring, we call The Perfect Dot™, that provides maximum visibility both day and night.

• Perfect Dot™ Night Sights with added daytime florescence • Brightest Tritium Night Sights on the market
• CNC Machined out of high quality 4140 steel • Black Nitride coating used to improve wear and corrosion resistance
• Installation: Contact Professional Gunsmith • Built in the USA with Swiss Tritium

GLOW DOME™

Glow Dome™ Night Sights

- *Domed Lens Design: Optically engineered Dome for superior visibility*
- *Glow Ring Technology: Proprietary Glow Ring delivers a fully glowing front sight picture*
- *Injected Fluorescent Pigments: Provide bright picture in daylight*
- *30% More Tritium = Brighter: Night Fision packs more tritium gas into every sight.*

HIVIZ®

SHOOTING SYSTEMS

Remington ETA Magnetic Front Sight

The Remington ETA Sight (Easy Target Acquisition) is designed specifically to fit the Remington 870, 11-87, and 1100 models with 9/32" rib. Includes interchangeable Litepipes in red and green white both round and triangle. Easily install by clipping onto the rib just behind the factory bead.

• Colors: (3) Green & (3) Red • Shape: Round & Triangular

• Fits all Remington shotguns with 9/32" wide rib.

Remington ETA Magnetic Front Sight ..... C23VHRM2006 ..... $10.79

Remington Magnetic Turkey/Deer Sight Set

Similar to the C-Series, HIVIZ has taken a specialty magnetic sight – the Remington ETA (Easy Target Acquisition) –and paired it with an adjustable rear dual bead sight giving you improved accuracy for deer and turkey hunting. Designed specifically for Remington 870 Express and 11-87 Sportsman shotguns with 9/32" vent ribs, this sight comes with one red and one green keyhole-shaped front LitePipe, one green round front LitePipe, and rear green pipes.

• Fits all Remington shotguns with 9/32" wide rib.

Green, Red Front/Green Rear ..... C23VHRM2013 ..... $21.49

Flame Series Front Sight

This Flame series shotgun sight replaces the existing front bead on most vent ribbed shotguns with removable front beads. It has a steel sight base, with non-interchangeable, green or red LitePipes.

Flame Series Front Sight ..... C23VHFL2005G $14.49

S-Series Magnetic Front Sight

This sight presents a bright, affordable sight picture to any shotgun shooter. LitePipes are not interchangeable, so "what you see is what you get."

• Narrow Model (S300) fits ribs from .218" to .328" (7/32" to 21/64") (5.5mm to 8.3mm).

Red ..... C23VHS300R $10.79

Two-In-One Magnetic Front Sight

HIVIZ Two-In-One magnetic front sight.

We've combined green and orange LitePipes into the same sight to change colors simply turn the sight around on the rib.

All Two-In-One sights come with one orange/green round pipe sight and one orange/green triangular pipe sight.

Change it fast with Two-In-One!

• Colors: Reversible Green & Orange

• Shape: Round & Triangular

• Fits ribs from .218" to .328" (7/32" to 5/16") (5.5mm to 8.3mm).

Narrow Model ..... C23VHTO300 ..... $15.79

Universal 3/8" Dovetail Interchangeable Front Rifle Sight

The Universal Dovetail Front Sight series from HIVIZ is designed to replace the front sight on all types of rimfire and centerfire rifles that have a 3/8" dovetail front sight. The robust, all-steel construction withstands all forms of shooting. The sights come with green and red interchangeable LitePipes giving all shooters the right color for the right conditions – anytime, anywhere.

.420" (7/16-inch) ..... C23VHDOMV420 ..... $16.29

.500 (1/2-inch) ..... C23VHDOMV500 ..... $16.29

Universal 3/8" Dovetail Adjustable Rear Rifle Sight

The HIVIZ Universal Rear Rifle Sight offers shooters the opportunity to brighten up the rear sight picture on a wide selection of rifles. Mounting in a standard 3/8" dovetail, this sight is easy to install, has full windage and elevation adjustments, and features HIVIZ green LitePipes. Make plinking more fun by adding the universal rear rifle sight to your favorite rifle.

• Fits rifles and muzzleloaders with 3/8" dovetail rear sight

Green ..... C23VHUNI2006 ..... $18.99

NcSTAR

Tactical Pistol Red Laser

- Red Laser: Freq. 635-655nm, Class IIIa Laser • Maximum Output: <5mw
- Weaver style mount will fit most weaver & Picatinny type rails
- Fully Adjustable for Windage and Elevation • Side to Side Toggle On/Off Switch
- All Aluminum Construction. Black Anodized finish
- Uses 2 each AG13 button cell batteries (Included) • Includes mounting tools
- Dimensions: 2.0" L x 1.1" W x 0.9" H • Weight: 1.3 oz

Tactical Pistol Red Laser ..... C23NRAAPRLS $30.99

Red Laser w/Weaver Style Mount

- Red Laser: Freq. 635-655nm, Class IIIa Laser
- Maximum Output: <5mw
- Weaver style mount will fit most weaver & Picatinny type rails
- Fully Adjustable for Windage and Elevation
- Side to Side Toggle On/Off Switch • Weight: 2.0 oz
- All Aluminum Construction. Black Anodized finish
- Uses 3 each AG13 button cell batteries (Included)
- Includes mounting tools • Dimensions: 2.2" L x 1.1" W x 1.2" H

Red Laser w/Weaver Style Mount
C23NRAPRLS $24.99

Compact Red Laser w/Weaver Style Mount

- Red Laser: Freq. 635-655nm, Class IIIa Laser
- Maximum Output: <5mw
- Weaver Mount will easily Clamp onto Compact and Subcompact Pistols that have a Weaver Style Accessory Rail
- Fully Adjustable for Windage and Elevation • Side to Side Toggle On/Off End Cap Switch
- All Aluminum Construction. Black Anodized finish
- Uses 2 each AG13 button cell batteries (Included) • Includes mounting tools
- Dimensions: 1.7" L x 1.0" W x 1.1" H • Weight: 1.3 oz

Compact Red Laser w/Weaver Style Mount ..... C23NRACPRLS $24.99

Green Laser w/Weaver Style Mount

- Green Laser: Freq. 532nm, Class IIIa Laser
- Maximum Output: <5mw
- Weaver style clamp on mount will fit most weaver Picatinny type rails. Includes mounting tool
- Fully Adjustable for Windage and Elevation. Includes adjustment tool
- Momentary End Cap Switch and it also comes with Remote Pressure Switch
- All Aluminum Construction. Black Anodized finish
- Uses 1 CR123A Lithium Type Battery (Included) • Dimensions: 4.1" L x 1.2" W x 1.5" H
- Weight: 4.9 oz

Green Laser w/Weaver Style Mount ..... C23NRAPRLSG $67.99

Compact Green Laser w/Weaver Style Mount

- Green Laser: Freq. 532nm, Class IIIa Laser
- Maximum Output: <5mw
- Weaver style clamp on mount will fit most weaver & Picatinny type rails. Includes mounting tool
- Fully Adjustable for Windage and Elevation. Includes adjustment tool
- Momentary End Cap Switch and it also comes with Remote Pressure Switch
- All Aluminum Construction. Black Anodized finish
- Uses 1 CR123A Lithium Type Battery (Included)
- Dimensions: 3.4" L x 1.1" W x 1.4" H • Weight: 3.8 oz

Compact Green Laser w/Weaver Style Mount ..... C23NRAPRLSMG $60.99

200L Flashlight & Red Laser w/QR Mount

- 3W Ultra Bright 200 Lumen CREE® LED flashlight and Laser Combo unit with Quick Release Weaver / Picatinny type mount
- Mounts onto most Weaver / Picatinny /Pistol accessory rails
- Ambidextrous Momentary or Constant-On Switch
- Rear Selector Mode Switch: for Laser Only, Flashlight Only, or Both Flashlight & Laser modes
- Ultra-Bright LED with 200 Lumens Peak Output, Updated Now with CREE® LED
- Dimensions: 3.4L x 1.4W x 1.9H • Weight: 4.0 oz. with Batteries
- Aluminum and Reinforced Nylon Construction • Uses 2 CR123A Battery (Included)

Flashlight & Red Laser w/QR Mount *(635-655nm Output)*
C23NRAQPFLS $75.99
Flashlight & Green Laser w/QR Mount *(532nm Output)*
C23NRAQPFLSG $108.99

Compact Green Laser w/QR Weaver Mount

- Green Laser: Freq. 532nm, Class IIIa Laser
- Maximum Output: <5mw
- Quick Release Weaver Style Mount
- Fully Adjustable for Windage and Elevation. Includes adjustment tool
- Ambidextrous Sliding On/Off Switch
- All Aluminum Construction. Black Anodized finish
- Uses 1 CR2 Lithium Type Battery (Included)
- Dimensions: 2.6" L x 1.0" W x 1.6" H • Weight: 3.3 oz
- Nominal Operating temperature: 59 - 95 degrees Fahrenheit

Compact Green Laser w/QR Mount
C23NRAQPTLMG $60.99

Tactical Gun Mount Series

Built to military specifications, and featuring technology currently being used by U.S. special operations, Streamlight Tactical Gun Mount Lights are compact, easy to handle and lightweight, so they don't interfere with the balance of the gun. They're designed to attach or detach in less than two seconds. Powered by super-long-lasting lithium batteries.

Now Available with Strobe

C4 LED®

TLR-1®

• Powered by two 3-volt CR123 lithium batteries with 10-year storage life • C4® LED technology, impervious to shock with a 50,000 hour lifetime
• LED Rating: Up to 12,000 candela peak beam intensity and up to 300 lumens measured system output. Deep-dish parabolic reflector produces a concentrated beam with optimum peripheral illumination • Run Time: 2.5 hours regulated run time.
• Rail grip clamp system securely attaches/detaches quickly and safely with no tools • Mounts directly to handguns with Glock-style rails and to all MIL-STD-1913 (Picatinny) rails.
• Includes keys for Glock-style, Picatinny, Beretta 90two, S&W 99 and S&W TSW • Machined aluminum sealed construction with black anodized finish • Ambidextrous momentary/steady on/off switch • Fits existing light bearing holsters
• 4.18 oz. • Lithium Battery

TLR-1 Tactical Light
Fits: Glocks/1913/S&W ..... C23SM69110 .....$138.49
TLR-1 Tactical Light with Strobe..... C23SM69210 .....$141.99

TLR-2® with Laser Sight

• Powered by two 3-volt CR123 lithium batteries with 10-year storage life • C4® LED Technology, impervious to shock with a 50,000 hour lifetime. • Up to 12,000 candela peak beam intensity and up to 300 lumens measured system output.
• Up to 2.5 hrs runtime
• Rail grip clamp system securely attaches/detaches quickly and safely with no tools • Fast, Adjustable, Secure Side mounting to 1913 and Glock style Rails
• Machined aluminum sealed construction with black anodized finish • Dustproof • Ambidextrous momentary/steady on/off switch • Highly accurate sight repeatability when remounting
• Fits existing light bearing holsters • 4.72 oz. • Lithium Battery

TLR-2 Tactical Light with Laser
Fits Glocks/1913/S&W ..... C23SM69120 ..... $344.49

TLR-3®

• C4® LED delivers 5300 candela peak beam intensity; 170 lumens.
• Parabolic reflector produces a concentrated beam with optimum peripheral illumination.
• Runs 1.5 continuous hrs. to the 10% output level
• *Weighs 2.32 ounces (65.8 grams) with included battery • Length – 2.71 in. (6.88 cm)*
• *Width – 1.18 in. (3.00 cm)*
• *Height – 1.51 in. (3.84 cm)*
• Includes 6 interchangeable keys to fit a wide variety of weapons • Rail clamp designed to rapidly attach/detach from side of weapon. One handed snap-on and tighten interface
• Ambidextrous momentary/steady On-Off switch
• Body constructed of impact resistant Engineering polymer • Face cap constructed of 6000 series machined aircraft aluminum with anodized finish • Borofloat high temperature glass lens • Waterproof to 1 meter for 30 minutes. IPX7 rated
• Operating temperature: -40°F to +120°F.
• Powered by one 3V CR2 lithium battery
• Serialized for positive identification
• Limited lifetime warranty

TLR-3 Compact Tactical Light... C23SM69220 .....$96.49

TLR-4™

The same great features as the TLR-3® with the addition of a red laser sight
• Light Source: C4® LED technology, with a 50,000 hour lifetime. 640-660nm red laser
• Impact-resistant Engineering polymer with durable anodized aluminum facecap
• Output: 5,300 candela peak beam intensity and 160 lumen measured system output
• Battery: One 3 volt "CR2" lithium battery
• Run Time: LED only or LED and laser; 1.5 hours regulated run time to the 10% output level. Laser Only; 11 hours regulated output
• Ambidextrous momentary/steady on/off switch. Three position Mode Selector switch for Laser only, LED illumination only or both laser and LED.
• *Standard Models include rail locating keys for a variety of weapons with Picatinny or Glock style rails-lithium battery*

TLR-4™ ..... C23SM69240 .....$153.49

TLR-1s HPL™

Designed for long guns, the TLR-1s HPL is a long range, high-power weapon light with strobe that's inspired by our Super Tac®
• Light Source: C4® LED technology, with a 50,000 hour lifetime
• Output: 775 Lumens • Intensity: 48,000 Candela
• Run Time: 1.75 hours regulated run time
• Battery: Two 3 Volt "CR123A" lithium batteries

• Features: Ambidextrous momentary/steady On/Off switch (standard switch only) One handed snap on/tighten interface keeps hands away from muzzle when attaching/detaching. Mounts directly to long guns with MIL-STD-1913 (Picatinny) rails.
• *TLR-1s HPL RMT Includes Rail Locating Keys for Glock style, 1913 Picatinny, S&W 99/TSW, and Beretta 92, Remote switch and lithium batteries.*

TLR-1s HPL™ - LED..... C23SM69216 .....$194.99
TLR-1s HPL™ - LED *(without Remote Switch)*..... C23SM69215 .....$152.99

TLR1™ HL

The TLR-1 HL now provides a 1,000 lumen blast of light for maximum illumination while clearing a room or searching an alley. Its wide beam pattern lights up large areas so you can identify who or what is nearby.
• *1,000 lumens; 283m beam; runs 1.5 hours*
• *User programmable strobe can be enabled/disabled*
• *Securely fits a broad range of weapons; Includes keys for Glock-style, Picatinny, Beretta 90two, S&W 99, S&W TSW and Sig P320 Mounts directly to handguns with Glock-style rails and to all MIL-STD-1913 (Picatinny) rails*
• *Tethered battery door and latch mechanism prevents battery door loss while providing easy battery replacement*
• *Durable anodized machined aircraft aluminum construction IPX7; waterproof to 1m for 30 minutes*
• *TLR-1 HL Dual Remote Kit with dual remote pressure switch, "safe off" door switch, mounting clips, and lithium batteries*

TLR1 HL ..... C23SM69889 .....$220.49

TLR-1® Game Spotter™

Long-Range, Rail-Mounted, Green LED Game-Tracking Light

• Features a shock-proof, green C4® LED that produces a long-range beam that reaches 350 meters
• Green LED combined with a deep-dish parabolic reflector produces an intense hot-spot that provides long-range identification, preserves night vision and won't spook varmints
• 31,000 candela peak beam intensity; 150 lumens; Runs 1.75 hours • Mounts directly to all MIL-STD-1913 (Picatinny) rails and weapons with Glock-style rails
• Includes rail locating keys for mounting to a variety of rails and lithium batteries
• One handed snap-on and tighten interface keeps hands away from muzzle when attaching/detaching
• Powered by two 3V CR123A lithium batteries (included)
• IPX7 waterproof to 1 meter for 30 minutes

w/Standard Switch..... C23SM69227 .....$141.99
w/Remote Switch..... C23SM69228 .....$202.99

TLR-1® HL™

The TLR-1 HL provides a 800 lumen blast of light for maximum illumination while clearing a room or searching an alley. Its wide beam pattern lights up large areas so you can identify who or what is nearby.
• C4® LED technology, impervious to shock with a 50,000 hour lifetime; 640-660nm red laser
• 15,000 candela peak beam intensity and up to 630 lumens
• Run Time: 1.25 hours regulated run time
• Solid-state current regulation for consistent illumination level
• Powered by two 3-volt CR123 lithium batteries with 10-year storage life
• Mounts directly to handguns with Glock-style rails and to all MIL-STD-1913 (Picatinny) rails
• Includes keys for Glock-style, Picatinny, Beretta 90two, S&W 99 and S&W TSW
• Machined aluminum sealed construction with black anodized finish
• Ambidextrous momentary/steady on/off switch
• User programmable strobe can be enabled/disabled
• IPX7 waterproof to 1 meter for 30 minutes

TLR-1® HL™..... C23SM69260 .....$163.99
Kit includes TLR-1 HL with thumb screw, "safe off" door switch, standard door switch, remote pressure switch and mounting clips, and two 3V CR123A lithium batteries.
TLR-1® HL™ Rifle Kit ..... C23SM69262 .....$204.99

TLR-2® HL™

The TLR-2 HL with red laser provides a 800 lumen blast of light for maximum illumination while clearing a room or searching an alley. Its wide beam pattern lights up large areas so you can identify who or what is nearby.
• C4® LED technology, impervious to shock with a 50,000 hour lifetime; 640-660nm red laser
• 15,000 candela peak beam intensity and up to 800 lumens
• Run Time: 1.25 hours regulated run time
• Laser only function runs 45 hours
• Solid-state current regulation for consistent illumination level
• Powered by two 3-volt CR123 lithium batteries with 10-year storage life
• Mounts directly to handguns with Glock-style rails and to all MIL-STD-1913 (Picatinny) rails
• Includes keys for Glock-style, Picatinny, Beretta 90two, S&W 99 and S&W TSW
• Machined aluminum sealed construction with black anodized finish
• Ambidextrous momentary/steady on/off switch
• User programmable strobe can be enabled/disabled
• IPX7 waterproof to 1 meter for 30 minutes

TLR-4™ G

Designed for sub-compact and compact weapons, this compact tactical rail-mounted light features an integrated, visible green aiming laser optimizing brightness with a wide operating temperature range.

- *C4® LED technology and a 510-530nm direct drive green laser with wide operating temperature range*
- *5200 candela peak beam intensity; 160 lumens*
- *Green laser provides high visibility long-range targeting*
- *Operating temperatures of -20°F to +120°F*
- *Ambidextrous momentary/steady On-Off switch*
- *Three position mode selector switch for Laser only, LED illumination only or both Laser and LED:*
  - *LED only mode runs 1.75 hours*
  - *LED and Laser mode runs 1.25 hours*
  - *Laser only mode runs 4 hours*
- *Textured parabolic reflector produces a concentrated beam with optimum peripheral illumination*
- *Key kit included for mounting to a variety of weapons*
- *Borofloat high-temperature glass lens*
- *Uses one 3V CR2 lithium battery (included)*
- *Limited Lifetime Warranty*

TLR-4™ G w/Green Laser ..... C23SM69245.....$273.49

TLR-8® Gun Light With Laser

Experience the TLR in a new light. The small and mighty TLR-8 with a red laser securely fits a broad range of full-size and compact handguns. Low-profile design prevents snagging and a "safe off" feature prevents accidental activation, saving batteries.

- *Features white LED and 640-660nm red laser*
- *500 lumens; 131m beam; runs 1.5 hours (light only or light/ laser combo); runs 18 hours (laser only); 4,300 candela*
- *Uses one CR123A lithium battery (included)*
- *Durable, anodized machined aluminum construction*
- *Securely fits a broad range of full-sized and compact guns*

TLR8 Gun Light with Laser..... C23SM69410.....$230.99

TLR-8® A Flex Rail Mounted

The TLR-8 A includes customized ambidextrous switches with either a low or high position to match your shooting style. It features a rail clamp that is designed to rapidly attach/ detach from side of compact and full frame weapons.

- *640-660nm red laser*
- *500 lumens; 140m beam; runs 1.5 hours (LED only or LED & Laser); • Runs 60 hours (Laser only)*
- *User enabled strobe function*
- *Custom optic produces a narrow beam with optimum peripheral illumination*
- *Uses one CR123A lithium battery (included)*
- *Durable anodized machined aircraft aluminum construction IPX4; water resistant*

TLR8 A Flex Rail Mounted ..... C23SM69414.....$230.99

TLR-8® A G Flex Green Laser

The TLR-8 A G includes customized ambidextrous switches with either a low or high position to match your shooting style. It features a rail clamp that is designed to rapidly attach/detach from side of compact and full frame weapons.

- *500 lumens; 140m beam; runs 1.5 hours (LED only or LED & Laser); • Runs 11 hours (Laser only)*
- *User enabled strobe function*
- *Custom optic produces a narrow beam with optimum peripheral illumination*
- *Uses one CR123A lithium battery (included)*
- *Durable anodized machined aircraft aluminum construction IPX4; water resistant*
- *Rail clamp system securely attaches/detaches quickly and safely with no tools and without putting your hands in front of muzzle*

TLR8 A G Flex Green Laser..... C23SM69434.....$282.49

TLR-7® Gun Light

Experience the TLR in a new light. The small and mighty TLR-7 securely fits a broad range of full-size and compact handguns. Low-profile design prevents snagging and a "safe off" feature prevents accidental activation, saving batteries.

- *500 lumens; 131m beam; runs 1.5 hours (light only or light/ laser combo); runs 18 hours (laser only); 4,300 candela*
- *Uses one CR123A lithium battery (included)*
- *Durable, anodized machined aluminum construction*
- *Securely fits a broad range of full-sized and compact guns*
- *Waterproof to 1m for 30 minutes*

TLR7 Gun Light ..... C23SM69420.....$141.99

TLR-7® Sub Ultra-Compact

Designed to enhance visibility and targeting capability in home defense and tactical situations, the lightweight TLR-7 sub weapon light is designed to securely attach to select sub-compact handguns

- *500 lumens; 140m beam; runs 1.5 hours*
- *Ambidextrous rear switch*
- *Uses one CR123A lithium battery (included)*
- *Rail clamp system securely attaches/detaches quickly and safely with no tools and without putting your hands in front of muzzle*
- *User enabled strobe function*

Reactor R5 GEN 2 Green Laser Sight with Holster

The Viridian Reactor 5 Gen 2 Green Laser Sight now with 3X more battery life and a new ambidextrous IWB holster with INSTANT-ON activation. New features of the gen 2 models include 3X more battery life (up to 5 hours) and an INSTANT-ON ambidextrous inside the waistband (IWB) holster with automatic laser activation. Made of microfiber, this holster is more comfortable and durable than the previous models. The INSTANT-ON activation ignites the laser the moment you draw. No buttons, no squeezing, no doubt. When you draw, it's on.

LaserMax

Guide Rod Lasers

The most technologically-advanced, hardened laser sighting system ever developed, the Guide Rod Laser replaces the recoil spring guide assembly in semi-auto pistols. No other laser sight in the world gets subjected to more rigorous testing or can result in more accurate shots.

- ***Completely internal!*** *Keep your holster, keep your tactical lights, keep your favorite grips.*
- ***Extremely rugged.*** *LaserMax internal guide rods meet or exceed both Mil-Spec and Homeland Security durability test standards (drop tests, blowing sand, temperature and humidity extremes, salt water fog, deep water immersion, 20,000+ rounds live fire).*
- ***Installation takes minutes.*** *If you can field-strip your gun, you can install your LaserMax sight—No gunsmithing required.*
- *Proximity to the bore provides maximum POA/POI accuracy.*
- *Guaranteed alignment ensures center of mass shots.*

Laserguard® LASERGUARD®

Laserguard® is the best-in-class laser sight for compact and subcompact polymer framed pistols, and featuring the same Instinctive Activation™ technology as Lasergrips®. Laserguard mounts securely to the trigger guard, enhancing your ability to engage threats quickly and accurately in low light with a small-framed concealed carry handgun - usually equipped with small or non-existent iron sights. Laserguard® is available in both red laser and green laser variants, is easily user-installed in moments, and feature complete windage and elevation adjustment options.

Lasergrips® LASERGRIPS®

Lasergrips® remain the most decisive tactical advantage for handguns, changing the way gun owners approach personal protection. They offer what no other handgun accessory can: immediate targeting with a bright red or green laser beam when you hold your gun in a natural firing grip. This innovation, Instinctive Activation™, saves precious time when seconds count. Lasergrips are compatible with your favorite holster, feature a master on/off switch, provide 2 (green) to 4 (red) hours of battery life, are easily user-installed with zero modification to your firearm and are completely user-adjustable for windage and elevation.

MISSION FIRST TACTICAL

TORCH™ Backup Light - Red/White

The TORCH™ Backup Light (TBLW) with dual white LED's is a low profile, Picatinny mounted, recessed pressure pad activated light ideal for home protection or as backup to a primary illumination source. Low output illumination for signature reduction during patrol, stealth structure search, approach to target, and breaching operations.

- *10 year storage lifespan, 24 hour burn time, 10 lumen output*
- *Primary LED • Low-output LED • White/Red LED*

Torch™ Backup Light - White/Red..... C23XJTBLWR $39.99

TORCH™ Backup Light - IR/Red

- *10 year storage lifespan, 24 hour burn time, 10 lumen output*
- *Primary LED • Low-output LED • IR/Red LED*

Torch™ Backup Light - IR/Red..... C23XJTBLIR $39.99

SIG SAUER

FOXTROT1X™

- 450 lumens and 1.5 hours of runtime
- Powered by 1 CR123 battery, loaded via a removable bezel with lockout mode
- M1913/SIG and Glock® sliding rail interface plates included for maximum location adjustment range on the rail
- Ambidextrous push-button side switches, with momentary and latching modes

FOXTROT1X Weapon Light..... C23XISOF12001 ..... $89.49

LIMA 320 P320/250 Laser Grip Module

- Integrated laser sight for the P320/250 (9mm/.40/.357)
- Red (Oclaro) or Direct Green (Osram) laser
- Streamlined 1-piece design
- Easy battery change – CR-1/3N Lithium
- Intuitive activation button location

LIMA 5 P320/250 Laser Grip Module *(Red)*
C23XISOL51001 ..... $249.99

LIMA P365 Laser Sight

Red laser for rapid, accurate target acquisition with your P365. Engineered to fit your P365, the LIMA365 Laser Sight provides rapid, accurate target acquisition resulting in the ideal sighting solution for self defense, conceal carry and home defense. The battery drain is minimized with the Automatic Shutoff, which assures the LIMA365 is always ready for use when you are.

LIMA P365 Laser Sight *(Red)*

SME SHOOTING MADE EASY

Green Laser Rail Mount

- Green Laser, Power: ≤5mw
- Micro adjust laser to sight(s) with allen wrench (included)
- Convenient spring clamp lock for attachment to picatinny/weaver rail
- Convenient latch switch for easy on/off setting
- Rugged body precision CNC machined from aircraft-grade aluminum • Runtime: up to 4 hours
- IPx4 Water Resistant • Power by 1x CR123 battery

Green Laser Rail Mount ..... C23GMSMEGLP $55.99

Rail Mounted Pistol Weapon Light

- CREE R5 LED • 250 Lumens.
- High-intensity output and STROBE mode.
- Rugged body precision CNC machined from aircraft-grade aluminum
- Tool-free spring clamp lock for easy mount to pistol bottom rail. • IPx4 Water Resistant
- 1x CR123 Battery
- Runtime: 75 minutes

Rail Mounted Pistol Weapon Light ..... C23GMSMEWL $39.99

LASERLYTE

Firearms NOT Included

Trigger Guard Lasers

This series of lasers mount easily and quickly on the trigger guard and snugs-up securely to the dust cover. Each model of laser is engineered specifically to the individual guns lines and styling. Concealed carry needs are met by adapting the laser to print less by squaring off the area in front of the trigger guard. It's simple to activate with the ambidextrous ergonomic switch, and easily programmed to either constant on or pulse mode. Another great function is the "auto-off" feature that displays a unique flash after 5-minutes of operation and automatically turns the unit off after 6-minutes. No need to remove the laser from your gun in order to change batteries, Just unscrew the battery cover. Made from glass filled nylon and using brass and steel mounting hardware this laser is ready to travel.

Ruger LC9, LC9s, LCP, LC380	C23DYUTAUYL	$104.99

LASERLYTE

Score Tyme™ Versus Kit

Included in the all-inclusive package are two Trainer Trigger Tyme Laser Pistols (full-size and compact) and LaserLyte's most interactive Score Tyme Target. This target system comes with 147 LEDs, scoring capabilities, timer speeds and double the target size area of LaserLyte's popular and original Laser Training Target. Three timer speeds allow for up to 3 players to challenge each other using the integrated lasers on the Trainer Trigger Tyme Pistols. The Score Tyme target scores shots 4 to 10 points and lights up to show shot placement.

- *Power Output: 650NM, 5MW, Class IIIA • Activation: Trigger activated • Batteries: 3 x A76*
- *Battery Life: 50,000 shots • Material: High impact ABS polymer*

Training Triple Tyme™ Versus Kit	C23DYTLBLVS	$541.99
Training Triple Tyme™ Laser Target *Only*	C23DY211493	$361.99

Laser Steel Tyme™ Kit

Celebrate every hit on target with a "plinking" steel sound and flashing red LED lights. When hit with the laser beam from the included Trainer Trigger Tyme Laser Compact Pistol, the Steel Tyme targets make audible and visual reactions. This gives shooters immediate feedback on trigger control, sight picture and shot placement. Approximately the same size as a GLOCK 42/43 pistol, the Trigger Tyme Compact provides a realistic training tool that activates any of LaserLyte's Laser Trainer targets. It's also completely safe and will not accept live ammo, making this the safest and most effective way to train at home.

Steel Tyme Laser Trainer Target	***Compact Pistol Specs:***
• *LED Timer records draw time*	• *Power Output: 650NM, 5MW, Class IIIA*
LED bullseye displays accuracy	• *Activation: Trigger activated*
• *Batteries: 3 x AA*	• *Batteries: 3 x A76*
• *Battery Life: 6,000 Shots*	• *Battery Life: 50,000 shots*
• *Height: 9.50 inches*	• *Weight: 15 ounces*
• *Activation: All LaserLyte Laser Trainers*	• *Material: High impact ABS polymer*

Steel Tyme Laser Trainer Kit	C23DYTLBLMS	$216.99
Steel Tyme Laser Trainer Targets *(Only)*	C23DYTLBMOS	$129.99

Quick Tyme® Laser Trainer Kit

This complete package includes everything needed to increase pistol draw speed and improve accuracy under stress. The kit contains the all-new Quick Tyme Laser Trainer Target with a built-in LED stopwatch and a Trigger Tyme® Full-Size Pistol that simulates the size and feel of a GLOCK® 19. Ideal for drawing from concealment, the Quick Tyme target features an integrated stopwatch that counts up from zero seconds until the target is shot with the Trigger Tyme Laser Trainer pistol. When a laser shot hits the target, the timer displays elapsed time and the LED bullseye target displays shot location.

Laser Trainer Target	***Full-Size Pistol Specs:***
• *LED Timer records draw time*	• *Power Output: 650NM, 5MW, Class IIIA*
LED bullseye displays accuracy	• *Activation: Trigger activated*
• *Batteries: 3 x AA*	• *Batteries: 3 x A76*
• *Battery Life: 6,000 Shots*	• *Battery Life: 50,000 shots*
• *Height: 9.50 inches*	• *Weight: 15 ounces*
• *Activation: All LaserLyte Laser Trainers*	• *Material: High impact ABS polymer*

Quick Tyme Laser Trainer Kit	C23DYTLBLQD	$314.99
Quick Tyme Laser Trainer Target *Only*	C23DYTLBQDM	$216.99

Trigger Tyme™ Trainer Full Sized Training Pistol

With a simulated 5.5 lb. trigger pull, approximate size of a GLOCK 19, a realistic trigger take up and break action, the LaserLyte® Trigger Tyme™ pistol with integrated muzzle laser is activated by the pull of the trigger that will indicate the impact of the laser dot on any of the LaserLyte® Trainer Targets. The LT-TTL can be used to build confidence with sight pictures, trigger control, accuracy, drawing and reholstering from most holsters.

- *Power Output: 650NM, 5MW, Class IIIA • Activation: Trigger activated*
- *Batteries: 3 x A76 • Battery Life: 50,000 shots • Weight: 15 ounces*
- *Material: High impact ABS polymer • Length: 7.25 inches*
- *Width: 1.15 inches • Height: 5.50 inches*

Trigger Tyme™ Training Pistol LT-TTL ..... C23DY211479 ..... $143.99

Laser Trainer Revolver

The Trigger Tyme Revolver was designed with a familiar size, feel and balance of Smith & Wesson® J-frames and Taurus® Model 85 revolvers so it fits into standard holsters for quick-draw training. It also gives shooters the same grip angle and trigger pull for the most realistic laser training experience. The integrated muzzle laser is activated by a crisp 5.5-pound trigger pull, giving instant feedback on shot placement and is compatible with any LaserLyte Trainer Target.

Laser Trainer Revolver ..... C23DYLTTT85 ..... $143.99

STD™ Extension Rings

Extension Rings allow you to shorten or lengthen your ring spacing on rifles. A common application is on firearms with long actions, where the normal 4 inch ring spacing is not possible. But whether you are lengthening or shortening the ring spacing Leupold's extension rings allow you 5/8 inches of adjustment.

Tube	Height	Finish	Item No.	Price

Gunmakers Base

The Leupold steel standard bases and rings are the most versatile of any mounting system Leupold offers. The rear ring is secured by windage adjustment screws, allowing the scope's internal adjustments to be reserved for precise sight-in. Additionally, shims can be used for gross elevation adjustment, reserving the scope's elevation adjustment for bullet drop compensation dial applications.

Windage Base 2-pc ..... C23LU50033 ..... $19.99
Dovetail Base 2-pc ..... C23LU50034 ..... $19.99

Leupold® Ring Mounts

Leupold® mounts are every bit as rugged and dependable as the Leupold optics they're intended to secure. With a huge variety of mounting systems, for nearly every type of firearm under the sun, you're sure to find the perfect match for you firearm, and your style of shooting.

.22 Rimfire Ringmounts

Use as a high-quality alternative to ringmounts sold by firearms manufacturers and as a no-tap mounting method for most .22 rimfire rifles with a 11mm, 13mm, or 3/8" dovetail rail. Because these rings are machined from solid steel, they offer superior integrity and tighter tolerances.

Quick Release™ Rings

In 100 yard firing test at the Leupold plant in Oregon, Weaver repeatedly removed and reattached a scope using our QR mount. And each time we fired, the scope returned to within a half an inch of the original point of impact on the target. Super close machining tolerances are at the heart of this patented lever mechanism. By turning the lever forward and eccentric on the lever shaft engages the bases of the ring. This pulls the ring down and forward on the base locking it solidly into its zero position.

Mark 4® Rings

Mark 4 tactical rings are the strongest of all Leupold mounting systems. Both 6-48 shoulder screws and the larger 8-40 screws are included to accommodate high recoil applications. Strong 1/2" keeper nuts lock the rings solidly against the one or two-piece bases, or any Picatinny-style rail.

Dual Dovetail Bases

Leupold's steel Dual Dovetail bases and rings are one of Leupold's strongest mount systems, designed for large caliber rifles with high recoils. The twist-and-lock action of the rings ensures a strong connection with the one or two-piece base.

Long Range 1-Piece Base

Remington Model 700 and Winchester 70 Long Range 1-Piece Bases These bases have a 1/4° slope built into the base. This slope provides a preset elevation of 15 minutes. This allows the long range shooter to use most of the scope elevation for bullet drop correction.

DeltaPoint® Pro Ring Top Mount Kit

The DeltaPoint® Pro's versatility just got taken up a notch with our ring top mounts. Whether it's on a long-range rifle to find targets faster or a CQB setup for quick engagements, the ring top mount adds a new dimension to any setup. It easily attaches the DP-Pro® to any of our Mark 4® rings or Mark IMS® mounting systems, letting you run it up top or on either side at a 45-degree angle. The possibilities are endless.

STD™ 1-Piece Base

The Leupold steel standard bases and rings are the most versatile of any mounting system we offer. The rear ring is secured by windage adjustment screws, allowing the scope's internal adjustments to be reserved for precise sight-in. Additionally, shims can be used for gross elevation adjustment, reserving the scope's elevation adjustment for bullet drop compensation dial applications.

BASE FIT & RING HEIGHT INFORMATION

RING GUIDELINES

50mm OBJECTIVES will almost always use HIGH rings in a given style. In certain instances, such as with extremely heavy barrels or some makes of firearm, SUPER HIGH rings may be necessary.

42-45mm OBJECTIVES will almost always use MEDIUM rings in a given style. In certain instances, 45mm scopes may require HIGH rings.

40mm OBJECTIVES will almost always have enough clearance with LOW rings in a given style, though MEDIUM rings will give slightly more clearance, particularly when using a barrel with a thicker shank portion or a heavier contour.

28-36mm OBJECTIVES will almost always use LOW rings in a given style. Again, in certain instances of a heavy barrel or heavy shank portion of a custom barrel, MEDIUM rings may have to be used, but LOW rings will almost always suffice.

20-24mm OBJECTIVES will almost always be able to use LOW rings, but in some cases may also use SUPER LOW rings. In this instance, bolt handle clearance of the eyepiece will come into play more so than objective/barrel clearance and should be carefully considered.

VX-6 RIFLESCOPES can not be mounted with LOW rings. The power selector knobs will not clear the base, and the bolt may contact the eyepiece.

VX-3L 50mm RIFLESCOPES will almost always use LOW rings, but in some instances, where there is a very small barrel shank or relatively light barrel, they will be able to use SUPER LOW rings for the lowest practical mounting. Again, as in 20mm riflescopes, eyepiece versus bolt handle clearance will be more critical in many cases than objective/barrel clearance.

VX-3L 56mm RIFLESCOPES will almost always use LOW rings, but in some instances, where there is a very pronounced barrel shank or relatively heavy barrel, they will use MEDIUM rings.

VX-3L RIFLESCOPES can not be mounted in SUPER LOW rings with a one-piece base, as the power selector ring will impinge on the rear of the base.

PRISMATIC HUNTING SCOPES include their own integral mounting systems that allow four distinct mounting heights depending upon application.

No Leupold riflescope, including the VX-3L line, will fit into SUPER LOW rings if using a one-piece base.

FOR MORE DETAILED FIT INFORMATION, please visit www.leupold.com and use the Leupold Mount Selector feature.

LX — Low 1" extension
NA — Not available

Mount System Types

RM — Ringmount
PRW — Permanent Ring Weaver-style
DD — Dual Dovetail
QR — Detachable Accuracy: Quick Release Mount System
QRW — Detachable Accuracy: Cross-slot format
STD — Dovetail front and windage adjustable rear ring

WARNE™

AR-15 Flat Top Rings

- Specially designed for mounting optics on AR15 flat top receivers at the correct height without the need for riser blocks or hardware
- Quickly-Detachable/Guaranteed Return-to-Zero
- Compatible with Weaver or Mil-Spec Picatinny systems
- Strongest, most reliable mounting system available.

1 AR-15 Flat Top Rings Ultra High ..... C23WJ204LM $113.99
30mm AR-15 Flat Top Rings Ultra High ..... C23WJ217LM $128.49

All Steel .22 Rings

Made from steel, these rings tighten better than any other, hold zero, and feature an attractive 70/30 split. An exciting and innovative feature found only on WARNE .22 rings is the asymmetrical clamp. This allows for adjustment so the rings fit evenly on receivers with a severe radius.

Tube	Finish	Height	Item No.	Price
.22 Rings	Matte	Medium	C23WJ721M	$39.49
.22 Rings	Matte	High	C23WJ722M	$39.49

Tactical Bases

- Precision CNC machined from 7075/T6 aluminum for a high strength & lightweight platform
- Mil-Spec hardcoat anodized finish for abrasion and corrosion resistance.
- Bases feature black zinc coated hardware for "Element Proof" protection.
- Self centering tapered T-15 Torx screws.
- Fits Picatinny & Weaver style mounts and are NATO-STANAG compatible.

Model	Finish	Item No.	Price
Remington 700 SA	Matte	C23WJM673M	$111.99
Remington 700 LA (20 MOA)	Matte	C23WJM674M20MOA	$111.99

All Steel Maxima Grooved Receiver Series Rings

- Rings securely mount around scope using 4 Torx style T-15 socket cap screws, 25 in/lb. of torque recommended.

GEN2 Extended Skeletonized MSR Mount

Based on our innovative R.A.M.P. Mount platform, this Gen II Edition has all the features you need. The X-SKEL Mount offers a lightweight scope mounting solution for your MSR style firearm with the same durable, return to zero reputation that you've come to expect from Warne.

- *Lightweight, skeletonized aluminum body and caps to reduce overall weight without sacrificing reliability.*
- *#8 Torx style fasteners with steel threaded inserts to prevent stripping.*
- *Additional 1 Inch cantilever forward design to provide additional eye relief.*
- *Places your optic at the Ideal Height for MSR and similar platforms.*
- *Dual 1/2" tactical nut attachment, 65 in/lb. of torque is recommended.*

Tube	Finish	Item No.	Price
1"	Black	C23WJXSKEL1TW	$135.49

20 MOA Extended Skeletonized MSR Mount

- 20 MOA built-in for precision long range adjustments.
- Lightweight, skeletonized aluminum body and caps to reduce overall weight without sacrificing reliability.
- #8 Torx style fasteners with steel threaded inserts to prevent stripping.
- Extended design provides over 2 inches of forward cantilever for additional eye relief.
- Places your optic at the Ideal Height for MSR and similar platforms.
- Dual 1/2" tactical nut attachment, 65 in/lb. of torque is recommended.

Tube	Mount	Item No.	Price

30mm	Fixed	C23WJLRSKEL30TW	$143.99

Maxima Rings

The finished rings are assembled with four quality Torx style T-15 socket cap screws for strength and durability.

- *Return to Zero Guaranteed, quickly detach and reattach the Maxima QD rings with no loss of zero.*
- *Square recoil control key for positive engagement of ring to base.*
- *Indexable lever allows placement of the levers in any position desired.*
- *Rings securely mount around scope using 4 Torx style T-15 socket cap screws, 25 in/lb. of torque recommended.*

Game Reaper Scope Mounts

When Accuracy is a Must, Choose...DedNutz

- Machined one piece design for extreme accuracy
- No moving parts between firearm & scope
- See website or call for info on Left Hand mounts and MOA
- Lightweight -Approximately a third of the weight of steel
- Fast installation and requires no special tools
- Eliminates need for windage screws
- Perfect ring alignment -No lapping required
- Eliminates or reduces scope damage from tightening rings
- Ring placement allows extra eye relief adjustment
- Up to 4 times more thread length in rings - Full 1/2 inch
- Made of Billet Aluminum -Tempered 6061T6
- Grade 8 hardened steel screws
- Most models in 1 inch and 30mm scopes
- Game Reaper scope mounts are anodized to last the life of your firearm. One piece ring and mount eliminates misaligned scope rings and scope damage. Mount will not rust.

Quick Detach Mount

The ATN Quick Detach Mount is a great addition for your new X-Sight 4K, ThOR 4 or ThOR LT. Take advantage of the profile manager of your scope, move it from platform to platform and still retain zero.

- *Hardened Aluminum Alloy Works with 30 mm tube scopes*
- *Adjustable quick detach mechanism*
- *Perfect for X-Sight 4K Series, ThOR 4 Series or ThOR LT Series*
- *Retain Zero when swapping between platforms*

30mm QD Mount ..... C23ASACMUDCQDM2 ..... $99.00

Riton Scope Rings

Available in High, Mid and Low heights, Riton's Scope Rings come in two sizes: 30mm and 1 inch. Machined from 6061-T6 aircraft grade aluminum, these rings are optimal for weight savings and strength.

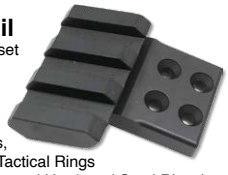
Tube	Height	Finish	Item No.	Price
30mm	High	Matte	C23IYX30H	$39.99
30mm	Low	Matte	C23IYX30L	$39.99
30mm	Medium	Matte	C23IYX30M	$39.99

30mm/1" Precision QD Scope Mount

The Riton 30mm/1in Precision Quick Detach (QD) Scope Mount provide you with a one-piece, rapid deployment option for your scopes with a 30mm and 1 inch tube diameter. Precision machined from 6061-T6 aircraft grade aluminum, the mount is optimal for weight savings and strength.

30mm/1" Precision QD Scope Mount
C23IYX301QD $114.99

Bubble Level Mount



Machined from hardened steel, this Picatinny Bolt-On Riflescope Mount from Riton Optics will hold your optic securely on any rifle with a Picatinny rail. Six screws secure the cap of each of the mount's two rings for a grip that can withstand the pressure of a day at the range. The mount's built-in bubble level makes it clear right away whether your firearm is canted or perfectly upright.

- Machined from Hardened Steel
- Integrated Bubble Level
- Six Cap Screws per Ring

30mm ..... C23IYX30BL $29.99
34mm ..... C23IYX34BL $29.99

Offset Picatinny Rail

The Riton by Contessa 45° Offset Picatinny Rail allows for a precision machined mounting option. This rail is ONLY compatible with the Riton by Contessa Picatinny QD Mounts, Picatinny Bolt-On Mounts and Tactical Rings (not the Riton by Contessa Light and Hardened Steel Rings).

- 6061 Aluminum

TRUGLO®
WHEN BRIGHTNESS COUNTS®

Tactical Scope Mount

- Fits 30mm diameter scope tubes
- Mounts to Picatinny-style or Weaver-style rails
- CNC-machined construction
- Reversible one-piece base
- Integrated recoil lug
- Centerline is approximately 1.5" above mounting rail

30mm Tactical Scope Mount ..... C23XRTG8964B $41.99

Riser Mount Picatinny 3/4 Inch

- Mounts to existing Picatinny-style rail
- CNC-machined aluminum
- Easy to install without modification
- Ideal for mounting scopes, but can be used for Red•Dot sights as well • Great for any AR-15 Flattop
- Raises mounting surface by 3/4"

Riser Mount One Piece ..... C23XRTG8980B $17.00
Riser Mount Two Piece ..... C23XRTG8982B $19.02

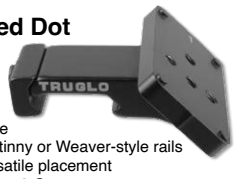
Riser Mount Picatinny 1 Inch

- Mounts to existing Picatinny-style rail
- CNC-machined aluminum • Easy to install without modification • Ideal for mounting scopes, but can be used for Red•Dot sights as well • Great for any AR-15 Flattop
- Raises mounting surface by 1"

Riser Mount One Piece ..... C23XRTG8990B $17.81
Riser Mount Two Piece ..... C23XRTG8992B $19.83

Picatinny-Style AR-15 Riser Mount

- Raises mounting surface by 1/2"
- Great for any AR-15 Flattop
- Mounts to existing Picatinny-style rail • CNC-machined aluminum
- Easy to install without modification
- Length is approximately 4"



Picatinny Style Riser Mount
C23XRTG8970B $14.40

Scope/ Red Dot Mounting Adapter

Converts 3/8" mounting bases into Weaver-style mounts. CNS, aircraft quality.
Scope/ Red Dot Mounting Adapter
C23XRTG8953B $16.49

Offset Universal Red Dot Sight Mount

- Compatible with popular optic models
- Mounts an additional optic for backup or close-range use
- Mounts to firearms with Picatinny or Weaver-style rails
- Ambidextrous design for versatile placement
- Rated for all calibers up to 45-70 Government
- Optic Compatibility: T.O.P.S. Universal (most major optic brands)
- For Receivers with Picatinny rail

Offset Unv. Optic Mount ..... C23XRTG8976B $28.49

Offset Picatinny Mount

- 45° Angled mount
- Mounts to standard Picatinny /1913 / Weaver rails
- Angled mount provides fast transition to backup optic
- Ideal for mounting lights/ lasers without blocking optical sight
- CNC-Machined 6061-T6 Aluminum
- Slim design minimizes weight and bulk
- Mounts in any configuration: left or right side, top or bottom rail

Offset Picatinny Mount ..... C23XRTG8975B $16.49

Pistol Red-Dot Sight Mount

- Transforms the rear sight dovetail into an optic mount
- CNC-machined billet steel • Low profile fit
- Easy to install with basic tools
- Nitride FORTRESS FINISH • Product made in USA

Lightweight Alloy Scope Ring & Mounts Combo

The one-piece construction of the Talley Lightweight Alloy Scope Mount is unique. The rigid design has no joint between the scope and the rifle. The Talley Lightweight unitized design eliminates the possibility of an "out of alignment" interface or "loose connection" between the ring and base of traditional two-piece designs. Ultimately this provides more strength and durability than rival steel rings and bases but doing it with a lighter overall weight. By extruding the 7000 series alloy known for its durability and then precision CNC machining the mount to its final design we can provide you with the strongest, lightest mount system on the market.

The Talley Guarantee: *At Talley Manufacturing, we place our customers first. All our products carry a money back guarantee. If you are not completely satisfied, we make sure you will be. We want you to know you've just purchased the best.*

Lightweight Alloy Scope Ring & Mounts Combo

The one-piece construction of the Talley Lightweight Alloy Scope Mount is unique. The rigid design has no joint between the scope and the rifle. The Talley Lightweight unitized design eliminates the possibility of an "out of alignment" interface or "loose connection" between the ring and base of traditional two-piece designs. Ultimately this provides more strength and durability than rival steel rings and bases but doing it with a lighter overall weight. By extruding the 7000 series alloy known for its durability and then precision CNC machining the mount to its final design we can provide you with the strongest, lightest mount system on the market.

PRS 2" Cantilever Mount

EOTECH's new Cantilever Mount is a perfect solution for modern sporting rifles. Offered in both 30mm and 34mm, and machined out of aircraft-grade aluminum, the Cantilever Mount includes an adjustable, locking quick-detach lever for easy attachment and removal. Designed to fit both 1" Weaver and MIL-STD 1913 rails and height-above-rail of 37mm, this mount includes a 2-inch offset that positions the scope in a forward position, providing the correct eye relief and cheek placement for most AR15/AR10 platforms. Made in the USA.

FIND WHAT MATTERS

Signature Rings

Include Pos-Align Ring System

Pos-Align is a revolutionary new ring system design. By using steel outer rings that hold pivoting synthetic inserts, Pos-Align lets any 1" scope be mounted perfectly aligned between rings and with the bore. The inserts simply pivot within the rings and self-center. They also prevent a scope from slipping under recoil and protect the finish from scratching.

Signature Standard Ring Pairs

To find the correct base or mount to fit your firearm, you need to know the product number. To do this, follow these steps:

1. *In the firearm column, find the manufacturer and make/model of your firearm (for example, Browning A-Bolt).*
2. *Next, find the 5-digit Product Number (for example: 48955), in the desired Product Category column (for example, Grand Slam Dovetail Bases). NOTE: in some cases, you will find a short reference number (for example, 60A) listed in the chart. Use this reference number to find the appropriate Product Number.*
3. *Product Numbers are found near the appropriate product description sections placed throughout the catalog. If necessary, match the reference numbers to product numbers.*

Notes:

1. *Shimming is probably required for perfect scope alignment.*
2. *Rear base may require modifications for correct fit to military actions.*
3. *Front base may require modification for correct fit.*
4. *Gun will have to be drilled and tapped.*
5. *Front base screws must be shortened by grinding.*
6. *May require bolt and/or safety alteration, otherwise firearm cannot function safely and properly. Consult with a qualified gunsmith.*
7. *BASE DOES NOT FIT ROSSI LARGE FRAME MATCHED PAIR COMBOS (ALL MODELS WITH 20 OR 12 GA SHOTGUN BARRELS).*
8. *Remove rear sight to use.*
9. *The handiest way to pinpoint the correct base for the Win. 52 & Win. 70 Long Action Rifles is to check the spacing of the tapped holes for the rear base and compare it to the hole spacing for the front base. Does it have:*

HOLE SPACING THE SAME		HOLE SPACING IS DIFFERENT	
Model 52	Use 46+ 46	Model 52	Use 25+ 57
Model 70	Use 47+ 46	Model 70	Use 49A+ 46

10. *The Weaver type base built into this rifle will accept Weaver rings, but our highest ring (1" See-Thru #49513) still isn't high enough to clear the front sight.*
11. *The Weaver type base built into this firearm will accept any Detachable Top Mount Weaver Ring.*
12. *Rifle has Grooved Receiver for Tip-Off Rings.*
13. *Ruger Mark II Pistols. Weaver only offers a clamp on base with 1" rings (Pistol Mount System #306). Ruger supplies a short or long base and 1" or 30mm rings w/factory drilled and tapped pistols. Contact Ruger for these items.*
14. *Bolt clearance problem may exist and scope will not be centered.*
15. *Base accepts Tip-Off Rings only.*
16. *TO-9, TO-10 & TO-11 bases accept either Detachable Top Mount Rings or Tip-Off Rings. Each have crossbolt slots and 3/8" grooves for both applications.*
17. *Must be factory drilled and tapped.*
18. *One-Piece base attaches to barrel and extends back over receiver.*
19. *Requires the use of Thompson/Center base adapter.*
20. *Requires drilling and tapping 4 holes in receiver and relief space cut in stock to clear base.*
21. *Rear base is positioned on top of receiver and front base is positioned on the barrel. Drilling & tapping required. One-piece base mounts with 2 set screws & newer guns are factory drilled & tapped.*
22. *For shorter tube scopes or red dot scopes use #402 extension front base or one-piece base if available. Extension base allows an extra .689".*
23. *WARNING: NOT FOR USE WITH X-FRAME REVOLVERS. USE ON FIREARMS OTHER THAN THOSE LISTED MAY CAUSE INJURY.*
24. *Top mount base is designed to fit 12GA models only.*
25. *Can be used with Tactical Multi-Slot Base.*
26. *Rear base screws must be shortened by grinding.*
27. *Tactical Extended Multi-Slot Bases have 20 MOA versions as well. See product information section on page 13 for details.*
28. *This mount will not work on Ruger Blackhawk pistols with a flattop receiver.*

WEAVER
SINCE 1930

Top Mount Aluminum Bases

Secure mounting starts at the bottom with Weaver bases. Weaver makes rigid, precision bases for every Weaver ring and nearly every kind of gun. In one-piece, two-piece, top and side mount models. Custom-hardened fastening screws come with every weaver base. Top Mount Bases

SIGHTMARK®

Triple Duty™ Universal Bore Sight

A key feature to this device is it doesn't have any additional attachment pieces to be lost. Engineered with a self-centering arbor, the unit attaches into the end of the barrel as opposed to the inside, preventing metal from protruding into the firearm barrel. Simply place the base of the bore sight onto the end of the barrel, and it will attach magnetically. Includes a carrying case, three (3) AG3 batteries, and instructions.

- *Works on all rifles and pistols*
- *More accurate than arbor type bore sights*
- *Precision accuracy • Reliable and durable*
- *Fastest gun zeroing and sighting system*
- *Reduce wasted cartridges and shells • Compact and lightweight*
- *Easy to pack and travel • Comes with a carrying case*

Triple Duty™ Universal Bore Sight *(Red)*	C23ISSM39024	$39.97
Triple Duty™ Universal Bore Sight *(Green)*	C23ISSM39026	$69.97

In-Chamber Boresights - Pistols/Shotguns/Rifles

The Sightmark Laser Boresight provides the most accurate method for sighting in rifles, pistols and shotguns. Simply chamber the boresight like a regular bullet and a laser dot will show exactly where the rifle is aiming. It's easy to sight in any scope without firing a single shot. Perfect for hunters, competitive shooters and law enforcement. It's easy to use and will quickly save both time and money by avoiding prolonged live fire tests at the range. Use the extra ammo for honing shooting skills and for the hunt. The Sightmark Laser Boresight is available in several calibers and gauges for use with all the most popular rifles, shotguns and pistols.

Features: Precision accuracy

- *Reliable and durable • Fastest gun zeroing and sighting system*
- *Reduce wasted cartridges and shells*
- *Compact and lightweight • Easy to pack and travel*

WHEELER

Professional Laser Bore Sighter

The Professional Laser Bore Sighter uses a high power red or green laser and a high-strength magnetic connection to the barrel to deliver fast accurate bore sighting. This system works with virtually all firearms; rifles, shotguns, handguns. The magnetic connection to the end of the muzzle provides more precise alignment with the bore without the risk of damaging the bore, compared to arbor style bore devices. A machined aluminum body with soft rubber over-molding houses the laser module. Each unit is hand tuned during the manufacturing process with an innovative calibration mechanism. This allows for maximum precision, thus ensuring the best bore/optic alignment possible. Once precision calibration is completed the laser module is permanently secured in place insuring reliable performance and durability. Molded plastic storage case included. Runs on a single Lithium 123A battery (included).

- *Makes initial scope adjustment simple, fast and precise*
- *Compatible with a wide variety of guns • Red Laser • Reflective Sighting Grid included*
- *Green Laser is visible in daylight*

SITE MAG LASER

SL-100 Mag Laser Boresighting System

The SL-100 Mag Laser Boresighter combines the latest laser technology with magnetic to provide superior
boresighting accuracy! This unique system uses a combination
of adapters and o-rings to fit all firearms, including .22 to .50 caliber handguns, .22 to .50 caliber Rifles, 20Ga. & 12Ga. Shotguns and Muzzleloader! There are no optional adapters to buy and no metal contacts the rifling. A system of super strength magnets, within the center cone, securely holds the SL-100 in the muzzle to insure repeatable, superior accuracy.

Mag Laser Boresighting System..... C23VZSL100 .....$116.19

Site Lite SL-150 Ultra-Mag Boresighter

Lithium battery extending battery life. Super-strong magnets in the arbor securely centers the laser in the muzzle for consistent accuracy. Adapters and O-rings fit all .22- .50 caliber handguns and rifles; 20- and 12-gauge shotguns and muzzleloaders. No metal touches the rifling of your firearm. To boresight, place the target 25 feet from the muzzle and center the laser on the target. Dial in the scope's crosshairs and you're boresighted for 100 yards.

SL-150 Ultra Mag. Boresighter..... C23VZSL150 .....$163.19

Green Laser Up to 50 times brighter than red lasers!

SL-500 Ultra Mag Green Laser Professional Boresighter

Ultra-Bright XP daylight green laser,long life lithium battery, scope reticle leveler & ballistic targeting software!

Accurately boresights ALL rifles, pistols and shotguns. Fits all calibers from .22 cal. to .50 cal.
Plus 20 ga. and 12 ga. shotguns. No optional arbors required! Now includes our NEW ballistic targeting system software which calculates and prints a calibrated laser boresighting target to your specific requirements! Plus our laser line generator lens adaptor to project a laser line for precise scope leveling.

SL-500 Ultra Mag Green Laser Boresighter..... C23VZSL500 .....$232.29

BREAKTHROUGH CLEAN TECHNOLOGIES

Lens Cleaner Pen

Our safe and easy to use Breakthrough Clean Lens Cleaning Pen is perfect for cleaning optics, eyepieces, and helmet shields. The Breakthrough Clean Lens Cleaning Pen comes with a handy retractable dust removal brush

Black..... C23ANBTLP1 .....$11.99

SME
SHOOTING MADE EASY

Scope Leveler Scope Mount

Streamlined eye-pleasing appearance blends in perfectly with traditional scope rings while helping to eliminate accuracy-robbing canting errors. Easy-to-see offset level helps make immediate corrections without taking eyes off the target. Attaches to your riflescope like a traditional scope ring; halves clamp together with two steel Allen head screws. Aluminum construction, hard-coat anodized, matte black. Reversible design works for left- and right-hand shooters. Models available for 1″, 30mm, or 34mm diameter scopes.
30mm/1" ..... C23GMSMELVLSCP $14.79

Scope Leveler Rail Mount

- Precisely level your scope and crosshairs
- Level allows the shooter to check both the rifle bore and reticle alignment at a glance.
- Constructed of aircraft grade aluminum.
- Attaches to any Weaver-style rail or base.
- White scribed line on housing for quick reference.
- Hex wrench for mounting included

Scope Leveler Rail Mount
C23GMSMELVLRL $10.29

SPOT SHOT
Wi-Fi SCOPE CAM

Wifi Spotting Scope Camera

- Live streaming HD Video
- Universally mounts to wide array of existing spotting scopes (1.0-1.5" diameter eyepiece)
- Rechargeable Lipo battery (estimated 1500 MaH for 8-10 hr battery life)
- Micro USB charging port
- Power button with low battery indicator
- Compatible with current Bullseye app
- Includes Micro USB cable (power only), Microfiber cloth, Black Carry Pouch

C23GMSMESCPCAM $99.99

FIX IT STICKS

Bubble Level Set

Level your optics with machined aluminum levels, featuring precise UK-sourced bubble vials
- Magnetic level
- NATO/Pic rail level/anti-cant device
- Protective foam carrier with pouch

Bubble Level Set ..... C23AFFISBLAB $50.00

Scope Jack

- Works with any scope with a flat section under turrets
- Needs a minimum of 1/4 inch clearance between NATO/Pic rail and scope
- NATO/Pic rail must be accessible under optic
- In cases of minimal clearance, it may be necessary to remove the thumb screw and clamp, then slide the Scope Jack onto the rail from the side and reassemble.

Scope Jack ..... C23AFFISSJACK $42.00

LEUPOLD

Leupold Alumina™ Accessories

Leupold is excited to introduce Alumina™, a thread-on optical accessory system that will help you use the light available to your advantage, protect your optics from dirt, dust, rough handling during transport, and even help them shed water when it's raining. Each accessory and kit will fit 50mm, 42mm, 40mm, 36mm, 33mm, 32mm, 28mm, and 20mm threaded objective lenses on Leupold riflescopes manufactured after 2004. Eyepiece accessories fit any Leupold standard or Ultralight eyepieces made after 2004. Earlier scopes can be retrofitted with threading.

Eyepiece Lens Cover

Objective Lens Cover

Covers Flip-Back

Alumina Flip-Back Lens Covers

Features: powerful neodymium magnets to hold them securely closed and triple O-ring seals for maximum protection from the elements. Their machined-aluminum precision construction, quick and easy operation, and a low-profile position when open make our flip-back lens covers stand above the rest Alumina flip-back lens covers are available in a variety of sizes for both eyepieces and objectives.

Reversible Scope Cover

Protects your scope or non-magnifying scope from dirt, dust, and scratches. Reversible, with Mossy Oak Break-Up Country and Black. Use in the field or in storage. Small: Fits scopes up to 10″, 40mm lens Large: Fits scopes up to 15″, 56mm lens

Large..... C23AN20173 .....$9.79

SCOPE EYE™ RIFLE SCOPE RECOIL PAD

Fits 1.4" to 1.6" Eyepieces

Serious eye and facial injuries can result from quick or off-balance shooting when using scope mounted rifles-especially with the use of an unfamiliar r big bore firearm when eye relief of the scope is not known. Most eye ends are made of metal or hard rubber. The SCOPE EYE™ is designed to reduce the risk of injuries from such scopes. It's made from a soft, stretchable plastic rubber material and slips directly over the scope eyepiece.

Scope Eye ..... C23QU310013 .....$2.79

BUTLER CREEK

Note:* The Best way to assure proper fit is to measure the outside diameter of your scopes eye piece & objective lens.

FLIP-OPEN® Scope Covers

"Custom Fitted for Maximum Protection"

Simply the ultimate scope lens protection for hunters and shooters. They're custom-fit to your scope, create a watertight, airtight seal, and open with a touch of your thumbs, so you can put your shot through the narrow window of opportunity in the most extreme conditions.

- *Fast, flip-open design – keep your eye on the target*
- *Silent spring hinges won't spook game*
- *Weigh less than an ounce • Water-tight, custom-fit friction mounts*
- *Air-tight semi-O-ring keeps out dust and moisture*
- *Tested to –40°F • Truly ambidextrous*

For eye and objective lens covers to fit your particular scope, consult the Scope Cover Size Chart on the following pages. Find your scope model, then refer to the catalog number listed with it from the list below. For scope models not listed on the scope size chart, measure the outside diameter of the eye & objective ends of the scope. Select the eye/obj that is closest to your measurement from the list below.

Fit Range is .01 under to .025 over these measurements.

Tini-Bikini® Scope Covers

One-size-fits-all compact pistol/shotgun .It's shorter to ensure a waterproof fit on these scopes. It's a no-hassle, quick-clearing, one-piece cover. Lifetime Warranty.

Tini-Bikini Scope Cover ..... C23BC19001 ..... $5.99

Bikini Scope Covers

A highly effective lens-protection system at a great price – a long-time favorite with hunters and shooters everywhere.

- *One-piece, quick-clearing design.*
- *Two pliable rubber-like caps joined by stretch retainers to provide a tight dustproof, moisture proof seal*
- *Ideal for storage, transport and field use.*
- *Fits riflescopes with objective bells up to 62mm outside diameter.*

Bikini Scope Cover ..... C23BC19000 ..... $6.49

Blizzard™ Scope Cover Center

Clear your sight with quality see-thru covers

Our famous flip-open lens cover design with clear windows for fast target acquisition at close to medium ranges.

- *Lenses crafted of optical-grade polymers for optimum clarity and light transmission – the best of any see-through cover*
- *Creates a weather-resistant seal • Ambidextrous open and close.*
- *Silent, spring-loaded operation • Tested reliable in extreme conditions.*
- *For objective and ocular lenses*

Razor™ HD 4000

The extremely effective angle compensated laser rangefinder features four targeting modes (Normal Mode, First Mode, Last Mode and Extended Laser Range Mode) for any ranging environment. The primary HCD (Horizontal Component Distance) range mode provides key angle compensated range information required by the vast majority of shooters in a simple, quick to read display. The Razor HD 4000 also has a LOS (Line of Sight) range mode and scan feature.

- *Range: 4000yds (reflective / 2500yds (Tree) / 2200yds (Deer)*
- *Accuracy: .5 yds • Max Angle Reading: +/-70° • Objective Lens: 25mm*
- *Eye Relief: 16-19mm • Length: 4.4" • Weight: 9.9 oz.*
- *HD Optical System • XR™ Plus Fully Multi-Coated • ArmorTek® • Waterproof*
- *Rugged Design • Rubber Armor • Magnesium Chassis*
- *Horizontal Component Distance (HCD) mode • Line of Sight (LOS) mode*
- *All Weather Capable ranging • Diopter • Tripod Adaptable*

Razor™ HD 4000 ..... C23VOLRF250 ..... $499.99

Viper® HD 3000

Open country or in tall timber, precision and speed mean the difference between filling your freezer and tag soup. The Viper® HD 3000 laser rangefinder gives you the tools to act quickly and confidently, with a 3,000-yard max range and a stunning HD optical system that lets you pinpoint big game faster at distance. Four target modes (Normal, First, Last, ELR) and two ranging modes (LOS, HCD) mean you get the flexibility to range any shot on any hunt, making the Viper® HD 3000 perfect for the treestand and the mountains.

- *Magnification: 7x • Objective Lens Diameter: 25 mm*
- *Reticle: HCD Corrected Shoot-To Range • Eye Relief: 15.5 mm • Length: 4.2 inches*
- *Weight: 9.1 oz • Range Tree (yards): 2300 yds • Range Deer (yards): 2000 yds*
- *Range Reflective (yards): 3000 yds • Angular Field of View: 6 degrees*
- *Max Angle Reading: + / - 89 degrees • Linear Field of View: 314 feet/1000 yards*
- *Width: 1.7 inches*

Viper HD 3000 ..... C23VOLRFVP3000 ..... $399.99

Crossfire® HD 1400

If you're on the hunt for the perfect go-to laser rangefinder for bow and rifle hunters alike, you've found it in the Crossfire™ HD 1400. The Crossfire® HD 1400 has everything you need and nothing you don't. With a 1,400-yard max range (750 on deer), you get plenty of power to range and, thanks to the HD optical system, you'll have the power to pick apart any landscape. To match any hunting environment, the Crossfire® HD 1400 has three target modes (Normal, First, Last) and two ranging modes (HCD and LOS). A red TOLED display keeps the readout clear in any lighting conditions and, at just 4.8 ounces, the Crossfire™ HD 1400 hunts hard and carries light.

- *Magnification: 5x • Objective Lens Diameter: 21 mm*
- *Reticle: HCD Corrected Shoot-To Range • Eye Relief: 16 mm • Length: 4.0 inches*
- *Weight: 4.8 oz • Range Tree (yards): 950 yds • Range Deer (yards): 750 yds*
- *Range Reflective (yards): 1400 yds • Angular Field of View: 7 degrees*
- *Max Angle Reading: + / - 89 degrees • Linear Field of View: 367 feet/1000 yards*
- *Width: 1.3 inches*

Crossfire® HD 1400 ..... C23VOLRFCF1400 ..... $199.99

Diamondback® HD 2000

When your hunt means ranging big game at 1,000 yards and beyond, your laser rangefinder needs the horsepower to go long and the toughness to stand up to the field. The Diamondback® HD 2000 laser rangefinder gives hunters 2,000 yards max range, and 1,400 yards on game. 7x magnification helps you see farther, and an HD optical system means you can pick apart the landscape and stay pinpointed on your quarry. The red OLED display stays clear in low light, and to match any hunting environment, the Diamondback® HD 2000 has two target modes (Normal and Last), two ranging modes (HCD and LOS), and is tripod adaptable.

- *Magnification: 7x • Objective Lens Diameter: 24 mm*
- *Reticle: HCD Corrected Shoot-To Range • Eye Relief: 16 mm • Length: 4.1 inches*
- *Weight: 7.6 oz • Range Tree (yards): 1800 yds • Range Deer (yards): 1400 yds*
- *Range Reflective (yards): 2000 yds • Angular Field of View: 6.4 degrees*
- *Max Angle Reading: + / - 60 degrees • Linear Field of View: 335 feet/1000 yards*

VORTEX OPTICS

FURY® HD 5000 AB

The next generation Fury® HD 5000 AB takes the guess work out of dialing long-range shots with in-display ballistic data and built-in environmental sensors and wind bearing capture mode, which means less time calculating ballistics and more time putting rounds down range

With the Applied Ballistics® Elite solver built right in, you can pair with the FURY HD app to create custom ballistic profiles, and with popular Kestrel® and Garmin® devices for the ultimate in real-time precision. Put simply, it's a smarter way to shoot.

• HD Optical System • Dielectric Coating • XR™ Fully Multi-Coated • Phase Correction • ArmorTek® • Rubber Armor • Fogproof • Tripod Adaptable

10x42mm Fury HD 5000 AB ..... C23VOLRF302 ..... $1499.99

Crossfire® HD Binoculars

You know what they say about people who assume you can't get HD optics, rugged performance and high end form-factor in a value-price binocular? They clearly haven't checked out the Crossfire® HD. Add in the included GlassPakTM binocular harness for quick optic deployment in the field and superior protection and comfort - The Crossfire® HD truly is a rare find.

• Fully Multi-Coated Lenses • Roof Prisms • Waterproof • Fogproof • Rubber Armor • Adjustable Eyepiece • Center Focus Wheel • Right Eye Diopter • Tripod Adjustable

EI SWAROVISION Binoculars – FieldPro Package

The new FieldPro package has enabled SWAROVSKI OPTIK to enhance the EL Family in terms of comfort and functionality. The new rotating strap connector with a cord adapts perfectly to any movement.
The bayonet catch enables you to fit and switch the carrying strap and accessories very quickly and flexibly. With a simple turn of its practical quick catch button you can rapidly and silently adjust the carrying strap to the right length. The objective lens covers blend esthetically into the overall design and also remain securely attached to the binoculars thanks to the innovative connector. The focusing wheel can also be used more easily, thanks to its softer, fully armored, and more slip-resistant design. The diopter adjustment's new lock function ensures that your personal settings cannot be changed.

SWAROVSKI OPTIK

ATC/STC 17-40x56mmm Spotting Scope

Small dimensions, outstanding optics: Thanks to its length of 258 mm (10.2 in), the ATC spotting scope with angled view will fit in any backpack. A weight of just 970 g (34.2 oz) makes it a top choice for tours in rough terrain and remote areas. The clever half shell makes it easier to position on a surface without a tripod and allows unimpeded turning of the focusing and zoom wheel at all times. In combination with the VPA, the ATC is ideal for digiscoping. The carrying strap adds the perfect finishing touch.

• Magnification: 17-40x • Objective Lens Dia: 56mm • Exit Pupil: 3.1-1.4mm
• FOV: 3.52-1.93° • 88% Light Transmission • 34.2 oz.

STR 80 Spotting Scope w/20-60x Eyepiece

MRAD Reticle

Thanks to its crystal-clear HD optics and 80-mm objective diameter, the STR 80 spotting scope provides impressive detail recognition, as well as bright, lifelike images, even in poor lighting conditions. The STR 80 spotting scope's reticle, which can be activated and deactivated, allows you to comfortably switch between accurately estimating distances and uninterrupted viewing. It is also perfect for documenting events while digiscoping. The powerful HD optics with fluoride-containing lenses and the reticle with MOA impact point correction make the perfect total package for accurate observation.

• Effective objective lens diameter (mm): 80
• Shortest focusing distance (ft / m): 19 / 6 • Objective filter thread: M 82 x 0.75
• Diopter correction at ∞ (dpt): > 5 • Diopter correction reticle: ± 5 dpt
• Functional temperature: -40 °F to +131 °F (-40 °C to +55 °C)
• Storage temperature: -40 °F to +158 °F (-40 °C to +70 °C)
• Submersion tightness: 13 ft (4m) water depth (inert gas filling)

STR 80 Spotting Scope - w/ 20-60x Straight Eyepiece ..... C23SS86831 ..... $4778.00

BTX Eyepiece Module

The BTX combines the visual power of both eyes with a revolutionary viewing experience. Crucial subtleties can be seen with the crystal clear optics, with every detail now fully on show. A forehead rest and angled view guarantee comfortable viewing for hours on end. The benefits of binoculars and spotting scopes are combined in the BTX eyepiece module. It presents vivid, true-to-life images and offers the comfort required for long-term observation. The BTX eyepiece module is compatible with all objective lenses in the SWAROVSKI OPTIK ATX/STX range.

• Length: 6.9" • Weight: 50 oz
• Submersion Tightness: 13 ft. water depth

BTX Eyepiece Module ..... C23SS49903 ..... $3099.00

ATX Eyepiece Module – Angled

This Swarovski ATX Modular Spotting Scope Eyepiece features an angled eyepiece to ensure precision detail up to the edge of the field of view. This spotting scope eyepiece utilizes SWARODUR, SWAROCLEAN, and SWAROTOP technology to guarantee vivid imagery with every use. The Swarovski ATX Modular Spotting Scope Angled Eyepiece features side-by-side focusing and zooming rings, which enables you to locate and zoom in on your subject quickly and easily without losing sight of your subject. This eyepiece also offers a magnification range of up to 70x and can be mounted to ATX-65, ATX-85, and ATX-96 spotting scope assemblies.

ATX Module Eyepiece – Angled ..... C23SS49901 ..... $2599.00

20-60x Eyepiece Module

The 20-60x variable eyepiece by SWAROVSKI OPTIK provides bright, crystal clear images right up to the image periphery over a wide range of magnification.

• Magnification: 20-60x • FOV @ 1000yds: 108-60'
• Exit Pupil: 17mm • Length: 3.4" • Weight: 9.2 oz.

Nikon®

Monarch® Fieldscope with MEP-30 Eyepiece

- Fully Multicoated Optics - Multiple layers of anti-reflective coating on all air-to-glass surfaces maximize the light transmission, brightness and contrast
- ED (Extra-low Dispersion) glass reduces chromatic aberration to a remarkable degree, providing clear images with superior contrast
- Glass-Etched Tactical Reticle (FS-MOA Eyepiece) integrates milling scale for highly detailed measurement of targets
- Long Eye Relief keeps your brow safe
- Field Flattener delivers sharp images all the way to the edge of the field of view
- Waterproof O-ring sealed to prevent moisture from entering body
- Nitrogen Purged for total reliability against thermal shock and internal fogging
- Tripod Adaptable - ability to use tripod adapter to mount to tripod

Monarch® Fieldscope - Angled - FS-MOA Eyepiece ..... C23NK16687 ..... $1708.80
Monarch® Fieldscope - Angled - FS-MRAD Eyepiece ..... C23NK16686 ..... $1708.80

Monarch MEP-30 Eyepiece

The new MEP-30 reticle eyepieces allow a spotter to locate and focus on the same target in the reticle as the shooter and then communicate reference points and follow-up shot corrections. Integral FS-MRAD or FS-MOA reticle includes milling scale for highly detailed measurements of targets. Can be fitted to straight or angled body 82mm or 60mm MONARCH Fieldscopes. 30x magnification on 82mm Fieldscope bodies and 24x magnification on 60mm Fieldscope bodies.

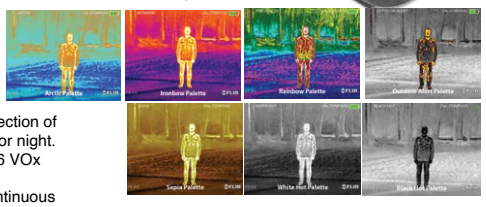
Nighthunter H35

The heart of Nighthunter H35 is Quantum Vision.
A perfect combination of a state-of-the-art thermal sensor, outstanding display quality and proprietary software.
Quantum Vision technology, together with outstanding usability, handling and legendary ruggedness, creates the thermal hand scanner you've been waiting for!



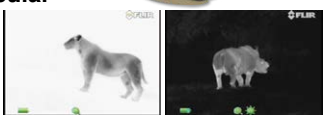
- *Exceptional Optical Performance - Quantum Vision*
- *Rugged Durability - Designed to operate in all conditions*
- *Easy to Use - Manual Objective Focus*
- *Long-Lasting Battery Life - Rechargeable Internal Battery*
- *Internal Recording - Push of a Button*
- *Mobile App - Optional Control and Recording*
- *The Sharpest Thermal Images: 640x512 Thermal Sensor*
- *Real-Time Imagery: Fast and Smooth Automatic Calibration*
- *Clear Pictures of Moving Targets: High Frame Rate*

Nighthunter H35 Handheld Thermal..... C23ST9520 ..... $3999.99

Breach PTQ136

Built for the rigors of law enforcement, the FLIR Breach PTQ136 spots the heat of suspects and objects in total darkness. Featuring the new FLIR Boson core and a compact design, the FLIR Breach offers unmatched tactical awareness. Weighing only 7.4 ounces (210 grams), the FLIR Breach can be concealed in a pocket or mounted to a helmet with its mini-rail feature, while adding minimal weight to officers' heavy gear. Additional features include onboard recording and seven palettes for fast detection of suspects or evidence, day or night.

- Detector Type - 320 x 256 VOx Microbolometer
- Digital Zoom - 1x - 4x continuous
- Field of View [H x V] - 24° x 19°
- Image Processing - FLIR Proprietary Digital Detail Enhancement™
- Internal Memory - Up to 1,000 images and 2.5 hours of video on internal memory
- Package Includes - Thermal Monocular, CR123A Battery, Lens Cloth, Hard Case



Breach PTQ136 Monocular..... C23FIPTQ136 ..... $2899.00

Scout III Thermal Vision Monocular

Scout III is the next generation of FLIR's field-proven line of compact thermal night vision monoculars. Offering enhanced performance with 30Hz imaging, and advanced image processing. Scout III displays the heat emitted by animals, humans, and terrain—day or night—and has multiple applications for legal hunting, camping, land management, and outdoor recreation.

Features:

- See clearly at night - Creates crisp, clear thermal imagery in all lighting conditions
- Reveals the heat signatures of animals up to 550 yards away
- Crisp, clear 640 x 480 display screen
- Power, color palettes, E-Zoom and screen brightness buttons
- Single hand operation • Detector Type: 640 x 512 VOx Microbolometer • Zoom Button: 2x, 4x Zoom • Color Pallettes: Black Hot, White Hot, InstAlert and Graded Fire
- LED Flashlight Task Light /Pointer

Specifications:

- *Field of View (H x V): 18° x 14°*
- *Weight (with battery): 12 oz*
- *5 hour battery life*
- *Size (L x W x H): 6.7" x 2.31" x 2.44"*
- *Operating Temp: -4°F to 122°F*
- *30 Hz Refresh Rate*

Trijicon®

IR-HUNTER®
Mini Thermal Riflescope

The IR-HUNTER® mini thermal riflescope is a rugged and powerful thermal riflescope that is also easy to use. The heart of the system is a state-of-the art 640x480, 12 micron thermal image sensor that provides superior image quality in any lighting condition. Redesigned electronic hardware and a new digital turret controls improve system response and enable the use of external USB power sources and digital video recorders. It's engineered to last and built in the USA.

• Intuitive Turret Controls
• Expanded Functionality:
New USB-C connector • Redesigned internal battery compartment
• Quick release mount featuring Trijicon® Q-LOC™Technology
• User-selectable reticle choices include the classic crosshair, and new MRAD, MOA, .223 REM, .308 WIN, and 300BLK BDC • 640x480 Thermal Sensor
• 12 Micron Technology • Made in the USA

• Includes: Mini Picatinny Rail Mount, USB-C to USB-C Cable, Quick Reference Guide, Inline analog video adapter, User Manual, 2 CR123 Batteries, Trijicon Logo Sticker, Shuttered Eye Guard, Warranty Card, LENSPEN, Hard Case

IR-HUNTER 24mm

• 9.6"L x 3"W x 3.2"H
• Magnification: 1.2x
• Sensor Type: VOx • Sensor Resolution: 640x480
• Objective Size: 24mm • Weight: 28.4oz
• FOV: 18° Horizontal • Digital Zoom: 8X
• Frame Rate: 30 Hz / 60 Hz • QLOC Mount
C23TRHUNTER242 ..... $6694.00

IR-HUNTER 35mm

• 9.8"L x 3"W x 3.2"H
• Magnification: 1.75x
• Sensor Type: VOx • Sensor Resolution: 640x480
• Objective Size: 35mm • Weight: 29.1oz
• FOV: 12° Horizontal • Digital Zoom: 8X
• Frame Rate: 30 Hz / 60 Hz • QLOC Mount
C23TRHUNTER352 ..... $7724.00

IR-HUNTER 60mm

• 11"L x 3"W x 3.2"H

TALION XQ38

- Multi-point prism mount for exact positioning on a rifle
- Rapid extraction battery mechanism
- 9 hours of work on a single charge
- All control elements in direct access
- Focus adjustment with tactile marker set for nighttime shot.
- Lightweight and rugged magnesium alloy housing • 3 sensitivity amplification levels
- Variable magnification 2.5x-10x
- Pro-grade sensor with thermal sensitivity <40mK
- Photo and video recording • A selection of 10 reticle shapes in 9 colour modes
- Wi-Fi integration with iOS and Android devices. Stream Vision 2 application.
- Waterproof IPX7 housing • High caliber recoil resistance: 12 gauge, 9.3x64, .375H&H
- 5 shooting profiles / 50 zeroing distances • Precision aiming in the "Picture-in-picture" mode
- A selection of different colour palettes

Powder Checker

A simple, effective way to visually check powder charges when you use a progressive press. The Powder Checker sits between the powder charging and bullet seating stations. Using a probe rod, it lets you visually confirm that the case is properly charged with powder before bullet seating. In addition to spotting a "no charge" condition, the Powder Checker shows low and high charges too. Black oxide finish provides contrast for better visibility. For use with straight-wall or bottleneck rifle and pistol cases, .22 caliber and larger.

Powder Checker.....C23RC87590 .....$34.99

RCBS Turret Press

- Six-station turret head allows many combinations in the mounting sequence of dies
- May be operated in progressive or single-stage mode; in progressive mode, output can be increased from 50 to 200 rounds per hour
- Rugged, cast iron frame, toggle block and turret head
- Standard 7/8 inch-14 threads
- The turret head is held in place by one bolt for quick, easy changeovers
- Turret Pin Assembly and Ball Handle Assembly may be positioned for right- or left-hand use
- Standard Shell Holders slip into press ram and are securely held in place by a clip spring
- Primer Plugs and Sleeves are supplied for seating large and small primers
- Primers are seated away from stacked primers
- Safety tube included
- Primer Catcher keeps spent primers on floor
- Baked epoxy finish is chip- and fade-resistant and allows for quick, easy cleaning

RCBS Turret Press..... C23RC88901..... $336.99
Extra Turret Head..... C23RC88902..... $61.99

Chamber/Cartridge Gauge

Pistol Powder Expanders - Pro 2000™

Progressive pistol cartridge reloaders are starting to run out of stations on their press. If you recently added the Pistol Bullet Feeder to your process, you either gave up your Powder Check or Lock Out station or combined bullet seating and crimping into one operation. Using the Expanders in your Case Activated Uniflow Powder Measure allows you to move Expansion and Powder drops to station two on your press.

Die Plate & Shell Plate Rack

Keep Pro 2000® die plates and five station shell plates organized. This handy rack can be mounted horizontally on a reloading bench or vertically on the wall. The stamped steel rack securely holds a reloader's pre-set die plate and a side slot keeps the five station shell plate in place. An identification label is also included. *Plate & Shell Holders Not Included*

Die Plate/Shell Plate Rack ..... C23RC88881 ..... $20.49

Case Activated Linkage Kit

Convert the Uniflow Powder Measure (not included) for use on most four or five-station progressive presses. The Uniflow Powder Measure can have the regular Measuring Screw or the optional Micrometer Adjustment Screw installed, depending on your preference. Three powder bushings are included for most popular rifle and pistol calibers: Small Rifle for .22 through .270 calibers, Large Rifle for 7mm through 45 calibers and Pistol for .32 through .45 calibers. The powder bushings are designed to eliminate powder spillage around the case mouth. Fully adjustable for all of the different variations in case length.

Case Activated Linkage Kit
C23RC98911 ..... $115.49

Summit Single Stage Reloading Press

This press will work with standard 7/8"-14 threaded dies, 1" die bodies with (adaptors, sold separately). The design mounts the entire press to the top of the bench and actually lowers the die down to the case. This press is ambidextrous. The 4.5" opening gives ample room for sizing the largest cases reloaders need to size. This press has a massive 2" diameter ram with a Zerk fitting. The spent primer catcher is in a very convenient location under the Shellholder and the press is manufactured right here in the USA.

Summit Reloading Press .... C23RC9290 ..... $261.49
Short Throw Handle..... C23RC9291 ..... $17.49

Bullet Feed Die - Pistol

Crank out ammo in no time. This Pistol Bullet Feed Die allows the progressive pistol loader to leave the feed die set up on the removable die plate for quick caliber changeovers. The popular Bullet Feeder shortens reloading sessions while increasing load rates by approximately 50%. Rather than reinstalling on die plates and adjusting bullet fingers and guides, simply install another Bullet Feed Die to save more time during caliber change overs. Includes Feed Die body, one set of bullet fingers and a retaining clip.

Bullet Feed Die-Pistol..... C23RC82351 ..... $28.99

Progressive Press Lock-Out Die

The Lock-Out Die detects a "no powder" or "double charge" condition in the progressive reloading process. It locks up, halting the travel of the ram, and alerting the reloader to the problem so the cause can be corrected. It will not let reloaders continue without removing the improperly charged cartridge. The Lock-Out Die is for use with straight-wall pistol calibers, 9mm and larger, and only on progressive reloading presses.

Lock-Out Die ..... C23RC87540 ..... $57.49

Powder Die

The Powder Die allows the Case Activated Powder Measure (CAPM) to be quickly moved from one Die Plate to another.

Powder Die
C23RC98912 ..... $43.49

Powder Die Funnel Adapter

The Powder Die Funnel Adapter lets users pour weighed charges into the case at the powder drop station of their RCBS Powder Die equipped progressive press without removing it from the die plate.

Powder Die Funnel Adpt. ..... C23RC98913 ..... $8.99

AmmoMaster® .50 BMG Pack

The AmmoMaster .50 BMG Pack makes reloading for the .50 Browning Machine Gun cartridge a simple task. Manufactured to accept RCBS® 1 1/2-inch .50 BMG dies, along with the massive 1 1/2-inch solid steel ram, it provides more than enough strength to handle the .50 and wil provide a lifetime of service. This kit includes the press, Full-Length Sizer, Seater Die, Shell Holder, Ram Priming Unit and Trim Die in one convenient box. The only extras required are cartridge components and the rifle to fire them.

• Includes the press, Full-Length Sizer, Seater Die, Shell Holder, Ram Priming Unit and Trim Die

.50 BMG Pack ..... C23RC88700 ..... $753.99
Shell Holder Adapter ..... C23RC88715 ..... $26.99
.50 BMG Shell Holder ..... C23RC88746 ..... $28.49

Fold Up Hex Key Set

Eight heat-treated hex keys fit most hex head screws on RCBS® equipment. Key sizes: .050",1/16", 5/64", 3/32", 7/64", 1/8", 9/64" and 5/32". Handy and easy to locate on the bench when you need a hex key.

Fold Up Hex Key Set..... C23RC98975 ..... $9.49

Universal Hand Priming Tool

This tool uses a universal shellplate which will accept virtually any case from the tiny 32 ACP to the large 45-70 Government, eliminating the hassle and expense of using shellholder. The tool also features a patented safety gate which helps to isolate the primer seating operation from the primer supply virtually eliminating the possibility of tray detonation. The removable primer tray correctly positions the primers before they are seated and will work with any manufacturers primer packaging.

Universal Hand Priming Tool..... C23RC90201 ..... $71.99

Hand Priming Tool

A patented safety mechanism separates the seating operation from the primer supply, virtually eliminating the possibility of tray detonation. Fits in your hand for portable primer seating. Primer tray installation requires no contact with the primers. Uses the same RCBS® shell holders (post-1980) as RCBS presses. Made of durable cast metal. Includes large and small primer plugs.

Hand Priming Tool..... C23RC90200 ..... $49.49

Automatic Priming Tool

Fast, accurate and highly sensitive due to a unique single-stage lever system. Primers feed through the auto primer feed tube one by one, preventing potential contamination by oily fingers. Two primer rod assemblies and two primer feed tubes are included.

Automatic Priming Tool ..... C23RC09460 ..... $110.99

RC Supreme Auto Prime

Attach the proper primer cup and seat plug to the priming arm slide, insert the correct primer tube and safety shield, fill the primer tube and you are ready to prime. The straight push-pull primer arm slide reduces the chances of primers falling out of the primer seat plug.

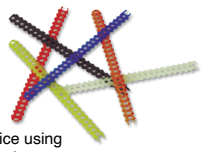
• Tube fed priming system • Safety shield • Speeds up single stage reloading process• Eliminates handling of primers • 100 primer capacity • Push bar operation • Large and small primer pick-up, feed tubes and primer seat plugs included

RC Supreme Auto Prime..... C23RC09358 ..... $60.49

Primer Tray - 2

The square shape makes it easier to handle. Grooved tray surface quickly positions primers anvil-side up.

Primer Tray-2 ..... C23RC09480 ..... $5.49



APS® Primer Strip Loader

push of the handle safely inserts 25 primers into an APS strip for use with the RCBS® APS Priming System.

C23RC88505 ..... $41.49

APS® Unprimed Primer Strips

These strips are color-coded for fool-proof identification. Each strip holds 25 primers. Strips can be loaded with the primer of your choice using the striploader. *Primers not included.*

AmmoMaster®-2

The Ammo Master single stage press has been improved with the installation of the longer support columns and larger toggle block found on our AmmoMaster .50 BMG press. While still set up to use standard 7/8"-14 thread dies and standard shell holders to load most any pistol or rifle caliber, the addition of the .50 BMG 1-1/2" Die Kit (88705) will allow you to load from .25 ACP to .50 BMG. The .50 BMG 1 1/2" Die Kit contains a Full Length size die, Roll Crimp Scat Die, Trim Die, .50 BMG Shell Holder and .50 BMG Ram Priming Unit. The .50 BMG 1-1/2" *Press Conversion Kit contains all the parts necessary to modify your Ammo Master (88701) to accept RCBS's 1-1/2" .50 BMG dies (not included). With the addition of the .50 BMG 1/2" Die Kit (88705) you are all set to start loading the powerful .50 Browning Machine Gun.*

Designed for fast, accurate primer seating. Primer plugs and sleeves included for large or small rifle and pistol primers .Changing sizes is fast and easy—less than 60 seconds. Fits Rock Chucker® II, JR, Reloader Special & most "C Presses.

Univ. Primer Arm-2 ..... C23RC09550 ..... $15.49
Primer Plug & Sleeve, *Large* ..... C23RC09552 ..... $4.49
Primer Plug & Sleeve, *Small* ..... C23RC09553 ..... $4.49

Automatic Primer Feed Combo

Drops primers one at a time into the Primer Plug and sleeve. Stops misfires. Nylon primer pick-up keeps primers from falling out. Tube capacity 100 primers. For Rock Chucker® II Press; also fits JR and Reloader Special

Auto Primer Feed Combo ..... C23RC09580 ..... $31.49
Auto Primer Feed Tube, *Large* ..... C23RC09581 ..... $13.49
Auto Primer Feed Tube, *Small* ..... C23RC09582 ..... $13.49

.50 BMG Military Crimp Remover

Designed to be used with the Accessory Handle or on the Trim Mate Case Prep Center, the .50 BMG Military Crimp Remover cuts away the primer pocket crimp found on military .50 BMG brass, allowing the handloader to easily reprime their cases.

Military Crimp Remover ..... C23RC9562 ..... $34.49

Ram Priming Unit

The Ram Priming Unit gives reloaders better feel by seating the primer at the top of the press stroke. Reloaders can also preset a positive stop to speed the process. It works with any single-stage or turret press with 7/8-inch-14 threads and an RCBS® type single-stage shell holder. The unit includes large and small primer rod assemblies for Boxer-type rifle and pistol primers.

Ram Priming Unit ..... C23RC9165 ..... $32.99

RCBS® Shell Holder

• Limited lifetime Warranty • Made in the U.S.A.

.50 BMG Priming System

Provides a dedicated bench mounted system that allows handloaders to easily reprime their cases. The primer tube holds (20) .50 BMG primers and features a Safety Shield Tube. Primer pick-up tube, flat and oval primer seat plugs included.

.50 BMG Priming System ..... C23RC9560 ..... $164.49

.50 BMG Carbide Primer Pocket Uniformer

Designed to be used with the RCBS® Accessory Handle or on the RCBS Trim Mate Case Prep Center. Utilizes a carbide cutter to square the bottom of the primer pocket and uniform the primer pocket depth. This allows the handloader to easily seat primers to a consistent depth for reliable ignition.

Carbide Primer Pocket Uniformer ..... C23RC9561 ..... $57.49

Media Sifter

Attach the Media Sifter to the Vibratory Case Cleaner and turn on the cleaner. Allow the Case Cleaner to run until all the media is emptied back into the bowl.

Case Media Sifter C23RC87075 $13.99

Scale & Equipment Covers

A soft vinyl cover helps to preserve your equipment's accuracy, sensitivity, and repeatability.

For Powder Measure ..... C23RC86880 ..... $14.99
Trim Mate® Cover *c/o* ..... C23RC90382 ..... $13.99

Case Slick Spray Lube

Case Slick is an exclusive formulation that provides exceptional lubricity for resizing or forming of metallic rifle and pistol cases. Reducing their sizing force makes the process easier on reloaders and their brass.

Case Slick ..... C23RC09315 ..... $9.49

Case Lube Kit

Properly clean and lube cases for resizing the simple way with this complete kit. It includes the RCBS® Case Lube Pad, a 2-ounce bottle of Case Lube—2 and two interchangeable Case Neck Brushes for 22 through 30 caliber.

Case Lube Kit ..... C23RC9336 ..... $22.49
Case Lube Pad - Only ..... C23RC09307 ..... $10.49
Case Lube 2 - Only ..... C23RC09311 ..... $4.99

Precision Mic™

A few twists of the Precision Mic™ and you'll know your chamber headspace and bullet seating depth to 0.001 of an inch. The Precision Mic measures from the datum point on the case shoulder to the base, giving you spot-on SAAMI tolerance readings. An indispensable tool for safe, accurate loads that extend the life of your rifle brass.

Precision Mic *(Each)* $64.49

Dust Cover ..... C23RC90382 ....$13.99

Case Neck Turning Accessories

Two tools for fast, easy removal of excessive neck thickness, or variation in case thickness. It guides the cutter over the sized cartridge case neck and is supported by the pilot/ reamer. The Auto Feed Attachment (for Case Trimmer-2 and Trim Pro) advances the cutting tool over the case neck with each turn of the trimmer handle.

Case Neck Turner *w/Auto-Feed* ..... C23RC98860 .....$86.49
Case Neck Turner *Only* ..... C23RC98861 .....$39.49

Case Prep Kit

The case prep kit is ideal for the handloader looking to get everything they need to prepare brass like a boss in one convenient package.

- Brass Boss
- Universal Case Loading Block • Hex Key Kit
- Manual Case Trimmer • Hand Priming Tool
- Case Slick Spray Lube • Stainless Steel Calipers

Case Prep Kit ..... C23RC9304 ..... $428.49

Hand Case Neck Turner

The RCBS Hand Case Neck Turner is designed to "peel" the brass from the outside of your case necks to a consistent thickness.
Most commercially available brass has variances in the case neck thickness.
This leads to case neck concentricity and bullet run-out issues. Truing up the case neck produces more consistent and accurate hand loaded ammunition.

Hand Case Neck Turner ..... C23RC90401 .....$70.49
w/Quick Change Case Holder
Quick Change Case Holder ..... C23RC90402 .....$36.99

Easy-Melt™

The RCBS®

Easy-Melt™ lead/ladle pot is a necessity for those who love to cast lead bullets with a traditional ladle. The pot's 25-pound capacity is enough to cast hundreds of projectiles.
The programmable temperature control has a digital readout to ensure accuracy. A hinged cover warms moulds while keeping out debris. The Easy-Melt™ lead/ladle pot is a traditional option for those who love to manufacture bullets.

- *25-pound capacity*
- *Programmable digital temperature control*
- *Hinged pot cover • Limited Two Year Warranty*

Easy-Melt™ *(120VAC-US)* ..... C23RC81098 ...$149.49
Easy-Melt™ *(240VAC-Inter.)* ..... C23RC81198 ...$172.49

Pro-Melt™-2

The improved RCBS® Pro-Melt™-2 furnace is a necessity for those who love to cast lead bullets. The 25-pound capacity can mould hundreds of projectiles. The programmable temperature control has a digital readout to ensure accuracy, and the bottom-pour design ensures accurate, safe casting. If the first step of hand- loading is manufacturing bullets, the Pro-Melt™-2 is a necessity.

- *25-pound capacity*
- *Programmable digital temperature control • Pot cover*
- *Bottom pour • Limited Two Year Warranty*

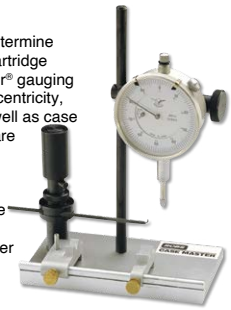
Pro-Melt™-2 *(120VAC-US)* ..... C23RC81099 ...$314.99

Vernier Micrometer

Economical version without the bells and whistles.
All metal body and thimble with silver matte finish. Crisp black numbers and markings for easy reading. Range: 0-1". Reads to .0001 of an inch. Accuracy within .0001".
Ratchet stop on thimble assures uniform application of pressure when measuring. Thimble lock keeps thimble from turning when measuring a constant. Adjustment wrench included. Fitted plastic storage case. Imported.

Vernier Micrometer ..... C23RC87321 ..... $35.99

Mechanical Digital Micrometer



Quick, easy to read. Metal body with satin chrome thimble. White numbers on black background. Outside micrometer has 0-1" range. Mechanical counter reads to .001". Resolution: .0001". Accuracy within .0001". Ratchet stop on thimble applies even pressure for measuring. Thimble lock stops thimble from turning when measuring like objects. Adjustment wrench included. Fitted wooden storage case. Imported.

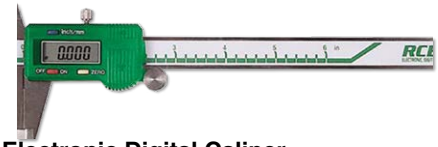
Mechanical Digital Micrometer ... C23RC87322 ..... $60.49

Pricing subject to change without notice. Not responsible for typographical errors.

RCBS®

The Case Master®

A quick, convenient way to determine several important case and cartridge dimensions. The Case Master® gauging tool measures case neck concentricity, uniformity and thickness, as well as case length and bullet run-out. All are important to accuracy and safety. Detects case head separation before symptoms are apparent on the outside of case.
Much quicker than a dial caliper and makes a tedious job simple and less tiring.



- *Dial indicator accurately displays various measurements to .001" for the discriminating handloader who demands a higher level of ammunition performance.*
- *Has the ability to measure case neck thickness*
- *Fully-adjustable V blocks to securely position the size for accurate measure • Compact base for convenience*
- *Incorporates case head separation detection*

The Case Master® ..... C23RC87310 ..... $142.49

Primer Pocket Swager

This dedicated bench mounted Primer Pocket Swager Tool makes removal of primer pocket staking/crimp a simple task. This has become especially important due to the popularity of AR-platform rifles, which has resulted in much commercial ammunition having staked primer pockets. The rugged die cast aluminum base, hardened steel cam and foam padded grip handle require 35-percent less force than other tools to complete the job.
Includes Small and Large steel swaging heads and rods to accommodate cases .22 caliber and larger.
Primer Pocket Swager ..... C23RC9474 .... $106.49

Electronic Digital Caliper

Instant reading. Very easy to use. Hardened stainless steel body for prolonged tool life. Switches from inches to millimeters with the touch of a button. Range of 0-6"/0-150mm. Accuracy +/- 0.001"/ 0.02mm. Resolution: 0.0005"/0.01mm. Large, easy to read numbers, reduces error—no guessing. Adjusts to zero at any position. Measures internal, external, depth and step dimensions. Jaw depth measures 1-1/2" outside, 5/8" inside. Lock holds slide in position for measuring constants. Battery included. Low battery indicator. Fitted plastic storage case. Imported.
Electronic Digital Caliper ..... C23RC87323 ..... $79.99

Stainless Steel Dial Caliper

Hardened stainless steel construction. Matte, non-glare finish. Range 0-6". 0.100" direct reading per revolution. 0.001" graduations. Accurate to +/- 0.001". Four-way measurement capability: inside, outside, depth and step. Shockproof movement for accurate measurements. Clear glass lens protects dial from dust and scratches. Slide may be locked in any position with thumb lock. Dial easily zeroed. Lock screw holds dial in position for precise measurements. Thumb wheel makes for easy opening and closing of the caliper. Fitted hard plastic storage case. Imported.
Stainless Steel Dial Caliper ..... C23RC87305 ..... $51.49

Reloading Scale Check Weight Set

You rely on your scale for safe, accurate powder charges. Over time, accumulated grit and dust can affect accuracy. A quick test with RCBS® Scale Check Weights will tell you if your scale is reading correctly.
Sets include: Standard set of 60.5 grains for powder charges (2x20, 1x10, 1x5, 2x2, 1x1, 1x.5). Deluxe set of 510.5 grains for bullets, cases and powder (1x200, 2x100, 1x50, 2x20, 1x10, 1x5, 2x2, 1x1, 1x.5, 1 forceps).

ChargeMaster™ Supreme

- Bluetooth compatible with free RCBS app
- Can disable audible beep
- 0.1-grain accuracy; 1,500-grain load cell capacity
- Proprietary Powder Learn Process
- Powder hopper drain alarm (patent pending)
- 50 memory slots for favorite and Powder Learn charges
- Available external battery pack adds portability
- 16-segment LCD touchscreen display

ChargeMaster™ Supreme ..... C23RC98943 ..... $429.99

ChargeMaster™ Link

- Bluetooth Compatible with free App
- 0.1 Grain Accuracy
- 2000 Grain Capacity
- Ability to run on external battery pack
- CE Approved 4 Country Universal Power Supply
- 16 Segment LCD Touchscreen Display
- Quick Warm-Up Period
- Sealed Platen to keep powder out
- User serviceable infinite lifeshaft seals
- Optimal dispense tub angle for speed and accuracy
- Ability to disable audible beeps
- Overcharge Warning - Flashing screen

ChargeMaster™ Link ..... C23RC98944 ..... $299.99

MatchMaster Powder Dispenser

- One MatchMaster in Standard Mode can dispense charges at the same speed as THREE ChargeMasters.
- .04 Grain Accuracy in Match Mode
- Dispenses in under 20 seconds
- User adjustable powder dispensing settings
- A tuned MatchMaster can dispense 38.5gr of H4350 in under 7 seconds in Match Mode
- Improved quick-drain feature utilizes a flexible tube to drain powder from the bottom of the 1lb hopper, enabling fast changes from one powder to another.
- Match mode throws a maximum charge of 300 grains; Standard mode can achieve a max charge of 1000 grains
- Bluetooth app increases functionality: Control up to 8 units simultaneously
- Pre-configured powder profiles for easy setup

Save details about specific loads including photos of group sizes, velocities, etc
MatchMaster Powder Dispenser ..... C23RC98941 .... $899.00

ChargeMaster™ Combo

Average dispensing time is under 30 seconds for a 60 grain extruded powder charge. Dispensing can be done in grains or grams mode. Accurately weighs and dispenses all extruded (stick), ball (spherical) and flake smokeless powder from 2.0 to 300 grains to +/- 0.1 grain.
You can store up to 30 of your favorite loads in memory for fast easy recall.
The front to back layout allows easy access to the scale pan by right or left handed users.
Charge Master Combo ..... C23RC98923 ..... $399.99

RangeMaster™ 2000 Electronic Scale

- 2,000-grain capacity • +/-0.1 grain accuracy
- Backlit LCD display • Touchscreen operation
- 9-volt DC or 120/240 VAC four-country power supply
- Two 50-gram calibration/check weights
- Ambidextrous metal scale pan • Dust/storage cover
- Battery saving auto shut off • One-year limited warranty

RangeMaster™ 2000 Electronic Scale
C23RC98945 ..... $153.99

Pocket Scale 1500-grain

- 1500 Grain Capacity
- 0.10 Grain Accuracy
- Easy to Read Digital Display
- Rugged Design
- Powered by 2-AAA Batteries (Included)
- Check weight and Powder Pan Included
- One Year Warranty

Pocket Scale 1500-grain ..... C23RC98914 ..... $34.49

Brass Boss

- Six variable, high-speed rotating stations (four at <350 rpm; two at <550 rpm)
- Two fixed stations for case neck brushes
- Tools included for all stations
- Storage area for tools not in use
- 120-240 VAC for operation in multiple countries
- US, UK, EU and Australian power cords
- 2-year limited warranty

Brass Boss ..... C23RC90390 ..... $192.99

Rotary Case Cleaner

- Drum with ergonomic handle
- Quick locking lid
- ON/Off fused switch
- Includes 5 lbs. stainless pin media
- Quiet Belt Drive motor
- Drum Rotation 60 RPM
- Limited Two Year Warranty
- 7.4 qt capacity (7.0l)
- 0-3 hour timer
- International compliance

Rotary Case Cleaner (120 VAC)
C23RC87001 ..... $198.49
Rotary Case Cleaner (240 VAC International)
C23RC87006 ..... $221.99

M500 Mechanical Scale

- 505-grain capacity • Accurate to within 0.1 grain
- Right- or left-handed operation • Two-poise design
- Magnetic dampening • Leveling foot
- Ambidextrous metal scale pan
- Grain-to-gram conversion chart

M500 Mechanical Scale ..... C23RC98915 ..... $98.99

M1000 Mechanical Scale

The M1000 mechanical scale gives users 1,000-grain capacity with +/- 0.1-grain accuracy, plus right or left-handed operation. It offers magnetic damping for fast readings and maintenance-free movement. A metal tip-proof pan makes loading easy. Limited lifetime warranty. Imported.
M1000 Mechanical Scale ..... C23RC98916 ..... $156.49

Neck Expander Dies
for Cast Rifle Bullets

To eliminate deforming the base and shaving lead off the sides of your lead rifle bullets during seating. RCBS® strongly recommends using our Neck Expander Die. In one step, the neck expander die expands the neck and slightly flares the case mouth of your bottle neck cases.

Neck Expander *Body* ..... C23RC39800 .... $22.49
Neck Expander *Plug Rod* ..... C23RC39801 ..... $4.99
Neck Expander *Die (See Chart)* $29.49

Decapping Die

Use RCBS® Decapping dies to quickly remove primers from cases prior to cleaning.

.22-.25 Cal Heavy Duty Die ..... C23RC87580 ..... $22.49
.27-.45 Cal Die ..... C23RC87585 ..... $22.49
.27-.45 Cal Heavy Duty Die ..... C23RC87586 ..... $9.49

Die Lock Rings

These steel locking rings allow a reloader to set up dies and lock them in place so they can be removed and replaced without having to recalibrate. They fit on standard 7/8-inch-14 threaded dies.

Die Lock Ring ..... C23RC87501 ..... $3.99

Military/Berdan Decapping Tool

For efficient removal of Berdan primers, nothing beats this Berdan Decapping Tool. Decap 8mm Rimless, 6.5mm Mannlicher- Schoenauer, 11.7mm Rimmed and more. All functional parts are made of top-grade, heat-treated steel alloy for toughness. Comes with case holder and hex wrench.

Berdan Decapping Tool ..... C23RC09525 ..... $74.99
Spare Berdan Decapping Pin .... C23RC09528 ..... $5.99

Decapping Pins

Most "Precision" Reloader Special, X & Cowboy Sizer Dies require a 90164R headed decapping pin. One size fits all calibers. Order straight decapping pins for competition and older "Precision" sizer dies.

• Small - .22 thru .25 cal • Large - 6.5mm thru .45 Caliber

Small *(5-Pack)* ..... C23RC09608 ..... $2.49
Large *(5-Pack)* ..... C23RC09609 ..... $2.49
Headed Pin *(5-Pack)* ..... C23RC90164 ..... $2.99
.50 BMG *(2-Pack)* ..... C23RC09602 ..... $6.99

Bullet Mould Handles

Solid steel frames with extra-long, premium hardwood handles for comfort. Perfect for home bullet casting. One size fits all RCBS bullet moulds only.

Bullet Mould Handles ..... C23RC80025 ..... $47.49

Mould Mallet

Be kind to your bullet moulds. Stop using a metal object to tap out your cast lead bullets and potentially damaging your mould! RCBS® has reintroduced our wooden mould mallet to safely accomplish this goal.

Mould Mallet ..... C23RC80007 ..... $12.49

Bullet Lubricant

RCBS® Bullet Lubricant fits the Lube-A-Matic Sizer/ Lubricator and most others that use a hollow stick lubricant. It's a non-toxic, temperature resistant blend, developed in cooperation with top-rated competition cast-bullet shooters. Our rifle bullet lubricant is a blend of Alox and beeswax, formulated to NRA specifications. Works fine for pistol bullets. Rifle Lube for outdoor use only.

Bullet Lubricant ..... C23RC80008 ..... $5.49
Rifle Bullet Lubricant ..... C23RC80009 ..... $5.49

Ingot Mould

Mould up to four ingots at once and cool them quickly with this handy accessory. It's perfect for melting down scrap lead and preparing alloys for future use.

Ingot Mould ..... C23RC80005 ..... $24.49

Lead Pot

This heavy-duty cast-iron pot holds up to 10 pounds of molten metal. It features a flat bottom for stability, bail handle, pouring spout, and a tab lifter for gripping with insulated tongs or pliers.

Lead Pot ..... C23RC80010 ..... $32.99

Powder Funnel

Ours features a specially designed drop tube to avoid any messy powder spills around case mouths, a non-stick, anti-static surface, plus a square lip to keep the funnel from rolling around. Spout will accommodate the WSM cartridges

Powder Funnel .22-.45 ..... C23RC09087 ..... $5.49

Tube Rifle Bullet Feeder

The RCBS Tube Rifle Bullet Feeder features the ability to feed most styles of rifle bullet. Designed for progressive reloading of .22 or .30 cal, expander die included. Limited Lifetime Warranty

Tube Rifle Bullet Feeder - .22 Cal C23RC82361 ..... $129.49
Tube Rifle Bullet Feeder - .30 Cal C23RC82362 ..... $129.49

Lube-A-Matic®2 Bullet Sizer/Lubricator

Size and lubricate cast bullets in one step with the Lube-A-Matic—2. Just insert a bullet in the sizer die and pull the handle. A sized and lubricated bullet ejects on the upstroke. A fingertip regulator lets you fine-tune lubricant flow. The Lube-A-Matic—2 also seats gas checks. A high quality tool that's a "must-have" item for the serious bullet caster. See chart for sizer die and top-punch sizes *(Die and top punch sold separately.)*

Lube-A-Matic-2
Bullet Sizer/Lubricator ..... C23RC80040 . $210.99

Lube-A-Matic® Heater

The LAM Heater helps keep bullet lube owing, ensuring proper sizing and lubricating in less time. It mounts to RCBS® accessory base plates, and is compatible with RCBS® Lube-A-Matic® Sizers, as well as other leading lead bullet sizers. Fits RCBS, SAECO, Lyman and other lead bullet sizers.

• Mounts to RCBS Accessory Base Plates
• Adjustable temperature control
• Fits RCBS, SAECO, Lyman and other lead bullet sizers
• Limited Two Year Warranty

Lube-A-Matic® Heater ..... C23RC80006 ..... $67.49

Lead Dipper

A large-capacity bowl for easy scooping and stirring. The lead dipper has a tapered pouring spout to fit sprue holes and has a solid hardwood grip. Overall length: 11-1/2 in.

Lead Dipper ..... C23RC80015 ..... $26.99

Full Length Dies Set

RCBS Full Length dies sets are machined from our proprietary die steel to exacting tolerances then undergo a meticulous finishing process to give the hand-loader the best dies on the market.

7mm PRC ..... C23RC28101 ..... $41.99
.360 Buckhammer ..... C23RC28304 ..... $59.39
.338 RPM ..... C23RC28401 ..... $75.99

Lead Thermometer

With a 1000°F range and +/- 1% accuracy, our lead thermometer lets you pour lead at the optimum temperature. Large numbers are printed on a 1-1/2", glass-covered face. Six inch probe works with RCBS® Pro-Melt furnace or pot. An adjustable 6" handle helps to prevent burning of fingers.

Lead Thermometer ..... C23RC81175 ..... $59.49

Warning!

Melting Lead and Casting Lead Objects Will Expose You and Others In the Area to Lead, Which Is Known to Cause Birth Defects, Other Reproductive Harm and Cancer. See Instructions on Reducing Exposure Supplied with Product

RCBS®

Quick Change Powder Measure

The RCBS® Quick Change Powder Measure offers the ability to go from light pistol to magnum rifle charges quickly. The powder hopper has been increased in size to hold a pound of smokeless powder. The QCPM features metering assemblies that change out with the pull of a pin. Extra metering assemblies can be purchased to have them preset for your favorite smokeless powder charges. The drain attachment empties the powder hopper without the need to remove it from the stand or press.
The Quick Change Powder Measure includes one each Small and Large Metering Assembly and the Drain Attachment.
The Quick Change parts can be used to upgrade your existing Uniflow™ powder measure to this system.
Quick Change Measure..... C23RC98840 ..... $106.99

Powder Baffle

Uniform loads require consistent powder charges, and many handloaders find a baffle helps them throw more consistent charges. The baffle is specifically designed for the RCBS® Powder Measures and provides handloaders a uniform powder flow by controlling the gravity feed pressure of the powder column on the metering unit.
Quick Change Baffle ..... C23RC90226 ..... $9.99
QC High Capacity Baffle ..... C23RC90227 ..... $12.49

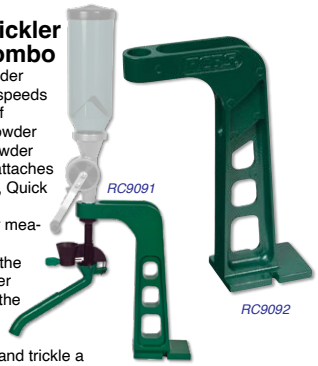
Quick Change Accessories

The Quick Change Accessories can be used to upgrade your existing Uniflow powder measure to this system. You simply replace the metering cylinder and metering screw that came with your Uniflow with the Quick Change accessories. The QC Drop Tube Adapter allows you to use th drop tubes from the QC High Capacity powder measure or the Drop Tube and Adapters from the Quick Change Powder Funnel on your Uniflow or Quick Change powder measure.
Quick Change *Small* Metering Screw Assembly..... C23RC98843 .... $15.99
Quick Change *Large* Metering Screw Assembly..... C23RC98844 .... $10.99
Quick Change Drain Attachment..... C23RC98846 ..... $9.49

High Capacity Quick Change Powder Measure

The RCBS® High Capacity Quick Change Powder Measure offers the ability to dispense large rifle charges of up to 250 grains of smokeless powder. The large hopper can accommodate two pounds of smokeless powder. The HCQCPM features metering assemblies that change out with the pull of a pin. Extra metering assemblies can be purchased to have them preset for your favorite charges. The drain attachment empties the powder hopper without the need to remove it from the stand or press. *Includes one metering assembly, .22-.270 Drop tube, .30-.45Drop Tube, .50 Drop Tube and the QCHC Drain Attachment.*
QC High Cap. Powder Measure C23RC98841 ..... $127.49
QC High Cap. Powder Baffle C23RC90227 ..... $12.49

Quick Change High Capacity Accessories

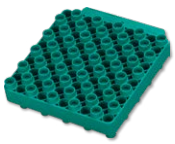


The Quick Change High Capacity metering assembly is available so that you can preset them to your favorite large capacity rifle charges such as 110 grains for your 30-378 WBY or 120 grains for the 600 Nitro Express. The QC High Capacity Drop Tubes, in conjunction with the QC Drop Tube Adapter, allow the use of these on existing Uniflow or QS powder measures.
QC Drop Tube *(.22-.270 cal.)*..... C23RC98852 ....$5.49
QC Drop Tube *(.30-.45 cal.)*..... C23RC98853 ....$5.49

Uniflow™ Powder Measure & Accessories

Pours uniformly from measuring cylinder into case, thereby eliminating the hazards of "overloads" caused by clogging when charges are "dumped".
UPM Powder Baffle ..... C23RC90225 ..... $7.49
Powder Funnel .17 Cal..... C23RC09086 ..... $6.49
Powder Trickler 2 ..... C23RC9089 ..... $24.99
Little Dandy Pistol Powder Measure ..... C23RC86040 ..... $44.99
Little Dandy Rotor Knob ..... C23RC86046 ..... $12.49

Powder Trickler System Combo



The RCBS® Powder Trickler System speeds up the process of weighing your powder charges. The Powder Trickler system attaches to any Uniflow™, Quick Change or Little Dandy™ powder measure. Used in conjunction with the Advanced Powder Measure Stand, the Powder Trickler System allows you to dispense and trickle a powder charge directly onto a scale pan without having to remove the scale pan for the initial filling.
Combo..... C23RC9091 ..... $49.49
Measure Stand - Only ..... C23RC9092 ..... $27.99

Quick Change Powder Funnel Kit

With the current trend of large-bodied rifle cases, existing powder funnels sometimes do not fit properly over the cases.
The RCBS Quick Change Powder Funnel eliminates that problem. The Quick Change Powder Funnel features adapters that are supported by the body of the case and allow reloaders to choose the optimum powder flow. The 4-inch drop tube helps get that compressed powder charge into the case. The drop tubes are stackable so reloaders can increase the drop length if necessary. With the adapters removed, the powder funnel allows reloaders to return powder into the original container quickly.
Quick Change Powder Funnel Kit ..... C23RC9190 ..... $17.49

Universal Case Loading Block

The RCBS Universal Reloading Tray is a great tray for any reloading bench. The double-sided design has 25 holes on each side for a variety of different calibers.
Universal Case Loading Block C23RC9452 ..... $10.99

Deburring Tool .17-.60

This larger Deburring Tool allows the inside and outside chamfering and deburring of cases from .17 caliber up to .60 caliber. Larger than our standard deburring tool, this may not be the one for you especially if you do not hand load cases over .45 caliber. But if you want on deburring tool to do it all, this is it! Made of hardened tool steel to last a lifetime.
Deburring Tool *(.17-.60 Cal)*..... C23RC09348 ..... $25.49

VLD Deburring Tool

The increasing popularity of VLD style bullets has led RCBS® to offer a 22 degree VLD Debur Tool. The 22 degree angle allows the bullet to be seated into the case without damaging the boattail and ruining accuracy. The VLD Debur Tool can be used as is, attached to a RCBS Accessory Handle or mounted on the Trim Mate Case Prep Center.
VLD Debur Tool..... C23RC9351 ..... $13.49
VLD Debur Tool w/ Handle..... C23RC9352 ..... $15.99

Little Dandy Powder Rotors

Perfect for handloading pistol shooters and select small-caliber rifle shooters. There are 28 interchangeable fixed-charge powder rotors available and you can load any popular powder with the Little Dandy™ in up to 400 different load combinations. There's no readjustment needed after changeover.

Little Dandy Powder Rotors..... $12.49

Ultrasonic Case Cleaner-2

The RCBS® Ultrasonic Case Cleaner-2 includes significant changes from the previous model. The Ultrasonic Case Cleaner-2 is larger – nearly 100 percent larger. The 6.3-quart capacity is twice as big, with a second ceramic heater and transducer to better clean brass cases and firearm parts. The LCD is easily programmable, and the timer can be set for up to 30 minutes of continuous cleaning.
The Ultrasonic Case Cleaner-2 delivers clean brass in a short amount of time.
• 6.3-quart (6.0 liter) capacity • Stainless steel parts basket • Smaller stainless steel parts tub • LCD display • 120 VAC • Includes drain hose • Limited One Year Warranty
Ultrasonic Case Cleaner C23RC87056 ..... $431.49

Rotary Case/ Media Separator

With several turns of the basket handle the media falls to the bottom of the separator, leaving the cases clean. The fine dust from the media is trapped inside the separator. Heavy-duty plastic construction for years of trouble-free service. Capacity: about 180 .30-06 cases or 400 .38 Special cases with media.
Rotary Case/Media Separator..... C23RC87076 ... $40.99

Vibratory Case Polisher

Bright, ready-to-load brass is ready in minutes with the RCBS® Vibratory Case Polisher. It shines up to 14 pounds of brass/media at one time with aggressive vibrating action. A quiet motor powers the cleaner, and a sifting lid helps separate brass from debris. Quality handloads start with quality brass, and the Vibratory Case Polisher delivers.
• Quiet motor • Aggressive vibrating action
• 14-pound capacity • Limited Two Year Warranty
Vibratory Case Polisher *(120 VAC)*..... C23RC87060 ..... $127.49

Case Cleaning Media

An 8 oz. bottle makes about 4 gallons. Our dry media ca be used in both Sidewinder and Vibratory Case Cleaners. Formula 1 Walnut Shell is ground to a 12/12 sieve size. Polish comes individually packed.
Polishing Compound, 5-Pack..... C23RC87069 ....$6.49
Formula 1 Walnut Shell Media *(5 lbs.)* . C23RC87067..$16.99
Formula 2 Corn Cob Media *(4 lbs.)*..... C23RC87068..$18.49

A

A SHELL HOLDER RACK

Do you keep all of your shell holders rolling around in one box? Have you ever had trouble finding the shell holder you need? With RCBS's Shell Holder Rack, you can keep your shell holders organized and protected. The Shell Holder Rack has 12 positions that hold two shell holders on each post. There is also room to store six Trim Pro® Shell Holders as well. The clear cover keeps out the dust and dirt while allowing you to see what is stored in the rack.

The Shell Holder Rack can be mounted on the wall or used on the bench. The wall mount spacing allows it to be hung off of standard 1" pegboard hooks as well. The support legs angle the bottom out for wall mounting or the top up for bench use. Additional Shell Holder Racks can be snapped together if more shell holder storage is needed.

9461 SHELL HOLDER RACK

For Pro 2000, AmmoMaster Auto, Piggyback and Piggyback II Progressive Presses

Note: The Piggyback and Piggyback II Progressive Presses are restricted to an overall cartridge length of 2.260". Check cartridge length before ordering Shell Plates.

See Reference Chart on pages 40-41

RCBS®

MatchMaster Competition Full Length Die Set

The RCBS MatchMaster Competition die sets are the perfect sets of dies for the precision handloader looking to craft the most precise round possible. The Full length sizing die utilizes RCBS's precision-machined neck bushings to put the perfect amount of neck tension on each round. The titanium nitride coated expander offers silky-smooth case extraction and reduced brass build up on the expander both of which help reduce the amount of stretch on the case neck. Rounding out this exceptional set is the MatchMaster Competition Seating Die. What sets the MatchMaster seating die apart from the competition is our bullet seating window with bullet retaining system. Simply place the bullet in the window and raise the case into the die to seat the bullet. No more smashed fingers or misaligned bullets! Couple this with a micrometer adjustable, free-floating, self-centering bullet seating stem and you have the easiest, most accurate bullet seating die on the market.

3-Die Roll Crimp Set

The 3-Die Roll Crimp Set is for loading straight-wall cartridges. Its steel Sizer Die sizes the case and de-primes. Note: Cases must be lubricated. The Expander Die expands the case to the proper diameter to accept the bullet, and it imparts case mouth flare/bell for bullet feeding. The Seater Die seats the bullet and roll crimps.

IMPORTANT: RCBS Shell Holder numbers do not correspond to those of other manufacturers. When two Shell Holders are listed, the most popular is shown first. It may be necessary to use the alternate, depending on the manufacturer and/or lot of cases being used. The numerals in ( ) in the table indicate the following: (2) cases are usually Berdan primed. Depriming and priming must be done by hand. If cases were formed from cases having boxer-type primers, use the appropriate Shell Holder for that caliber. (4) not available. (5) Auto 4X4 Shell Plate not available. (6) Auto 4X4 and Five-Station Shell Plates not available.
Ammo Box size code: SR=Small Rifle, MR=Medium Rifle, LR=Large Rifle, MP=Medium Pistol, LP=Large Pistol. * Rotary Case Trimmer—2 only. ** For Ten-X

IMPORTANT: RCBS Shell Holder numbers do not correspond to those of other manufacturers. When two Shell Holders are listed, the most popular is shown first. It may be necessary to use the alternate, depending on the manufacturer and/or lot of cases being used.

THE NUMERALS IN ( ) IN THE TABLE INDICATE THE FOLLOWING:

(2) cases are usually Berdan primed. Depriming and priming must be done by hand. If cases were formed from cases having boxer-type primers, use the appropriate Shell Holder for that caliber.

(4) not available.

(5) Auto 4X4 Shell Plate not available.

(6) Auto 4X4 and Five-Station Shell Plates not available.

AMMO BOX SIZE CODE:

SR=Small Rifle, **MR**=Medium Rifle, **LR**=Large Rifle, **MP**=Medium Pistol, **LP**=Large Pistol.

* Rotary Case Trimmer—2 only. ** For Ten-X

A PRECISIONEERED® DIES

For shooters who demand reloads equal to the quality of their guns. Each RCBS Die is made from case hardened steel. The inside surfaces of all dies are precision-drilled and reamed to the same exacting standards as the finest gun mechanisms.

Full-Length Sizer Dies for bottleneck cases have vents to prevent case damage caused by trapped air and for excessive lubricant. Headspace is held to minimum tolerances to avoid changing the case body length during full length sizing.

Dies are properly hardened and hand polished. This special RCBS finishing produces a die that will withstand years and years of the abrasive type of wear caused by case sizing.

All RCBS Seater Dies have a built-in roll or taper crimp as appropriate for the particular caliber. To seat bullets without crimping, simply unscrew the die until the crimp ring no longer engages the case mouth.

Large, easy-to-adjust hex lock rings utilize hex head set screws. Unless otherwise noted, all RCBS Precisioneered Dies have the standard 7/8”-14 thread. Dies are packaged in stackable, plastic storage boxes specially designed to protect the dies in shipping. Includes loading data label.

B TUNGSTEN CARBIDE DIE SETS (GROUPS B, C, & E)

The Carbide Sizer Die eliminates the need for case lubrication and cases do not need to be cleaned before sizing. Carbide Die Sets consist of a Carbide Sizer Die with Decapping Unit, Expander Die for expanding and belling the case mouth, plus a Seater Die with Roll or Taper Crimp and Bullet Seater Plug. Carbide Sizer Dies are also available separately. Available in most popular handgun calibers and .30 M-1 Carbine. See die listings for caliber availability.

Note: Due to the length of the .30 M-1 Carbine Carbide insert, every fourth or fifth case should be lightly lubricated to eliminate sticking cases.

2-DIE SETS (GROUPS A, D & SAFARI)

2-Die Sets are for bottleneck type rifle and pistol cases, and consist of a Full-Length Sizer Die with Expander-Decapping Unit, and a Seater Die with Bullet Seater Plug.

NECK DIE SETS (GROUPS A & D)

Neck Sizer Dies size only the neck of case (not the shoulder or body) just enough to snugly hold the bullet. Neck Die Sets consist of a Neck Sizer Die with Expander-Decapping Unit and a regular Seater Die with Seater Plug. Neck Sizer Dies are also available individually. Available in most calibers.

See listings on the following pages.

3-DIE SETS (GROUPS B, C, E, LEGACY & SAFARI)

RCBS pioneered and developed the 3-Die Sets for straight-wall rifle and pistol cases. In the 3-Die Set, sizing and expanding (belling) are done in separate dies. The 3-Die Set has a Sizer Die with Decapping Unit, Expander Die for expanding and belling the case mouth and a Seater Die with Roll or Taper Crimp and Bullet Seater Plug(s) for seating and crimping the bullet.

Pricing subject to change without notice. Not responsible for typographical errors.

C GOLD MEDAL MATCH SERIES DIES

RCBS® is proud of our Gold Medal series of neck bushing rifle dies. This changeable diameter neck bushing type of die has been used by Bench Rest and Long Range Precision shooters for years.

Due to variability in neck brass thickness, RCBS standard dies size the neck below your desired diameter and then pull an expander ball through to get the proper bullet tension. The Gold Medal sizing die features a self-centering, changeable neck bushing that allows you to precisely set the amount of tension on the bullet. This reduces work hardening of the case neck brass, prolonging case life and increasing accuracy. Neck bushings are available in .001” increments from .189” to .365”.

The Gold Medal rifle dies are available in Full-Length and Neck sizing styles. By removing the neck bushing, the Full-Length sizing die can be used as a “bump” die to set headspace back the desired amount.

Neck bushings are not included. Proper neck bushing size can be determined two ways. Measure the outside neck diameter of your loaded cartridge, subtract .002” to .003”. This allows approximately .001” of brass to spring back for correct neck tension. The other is to measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .001”. RCBS suggests that you have neck bushings one to two sizes above and below your target diameter.

The Gold Medal seat dies feature a micrometer adjustable, free floating and self centering bullet seating system with a convenient bullet loading window. The Gold Medal seat die can also be used on progressive presses with the exception of the .221 Rem Fireball, .17 Rem Fireball and .22 Hornet cartridges.

SPECIAL ORDER SETS

If you cannot find your dies listed on the reference chart on pages 40-41 of this catalog, please consult the RCBS Special Order catalog.

See charts on following pages for part numbers.

*Competition extended shell holder required for bullet seating is included.

NOTE: If not in stock, allow 4-6 weeks for delivery.

LEGACY SERIES DIES

With new calibers and rifles introduced every year, it is a wonder that black powder cartridges are still around! The Legacy series of dies supports these legendary metallic black powder cartridges and the enthusiasts that are shooting original or reproduction black powder rifles.

D COWBOY DIES

Cowboy Action Shooting is one of the fastest growing shooting sports. Shooters must have speed and accuracy, while recreating the spirit of the 1880s. Guns, costumes and ammo must fit the period. Making ammo that fits the Old West image means loading lead bullets, jacketed bullets are not allowed. It also means that the bullets must be designed to work properly in lever-action rifles and single-action revolvers. RCBS' Cowboy Dies are built to slightly different dimensions than our regular dies to allow optimum sizing, expanding, seating and crimping needed to load great lead bullet ammo.

E 1-1/2"-12 DIES

The dies are precision machined by the same craftsmen that produce our Precisioneered® Reloading Dies. The Full Length Sizer Die is drilled and reamed to the dimensions developed over the years. Then each die is hand polished, heat treated and then repolished. These massive dies are designed for use with the AmmoMaster—2 or the AmmoMaster® Single Stage Press with the .50 BMG Conversion Kit installed. All Dies listed here are manufactured with 1-1/2"-12 thread. Full Length Die Set includes Full Length Sizer Die with Expander-Decapping Unit and Seater Die with Bullet Seater Plug. Trim Die is case hardened to prevent damage to the die when filing cases to length. Neck Sizer Die sizes only the neck, not the shoulder and body.

F SAFARI DIES

Straight out of the RCBS® Special Order and listed at a reduced price. The Safari Series represents cartridges typically used for dangerous game in Africa. These featured calibers were chosen based on production rifles from CZ®, Ruger® and others that offer these timeless African hunting classics.

The .500 Jeffery and .505 Gibbs are made on 1" die bodies and require a press adapter bushing (not included).

G AR SERIES DIES

A must for the progressive reloader. It features a Small Base sizing die and a new Taper Crimp seating die. This combination makes reloading easier for AR-style or semi-auto shooters. The Small Base sizer guarantees that the cartridge will rechamber. The Taper Crimp Seater is more forgiving when various case lengths are loaded at the same time. Case neck crimp bulges and buckled shoulders are virtually eliminated when Taper crimping is used with cannelured bullets.

H COMPETITION RIFLE DIES

These dies aren’t for everybody. They go above and beyond our Precision Dies. If you’re a competitive marksman measuring success in fractions of a millimeter, RCBS® Competition Dies are for you.

NOTE: Competition dies do not require neck bushings.

- Full-length sizer with a raised expander ball allowing extra leverage for smooth, effortless neck expansion (.204 and .25 cal do not feature a raised expander ball)
- Maximum concentricity between die neck and body
- Seater die with micrometer for super accurate bullet seating depth in increments of 0.001”
- Bullet inserts through a side window instead of bottom of die
- Special bullet-seating guide ensures correct bullet alignment before and after seating
- Extended shell holder for shorter cartridges
- Black oxide finish
- Not for use with progressive reloading presses

I COWBOY SHOTSHELL DIE

The diehard Cowboy Action Shooter not only uses authentic firearms and loads with black powder, but also dresses the part. Many would like to use period correct all brass shotshell ammunition, but with no good way to reload them, colorful plastic hulls continue to be used. Today’s modern shotshell presses can handle the powder drop, wad seating and shot drop, but could do nothing to handle the sizing, de-priming, re-priming and crimp of a brass case. The RCBS® Cowboy Shotshell die answers this need.

Designed to be used in any RCBS single stage press with a removable die bushing, it performs just like a rifle sizing die. The Cowboy Shotshell Die will first size and de-prime the case; Re-priming is done with the standard priming provided with the press. Use your shotshell press to fill the case with powder, seat the wad and spacers and dispense your shot charge. Remove the sizing ring and install the finish crimp. Place your over shot card onto the shot charge and run up into the die to roll crimp the case mouth. A newly handloaded brass shotshell is completed.

J X DIE®

Trim the case once—never trim again! The X-Sizer Die looks like a regular Full Length Sizer Die. Inside, the die features a specially designed mandrel with an expander ball and decapping pin attached. The mandrel is what the X-Die® is all about. The patented X-Sizer Die eliminates the need for repeated trimming after an initial trim of .020” off the maximum case length to standardize the case. The X-Die doesn’t shorten the length of the case: the mandrel reduces the growth rate as the case grows as a result of the case mouth-contacting the mandrel during sizing. Because of an extremely close tolerance between the mandrel and die neck wall, the neck wall of the case does not thicken as the case length is pushed back. Cases repeatedly sized in the X-Die will initially grow a few thousandths of an inch, then stabilize below the maximum case length with no discernable loss of accuracy or case life.

Available in most popular bottleneck calibers as shown in the chart.

Standard 7/8”-14 thread. U.S. Patent # 5635661

If you are just starting to reload any of the calibers listed, order the X-Full Length Die Set containing the X-Sizer Die and Standard Seater Die. If you already own a regular set of dies for the chosen caliber, order only the X-Full Length Sizer Die, as you won’t need to purchase another Seater Die.

SMALL BASE DIE SETS (GROUP A)

Small Base Sizer Dies are usually required for reloading ammunition to be used in automatic, semi-automatic, pump, slide and some lever-action rifles. These dies size the body of cases somewhat smaller in diameter and also set the shoulder back slightly more than a Full-Length Sizer Die to ensure proper functioning in the actions of these rifles.

Not recommended for ammunition used in bolt-action rifles. Small Base Set contains Small Base Sizer with Expander-Decapping Unit and Regular Seater Die with Seater Plug. Small Base Sizer Dies also available individually. Available in many calibers.

DECAPPING PINS — 5-PACK	
Universal - Headed 22 thru 45 caliber	90164
Small - Straight 22 thru 25 caliber	9608
Large - Straight 6.5mm thru 45 caliber	9609

Important: Expander-Decapping Units, Decapping Units and all Decapping Pins are available through RCBS Distributors and Dealers. All other replacement parts should be ordered from RCBS Customer Service.

REPLACEMENT DECAPPING PINS

With the few exceptions listed above, all RCBS® “Precision,” Reloader Special, X and Cowboy Sizer Dies require a #90164 headed Decapping Pin—one size fits all calibers. Order straight Decapping Pins for Competition and older “Precision” Sizer Dies.

Pow’r Punch Decap Assembly for use with pistol calibers in progressive presses.

REPLACEMENT PARTS

Expander-Decapping Rods, Decapping Rods, Expander Balls and Decapping Pin Holders are no longer available separately. If any of these fail, order a replacement Expander-Decapping Unit or Decapping Unit as shown in the tables.

SPECIAL ORDER SETS

If you cannot find your dies listed on the reference chart on pages 40-41 of this catalog, please consult the RCBS Special Order catalog.

See charts on following pages for part numbers.

*Competition extended shell holder required for bullet seating is included.

NOTE: If not in stock, allow 4-6 weeks for delivery.

Hornady
Accurate. Deadly. Dependable.

Lock-N-Load® Ammo Plant - 110 volt

Turn your progressive press into a bench-mounted ammo factory! This kit represents the ultimate reloading setup for maximum production in shorter sessions.
The Lock-N-Load® Ammo Plant includes the following:
- Lock-N-Load® AP Press
- Lock-N-Load® AP Bullet Feeder
- Lock-N-Load® AP Case Feeder
- Lock-N-Load® AP Die Bushing 10 pack
- Lock-N-Load® Powder Measure
- Spring Case Retainer 3 pack (x2)
- Large Cartridge Catcher (x3)
- Large Primer Tube Pickup (x3)
- Small Primer Tube Pickup (x3)
- Primer Slide Spring (x2)
- Pistol Metering Insert/Rotor
- Rifle Metering Insert/Rotor
- Powder Cop
- Die Wrench
- Case Activated Powder Drop
- Vintage Tin Sign

Breakaway Cam Wire..... C23PC392227 .....$11.79

Lock-N-Load AP™ Tool Caddy

Improve efficiency and convenience by storing frequently used tools directly on your AP™ press. Install the bracket and caddy on either side of the press and rotate to the desired position. Then, insert supplied tools, including three combination wrenches, four hex wrenches, needle nose pliers, and a Hornady® Deluxe Die Wrench, for quick access and efficient organization.
Lock-N-Load AP™ Tool Caddy
C23PC95140 .....$46.49

Powder Funnel Die

For ultra precision on the AP™ press, this die allows handloaders to trickle and weigh each individual powder charge. Includes two insert bushings that accommodate cases from .22 to .50 caliber.
Powder Funnel Die
C23PC95360 .....$28.99

Lock-N-Load® Improved Shell Plates

The addition of a smooth radius to the mouth of each shell holder around the shell plate insures smooth functioning and the bevel on the retainer spring groove helps keep the spring in place when inserting cases into the shell plate. Each shell plate will also hold additional calibers with the same case head dimensions. ***Compatible with EZject™ feature and all prior Lock-N-Load AP Models***
Improved Shell Plates $44.99

Lock-N-Load® Classic Kit

Kit includes:
• *Lock-N-Load Classic single-stage press*
• *Lock-N-Load® Powder Measure*
Electronic Scale
• *Three L-N-L® Die Bushings*
• *Primer Catcher*
• *Positive Priming System™*
• *Universal Reloading Block*
• *Chamfering and Deburring Tool*
• *Primer Turning Plate*
• *One Shot™ Case Lube • Hand-Held Priming Tool*
• *The 7th Edition Hornady Handbook of Cartridge Reloading*

Four Ways Lock-N-Load® Classic can improve your reloading:
1) *Speed* - Lock-N-Load® Technology lets you switch dies to a new caliber and begin reloading again in seconds.
2) *Consistency* - Lock-N-Load® Bushings let you adjust your dies once, then lock the setting into place, for consistent reloads every time.
3) *Precision* - The CNC machined die and ram openings create near perfect alignment of the ram and die, so cases are lined up properly with the dies at all times.
4) *Versatility* - With Lock-N-Load®, one press can handle multiple calibers with ease.

Lock-N-Load® Classic Kit..... C23PC085003 ..... $417.99

Lock-N-Load™ Die Bushings

PC044093 *PC044094* *PC044095*

Simply insert this bushing into your RCBS® Rock Chucker or other re-loading presses using a 1-1/4-12 thread; and you're ready to start using the Lock-N-Load® System. It's the easiest way to get the most out of your reloading press. Lets you take advantage of Hornady Lock-N-Load® technology, even if you own a competitive reloading press.
Die Bushings *(3-Pack)*..... C23PC044093..... $20.99
Die Bushings *(2-Pack)*..... C23PC044094..... $14.79

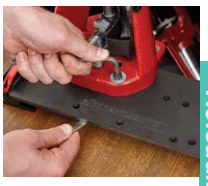
Lock-N-Load® Press Conversion Kit

Includes three die bushings and one conversion bushing
Lock-N-Load®
Conversion Bushing Kit ...C23PC044099 .$20.99

Lock-N-Load® Automatic Case Feeder

The Hornady Lock-N-Load® is now automatic! With our high-volume case feeder, it's a reloader's dream machine. With the highest torque motor in the industry and an extra large case bowl. It can feed four times as many cases as other case feeders.
In fact, you can reload hundreds of rounds per hour! This case feeder works with your present Lock-N-Load® AP with the purchase of a Sub-plate. Call Hornady for details. There are four feeder plates sold separately *(see below)*, so you only pay for what you need.
Lock-N-Load® AP Case Feeder..... C23PC095300. $473.99



Case Feeder Plates

Choose from any (4) feeder plates.
(1) Small Pistol Plate ..... C23PC095310.....$43.49
(2) Large Pistol Plate ..... C23PC095312.....$43.49

(4) Large Rifle Plate ..... C23PC095316.....$43.49

Quick Detach Reloading Mounting System

• Quickly and easily attach and detach presses and other reloading tools.
• Maximizes production when bench space is limited.
• Two cam locks keep plate stable during use and allow quick release for easy tool changeovers.
• Mounting hole configurations fit a variety of presses including the Lock-N-Load® AP, • Lock-N-Load® Iron Press, Lock-N-Load® Classic, 50 BMG and 366 Auto Shotgun Press.
• Also fits the Lock-N-Load® Bullet Feeders, Cam Lock™ Trimmer, Lock-N-Load® Concentricity Tool, and the Neck Turning Tool.
QD Mounting System ..... C23PC399697 ..... $74.49
QD Mounting Plate Only..... C23PC399698 ..... $21.99

Case Activated Powder Drop

The new and improved Case Activated Powder Drop has been re-engineered with quick change-overs in mind. The retainer spring has been re-engineered for smoother function than previous models and the powder drop only dispenses a powder charge when a cases is present. Works with the Lock-N-Load® AP™ or other progressive presses that use 7/8" x 14 threads.
Case Activated Powder Drop ..... C23PC050073 ...$84.49

Powder Through Expanders

The new Powder Through Expanders (PTX) are an engineering genius. Designed to work in conjunction with the Case Activated Powder Drop, the new Expanders eliminate the need for a separate case mouth expander die on the LNL- AP progressive press (Hornady suggests you fill that station with the powder cop die, so you can ensure that each case is properly charged with powder.)

Lock-N-Load® Powder Measure

The Lock-N-Load® Powder Measure is the only system that uses a full size powder measure that can be reset to another charge or powder with the push of a button. The unique inserts in the measure can be preset to the charge you use with the caliber you are loading. Push a button, change inserts and powder and you're ready to go. Inserts can be adjusted for almost any charge. Go from .5 grains to 265 grains by simply changing inserts. ***Sold Separately***.
The most flexible (and economical) powder system available for progressive presses. (With optional powder die you never have to readjust for a caliber conversion. It switches instantly.)

Hornady
Accurate. Deadly. Dependable.

Vibratory Trickler

The Vibratory Trickler, powered by two AAA batteries, features variable settings to trickle all kinds of powders, ensuring the precise amount for each charge. Its modular design means you can use it with or without the base and also makes cleanup quick and easy.

- *Save time and improve reloading accuracy and efficiency.*
- *Ideal for getting loads exactly the same every time.*
- *High, low and variable settings trickle all forms of powder.*
- *Modular design allows user to position Trickler body where needed.* • *Backlit LED buttons.*
- *Quick and easy cleanup.*
- *Powered by two AAA batteries (not included)*

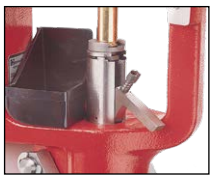
Virbratory Trickler ..... C23PC050102 ..... $51.99

Precision Lab Scale

When precision is your goal, you need the most precise tool available for measuring on your reloading bench.
The Hornady® Precision Lab Scale provides a .01 grain readout.
The Hornady® Precision Lab Scale brings science to reloading — the science of success to your reloading bench (cable provided).

- *3,000 grain capacity* • *High and low sensitivity*
- *Easy calibration* • *Compare, percent and count modes*
- *Print to spreadsheet function*

Precision Lab Scale ***New*** ..... C23PC050118 ..... $428.99



L-N-L® Iron Press Kit Auto Prime

The available gravity fed Automatic Priming System, combined with the Accessory Mounting Deck, increases reloading efficiency by allowing more processes to occur simultaneously.

- *Automatic Priming System* • *Die caddy*
- *Component feed bin & bracket* • *Digital Scale*
- *Case prep accessories (chamfer & deburr tool / large & small primer pocket cleaners / neck brushes (22 cal / 25 cal\6mm / 270 cal\7mm / 30 cal / 35 cal / 45 cal)*

Shown with optional Automatic Primer Feed

Lock-N-Load® Classic™ Press

The Hornady Lock-N-Load Classic Loader comes with a lifetime warranty. This loader is a popular choice among novice and seasoned reloaders alike, because it speeds up the reloading process. Dies can be changed to a new caliber within seconds. The loader also boasts an automatic priming system and angled frame.

The loader is consistent and requires dies being adjusted just once to ensure outstanding loads time after time. This loader is also machined for outstanding precision, so alignment of the die and ram is near perfect. This versatile loader can accommodate multiple calibers easily.

Lock-N-Load® Classic Press ..... C23PC085001 ..... $190.49

APF Primer Tube Assembly

The Hornady APF Primer Tube Assembly works along with the Positive Priming System on a press.
This tube assembly makes the priming operation easier and quicker by eliminating the need to work with separate primers. The assembly can be installed with very little effort, which simplifies the entire reloading process. Includes both large and small primer tubes. Use with Hornady Positive Priming System™ and there's no more fumbling with primers - priming is 100% hands off. Sold separately

APF Primer Tube Assembly ..... C23PC070905 ..... $58.99

Lock-N-Load® Light Strip

Light up your press with the Hornady L-N-L Light Strip. Adhesive backing allows strip to be used on any press for extra light to help eliminate shadows, making safety and quality checks easier than ever. LED light plugs into a standard 110V outlet.

Lock-N-Load® Light Strip ..... C23PC044661 ..... $20.49

Lock-N-Load® AP™ Deluxe Primer Catcher

The AP Deluxe Primer Catcher fits the Lock-N-Load® AP™ Press.
Decapped primers drop into the tube and travel to the bottle, where they can be collected for future disposal.
LNL® AP™ Deluxe Primer Catcher ..... C23PC050099 ..... $9.49

Universal Accessory Bin and Bucket

The swiveling base of this cartridge bin bracket allows for adaptability on the Lock-N-Load® AP™ and Classic™ Presses.
Use it to conveniently store finished rounds.
Univ. Accessory Bin ..... C23PC399692 ..... $20.99

IRON PRESS

Lock-N-Load® Iron Press Loader Manual Prime

With a heavy duty, fully ambidextrous, cast iron frame, the Iron Press™ is built to be the heaviest, most rigid press in its class. Tight tolerances in manufacture and assembly combine to provide consistency and precision that will deliver match accurate ammunition, round-after-round, year-after-year.

- *Cast Iron frame – Heaviest / most rigid in class (26 lbs weight)*
- *Same mounting pattern as Hornady AP / Classic Press and RCBS® Rock Chucker®*
- *Ambidextrous operation* • *Patented Shell Holder Platform*
- *Patented Lock-N-Load® bushing system*
- *Manual prime system*
- *Accessory Mounting Deck for case prep tools*
- *1-1/8" solid steel ram provides industry leading strength*

L-N-L® Iron Press

Zip Spindle™

Replace your old spindle with Hornady's New spindle design.

Zip Spindle™ Kit	C23PC043400	$12.79
Zip Spindle™ Kit .17-.20 Cal.	C23PC043401	$13.79

Three Die Pistol Taper Crimp

Hornady Custom Grade Nitride 3-die set that includes a seater die with taper crimp.

9mm Luger-9 x 21 (.355)	C23PC546516	$61.49
10mm/.40 S&W	C23PC546534	$61.49
.45 Auto	C23PC546555	$61.49

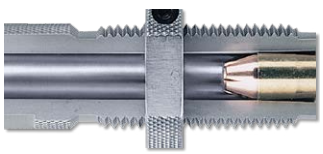
Powder Cop Die

This die will detect an over powder charge in your case of one grain or larger. Hornady powder cop die is not a substitute for actual weighing random numbers of charges to insure they are correct. It is a visual check for every round loaded and not intended to negate proper loading procedures.

Powder Cop Die	C23PC050063	$40.99

Decapping Die

Hornady's new Universal decapping die is designed for decapping cartridge cases prior to sizing them. Works with .223 Remington and larger cartridges.



Decapping Die	C23PC050085	$35.49

Sure-Loc® Lock Rings

Lets you make precise adjustments of all standard 7/8"-14 dies and accessories. Lock Ring clamps around the whole die, and can't damage the threads. Applies constant pressure across the threads to hold the ring in place. Wrench Flats allow to remove and replace dies without pliers ruining the lock ring.

Sure-loc® Lock Rings *(Each)*	C23PC044000	$4.29
Sure-loc® Lock Rings *(6-pack)*	C23PC044606	$23.49

New Dimension Taper Crimp Die

Use for applying proper crimp to auto-loading pistol cases. Add to a three-die pistol set to improve the feeding and functioning of your auto-loading pistol. All steel and precision engineered.

9mm/38Super	C23PC044170	$30.99

10mm Auto/40 S&W	C23PC044171	$30.99
.30 Super Carry *New*	C23PC044509	$30.99

50 BMG Shell Head Adapter

Install the Shell Head Adapter accessory in the ram and load any center fire cartridge you want. Especially useful for shooters reloading long cartridges that require a very long stroke.
50 BMG Shell Head Adapter C23PC392172 ..... $46.49

Hornady
Accurate. Deadly. Dependable.
100 BULLETS

Match Grade™ Size Dies

- *Self-Centering Spindle* - Free-floating spindle design ensures precise, concentric neck expansion.
- *Knurled Spindle Holder* -Makes changing neck sizing bushings fast and easy.
- *Spindle Adjust With O-ring* -Provides slight tension for fine adjustments, and holds setting once in place.
- *Bushing Dies* -Tight tolerances here translate into tighter groups
- *Polished Elliptical Expander* - Smooth release from case neck reduce or eliminates case stretch.
- *Replaceable Headed Decap Pin* - The replaceable decap pin is unique to the Match Grade™ New Dimension Dies

C23PC390540 ..... $21.79

Quick Change Powder Die

Designed specifically for use with the new & improved Case Activated Powder Drop this accessory makes changing over your Lock-N-Load®-AP faster and easier than ever! It allows you to preset dies for the quickest caliber conversion on the market. Includes lower bracket with guide bushing and lockring. Our new Powder Through Expanders work great with the Quick Change Powder Die.

Quick Change Powder Die ..... C23PC050074 ..... $37.99

Lock-N-Load® 1911 Auto Primer Tube Filler

Designed with user safety in mind, the ergonomic handle positions the tray at an optimum angle for feeding primers. The 1911 Auto™ Primer Tube Filler is powered by 2 easily replaceable AAA batteries and fills a 100 count primer tube in 10-15 seconds.
- Fills a 100 count primer tube in 10-15 seconds
- Designed with user safety in mind
- Ergonomically very similar to a 1911 handgun, with the tray specifically positioned at the optimum angle for feeding primers
- 13,000 RPM vibration motor is powered by 2 easily replaceable AAA batteries

LNL 1911 Primer ..... C23PC050098 ..... $79.99

Dial Caliper

Precisely measure case and bullet length, inside and outside diameter, primer pocket depth, overall cartridge length and more with Hornady's Dial Caliper. Includes protective case.

Dial Caliper (inches) ..... C23PC050075 ..... $58.49

Digital Caliper ..... C23PC050080 ..... $46.49

Standard Micrometer

- Measure from 0-1" in 0.0001" increments
- Ratchet stop allows uniform pressure to enhance measurement repeatability
- Spindle lock preserves measurement when removing micrometer from work piece
- Baked-enamel finish on C-frame provides durability
- Plastic storage case protects micrometer when not in use

Standard Micrometer ..... C23PC050072 ..... $58.49

Vernier Ball Micrometer

- Ideal for accurately measuring case neck thicknesses
- Measure from 0-1" with accuracy within 0.0001"
- Ratchet stop ensures uniform pressure for measurement repeatability
- Spindle lock preserve measurement when removing cartridge case from micrometer
- Baked-enamel finish on C-frame provides durability
- Plastic storage case protects micrometer when not in use

Vernier Ball Micrometer ..... C23PC050059 ..... $93.49

Die Wrench Deluxe

The Deluxe Die Wrench is the ultimate 4-in-1 reloading tool for your Lock-N-Load AP or single stage Classic press. This tool holds the shell plate and keeps it from rotating while you change plates and tighten the main press screw. It also adjusts the tightness of the spindle lock and the lock rings, and can tighten or loosen the die flats.

Deluxe Die Wrench ..... C23PC396495 ..... $25.99

Standard Die Wrench ..... C23PC396490 ..... $9.49

Hornady's Hand Held Priming Tool

Its simple "plier-type" design is easy to use. And unlike other brands, the Hornady hand held priming tool is designed to eliminate thumb fatigue and is as simple to use as a pair of pliers. Designed to use only a few parts, and standard current production shell holders.

Hand Priming Tool ..... C23PC0500021 ..... $62.99

Pricing subject to change without notice. Not responsible for typographical errors.

Hornady

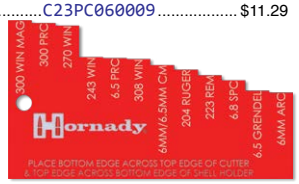
Die Storage Box

C23PC544600 ..... $9.99



Decapping Pin

PC060009

Large *(6-Pack)* ..... C23PC060008 ..... $11.29

Small *(6-Pack)* ..... C23PC060009 ..... $11.29

Universal Trim Length Gauge

Use this tool to set the case overall length on the Case Prep Center. May be used with 12 popular calibers from the 6mm ARC to the 300 Win Mag, both fired and resized cartridge cases.

Universal Trim Length Gauge

C23PC050146 ..... $17.49

Single Stage Primer Pocket Swage Tool

Quickly and cleanly removes crimps on cartridge case primer pockets. Swage depth can be adjusted to accommodate various case brands. Swaging out the crimps on primer pockets instead of cutting them eliminates trimmings and mess.

223/5.56 -Only ..... C23PC41227 ..... $68.99

308/7.62x51 -Only ..... C23PC41228 ..... $68.99

Flash Hole Deburr Tool

- Two multi caliber pilots allows for flash hole uniformity on cases from .224 up to .375
- Chamfer/Deburr depth stop for consistency from case to case
- Free floating pilots to guide the cutter directly towards the flash hole

Flash Hole Deburr Tool ..... C23PC399693 ..... $38.99

Lock-N-Load® Power Case Prep Center

The only tool on the market to combine case prep tools and a power trimmer in one handy unit! Combining essential case prep tools into one handy unit saves reloaders real estate on their benches and valuable time in the reloading process. The Lock-N-Load® Case Prep Center includes a power trimmer, chamfer/deburr tools, primer pocket cleaner and five neck brushes.

- *Micro Adjustable to 1/1000"*
- *Trim Cases from 3/4" to 3 1/4" in length*
- *Vertical Design of the Power Trimmer and Horizontal Design of the tools keeps shavings from falling into cases, and makes case discharge EASY*

Prep Center ..... C23PC050012 ..... $631.99

Lock-N-Load® Quick Change Hand Tool

Includes 3 dual-sided chucks, chamfer/deburr tools, large and small primer pocket cleaners and neck brushes for the following calibers: 22 cal, 25 cal/6mm, 270 cal/7mm, 30 cal, 35 cal/9mm and 45 cal.

LNL Hand Tool ..... C23PC050097 ..... $65.99

Cam-Lock Deburr Tool

Deburr case mouths easily with your Cam Lock Trimmer.

Cam-Lock Deburr Tool ..... C23PC050147 ..... $51.49

Universal Handle Accessory

C23PC190260 ..... $3.99

Lock-N-Load® Ammo Concentricity Tool

This is the first tool on the market to both identify and eliminate bullet runout. Just place ammunition in the tool, roll it, identify runout, and use the dial indicator to adjust runout to zero! It can be used to true-up factory ammunition, too.

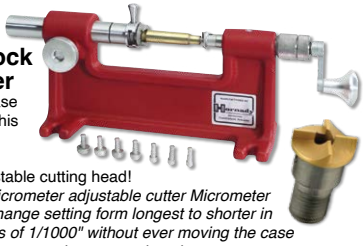
Concentricity Tool ..... C23PC050076 ..... $157.49

Neck Turning Mandrel

224/.2210 ..... C23PC391910 .. $11.49

264/.2615 ..... C23PC391919 .. $11.49

308/.3055 ..... C23PC391928 .. $11.49



Lock-N-Load® Neck Turn Tool

Designed for use on a wide variety of case lengths, the Hornady® Neck Turn Tool allows for the use of a cordless drill to make neck turning faster and easier, while providing superior consistency and surface finish. An adjustment knob enables the user to choose detents for .0005" adjustment increments, or no detents for infinite adjustment.

Neck Turn Tool ..... C23PC041224 ..... $156.99

Cam Lock Trimmer

No other case trimmer in this price range features a micro-adjustable cutting head!

- *Unique micrometer adjustable cutter Micrometer lets you change setting form longest to shorter in increments of 1/1000" without ever moving the case*
- *Get accurate, consistent case lengths*
- *Unique one finger case cam lock*
- *Large diameter, replaceable cutting head*
- *Uses standard Hornady shell holders & pilots*
- *Includes the seven most popular pilots: .22 cal., 6mm, .270 cal., 7mm, .30 cal., .38 cal., 45 cal.*

Cam Lock Trimmer ..... C23PC050140 ..... $108.49

Cam Lock Trimmer Cutter ..... C23PC390972 ..... $21.99

.17 cal Pilot-Cutter

The standard Cam-Lock trimmer is too large for a 17 cal case. This pilot includes a cutter for use with the Hornady Cam-Lock trimmer.

Pilot Cutter *(.17 cal)* .... C23PC390942 ... $25.49

Trimmer Pilots $4.79

Place "C23" in Front of Part Numbers

Cam-Lock Power Trimmer Adapter

The power adapter for your Cam-Lock Trimmer allows you to use a battery-operated screwdriver to drive your trimming. The adapter replaces the hand crank for easy operation.

Cam-Lock Power Adapter ..... C23PC050145 ..... $21.49

Balance Beam Scale

A measurement range from 0 to 500 grains with 0.1 grain sensitivity, will easily handle most reloading tasks. And a magnetic damper provides fast, accurate measurements. The balance bar is laser etched, easy to read, and will not flake or peel, and the pan hanger is molded for a perfect fit.
• 500 grain capacity • +/-1 grain sensitivity • Hardened pivot pins & bearings for durability • Made in the USA
Balance Beam Scale ..... C23PC050109 ..... $102.49

Fast-Load Powder Measure Stand

The incredibly strong Fast-Load Powder Measure Stand has a rigid frame and extra long arm that lets you fill an entire 50-count Universal Loading Block. Accepts any measure with 7/8"-14 thread. Lock-N-Load Bushings: If you have more than one powder measure, you can switch them in and out of the Fast-Load stand in just seconds, using Lock-N-Load bushings. Long Reach: Lets you bench-mount the powder measure and still drop powder in the loading block.
Measure Stand ..... C23PC050008 ..... $43.49

Lock-N-Load® Powder Measure Bench Rest

A specially designed metering insert and a smaller metering chamber to promote more consistent and uniform filling. The micrometer adjustment gives positive reference for metering adjustments and you can install pre-set metering units by simply pushing the button on the outside of the metering chamber. There's no need to drain your powder hopper or disassemble the Powder Measure. Use the Drain Tube Insert (sold separately) to rapidly and easily return powder to its container. All moving parts have been plated for protection and long life, and the rotor requires NO lubrication.
Lock-N-Load®
Bench Rest Powder Measure ..... C23PC050130 . $163.49
Bench Rest Metering Assembly ..... C23PC050114 ... $83.99

Basic Powder Funnel

Anti-static funnel fits all calibers between 22 and 45. Squared rim design won't roll off the table.
.22 -.45 Cal. ..... C23PC586051 ..... $4.29

Premium Powder Funnel Kit

High-capacity, non-static aluminum funnel stores nicely in form-fitted storage case. Nine caliber-specific bushings allow funnel to fit a variety of case sizes: .224, .243/6mm, .257, .264/6.5mm, .277/6.8mm, .284/7mm, .308, .338, .375.
Funnel Kit ..... C23PC586059 ..... $46.49

Powder Trickler

Used to trickle that last few tenths of a grain of powder into a dropped and weighed charge for "0" variation. Hornady's powder trickler has a wide, stable base, is easy to clean, and uses a small amount of powder to fill.
Powder Trickler
C23PC050100 ..... $16.99

100 BULLETS

Auto Charge® Pro

The Hornady® Auto Charge Pro provides precise, customizable powder dispensing in an easy-to-use, space-saving unit. Precise to within 0.1 grain, the Auto Charge Pro offers customizable trickle speeds for various powder types, as well as custom time settings.
• Backlit touch screen • Large powder capacity • Built-in bubble level • Smaller footprint than competing brands • Auto Charge® Pro
C23PC050053 ..... $398.99

500 BULLETS

Hot Tub™ Sonic Cleaner

Features a 9 liter capacity, the Hot Tub is long enough to accommodate and clean a 16-inch AR-15 upper. One 1.7 qt. inner tank comes with the unit and can be used in the main tank for cleaning multiple smaller batches. Features integrated drain pans in the lids, a small parts basket, a degas function and 5 temperature settings from 100-140˚F.
C23PC043310 ..... $711.99

Digital Cases & Part Dryer

• Dry large quantities of cartridge cases and gun parts
• Four fixed trays for cases and small parts, and a fifth adjustable tray for larger gun parts
• Digitally adjust drying time from 15 minutes to two hours
• Choose from 7 temperature levels for quick or gentle drying
• Easy to clean
Digital Cases & Parts Dryer
C23PC053311 ..... $112.49

100 BULLETS

Magnum Digital Vibratory Tumbler

• Clean and polish large quantities of brass quickly and efficiently.
• Larger drum holds up to (600) 38 Special cases, (250) 30-06 cases or equivalent.
• Tumble for up to eight hours with digital timer.
• Vibratory action cleans brass to brilliant shine.
• Tumbling makes dies and other equipment operate more smoothly.
Magnum Digital Vibratory Tumbler
C23PC050240 ..... $125.99

Lock-N-Load® Sonic Cleaner™ Case Solution

Safe for use in all Hornady Sonic Cleaners. Cleans stuck on powder residue and dirt from casings, safe for all brass.
Lock-N-Load® Sonic Cleaner™ Solution
1 Quart..... C23PC043355 ....$26.49
1 Gallon ..... C23PC043356 ....$76.99

LNL® Sonic Cleaner™ Gun Solution

Safe for use in all Hornady Sonic Cleaners. Cleans grease, dirt, and fouling from the dirtiest gun. Not safe for case cleaning.
Lock-N-Load® Sonic Cleaner™ Solution
1 Quart..... C23PC043360 ...$27.49

One Shot™ Metal Polish

For use with Hornady Tumbling Media, this water-based, bio-degradable product cleans polishes, and protects all metals except aluminum
One Shot™ Metal Polish
C23PC9993 ..... $13.49

G3-1500 Electronic Scale

This compact, battery operated trickle compatible scale offers a maximum reference measurement of 1500 grains. Unlike other scales on the market, it features a precision load cell with 1/10th grain accuracy and constant readout up to 500 grains, offering the flexibility to trickle powder into the pan or weigh charges, bullets or cases directly. You can trust this scale to make quick work of your most precise handloading tasks. Includes two AAA batteries.
G3-1500 Electronic Scale
C23PC050104 ..... $68.49

M2 Digital Bench Scale

Made from the same high quality, precision load cell found on the Lock-N-Load® Auto Charge®, the high performance Lock-N-Load® Bench Scale is the perfect addition to your reloading bench. With a capacity of 1500 grains, you can weigh powder, bullets, cases, cartridges and more. The large LCD display is easy to read and weighs precisely to a tenth (0.1) of a grain. Included are two calibration weights, AC adaptor, 220V adaptor, and metal powder pan.

100 BULLETS

M2 Digital Bench Scale
C23PC050111 ..... $189.99

Rotary Case Tumbler - 110V

Clean and polish brass cartridge cases to a brilliant shine with the rotary action of this tumbler, coupled with its steel pin tumbling media. Six-liter drum holds 5 pounds of brass cases. Digital timer allows tumbler to run or up to eight hours in half-hour increments.

500 BULLETS

For best results, use with One Shot® Cartridge Case Solution. Six-liter drum holds 5 pounds of brass cases. Set tumbler to run for up to eight hours in half-hour increments using the digital timer.
Rotary Case Tumbler ..... C23PC050220 ..... $249.99

L-N-L® Impact Bullet Puller

Remove bullets from cartridges without damaging the bullets. Hollow head of bullet puller captures bullet and powder for reuse. Three collet sizes allow for use with cartridges from .22 up to .45 caliber. Can also utilize shell holders (not included).
L-N-L® Impact Bullet Puller ..... C23PC050092 ... $24.49

Pricing subject to change without notice. Not responsible for typographical errors.

M1 Case Tumbler

the cyclonic and vibratory action of the Tumbler cleans brass to a brilliant shine.
Use the included sifter to separate the polished brass from the media. Running time varies based on the condition of the cases and degree of cleanliness desired.
Holds up to (400) .38 Special cases, (180) 30-06 cases, or the equivalent of other like-sized cases.
M-1 Tumbler ..... C23PC50202 ..... $82.99

Rotary Media Sifter

Quickly separate brass cartridge cases from corn cob or steel pin tumbling media with the Rotary Media Sifter. With a few turns of the handle, media falls to the bottom of the sifter, leaving cases clean and ready to use. Sifter drum locks into place for easy loading, and clear polycarbonate lid allows easy monitoring of progress.
Rotary Media Sifter
C23PC050207 .....$67.49

One Shot Tumbler Media

This media is made of ground corn cob or use in a case tumbler. The abrasive media removes tarnish and other residue from cartridge cases.
One Shot Tumbler Media 76 oz.
C23PC050303 .....$20.49

One Shot® Case Lube

with DynaGlide Plus™

- Prevents burnt carbon and lead build-up
- Repels and displaces moisture
- Greatly reduces or eliminates frequent gas port adjustments in semi-auto and automatic firearms
- A high speed "micro penetrating" high pressure dry film.
- Offers advantages in critical match load accuracy.
- Eliminates the paste lubing mess.

One Shot® Aerosol *(5.5oz)*
C23PC9991 .....$11.49
One Shot® Aerosol *(10oz)*
C23PC99913 .....$17.49

One Shot® Gun Cleaner

with Dyna Glide Plus

One Shot Gun Cleaner & Dry Lube reduces friction, cleans grit, grime, old oil and gunk from firearms, loaders and loading tools. It leaves behind a thin, dry lube that's impervious to heat, cold or buildup.

- Cleans & Dry lubes in one shot with no oily mess
- Excellent micro cleaning solvent
- Odorless after application

Aerosol (5.5 oz)
C23PC9990.....$11.49
Spray (12 oz)
C23PC99901 .....$19.29

One Shot™ Case Sizing Wax

Simply dab on your index finger and thumb, then apply to your cartridge case before sizing. A little goes a long way, and this new paste lube is quite possibly the most effective lube you'll ever use.

One Shot™ Case Sizing Wax .....C23PC9989.....$11.49

Lock-N-Load® Sonic Cleaner™

Hornady® Manufacturing has taken cartridge case cleaning to the next level with the new Lock-N-Load® Sonic Cleaner™. A combination of intense ultrasonic cleaning action and a unique cleaning solution, One Shot® Sonic Clean™, provide an extremely effective and efficient method to remove carbon residue and other foreign materials from the entire case. Unlike tumblers, this sonic cleaner quickly cleans the inside of the case as well as primer pockets. The ultrasonic action creates microjets that blast carbon buildup off cases, small gun parts and equipment.

- ***The Lock-N-Load® Sonic Cleaner™ 2L*** can hold up to three hundred 223 cases or one hundred fifty 308 cases.

Sonic Cleaner™ **2L** ..... C23PC043320 ..$154.99
Spare Sonic Basket 1.2 Liter..... C23PC150204 ....$13.49
Spare Sonic Basket 2 Liter..... C23PC150206 ....$19.99

Case Lube Pad & Reloading Tray

Includes case sizing lubricant, universal accessory handle, chamfering/deburring tool, primer pocket cleaner heads, case lube pad and loading tray and three neck brushes for the following calibers: 22, 338-35 and 44-45.

Case Lube Pad Tray *Only*..... C23PC020043 ..... $21.99
Sizing Lube *Only*..... C23PC050009 ..... $5.79

Unique Case Lube

This natural lube is easy to use - a quick swipe as you pick up case and it's done.

Improved Shell Plates

The addition of a smooth radius to the mouth of each shell holder around the Shell Plate ensures smooth functioning – especially when the Shell Plate is used with the LNL Case Feeder. In addition, the bevel on the retainer spring groove helps keep the spring in place when inserting cases into the Shell Plate. Shell Plates for Lock-N-Load AP™ and Pro-Jector™ are available to fit the calibers listed, but there are other calibers you can load with our shell plates. They will also hold additional calibers with the same case head dimensions.

See chart for sizes

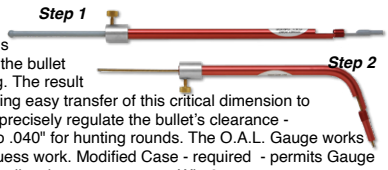
Improved Shell Plates **$44.99 & $56.49**

Shell Holders **$5.29 & $8.49**

Lock-N-Load® Headspace Gauge

The Lock-N-Load® Headspace Gauge is the best method we've found to extend brass life, improve accuracy, and enhance safety. The gauge measures variations in your brass before and after firing or re-sizing. It allows for comparison between fire-formed brass from your gun and your re-sized brass. Any of five interchangeable bushings are attached to your caliper using the same body as found on our Bullet Comparator. The five bushings that come with the Lock-N-Load® Headspace Gauge provide the ability to check most bottleneck cases, from .17 Rem through the belted magnums. Ackley Improved chambers use the same bushing size as the parent case.

Consult product instructions for cartridge/bushing size details.



Lock-N-Load® Headspace Kit Body w/ 5 Bushings ..... C23PCHK66 ..... $45.49
Lock-N-Load® Headspace Kit without Body ..... C23PCHK55 ..... $31.49

Lock-N-Load® O.A.L. Gauge

Small changes in the clearance between the bullet and the rifling can make a big difference in accuracy. Most often, seating bullets close to the rifling will produce improved accuracy. Here is the solution to proper bullet seating depth for precision handloaders. The O.A.L. Gauge produces an accurate model of your chamber with the bullet in light contact with the lands of the rifling. The result is then measured with your caliper, allowing easy transfer of this critical dimension to the bullet seating die. This allows you to precisely regulate the bullet's clearance - free travel - to the lands: typically .020" to .040" for hunting rounds. The O.A.L. Gauge works with any bullet you choose. Eliminates guess work. Modified Case - required - permits Gauge with any chamber. Two Gauge models fit all action types - except Win 94. Complete instructions provided.

C-1000 O.A.L Gauge, *Straight* ..... C23PCC1000 ..... $40.49
C-1550 O.A.L Gauge, *Curved* ..... C23PCC1550 ..... $45.49

Modified Case are to be used with the Lock-N-Load® O.A.L. Gauge

Lock-N-Load® Modified Case

These cases are specially modified to work with Lock-N-Load Precision gauges. A special fine thread is used to attach them to the gauges, ensuring that they remain perfectly square for precise alignment in the chamber of your firearm. Second, the neck of the case is made perfectly round and opened slightly to allow a standard diameter bullet to slip into the case mouth effortlessly, but concentrically, to ensure the most precise results possible. Hornady offers Interchangeable Modified Cases in all common sizes. These specially prepared Modified Cases are threaded at the case-head and have a .002" oversized neck to accept the same bullets you intend to load. This is critical, as the Lock-N-Load® O.A.L. Gauge dimensions obtained will be accurate to .001."

- *Interchangeable Modified Cases have a threaded case-head allowing them to attach to either O.A.L. Gauge model.*

- *Use same bullets as intended for reloading.* - *Cases listed are to SAAMI specs.*

**.17 Hornet Adapter & Modified Case*

Lock-N-Load® Headspace Bushings

- This is for the bushing only, the Bullet Comparator and Calipers that are required for the set to work are (Sold Separately)
- All bushings are interchangeable with the Comparator

Series C – .375" ..... C23PCC375 ..... $8.29
Series D – .400" ..... C23PCD400 ..... $8.29

Lock-N-Load® Bullet Comparator

Measuring cartridge lengths across the bullet tips can cause variations from one round to the next. A Bullet Comparator allows your caliper to measure off the bullet's ogive to eliminate the variation. Also checks bullet uniformity. The Lock-N-Load® Comparator attaches to the blade of your caliper with a thumbscrew and uses interchangeable "inserts" available for .17 to .45 caliber. *Popular basic set includes comparator "Body" and 6 insert bushings in diameters: .224", .243", .257", .277", .284", .308"*

Comparator Basic Set Body & 6 Inserts ..... C23PCB234 ..... $35.49
Comparator Complete Set Body & 14-Inserts ..... C23PCB14 ..... $58.99
Comparator Basic Set Body ..... C23PCB2000 ..... $15.79

Extra Inserts

(Not Included in Basic)

Bullet Comparator Inserts are designed for use with the Lock-N-Load Bullet Comparator; it eliminates variables when measuring the over-all length of a bullet. Bullet length can vary a few thousandths due to material variation and tip finish. The Lock-N-Load Bullet Comparator Inserts allow the reloader to measure the bullet from the base to a specific point on the ogive, which has little variation, if any

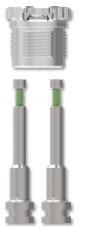
LEE PRECISION, INC.

Deluxe APP Reloading Press



The APP is a "frameless" design with nearly all th forces going directly to the dies through the steel linkages rather than through the frame.
As a single stage reloading press it has almost unlimited visibility and hand clearance. Mounting is easy on any bench or table with no under swing. Dirty, gritty, lead contaminated spent primers are 100% captured in a screw top bottle.
This Deluxe model includes the Automation package, the world's fastest single stage press. Now you can deprime cases, size cast bullets, swage primer pockets, etc. as fast as you can cycle the lever!
The Deluxe model includes a revolutionary new kind of case and bullet feeder. Jaws automatically open and grasp the bullet or case. They then rapidly position the case or bullet into the operating position. Once in position the jaws instantly open and return for the next case or bullet. It is fascinating just cycling the press empty watching the jaws open and close as it cycles back and forth. The Deluxe model is complete with all the feed tubes, tube supports, risers and case slider It even includes the 22-caliber bullet feed jaws.
Deluxe APP .....C23LEE90933.....$119.99

App Bulge Buster Kit

The Lee App Bulge Buster Kit and the appropriate Lee Carbide Factory Crimp Die, restore free function of rimless cases that have low base bulges.
C23LEE91572.....$23.99

Breech Lock Ram Prime

- Start priming in seconds, nothing to adjust.
- Includes small and large priming assemblies, no tiny parts to fumble with or lose.
- Effortless priming in the tightest pockets.
- Uses any brand press shell holder.
- Safe with all brands of primers.
- Works in any Lee Breech Lock press

C23LEE91612.....$17.79

Set of X-press Shell Holders

Lee Set of X-press shell holders for the App press, includes 11 of the most popular for more than 115 different cartridges. Includes #1, 2, 3, 4, 5, 7, 8, 9, 10, 11 and 19
C23LEE91622.....$35.99

App Roller Handle Upgrade Kit

Lee App Roller handle upgrade kit includes everything you need to upgrade your stock red grip, to an ergonomic hardwood roller handle. Specially designed left and right replacement steel levers included. Roller handle installs on the App press using existing hardware.
C23LEE91629.....$24.99

APP Primer Pocket Swager

Primer pocket swaging is necessary when reloading brass that have crimped primer pockets, most cases used in military or non civilian applications have this crimp. The hardened steel swage punch is automatically extracted from the primer pocket by five 400 pound force disc springs. Breech lock die body installs in seconds no adjustment required. The integral express shell holder speeds your case through the swaging operation. Complete swaging set including automatic swage die with proper punch size and proper push die with case web pusher installed.
#2 - Large Punch Size.....C23LEE91561.....$15.99
#4 - Small Punch Size.....C23LEE91562.....$41.49
#19 - Small Punch Size.....C23LEE91563.....$39.99

Ultimate Lock Rings

- Compatible with 7/8 x 14 threaded Lee reloading dies and Lee reloading presses.
- Torque type splined exterior, for a no-slip grip.
- "O" ring, anti-rotation, included. Never loosens during use.
- Lock-ring wrench included.

3-Pack .....C23LEE90566.....$11.29

Lock Ring Wrench

Black nylon wrench for loosening spline drive lock-rings and lock-ring eliminator bushings. Picture shows die wrench in use, one die wrench included in this product.
Lock Ring Wrench
C23LEE90093.....$3.29

Breech Lock Update Kit

– Includes: Breech lock adapter
– Spline drive lock-ring eliminator
– Lock-ring wrench

1-1/2" -12 Update Kit.....C23LEE90094.....$13.79
1-1/4"-12 Update Kit.....C23LEE90512.....$12.79

Bullet Sizer & Punch

Lee Bullet Sizer & Punch sizes cast bullets, also seats and crimps gas checks. Use in conjunction with the Breech Lock Bullet Sizer Kit. Fits any Breech Lock enabled reloading press. Lee Liquid Alox, a reloading press and the Breech Lock Bullet Sizer Kit are required to utilize this kit, each sold separately.
Bullet Sizer & Punch.....$9.79

This adaptor must be used with one of the complete primer pocket swage units select the one with the primer size you wish to swage. Install any press type shell holder with an outside diameter of 13/16 (20.6mm) or smaller.
Universal Shell Holder Adpt. .....C23LEE91564.....$41.49

Spline Drive Breech Lock Bushing

New, easy grip splined drive surface allows easy, accurate and fast die installation in your press.
Reloading dies are confusingly similar looking, so we anodized and colored the bushings so you can "color code" your dies for quick positive identification. No need for lock rings on your dies with these quick-change bushings.
Simply lightly tighten the clamp screw, and split collar will put a vice lock on your die. Loosen the screw, and the die will spin freely. Once set you'll never lose position.
(3-Pack) .....C23LEE90042.....$17.79
(4-Pack) .....C23LEE90095.....$21.99

LEE PRECISION, INC.

Breech Lock Hand Press

The world's most popular hand press, more convenient than ever, now includes the Breech Lock Quick-Change Die Feature, so you can instantly change dies with just a twist of the wrist. Easy to use, the Breech Lock Hand Press does not need a reloading bench or table, and is easily portable for reloading at the range or on the go. Solid construction and heavy duty ram make this a full power press without the size of a bench mounted press. Takes most standard dies and up to 3.65" case lengths. The Breech Lock Hand Press is also available as a kit. Great for beginners--the kit and set of dies is everything needed to start reloading.

The Breech Lock Hand Press Kit

Kit Includes: Hand Press • Ram Prime • Powder Funnel • Case Sizing Lube. (Dies not included.)

Breech Lock Hand Press *Only* ..... C23LEE90685 .....$58.49
Breech Lock Hand Press *Kit* ..... C23LEE90180 .....$74.99

Also Available Separately

Powder Funnel ..... C23LEE90190 .....$3.99
Case Resizing Lube ..... C23LEE90006 .....$4.79
Ram Prime..... C23LEE90106 .....$17.79
Breech Lock Bushings *(2-Pack)*..... C23LEE90600 .....$12.79

Auto Bench Prime

Symmetrical design allows effortless right or left hand operation. Comfortable lever with just the right amount of mechanical advantage effortlessly seats even the most difficult primers with just finger pressure. Includes priming assemblies for large and small primers. Made of a water clear tough polyester material that allows you to monitor the primers passage from the tray to the primer pocket. Includes the new folding tray—go from box to priming in seconds. Tray has a built-in primer flipping feature allowing direct filling from today's large primer boxes.

Auto Bench Prime.....C23LEE90700 .... $35.99

Auto-Prime

Usable with any brand of primer, the Auto-Prime XR is packed full of safety features. The new Auto-Prime XR features a patent pending elevator pin. This pin safely separates a single primer from the others and presents it for priming reducing the likelihood of a chain fire. The new tool also has a new unbreakable comfort curve lever and **large and small primer trays** with slide on covers that comfortably accepts all brands of primer boxes.

Auto-Prime.....C23LEE90230 .... $25.99

Pro 6000 Six Pack Reloading Press

The culmination of nearly 40 years of progressive press design and production. Years of comments and suggestions have been incorporated into the Lee Pro 6000 Six Pack Reloading Press. Includes: Six Pack Reloading Press, bin and bracket and universal case feed magazine. Six stations allow any brand of die be used - in line bullet feed dies, powder check dies and such. Simple and reliable automatic indexing - just one moving part, replaceable in seconds, no tools required and never requires adjustment.

C23LEE91823.....$279.49

Priming Tool Kit

Includes the New Auto-Prime and nice molded storage box. Holds everything including a complete set of shell holders. This kit comes with 8 of the most popular priming tool shell holders, works with over 130 different cartridges. 1, 2, 3, 4, 5, 11, 12, 19. Holds an additional 10 shell holders. This kit is a convenient way to keep your tool and shell holders all in one spot.

Priming Tool Kit

C23LEE90215A..... $38.49

Breech Lock 50th Anniversary Kit

Includes the new Breech Lock Challenger Press and one Breech Lock quick-change bushing. You get a complete powder handling system, with the most convenient and repeatable Perfect Powder Measure. Plus the Lee Safety Scale, the most sensitive and safest of all powder scales and fill your case with the included Powder Funnel.

An included chamfer tool chamfers the inside and outside of the case mouth and a tube of premium sizing lube is included. A small and large primer pocket-cleaning tool completes the case preparation package. You also get the Large and small Safety Prime for all your priming needs.

LEE PRECISION, INC.

The Original Classic Lee Loader Kit

For more than 55 years, more shooters have chosen the famous Lee Loader for their first reloading tool than any other. They realize it is all they need for good, accurate ammunition. In fact, at one time ammunition loaded with a Lee Loader held a world record listed in the Guinness Book of World Records for more than seven years. Millions upon millions of rounds have been reloaded with the famous Lee Loader, and we expect it will continue to be a most popular reloader for many years to come. It's the perfect tool for those who wish to simply try reloading, because it will pay for itself in just an hour or two. Find out for yourself how much fun it is to reload with the Lee Loader. Everything you need to begin loading one caliber and you'll save enough to pay for it in the first hour!

Bulge Buster Kit

Lee Bulge Buster Kit and appropriate Factory Crimp assures your mixed brass is bulge free. This push through die adapter will quickly remove the annoying bulge rings that shell holder constrained dies simply can't reach. The Bulge Buster Kit includes: extension sleeve, push through punch, catch container and complete instructions. Works with these rimless cases: .380 ACP, 10mm, .40 S&W, .41 AE, .45 ACP, .45 GAP, and .45 Win Mag.

Note: 9mm cases are not able to be used in the Bulge Buster because it has a slightly tapered case and the rim is not completely flush with the case.
Bulge Buster Kit..... C23LEE90487 .....$15.99

LEE PRECISION, INC.

Load-Master

This is the press the volume reloader has been dreaming about. A five-station press with innovative features you have come to expect from Lee. Strength, quality, fit and finish better than any other machine made. This massive machine is built for a lifetime of service. Most likely the last press you'll ever buy.
It has everything!

Pro 1000

Add a bullet and pull the lever; all other operations are automatic. One loaded cartridge with each pull of the lever. Every operation is automatic. Primers, like the powder, are fed only if a case is present. No wasted primers or spilled powder. Alternate loading sequence lets you load only one case at a time. Makes learning easy for the first time user and great for fine adjustments or experimenting. You can start reloading good ammunition minutes after the press is bolted down. Change calibers in just three minutes. Maximum cartridge length 2 5/16"

Features include:
- *Automatic Index,*
- *(4) tube case feeder*
- *Automatic Prime and Automatic Powder Charge.*
- *Highly jam-resistant, and easy to set up.*
- *Guaranteed 100,000 rounds.*
- *Complete with carrier and shell plate, deluxe auto disk powder measure and a set of Lee Carbide Dies.*

Safety Powder Scale

110 gr. capacity scale accurate to 0.1 gr. ideal size for weighing powder charges. Magnetically dampened phenolic safety beam won't bend, remains accurate. Stainless steel razor blade balance. Beam lifter raises beam as charge weight is approached. Masked vernier 1/10gr. poise, non-magnetic stainless steel ball poise. Anti-static aluminum pan. Heavy die cast base.
Safety Powder Scale ..... C23LEE90681 .. $37.49

Perfect Powder Measure

This measure is unique because it eliminates cut powder and jerky action, stops drum binding. Tapered drop tube prevents powder bridging. Meaningful calibration, and charging powder is safer, faster and easier with the Perfect Powder Measure Automation Optional Universal Charging die makes the case operate the measure
Includes adapters to fit almost all cartridges.
Perfect Powder Measure..... C23LEE90058 .....$24.99

Adjustable Charge Bar

Lee Adjustable Charge Bar is used in place of the Charge Disk on the Auto Disk and Pro Auto Disk Powder Measures. Adjustable between .28 cc and 1.6 cc Easy to set. For disk measures.
Adjustable Charge Bar ..... C23LEE90792 ..... $7.99

Pro Auto Disk Powder Measure

Elastomer wiper and teflon coated metal casting make this the smoothest operating measure. Will not cut powder and almost totally eliminates leakage. Large hopper with shut-off valve is attached with brass thumb nuts. Includes swivel adapter and spring return lever.
Pro Auto Disk Powder Measure
C23LEE90429 ..... $47.99

Auto Disk Riser

Raises the Auto Disk powder measure higher above the mounting location on the Turret Press to provide clearance for use of the Safety Prime
Auto Disk Riser..... C23LEE90041 .... $7.99

Quick Change Drum Set

All drums are infinitely adjustable within range. No tools are required for adjustment. A graduated adjustment key included with each drum. Each turn of the adjusting screw is .1cc or about 1 grain of powder. Each key is marked with .01cc graduations allowing easy 1/10 grain powder adjustments.
Quick Change Drum Set..... C23LEE90453 .....$15.99

Powder Measure Kit

Lee Powder Measure Dipper Kit includes 15 graduated powder dippers from .3cc to 4.3cc. Slide card included has powder dispensing chart
Powder Measure Kit ..... C23LEE90100 ..... $11.99

Powder Measure Stand

A real powder measure stand, not a cast or stamped bracket. No need to bolt or screw this beefy stand to your work bench

- *Powder coated steel construction.*
- *7/8" mounting hole for all popular measures.*
- *Includes 3 no slip feet.*
- *Rock solid mount improves measure consistency.*
- *Space saving freestanding design is portable and convenient.*

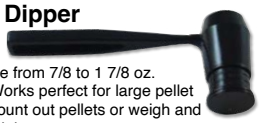
Powder Measure Stand..... C23LEE90587 ..... $43.99

Auto-Drum Powder Measure

- Case actuated; never spill a charge.
- Exclusive elastomer wiper prevents powder shearing, works great with difficult metering extruded powders.
- Machined body with labyrinth groove mates to the precision molded nylon drums providing a leak free fit with the finest powders.
- Drum is actuated by a steel sector and pinion gear train.
- Quick-change hopper has on/off valve to quickly change powders.

Sleek modern design, all gears springs and levers inside the • die cast housing.

- Features swivel adapter, makes moving measure fast and convenient.
- Double charge disconnector reduces the chance of a double charge on progressive presses. (Press must have a fixed tool head or turret to use this feature.)



Auto-Drum Powder Measure..... C23LEE90811 ..... $43.99

Load-All II

Lee Load-All II shotgun shells not only look better than those loaded on machines costing hundreds of dollars, but they usually have more uniform velocity and patterns. You can load just as fast as with any other brand of loader costing up to $200. Twenty-four shot and powder bushings are included free. Only Lee supplies molded bushings. This is a time proven tool. There are hundreds of thousands in use world wide: in nearly forty years, we have yet to see one worn out. Written two-year unconditional guarantee and a lifetime warranty.
Load-All II *(12 Gauge)*..... C23LEE90011 .....$74.99
Load-All II *(16 Gauge)*..... C23LEE90015 .....$74.99
Load-All II *(20 Gauge)*..... C23LEE90012 .....$74.99

Adjustable Shot Dipper

Accurately measure lead, bismuth and steel.
Telescoping cup adjustable from 7/8 to 1 7/8 oz.
Calibrated for lead shot. Works perfect for large pellet sizes. With steel, simply count out pellets or weigh and set dipper according to weight.
Adjustable Shot dipper ..... C23LEE90973 ..... $3.29

Load - All Conversion Kit

The Load-All II can be easily and economically converted to another gauge with the conversion kit. The entire die carrier is replaced so no adjustments are needed. The conversion kit includes the die carrier, steel sizer, wad guide, shell holders, load data and instructions.
Conversion Kit *(12 Gauge)*..... C23LEE90070 .....$23.99
Conversion Kit *(16 Gauge)*..... C23LEE90071 .....$23.99
Conversion Kit *(20 Gauge)*..... C23LEE90072 .....$23.99

Powder Funnel

A large, unbreakable, funnel that fits all cases from .22 to .45 caliber. Hole in flange permits mounting to the Lee turret Press, shelf or bench.
Unbreakable Powder Funnel
C23LEE90190 ..... $3.99

LEE PRECISION, INC.

3-Jaw Chuck

Works with any case from 25ACP to the largest belted magnums. Three hardened steel jaws gently center the case while the spindle squares and locks the case head.
Cases are installed and removed with a fraction of a turn.
3-Jaw Chuck ..... C23LEE90608 .... $No Match!

Case Trimmer

The cutter and lock stud work for all calibers. You will need only one. The Case Length Gauge (Pilot) and Shell Holder must be ordered as Case Length Gauge and Shell Holder for each caliber.
Cutter & Lock Stud ..... C23LEE90110 ..... $5.79
Cutter (Only) *w/Ball Grip* ..... C23LEE90275 ..... $7.99
Large Cutter & Lock Stud ..... C23LEE90401 ..... $7.99

Decapper & Base

Easily removes crimped-in primers from military cases. Guaranteed unbreakable.
Decapper & Base *(.30 Cal)* ..... C23LEE90102 ..... $6.49
Decapper & Base *(.22 Cal)* ..... C23LEE90103 ..... $6.49
Pistol Decapper ..... C23LEE90027 ..... $1.79

Chamfer Tool

Must be used after case trimming.

Unique design cuts faster without chatter. One turn does the job. Can also be used to remove the crimp from primer pockets of G.I. brass.
Chamfer Tool ..... C23LEE90109 ..... $3.29

Primer Pocket Cleaner

Double ended design cleans both large and small primer pockets. Primers can be fully seated for better accuracy and safety. Costs so little and works so well, no reloader can afford to be without one.
Primer Pocket Cleaner ..... C23LEE90101 ..... $2.49

ACP/APP Decapper

Undersized flash hole decapper for ACP/APP or APP Deprime Kit
ACP/APP ..... C23LEE91892 ..... $3.99
APP ..... C23LEE91893 ..... $2.49

Decapping Die

An absolute must for those who clean cases before reloading. Cases need not be clean nor lubed when using this die.
Decapping Die ..... C23LEE90292 ..... $12.79
Replacement Decapping Pin ... C23LEE90783 ..... $2.49

Carbide Factory Crimp Die

Sizes the cartridge while being crimped so every round will positively chamber freely with factory like dependability
.30 Super Carry ..... C23LEE91890 ..... $23.49
8.6 Blackout ..... C23LEE91924 ..... $12.79
6mm GT ..... C23LEE91957 ..... $12.79

Heavy Duty Decapper

Use in conjunction with Lee's Universal Decapping Die product 90292, guided decapper helps align the case to reduce the chance of bending or breaking a decapper.
17Cal - 204 Ruger ..... C23LEE91574 ..... $3.99

Lee Deluxe Quick Trim Case Trimmer

The Deluxe Quick Trim Case Trimmer quickly and precisely trims your brass to the correct length. At the same time it chamfers the inside and outside of the case mouth. A click adjustable stop allows trim length adjustment in .001 of an inch increments. Allows the user to shorten case to an uniform shorter length than standard. Includes a snap-on chip catcher.
Deluxe Case Trimmer ..... C23LEE90437 ..... $23.99
See Die Charts for Quick Trim Die Body

Deluxe Power Quick Trim

Includes power Quick-Trim adapter, chip catcher and deluxe cutter assembly.
Deluxe Power Quick Trim
C23LEE90670 ..... $22.49

Lee Value Trim

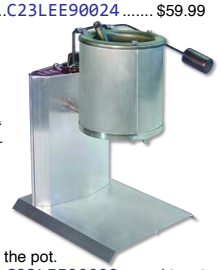
Same quick trimming and click adjustability as the deluxe version, but doesn't include the inside/outside chamfer blades. We also skipped the fancy chrome plating.
Value Trim ..... C23LEE90386 ..... $12.29

Lee Ram Swage

The Lee Ram Swage works on all single stage or turret presses that have 7/8"-14 threads in the press frame, and accept universal press shell-holders.
Value Trim ..... C23LEE91617 ..... $39.99

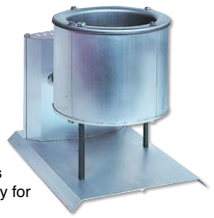
Pricing subject to change without notice. Not responsible for typographical errors.

LEE PRECISION, INC.



NOTE 220V: Intended for International use and do not ship with a plug

Precision Melter



High-speed melter with infinite heat control for the serious shooter. Easily handles 4-cavity molds. Takes less than 15 minutes to melt 4 pounds of metal. Same infinite heat control as used on the Production Pot. 500 watts AC only. Guaranteed 2 years.
Precision Melter *(110 Volts)* ..... C23LEE90021 ..... $56.99
Precision Melter *(220 Volts)* ..... C23LEE90024 ..... $59.99

Production Pot IV

Same as Production Pot, *except with 4 inches of clearance under the spout instead of two inches.* This is high enough to accept all brands of bullet molds and most sinker molds. These melters feature Infinite Heat Control mounted away from high heat of the pot.
Production Pot IV *(110 Volt)* ..... C23LEE90009 ..... $85.49
Production Pot IV *(220 Volt)* ..... C23LEE90008 ..... $88.99

Magnum Melter

Large 4" diameter pot allows easy access for the ladle caster. Melt time is less than 20 minutes with just 700 watts. 20lb. capacity for the longest casting session
Magnum Melter *(20lb Capacity)* ... C23LEE90949 ..... $74.49

Pro 4-20 Pot

All the Great features of the Pro 20 Pot, plus a generous 4 inches of clearance under the spout to accept all brands of bullet molds and most sinker molds. Also includes an adjustable mold guide to quickly and accurately position any mold for pouring.

Pro 4-20 Pot *(110 Volt)* ..... C23LEE90947 ..... $95.99
Pro 4-20 Pot *(220 Volt)* ..... C23LEE90948 ..... $100.49

Lead Ladle

A convenient sized ladle for bullet casting. Handy for skimming and stirring metal.
Lead Ladle ..... C23LEE90026 ..... $7.29

Ingot Mold

Casts 1/2 and 1 pound ingots.
Perfect for re-melting and alloying. Wood handle stays cool. Aluminum mold is lightweight and rustproof.
Ingot Mold ..... C23LEE90029 ..... $19.99

Mold Mallet

Features Ash hardwood construction utilizing the same wood species baseball bats are made from. Use to generly release bullets from mold cavities. Ergonomic design makes it convenient and comfortable to use during long casting sessions. Mallet is 10 inches long.
Mold Mallet ..... C23LEE90084 ..... $7.99

Hardness Testing Kit

No more wasted components shooting too soft or too hard lead. Quickly and precisely check hardness of your lead alloy. Exclusive conversion chart tells the maximum operating pressure of any lead alloy.
Hardness Testing Kit
C23LEE90924 ..... $78.99

Buckshot Molds

New eighteen cavity 00 Buck shot mold. Precision-machined mold produces 18 linked pellets per cast. No need to individually count pellets simply snip three strands into your 12 gauge shell. Each cast produces enough pellets to load two 12 Gauge shotshells.
Handles shown but not included.
18 Cavity 00 Buckshot Mold ..... C23LEE90486 ....$61.49
18 Cavity 000 Buckshot Mold ..... C23LEE90192 ....$61.49

Double Cavity Molds

All molds for pistol calibers are double cavity to speed casting. Handles and sprue plate included.
Double Cavity Mold $18.49

Hollow Base Mold

These are available in single cavity only. They all have self-centering automatic core pins for the fastest possible molding. Handles and sprue plate included.
Hollow Base Mold $21.49

Six-Cavity Mold

These are made for heavy duty volume production. The mold and blocks have steel bushing and alignment pins for lasting precision. Price includes a cam operated sprue plate to eliminate the pounding common to ordinary molds. The sprue plate is hard anodized and held down with wave washers at each end. *(Handles extra - C23LEE90005)*
Six-Cavity Mold $36.99

Shotgun Slug Molds

Lee Slug Mold features the exclusive drive key. The drive key positively rotates the slug in rifled shotgun barrels and doubles as a support rib allowing use of a standard trap wad—no need for a support wad or base filler. Sabot wad design outperforms rifled slugs in rifled slug barrels. Velocity and accuracy meet and exceed expensive factory loaded rifled slugs. Molds feature self centering automatic core pins for maximum speed and convenience. Mold is complete with sprue plate, handles and complete instructions with suggested loads.
Shotgun Slug Mold *(1 oz.)* ..... C23LEE90281 ..... $44.99
Shotgun Mold *(7/8 oz.)* ..... C23LEE90282 ..... $44.99

Ball Molds

Double Cavity Molds with Handles

Lee Round Ball Molds have the tangential cut off which eliminates the objectionable nib at the sprue.
Double Cavity Ball Mold $21.49

Bullet Mold Handles

Precision steel mold handles fit not only the Lee Six-Cavity blocks but most other brands of one and two cavity molds. Priced low enough so you can have a set for every pair of blocks.
Bullet Mold Handles ..... C23LEE90005 ..... $22.49

Bullet Sizing Kit

Fastest and easiest way to lubricate and size cast bullets. Standard 7/8x14 threads fit any reloading press. Bullets are pushed through the sizing die nose first, so no special nose punches are needed. Gas checks are automatically seated and crimped in place. Sized bullets are captured in the special container.

Lee Liquid Alox and Reloading Press are required to utilize this kit and are sold separately.

.50 Cal. ..... 500-354M LEE90471

Liquid Alox

Gives better accuracy because it eliminates leading. It dries to a soft, varnish-like finish that really clings. The dried coating does not degrade gunpowder. Eliminates the need for sizing of most cast bullets. Works well with all cast or swaged bullets, it works best with the micro band bullets, which are designed for tumble lubing.
Liquid Alox *(4 oz.)* C23LEE90177 $8.79

CUSTOM MOLDS We can produce custom bullet molds within certain limits. The prices are the same as our standard molds, but there is a tooling and set-up charge of $175.00. If interested in this service, please access design assistance sheet on **www.leeprecision.com**. This outlines the basic limitations of our manufacturing process.

CUSTOM LUBE & SIZE KITS
Available factory direct for $38.00 plus S&H.
leeprecision.com/custom-lube-and-sizing-kit.html

WARNING **Melting lead and casting lead objects will expose you and others in the area to lead, which is known to cause birth defects, other reproductive harm and cancer. See instructions on "Reducing Exposure" supplied with product.**

LEE PRECISION, INC.

RGB Rifle Dies

Really Great Buy

We guarantee these dies to be better than any other brand. If for any reason you're not 100% satisfied—just return them to the factory with your sales slip and pay the difference of what you paid and the manufacturer's catalog list price of the dies you want. We will ship them to you with our thanks for trying ours. These dies are a Really Great Buy. They cost less, because like other die makers, we left out $20.00 worth of extras which are included in our PaceSetter™ dies.

See Rifle Die Chart for desired Caliber & Item No.

RGB Rifle Dies $17.99

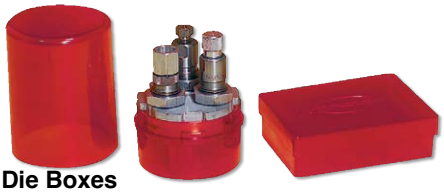
PaceSetter™ 3-Die Set

Lee Pace Setter 3-Die sets include the exclusive Lee Factory Crimp™ Die to produce factory-like ammunition with improved utility and accuracy. The die set also includes a conventional bullet seater. These dies are your best buy. They also include a shell holder, powder dipper, load data and are packed in the nicest storage box ever designed. The extras represent a $20.00 value. Most are unavailable at any price from other suppliers. These are the most copied dies in the world. Each and every die comes with a written lifetime warranty, 2-year guarantee and guarantee of accuracy or your money back!

See Rifle Die Chart for desired Caliber & Item No.

PaceSetter™ 3-Die Set $28.99

PaceSetter™ 2-Die Set



The same features and quality of our standard dies, but do not include a Lee Factory Crimp Die. You'll find no better die at any price. Half the price of competitive dies and theirs don't include load data which is priceless on odd or obsolete calibers. Our dies also include the correct shellholder and powder measure.

• Includes Shellholder Powder Dipper & Load Data

See Rifle Die Chart for desired Caliber & Item No.

PaceSetter™ 2-Die Set $28.99

Die Boxes

• Round Die Box Lets you store dies installed in a 3 or 4-hole turret.

• Perfect storage for dies • Made from a tough, durable plastic.

Round Die Box ..... C23LEE90535 ..... $5.99
Flat 2-Die Box *(Red)* ..... C23LEE90078 ..... $37.49
Flat 3-Die Box *(Red)* ..... C23LEE90791A $3.99
Flat 4-Die Box *(Red)* ..... C23LEE90422 ..... $5.79

Resizing Lubricant

Another first by Lee. We purchased the finest automotive deep draw lubricant and had it custom packaged exclusively for us. Lee lube is pleasant to handle and you can thin it with water. Non-sticky, non-allergenic. Very little is needed; it goes a long way. Eliminates stuck and dented cases and makes sizing less work.

2 oz. Tube ..... C23LEE90006 ..... $4.79

Ultimate Rifle Die Set

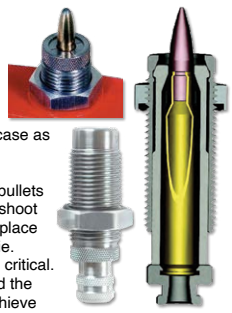
The set features a full length-resizing die to return brass to factory new dimensions, perfect for reloading brass fired in other guns. The Collet Neck sizing die is used on your fire formed brass giving you best possible accuracy. No case lube required and cases last almost forever. The Easy Adjust Dead Length Bullet seating die foolproofs the bullet seating adjustment, and assures perfect seating depth every time. The Factory Crimp die provides a secure crimp on bullets with or without a crimp groove. In most cases it helps accuracy by providing a uniform higher start pressure and gives the finished cartridge Factory like accuracy and dependability. The set is complete, with shell holder, powder measure and famous Lee load data featuring all common brands of powder organized in a easy to read logical format. In addition to best accuracy, you get these benefits

- *No case lubrication required with collet die*
- *Reduced or eliminates case trimming*
- *A ten times increased case life*
- *Unmatched speed and convenience*
- *Minimum bullet runout • Most uniform neck tension*
- *Includes complete Collet Die Set plus Factory Crimp Die and full length Resizing Die. Requires Resizing Lubricant*

See Rifle Die Chart for desired Caliber & Item No.

Ultimate Rifle Die Set $44.99

Collet Neck Sizing Dies



A collet squeezes the case neck against a precision mandrel for a perfect fit with minimum run-out. No case lube is needed. A dead length bullet seater is included to complete the most accurate reloading system ever made. These dies size only the neck to preserve the perfect fit of fire forming. Only reload cases that have been fired in your gun. Not recommended for auto-loaders, slide or lever action guns. Collet Die Set includes Collet Neck Sizing Die, Dead Length Bullet Seating Die, shell holder, powder measure and charge table.

See Rifle Die Chart for desired Caliber & Item No.

Collet Die for Neck Sizing Die - *Only* $18.49
Collet Die *Set* $28.49

LEE PRECISION, INC.

Factory Crimp Die

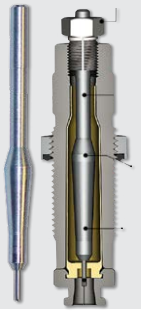
It is impossible to buckle the case as with regular roll crimp dies. Trim length is not critical. Tests demonstrate that even bullets which have no cannelure will shoot more accurately if crimped in place with the Lee Factory Crimp Die. Even powder selection is less critical. Until now, handloaders seated the bullet to touch the rifling to achieve similar results. This is not always possible nor desirable. The Lee Factory Crimp Die is included at no extra charge with Lee PaceSetter 3-Die Sets.

Factory Crimp Die $10.99

Undersized Carbide Sizing Die

Because carbide is so hard, no lubrication is required on the case. You find the die will actually burnish the case and improve its appearance. The die will last a lifetime.

9mm Luger
C23LEE90313 ..... $23.99
.40 S&W
C23LEE90787 ..... $23.99



7.62 Nagant Steel 3-Die Set

Lee 7.62 Nagant Steel 3-Die Set. Includes Full Length Sizing Die, Bullet Seating Die and Powder Through Expanding Die, Universal Shell Holder, Instructions, but no load data.

7.62 Nagant Steel 3-Die Set.
C23LEE90921 ..... $45.49

The EasyX

Now featured in all Lee Rifle dies.

- Super strong bearing grade steel decapper is almost unbreakable
- Tapered area expands sub calibers when case forming
- Quickly and effortlessly reforms dented or squashed necks
- Sturdy shank so strong you can drive out a stuck case without damage
- Long guided neck expansion areal located to begin expanding as soon as the neck leaves the die at the presses maximum position.

.223 Exp/Decapper
C23LEE90022 ..... $2.79

26 Nosler Quick Trim Die

No calipers, measurement or adjustment required. Simply install the appropriate quick trim die in your press and start trimming. A click adjustable stop allows trim length adjustment in .001 of an inch increments. Allows the user to shorten case to a uniform shorter length than standard, reducing trimming frequency.

26 Nosler Quick Trim Die New
C23LEE90637 ..... $15.99

Powder Thru Die 45/70

Lee 45/70 Powder Thru Expanding Die charges the case while expanding the case mouth. Used with powder funnel adapter or the Auto Disk or Pro Auto Disk Powder Measure

Powder Thru Die 45/70
C23LEE90089 ..... $12.79

Self-Lock Rings

Be sure to always loosen your dies by turning the ring, not the die. These have become so popular that we sell thousands of lock rings to people who want to update other brands 7/8" - 1/4" Self Lock Rings

C23LEE90534 ..... $4.79

Universal Case Expanding Die

Gently flares the case mouth to accept cast bullets without shaving. Works great to prevent damaging the moly and low friction coatings found on today's high performance jacketed bullets. Includes neck plugs for .22 cal through .45 cal. Works on everything from th 22 Hornet to the largest Ultra Mag. Costs so little and works so well you can't afford to be without one.

Univ. Case Expanding Die
C23LEE90798 ..... $14.49

Ram Prime

Primes on the press up-stroke for a more sensitive feel. Includes easy to change punches for both large and small primers. Fits all brands of presses. Same tool as supplied with the Hand Press Kit.

Lee Ram Prime
C23LEE90106 ..... $17.79
BMG RAM Prime
C23LEE90901 ..... $20.99

Short Bottle Neck Collet Style Factory Crimp Die

Incorporates a collet to apply a rifle type crimp to the case. Makes these very difficult to crimp cartridges a delight to reload. Bullets do not need a crimp groove, as the collet is so powerful it will form one.

5.7x28 FN ..... C23LEE90725 ..... $19.99
22 TCM ..... C23LEE90087 ..... $19.99
.357 SIG ..... C23LEE90076 ..... $19.99

~ 3 DIE SET WITH FACTORY CRIMP DIE

Pricing subject to change without notice. Not responsible for typographical errors.

LEE PRECISION, INC.

*Exclusive Lee features included at no extra cost**

Lee dies are the most copied dies ever made. Lately other brands have started to offer some previously exclusive Lee features. Such as one piece reaming, wrench flats, collet held decapper, finger adjustable bullet seater, elevated expander and "O" ring locks. The competition still remains way behind. Because Lee dies are made to the tightest tolerance in the industry with unbreakable decappers, floating bullet seater, heat treated to maximum hardness and polished to the smoothest finish. Every Lee rifle die set comes with guaranteed best accuracy in writing. This is in addition to the regular 2–year guarantee and lifetime warranty.

Add *C23LEE* to desired Item No.

Primer Xpress™

Oscillating Automated Priming System

This completely unique design features an oscillating primer reservoir which effortlessly orients primers and allows continuous primer feeding.

No more stopping your machine to reload primers using clumsy tubes! Simply add more primers into the built-in funnel without interruption to your loading operation. The large hopper can hold 300+ primers and includes a tough polycarbonate shield, which also keeps dust and debris out of the system.

• Add primers easily without stopping, through the built-in funnel
• Failsafe sensor detects incorrect primers and stops operation
• Large Hopper holds 300+ primers
• Oscillating primer reservoir effortlessly orients primers
• Single slot feed disc mechanism for positive, reliable primer positioning

Primer Xpress ..... C23ID101119201 ..... $704.99

Universal Mechanical Powder Measure

The Mark 7 Universal Pistol Powder Measure is a precision-made and fully CNC machined powder measure, ensuring consistency and performance. A large, gnarled knob makes adjustments easy and a lockup nut secures the setting in place. Included is a high-capacity hopper, powder measure assembly and appropriate powder funnel.

Universal Powder Checker Die

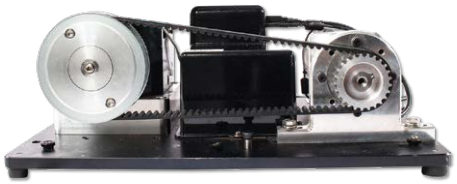
With Sensor Alarm

Mark 7's Powder Check Alarm is the perfect addition to the manual APEX10 press or other manually operated progressive presses.

The Powder Check Alarm sounds an audible alarm if an incorrect powder level is detected inside the case, protecting you from double charge and no charge conditions. The sensor operates on a AAA battery (included) and sounds a loud alarm if an incorrect charge level is detected. It can be used on almost any manual operated press and includes inserts for both pistol and rifle applications.

C23ID1011287 ..... $64.49

MARK 7 RELOADING®



CP2000/RL1100 1050 PRO Autodrive

- Digital clutch - adjustable on-the-fly
- Digital jog and immediate stop
- Microprocessor controlled
- Includes brilliant metal computer tablet - no control boxes!
- Features monitored by computer
- Downloadable software upgrades - for life !
- Supports a variety of accessories
- User-configurable Dwell time
- Pre-assembled and shipped ready to you
- CNC grade planetary gearbox
- Maintenance-free timing belt drive
- User selectable speeds of up-to 3,500 rounds/hour
- 1.5 HP high torque motor
- Fully Supports International Voltage - this unit operates at 110/220v and at 50/60 Hz with no appreciable variation in speed or performance
- Completely compatible with the leading bullet feeders on the market
- Machine dimensions are: 41" tall x 16" wide x 20" deep

Fit: CP2000/RL1100/1050 PRO

C23ID101100101 .....$2232.45

APEX10® / Evolution™ Autodrive™

Tired of pulling on the handle of your press over and over and over? The Apex 10® / Evolution™ Autodrive™ will fully automate your Mark 7® APEX 10® or Evolution™ manual presses for speed, efficiency and performance. The Autodrive™ is packed with features that make it the most advanced system ever designed. The patented digital drive system is computer operated allowing you to fully control the speed, torque, and dwell of the press with a simple-to-use high definition tablet.

- *Compatible with Mark 7® Apex10® and Evolution Loading Presses*
- *Up to 3500 Rounds per Hour*
- *10" Full Color HD Tablet*
- *Jamsense™/Toquesense™ Adjustable Digital Clutch Technology Included*
- *Digital Jog and Immediate Stop*
- *Microprocessor Monitored & Controlled*
- *High Torque Motor with Super Smooth Belt-Driven Operation*
- *1 Year Full Warranty*

Fit: APEX 10 / Evolution

- *Evolution*
- *RL1100/CP2000/Super1050/1050X Autodrives*

650 Pro/650 X Autodrives

Digital Powder Check..... C23ID1011038 ....$249.95

BulletSense®

- Constructed from anodized aluminum
- Precision laser with easy adjustments for different grain bullets and calibers ** Important to note that the precision of a laser is unmatched in this use -- it can even determine the difference between an upside-down bullet form a hollow point bullet !
- Can stop the machine if no bullet present, upside down bullet, sideways bullet, no brass present and alerts you through the tablet
- Supports 9mm through 308 calibers
- On-the-fly enable/disable through the tablet
- Compatible with all Mark 7® 1050 Drives (if you don't have our Autodrive, this sensor will not work)
- Not currently compatible with GSI bulletfeeders
- This unit installs in moments with the included hardware - no modifications to your Dillon machine necessary. A must-have for people that want full protection from running out of bullets which can ruin your whole reloading session. Covered under the Mark 7® exclusive no BS warranty. Completely
- COMPATIBLE with PowderSense® and the Dillon Low Powder Check

For Dillon 1050..... C23ID1011082 ....$349.95
For Dillon 650..... C23ID1011083 ....$349.95

SwageSense Assembly

- Swages the toughest military crimped brass
- Detects small/large primer ringers particularly found in wet washed brass
- Detects small primers in .45 ACP brass
- When encounters a blockage or small pockets (using large rod) can stop the machine and alerts you through your tablet
- Dramatically reduces probability of breaking swage rods
- SWAGESense is constructed using hard anodized aluminum and comes complete with two hardened chromoly swage rods - for both small and large primer pockets.

Fit: 1050..... C23ID1011015 .....$249.95

Optical DecapSense Sensor

This is a must-have accessory for the Mark 7® 1050 Autodrive. The positive decap sensor uses optical recognition to determine if a spent primer is removed and if no spent primer falls the machine stops after the stroke making easy to remove the impacted case. Save yourself and save your machine. If you are processing or loading new brass, simply disable the sensor from the Mark 7® tablet interface. ALSO acts as a brass sensor - when enabled can stop the press when brass is not present in the decapping station.

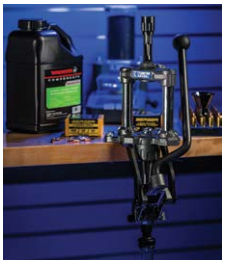
FRANKFORD ARSENAL™

X-10 Progressive Press with Case Feeder



Designed by reloaders for reloaders, the Frankford Arsenal X-10 is a 10-station automatic indexing reloading press purpose-built from the ground up to be the ultimate progressive reloading press. At its core, the X-10 features rigid steel construction with multiple ball bearings, and a proprietary 10-station shell plate which all combine to virtually eliminate powder spillage and bullet tipping. The X-10 offers innovative improvements like dual decapping stations to prevent primer drawback, in-line primer pocket swaging capability (for both small and large primers), and the ability to run powder check and case trimming dies.

- *10 Station Press*
- *Case Feeder Included*
- *Case Activated Powder Measure*
- *Integrated Bearings For Smooth Operation*
- *In Line Primer Pocket Swaging*
- *Spring Loaded Case Locator Buttons*
- *Load Cartridges Up To 30/06 Length*
- *Shell Plates For Popular Calibers*
- *Optional Bullet Feeder*

X-10 Progressive Press with Case Feeder

Case Prep Expansion Kit
C23PH909215 ..... $38.99

Rotary Tumbler Lite

- Perfect size for tumbling brass on your bench • Maintenance free geared drivetrain
- Smaller, more compact design allows for smaller tumbling batches
- Easy twist cap with clear window to view tumbling
- Simple On/Off operation
- Base: 8"W x 9"L x 11.25"H; 10" Drum Length
- Smaller, more compact design • Easy ON/OFF operation
- Holds up to 300 pieces of .223 brass
- Works great with Frankford Arsenal® stainless steel media
- Leak-proof cap design with rubber seal
- Clear viewing window in cap
- 3.3L capacity

Rotary Tumbler Lite ..... C23PH1097878 ..... $114.99

Rotary Tumbler Straining Caps

- Robust mesh caps let you rinse brass and stainless media after tumbling without worry of losing pins
- Wire mesh straining caps for the Platinum Series
- Rotary Tumbler and NEW Rotary Tumbler Lite
- Conveniently packaged with 2 Caps to allow through straining on the Rotary Tumbler drum
- Allows you to strain water out of the drums without worrying about losing any tumbling pins

Straining Cap ..... C23PH1097883 ..... $11.49

Wet/Dry Media Separator

- Ideal for both wet or dry cleaning processes!
- Perforated sifter allows media to fall through while retaining cleaned brass!
- Includes 2 installed strainers to separate wet media from water!
- Includes two sifting handles for ambidextrous use when separating brass from media
- Rugged rubber latch keeps sifter closed even with heavy loads of brass and media
- Spill proof tub fully captures water, dry media and stainless steel pins
- The tub top includes a mesh strainer to rinse brass during wet separating to remove any left over cleaning solution
- Mesh strainers for draining the water from the tub base without losing stainless steel pins

Wet/Dry Media Separator ..... C23PH507567 ..... $46.99

Platinum Series Case Prep Center

Have all of the case preps tools you need in one place with the Frankford Arsenal Case Prep Center. This little reloading station allows for 4 heads to be run at the same time, allowing for a quick and smooth case preparation experience. Never let a head be out of reach, by utilizing the retention slot on the side while not in use. This of this efficient and compact reloading center saves time and reduces the number of tools needed to reload your own ammunition.

- *Features 4 powered tool stations and comes with (1) inside chamfer tool, (1) outside deburring tool, (1) small primer pocket scraper and (1) large primer pocket scraper*
- *Hardened High Speed Steel (HSS) tools stay sharp for thousands of rounds*
- *8-32 threaded output shafts accept a wide variety of aftermarket case prep tools*
- *200 RPM output shafts prep brass quickly and efficiently*
- *Durable aluminum design*

Quick-N-EZ Standard Media Separator

Sits conveniently on top of most 3 1/2 or 5-gallon plastic buckets. Side walls are 4 3/4" in height, giving it the capacity to hold a tumbler full of brass and media. Perforated bottom lets the media fall through, leaving clean brass behind.

Standard Media Separator ..... C23PH121925..... $9.99

Brass Cleaning Solution

- Specifically designed to clean brass cases
- Concentrated formula

Brass Cleaning Solution *(32 oz)* ..... C23PH878787..... $19.99

Quick-N-EZ Brass Polish

4 oz. Bottle
C23PH845677 ..... $9.49

Case Lubricant

These convenient, fast-drying liquid provide quick lubrication of the case body before resizing
Case Lubricant, 8 oz. Spray Pump
C23PH460478 ..... $11.99

Drop Out

The modern way to "smoke" bullet molds. Applied to the cavities of a cold, clean bullet mold, Frankford Arsenal Drop Out literally allows the just-cast bullets to "drop-out" with no tapping or pounding.

8 oz. Aerosol ..... C23PH763758..... $12.99

FRANKFORD ARSENAL™

Reloading Stand

The frame is made of 1-½" tube steel and opens to 34" x 21" to provide an extremely rigid workstation. The frame is height adjustable from 28.5" to 45" to suit reloading from a sitting or standing position. The tabletop is width adjustable from 13" x 12" to 39" x 12" so it can accommodate all types of reloading processes. The durable wood center section is ideal for mounting a press, powder measure or other fixed position tools while the side shelves easily accommodate any free standing trimmers, scales or almost any reloading tools. The Stand includes two side bins for holding components or small tools to suit any task. Weight 30 lbs.

- *Extremely stable and rigid work platform Steel frame construction*
- *Tabletop height adjustable 28.5" to 45"tall*
- *Tabletop width adjustable 13"x 12" to 39" x 12"*
- *Folds compactly for storage • Includes two storage bins*

Reloading Stand
C23PH489621 .....$174.99

Model 400 Vibratory Tumbler

Berry's Model 400 Vibratory Tumbler is made from premium injection molded parts. The large, smooth bowl aids in turning and moving the brass and media for quick thorough cleaning. The clear polycarbonate lid lets you see the progress without turning off the motor. The motor comes with a 3-year warranty; all other parts come with a lifetime warranty and are made in the USA.

Model 400 Vibratory Tumbler
C23JF65555 ..... $58.49

Rotary Brass Sorter

Sort your brass and separate your media with the New Berry's Rotary Brass Sorter/Media Separator. Calibration of the black basket allows you to change the size of the brass to be sorted. Never again will you have to hand sort an entire bucket of range brass or make a mess with a pan sorter. Lifetime warranty and Made in the USA.

Rotary Brass Sorter
C23JF00375 ..... $37.99

Rotary Media Sorter

The Berry's Rotary Media Separator provides an easy way to separate your tumbled brass from media in one clean operation. Just empty your tumbler into the basket, close it and the clam-shell lid, give the handles a turn, and within seconds your brass is sorted from your media! The outer clam-shell lid snaps shut to keep the media and dust inside. No need for a bucket. A whole tumbler full of media can fit in the separator. It carries a lifetime warranty and is made in the USA.

Rotary Media Sorter ..... C23JF47869 ..... $25.99
Rotary Brass/Media Sorter ..... C23JF00420 ..... $26.99

Model 400 Vibratory Tumbler Kit #1

This kit has everything you need to get started cleaning your cartridge brass... Including the industry's best vibratory tumbler! The Berry's model 400 tumbler design is the pinnacle of achievement in vibratory tumblers: It produces the most robust vibratory vortex tumbling action, holds plenty of capacity, and costs little enough for everyone to afford. Here's how it works: You fill the bowl with corncob grit, add a little brass polish, and then drop in the cartridge brass you want to clean. Turn on the switch and then watch the rolling, vibrating, tumbling action! Your cartridge brass gets cleaned and polished with no effort or work and the hand loads you make from them fit, feed, and fire reliably.

Includes the Tumbler, Corncob Grit, Polish, Pan Sifter, and Media Bucket

Tumbler Kit #1 ..... C23JF39185 ..... $76.49

Model 400 Vibratory Tumbler Kit #2

This kit is for those hand loaders who want the very best of everything... Including the industry's best vibratory tumbler! The Berry's mode 400 tumbler design is the pinnacle of achievement in vibratory tumblers: It produces the most robust vibratory vortex tumbling action, holds plenty of capacity, and costs little enough for everyone to afford. Here's how it works: You fill the bowl with corncob grit, add a little brass polish, and then drop in the cartridge brass you want to clean. Turn on the switch and then watch the rolling, vibrating, tumbling action! Your cartridge brass gets cleaned and polished with no effort or work and the hand loads you make from them fit, feed, and fire reliably.

Tumbling Kit #2 - Along with the Berry's 400 tumbler, you get 6 lbs. of corncob media, brass polishing media additive, and Berry's completely enclosed, high capacity Rotary Sifter. The enclosure keeps corncob from spraying all over the room when you crank the handles...

Includes the Tumbler, Corncob Grit, Polish, and Rotary Sifter/Separator

Deluxe 3-Die Rifle Sets

By adding both a premium Carbide Expander Assembly and a Neck Sizing Die, Lyman has created two die sets in one.

• Deluxe Carbide Expander Assembly, with a free floating carbide sizing button, which smooths neck expansion by moving the button up the decapping rod to better use the press' leverage. It eliminates the need for inside neck lube.
• Neck Sizing Die which allows the case to retain the precise chamber dimensions of the individual rifle while avoiding excessive working of the brass. • Standard Full Length Sizing Die for taking brass down to factory Dimensions. • Standard Bullet Seating Die

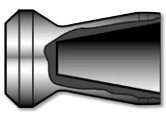
H&I Sizing Dies



For 450 Bullet Sizer/Lubricator

Lyman's sizing dies tapered mouth and hardened interior forms and lubricates bullets to a perfect cylindrical shape. In interior dimensions of Lyman sizing dies correspond to the suggested diameters of all popular rifles and pistol calibers. Available sizes are listed below. The cast bullet shooter should be prepared to experiment with sizing diameters, beginning with his measured groove diameter and ascending in increments of 1 or 2 thousandths at a time. Willingness to experiment (Always upwards from your measured groove diameter) will provide the following benefits: reduce sizing of as-cast bullet; tighter case neck fit in chamber; and sure fit of bullet to barrel.

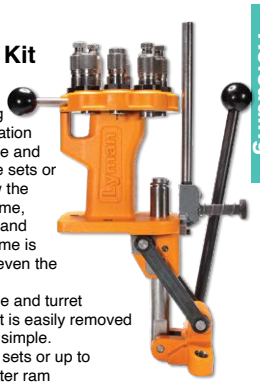
Brass Smith™ Powder Trickler
- Cast aluminum body
- Adjustable Height • The trickler also comes with an aluminum feed tube which can be set-up for a longer reach with the addition of the included feed tube extension.
- Large diameter knob on the feed tube gives you added precision and control



Brass Smith Powder Trickler
C23LY7752500.....$21.99

Brass Smith™ Powder Measure Stand
The new Brass Smith Powder Measure Stand can be mounted firmly to either a bench top or to a wall. Features standard 7/8"x 14 threads and will raise any measure high enough to easily position cases beneath the powder drop tube. Made of tough die cast aluminum.
Brass Smith™ Powder Measure Stand
C23LY7767788..... $26.99

Brass Smith 8-Station Turret Press Reloading Kit
It is equipped with an easily removed turret bolt which makes swapping turrets simple. The 8 die station turret is the largest available and will hold two complete 4 die sets or up to four 2 die sets. Below the turret is a rigid cast iron frame, housing a 1" diameter ram and compound linkage. The frame is large enough to work with even the longest rifle cartridges.
- Heavy duty cast iron frame and turret
- Extra-large 8 station turret is easily removed to make swapping turrets simple.
- Holds two complete 4 die sets or up to four 2 die sets • 1" diameter ram
- Comes with straight line primer feed with large and small primer tubes
- Precision fit and smooth operation • Weight 23 pounds
- Large press opening, works with the largest cases
- For added safety, the primer feed comes with a heavy steel shield which surrounds the primer tubes.
- Right or left hand operation • Durable powder coat finish

Kit Includes: *Brass Smith Turret Press, Brass Smith Powder Measure (not pictured), 50th Reloading Book, Pocket Touch 1500, Loading Block, Case Prep Multi-Tool, Magnum Bullet Puller, Primer Tray, E-ZEE Powder Funnel, Case Lube Kit Powder Dribbler, Universal Trimmer*

3-Die Rifle Sets
(for Straight Cases)

For cast and jacketed rifle bullets. Straight wall rifle cases require these sets, consisting of a full length resizing die with decapping stem a two-step neck expanding die, and a bullet seating die.

Caliber	Item No.	Price
.45-70 Government	C23LY7460496	$56.49

Brass Smith Pro Funnel System

The Pro Funnel is made to be completely static free, with a body of die cast aluminum and precision turned aluminum inserts. No more powder clinging to surfaces which can happen with lightweight plastic funnels. The solid construction and quality of the Pro Funnel will be apparent in its first use. This is no "one size fits all" funnel, the Pro Funnel uses precision machined, caliber specific inserts to properly fit the case neck. The inserts can be quickly and easily installed by simply pushing them into place and then pulling them out when changing calibers. The Pro Funnel also comes with a padded storage case that neatly stores extra inserts when not in use. The funnel comes with inserts for 22, 243/6mm, 25/6.5mm, 270/7mm, 30 and 338 caliber rifle cartridges.

- *Static Free aluminum die cast body and turned aluminum components*
- *Precision fit, CNC turned aluminum inserts for calibers 22 to 338 • Convenient handle*
- *Inserts are quick and easy to install and remove*
- *Includes padded storage case*
- *Inserts are laser marked for caliber identification*

Bass Smith Pro Funnel System
C23LY7752432 ..... $29.99

MSR Die Sets

Lyman's MSR Die Sets are the only die sets engineered specifically for MSR ammo and are a must for anyone reloading for a modern sporting rifle.

- *Small Base Size die for smooth chambering*
- *Separate Taper Crimp die for tight bullet grip*
- *Ammo Checker cartridge"Go" gauge included with each set*
- *Packed in a sturdy, clear cover storage case*
- *Black finish matches your favorite "black" rifle*

Brass Smith™ 500 Metal Reloading Scale

The Brass Smith 500 is built upon a sturdy aluminum body which reduces vibrations and ensures accuracy. The beam is double sided and the pan has two handles making it easy for right or left handed reloaders to use. In addition, the beam features black markings with a white background for easy reading throughout it's 505 grain capacity. The scale also features magnetic dampening and precision ground knife edges for fast, smooth and accurate operation. Each scale is carefully calibrated at the factory and is accurate to plus or minus 1/10 grain .

Brass Smith™ 500 Metal Reloading Scale
C23LY7752225 ..... $72.99

Scale Weight Check Set

This set of precision weights is invaluable for assuring the continued accuracy of older or heavily used scales. Also handy for checking any scale suspected of having been damaged.

The Deluxe 10-piece set has 210.5 grains total weight

Scale Weight Check Set ..... C23LY7752313 ..... $42.49

Shooters Check Weight

Assures that scales provide accurate readings
The Shooters 8-piece set totals 60.5 grains for normal powder use range
Shooters Check Weight ..... C23LY7752314 ..... $33.49

Primer Catcher

Crusher II & T-Mag Compound Presses
C23LY7726420 ..... $12.49

Pistol Maximum Cartridge Gauges

Maximum cartridge gauges check all critical dimensions of pistol ammunition to insure proper functioning. Check case length, diameter and overall cartridge length of pistol ammunition.

Pro-Touch 1500

Lyman's Pro-Touch 1500 scale features a large, easy to use touch screen display with easy to read 7/8" tall numbers and full size control buttons.
The Pro-Touch 1500 is accurate to +/- 1/10 grain over its full 1500 grain capacity. The dual spout powder pan allows for easy use by either right handed or left handed reloaders. The removable dust cover will protect the scale when not in use. The Pro-Touch 1500 will operate with either the supplied AC power adapter or with three AAA batteries (not included)

- *Advanced Touch-Screen Technology • 1500 Grain Capacity*
- *Accurate to 1/10 Grain • Works in Grain or Gram Mode*
- *Removable Dust Cover • Large, Easy to Read Digital Display with Full Size Control Buttons*

Pro-Touch 1500 ..... C23LY7750718 ..... $80.99

The Pocket-Touch 1500

The Pocket-Touch 1500 offers full size performance in a very compact, portable design. The scale is just 2¼" x 4¼" x ¾" yet provides advanced touch screen controls and a full 1500 grain capacity. The scale comes with Lyman's patented Universal Funnel Pan, powder scoop and calibration weight. The unique Funnel Pan allows powder charges to be poured directly from the pan into the case. No need for a separate funnel. The scale has an easy to read, lighted display, is powered by (2)AAA batteries (included) and has an Auto Shut-off.

- Touch Screen Controls – On/Off, Tare, and Mode/Calibration keys
- 1500 grain capacity
- Universal Funnel Pan – combines a pour spout and a funnel end which accepts 20 caliber to 50 caliber cases
- Built-in, hinged dust cover
- Operates in grains or grams
- Handy powder scoop included
- 100 gram calibration weight included
- Easy to read, lighted, digital display

Pocket-Touch 1500
C23LY7750725 ..... $29.49

Cyclone™ Rotary Tumbler

The rotary tumbling action combined with the stainless steel media and liquid cleaning solution, gets brass cleaner on the outside than vibratory tumbling methods. The small stainless pins easily slip inside cases and into primer pockets to provide superior cleaning action in these areas. Something that a vibratory tumbler will not do! The large capacity drum holds up to 1000 pieces of .223 brass and features a rubber lining to protect brass and greatly reduce noise during operation. A built in timer in the base can be set to run from 0 to 3 hours, shutting off automatically. The drum features a large end cap to allow easy loading and unloading.
Cyclone™ Rotary Tumbler *(115V)*..... C23LY7631550..... $227.49

Bleacher® Blocks for Rifle Caliber

- Made of tough, durable polymer, the Bleacher Blocks are molded in three sizes to closely fit a variety of rifle cases. One size fits 223 size case heads, another fits 308 size case heads and the third fits belted magnum size cases. All hold 50 rounds.
- Molded to closely fit specific case sizes, .388", .485", & .565"
- Made of tough, durable polymer
- Unique stepped design makes it easy to add or remove cases, even when full
- Takes up less bench space than traditional blocks

.388" Rifle ..... C23LY7728085 ..... $6.99
.485" Rifle ..... C23LY7728086 ..... $6.99
.565" Rifle ..... C23LY7728087 ..... $6.99

Bleacher® Blocks for Handguns

The handgun blocks follow the same proven stepped design of the rifle blocks, however with shallower holes suitable for handgun cases. Just like the rifle blocks, the stepped design allows you to easily grip a single case without jamming your fingers down into a group of cases like in traditional loading blocks. The stepped design also produces a smaller footprint so they take up less valuable bench space. Made of tough, durable polymer, the handgun size Bleacher Blocks come in two sizes to fit most popular handgun calibers and hold 50 cases.

- *Molded to closely fit specific case sizes, .455" and .565"*
- *Made of tough, durable polymer*
- *Unique stepped design makes it easy to add or remove cases, even full*
- *Takes up less bench space than traditional blocks*
- *.455" hole size fits: 380 Auto, 9mm Luger, 38 Super, 357 Sig, 38 Special, 357 Mag, 40 S&W, 10mmAuto*
- *.565" hole size fits: 44 Mag, 45 ACP, 45 GAP, 45 Colt, 454 Casull, 460 S&W, 500 S&W*

.455" Handgun - Small ..... C23LY7728088 ..... $6.99

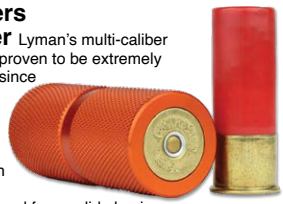
Deluxe Anodized Aluminum Loading Block

Lyman's Deluxe Anodized Aluminum Loading Blocks are made for precision reloaders who want their equipment to be as high quality as the ammunition that they produce. The blocks are CNC milled from a solid billet of 6061-T6 aluminum to tight tolerances for a close fit to specific cartridges, unlike the common one-size-fits-all plastic blocks. The blocks are made in three sizes to fit most common rifle head sizes, and will hold 50 rounds. Blocks come with stick-on rubber non-slip feet to keep them from sliding on your bench.

.388" Hole Size ..... C23LY7728080 ..... $42.49
.485" Hole Size ..... C23LY7728081 ..... $42.49
.565" Hole Size ..... C23LY7728082 ..... $42.49



MSR Ammo Check Block

Lyman MSR Ammo Checkers are machined from solid blocks of 6061 T6 aircraft grade aluminum and cut with custom tooling to minimum chamber dimensions. Their black anodized finish matches your favorite "black" rifle. Check the quality and consistency of both loaded rounds and purchased ammo. A must for any AR shooter. You can't afford mis-feeds, so get the easiest "Go" gauge available for modern sporting rifle calibers.

- *Covers 223/5.56, 6.5 Grendel, 6.8 Rem. SPC, 7.62x39, 300AAC Blackout, 450 Bushmaster, 458 SOCOM and 50 Beowulf*
- *CNC machined to minimum chamber specs*
- *Confirm ammo will chamber smoothly*

MSR Ammo Check Block ..... C23LY7833003 .. $41.99

Ammo Checkers - Single Caliber

Lyman's multi-caliber Ammo Checkers have proven to be extremely popular with reloaders since their introduction last year. Ammo Checkers are gauges that verify the quality and consistency of both reloaded and factory ammo. They are machined from solid aluminum and cut with custom tooling to SAAMI minimum chamber tolerances. Just drop your cartridge into the gauge and if it fits, it will chamber in your gun.

Ammo Checkers™

- Drop loaded rounds into the gauge. If the loaded round easily fits into the gauge, and the rim is flush with the top, the round will fit in the guns chamber.
- Each caliber is clearly engraved on the gauge
- Machined from solid blocks of 6061 T6 aircraft grade aluminum and cut with custom tooling to SAAMI minimum chamber dimensions.
- Bright orange anodizing makes them easy to find on your reloading bench.

Universal Case Prep Accessory Kit

This handy kit is the perfect accessory to your Universal Case Trimmer. It contains everything you need to properly complete case preparation, all in a durable storage pouch. Save over 30% versus individual purchases.
- Primer Pocket Cleaners • Primer Pocket Reamers
- Primer Pocket Uniformers • Outside Deburring Tool
- Inside Deburring Tool - VLD Chamfer/Reamer

Case Prep Accessory Set ..... C23LY7810212 . $63.99

Primer Pocket Cleaner

Clean fouling out of primer pocket bottoms the easy way with this Lyman Primer Pocket Cleaner, which comes in large or small sizes.
Primer Pocket Cleaner, *(Large)*..... C23LY7777790 . $10.79
Primer Pocket Cleaner, *(Small)*..... C23LY7777791 . $10.79

Large Pistol Primer Pocket Uniformer

The Large Pistol Primer Pocket Uniformer is designed to cut primer pockets to a uniform depth that can produce more consistent ignition and lead to greater accuracy. The Primer Pocket Uniformer cuts to a uniform depth and at the same time squares the seating surface for the anvil of the primer.
Large Pistol Primer Pocket Uniformer
C23LY7810219 ..... $21.99

Primer Pocket Reamer

The Pocket Reamer removes military crimps and rough metal edges from primer pocket. It's a must for all reloaders. Available in large or small sizes.
Primer Pocket Reamer *(Large)* ..... C23LY7777785 . $10.79
Primer Pocket Reamer *(Small)*..... C23LY7777784 . $10.79

VLD Chamfer/Reamer

Lyman's VLD Chamfer/Reamer eliminates damage to bullets caused by the sharp edges of the cartridge case neck. The long boat tail on bullets are cut by the case mouth when chamfered with a standard 45 degree reamer. The sharp 22 degrees on the VLD reamer allows all bullets to slip easily into the case ensuring the best accuracy. *One size fits all.*
VLD Chamfer/Reamer..... C23LY7777789...$13.29

Outside Chamfer Tool

Lyman's Outside Chamfer Tool easily deburs the outside case mouth to leave a smooth even finish. Works on cartridges from 17 cal to 45 cal. Compliments the VLD (Very Low Drag) Inside Chamfer Tool.
Outside Chamfer Tool ..... C23LY7810222.. $12.99

Flash Hole Uniformer

This handy tool removes internal flash hole burrs. Features a tool steel cutter which is inserted into the flash hole through the case neck. Adjustable stop collar allows use with any size case. Burrs are removed with a clockwise turn.
Flash Hole Uniformer ..... C23LY7777760.....$15.29

Lyman Case Care Kit

This handy kit combines many of Lyman's most popular case prep items. The utility crank with adapter is perfect for saving time on small hand prep jobs. It accepts most Lyman accessories and any tool with an 8-32 thread. In addition, the Case Care Kit includes both Large and Small Primer Pocket Reamers and Cleaners, the Inside/Outside Deburr Tool, Ream Clean Adapter and Case Centering Adapter for Lyman Universal Trimmer.
Case Preparation Kit..... C23LY7777793 ..... $45.99

50 BMG Case Prep Multi-Tool

The unique knurle handle unthreads in the middle to store all the parts. Both ends of the handle are threaded to allow a toolhead to be mounted on each end. In addition to the double ended, storage handle the set includes:
- *.50 Cal. Outside Deburring Tool*
- *.50 Cal. VLD Inside Deburring Tool*
- *.50 BMG Primer Pocket Reamer, Cleaner, and Uniformer*
- *Large & Small Primer Pocket Reamers*

Digital Lead Thermometer

The Lyman Digital Thermometer is a fast and accurate way to check the temperature of your casting alloy.

The long 6" probe will work with the largest casting furnaces and keeps your hand away from molten lead. The large, easy to read display can be set for Fahrenheit or Celsius and also features a hold button to lock a reading on the display.

- *Fast and Accurate*
- *6" Long Probe to Work with Large Furnaces*
- *Easy to Read Display*
- *Fahrenheit or Celsius*

Digital Lead Thermometer
C23LY2867797 ..... $29.49

Orange Magic Premium Bullet Lube

High Performance Orange Magic Bullet Lubricant starts where other high temperature lubes stop performing. Guaranteed to allow use of cast bullets at higher velocities without leading. Its low smoke output makes it ideal for rapid fire pistol shooting. It won't melt out of loaded ammunition at high temperatures.

Orange Magic Premium Bullet Lube
C23LY2857286 ..... $5.49

Alox Lube

Comes in tubular form and fits all standard lube sizes.

Prevents leading. Ideal for rifles. 1 oz.

Alox Bullet Lubricant *(1 oz.)* ..... C23LY2857277 ..... $5.49

Super Moly

An all purpose high temperature bullet lubricant with Molybdenum Disulfide added to increase velocity, it coats the barrel with a fine film which improves accuracy and makes leading non-existent. It flows thru lube sizer without heat and won't melt at 130°.

Bullet Lube "Super Moly" ..... C23LY2857272 ..... $5.49

Black Powder Gold Bullet Lube

Match proven at the 1996 Black Powder Silhouette Championship at Raton, New Mexico, Black Powder Gold was formulated specifically for black powder shooting. It's high melting temperature makes it ideal for long range match shooting.

Black Powder Gold Bullet Lube
C23LY2857266 ..... $5.49

Ideal Bullet Lubricant

Designed to increase accuracy and eliminate barrel leading. Original Ideal formula offers proven performance. 1 oz.

Ideal Bullet Lubricant *(1 oz.)*
C23LY2857275 ..... $5.49

Bullet Moulds

Lyman bullet moulds are the standard by which all other moulds are judged. Our proven, popular designs are the widest available. The designs picture gas checks where appropriate. Bullet weights listed are nominal and may well vary from bullets dropped from a given mould. The bullet illustrations are artist renderings. They are for general reference only and are not intended to be precise representation. Refer to the Devastator Hollow Point section for Availability.

See Next Page for Mould Handles

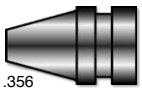
Double Cavity Mould.....$44.49
Double Cavity Rifle Mould.....$85.49
Four-Cavity Mould.....$121.49

.30 Caliber

- Designed for the .32 Colt or Savage pistols.
- Good bullet for 30 Mauser and Tokarov
- Top Punch #: 465 • Sizing Die: .310
- *Requires Double Cavity Handles*

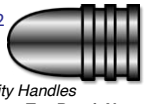
Bullet No.	Grain	Double Cavity No.	Top Punch No.
311252 c/o	75gr		C23LY2786742



.32 Caliber

- Designed for the 32 S&W.
- Good 32 ACP bullet. • Top Punch #: 226
- Sizing Die: .311, .312, .313, .314
- *Requires Double Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
313249	85gr	C23LY2660249	C23LY2786703



9mm

- Standard 9mm bullet.
- Tapered nose for positive feeding.
- Top Punch #: 402 • Sizing Die: .354, .355, .356
- *Requires Double & Four Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
356402 c/o	120gr		C23LY2786723

Four Cavity No.
C23LY2670402

- Heavier 120gr bullet for 9mm.
- Good accuracy reported.
- Top Punch #: 311 • *Requires Double Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
356242	120gr	C23LY2660242	C23LY2786710

- Designed for IPSC shooting, this is a tapered heavy weight 9mm
- Top Punch #: 637
- *Requires Double & Four Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
356637 c/o	147gr		C23LY2786749

C23LY2670637

.38 / 357

- Excellent 38 Special wadcutter target bullet
- Crimped in forward band • Top Punch #: 495
- Sizing Die: .357, .358, .359, .360
- *Requires Double Cavity Handles*

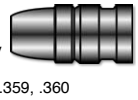
Bullet No.	Grain	Double Cavity No.	Top Punch No.
358091 c/o	150gr		C23LY2786769

- Good mid-range bullet • Semi wadcutter for .357 Mag and .38 Special. • No gas check
- Top Punch #: 429 • Sizing Die: .357, .358, .359, .360 • *Requires Double Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
358477 c/o	150gr		C23LY2786769

- Ray Thompson's design • Two crimp grooves, 1st for .357 Mag, 2nd for .38 Special • Top Punch #: 429
- Sizing Die: .357, .358, .359, .360
- *Requires Double & Four Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
358156	155gr	C23LY2660156	C23LY2786731



- Designed for Cowboy Action
- Will function and give good accuracy in both rifles and pistols • Top Punch #: 495 • Sizing Die: .357, .358, .359, .360 • *Requires Double Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
358665	158gr	C23LY2660665	C23LY2786769

- The standard 38 Special bullet
- Should be roll crimped in front groove.
- Top Punch #: 311• Sizing Die: .357, .358, .359, .360 • *Requires Double & Four Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
358311 c/o	160gr		C23LY2786710

- Elmer Keith's design for excellent accuracy when loaded light or to magnum velocities.
- Top Punch #: 429 • Sizing Die: .357, .358, .359, .360
- *Requires Double Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
358429	170gr	C23LY2660429	C23LY2786731

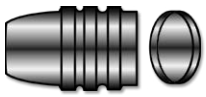
.40 S&W / 10mm

- Light weight .40 S&W bullet • Good Accuracy
- Top Punch #: 43 • Sizing Die: .400, .401
- *Requires Double Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
401654 c/o	150gr	C23LY2660691	

- Mid weight .40 S&W bullet
- Good Accuracy & Feeding
- Top Punch #: 43 • Sizing Die: .400, .401
- *Requires Double & Four Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
401638	175gr	C23LY2660638	C23LY2786691



.38 / 40 Caliber

- The original bullet for the .38-40 cartridge
- Top Punch #: 43 • Sizing Die: .400, .401
- *Requires Double Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
401043 c/o	175gr		C23LY2786691

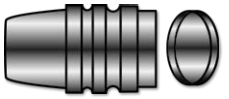
.44 Caliber

- Designed by Ray Thompson for .44 Mag long range shooting.
- Top Punch #: 421
- Sizing Die: .429, .430, .431
- *Requires Double Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
429215 c/o	210gr	C23LY2786729	

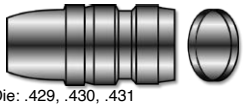
- Cowboy Action 44 cal bullet designed for function and accuracy in pistols and rifles.
- Top Punch #: 649:
- Sizing Die: .429, .430, .431
- *Requires Double Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
429667	240gr	C23LY2660667	C23LY2786778



- The famous Elmer Keith .44 bullet design
- For accuracy in the .44 Special and .44 Magnum. • Top Punch #: 421
- Sizing Die: .429, .430, .431
- *Requires Double Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
429421	245gr	C23LY2660421	C23LY2786729



- Designed by Harry D Frisbee for target shooting • Top Punch #: 251
- Sizing Die: .429, .430, .431
- *Requires Double Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
429383 c/o	245gr		C23LY2786704

- Heavy weight Ray Thompson design for heavy loads in the .44 Special or .44 Magnum.
- Top Punch #: 421
- Sizing Die: .429, .430, .431
- *Requires Double & Four Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
429244	255gr	C23LY2660244	C23LY2786729

- Heavy weight .44 cal for silhouette shooting with enough energy to knock down rams easily.
- Top Punch #: 421 • Sizing Die: .429, .430, .431
- *Requires Double Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
429650 c/o	300gr		C23LY2786729

.45 Auto

- Popular semi wadcutter bullet.
- Top Punch #: 460 • Sizing Die: .450, .451, .452 • *Requires Double Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
452460 c/o	200gr		C23LY2786740

- Designed for target accuracy
- Small bevel base for easy feeding into cases.
- Top Punch #: 460 • Sizing Die: .450, .451, .452 • *Requires Double & Four Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
452630	200gr		C23LY2786740

- Standard hard ball design for 45 ACP.
- Very accurate and positive feeding.
- Top Punch #374: • Sizing Die: .450, .451, .452 • *Requires Double & Four Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
452374 c/o	225gr		C23LY2786719

.45 Colt

- Standard bullet for pre-WWII .45 Colt revolvers • Top Punch #: 190 • Sizing Die: .454 • *Requires Double Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
454190	250gr		C23LY2786700

- New .45 Colt design with crimp groove for positive feeding in both rifles and pistols.
- Top Punch #: 649 • Sizing Die: .451, .452
- *Requires Double Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
452664 c/o	250gr		C23LY2786778

- Designed by Elmer Keith for the 45 Colt
- Very accurate. • Top Punch #: 424
- Sizing Die: .451, .452
- *Requires Double Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
452424	255gr	C23LY2660422	C23LY2786730

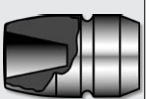
- Ray Thompson design with gas check for the .45 Colt and .45 Auto Rim. • Top Punch #: 424
- Sizing Die: .451, .452
- *Requires Double Cavity Handles*

Bullet No.	Grain	Double Cavity No.	Top Punch No.
452490 c/o	255gr		C23LY2786730

.500 S&W

- A semi-wadcutter bullet for the .500 S&W Mag • Good for hunting or target use
- Top Punch #: 649 • Sizing Die: .501
- *Requires Double Cavity Handles*

Bullet No.	Grain	Single Cavity No.	Top Punch No.
501680 c/o	375gr		C23LY2786778



Devastator Hollow Point Moulds

.38 Special / .357

- *Requires Double Cavity Handles*

Bullet No.	Grain	Single Cavity No.
358439HP	155gr	C23LY2650439

.38 Special / 9mm

- Hollow point 637 bullet cast soft, it has devastating expansion • Top Punch #: 637
- Sizing Die: .354, .355, .356
- *Requires Double Cavity Handles*

Bullet No.	Grain	Single Cavity No.	Top Punch No.
356637	125gr	C23LY2650637	C23LY2786749

.44 Hollow Point

- Hollow point gas check .44 bullet. Great knock down power in .44 Special and Mag. • Top Punch #: 649
- Sizing Die: .429, .430, .431 • *Requires Double Cavity Handles*

Bullet No.	Grain	Single Cavity No.	Top Punch No.
429640	250gr	C23LY2650640	C23LY2786778

.45 Auto Hollow Point

- Hollow point 45 caliber for positive function in 45 Automatic (45 ACP) • Top Punch #: 374
- Sizing Die: .450, .451, .452
- *Requires Double Cavity Handles*

Bullet No.	Grain	Single Cavity No.	Top Punch No.
452374	180gr	C23LY2650374	C23LY2786719

Cast Bullet Handbook 4th Edition

This is the first new Cast Bullet Handbook from Lyman in 30 years. Includes data for all Lyman Moulds, plus additional data for select RCBS, Redding and Lee Moulds. Written by well-known cast bullet authority, Mike Venturino, this is the most up-to-date and comprehensive cast bullet data available.
Cast Bullet Handbook.....C23LY9817004..... $18.79

.30 Caliber

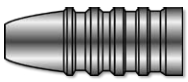
• Shoots extremely well in most .30 cal cartridges, .30-30, .30-06, etc
• Top Punch #: 465

Bullet No.	Grain	Double Cavity No.	Top Punch No.
311291	170gr	C23LY2660291	C23LY2786742

.32/20

• Designed years ago for the .32-20 cartridge for use in both rifles and pistols • Top Punch #: 8

Bullet No.	Grain	Double Cavity No.	Top Punch No.
311008	115gr	C23LY2660008	C23LY2786690



.314 Diameter

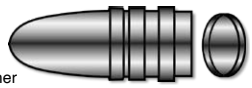
• Designed for the. 303 British for 200 to 600 yards
• Excellent accuracy
• Use .30 caliber gas checks. • Top Punch #: 467

Bullet No.	Grain	Double Cavity No.	Top Punch No.
314299	200gr	C23LY2660299	C23LY2786743

.32/ 40

• Most requested by .32-40 Scheutzen shooters
• Should be crimped in front groove
• Top Punch #: 8

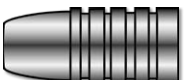
Bullet No.	Grain	Double Cavity No.	Top Punch No.
319247 c/o	165gr		C23LY2786690



8mm

• Another Guy Loverin light weight design for 8mm Mauser
• Top Punch #: 470

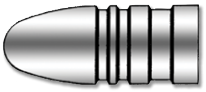
Bullet No.	Grain	Double Cavity No.	Top Punch No.
323470	165gr	C23LY2660470	C23LY2786745



.35 Caliber

• Originally designed for .35 Remington Auto
• Gives fine accuracy at higher velocities in .358 Win. • Top Punch #: 311

Bullet No.	Grain	Double Cavity No.	Top Punch No.
358315 c/o	204gr		C23LY2786710



.375 / .38-55

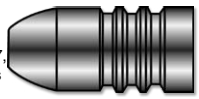
• First bullet designed for original .38-55 • Excellent in lever action .38-55 • Top Punch #: 449

Bullet No.	Grain	Double Cavity No.	Top Punch No.
375248	249gr		C23LY2786736

.405 Winchester

• Proven design for the .405 Win.
• Dimensionally updated for modern rifles.
• Top Punch #: 132

Bullet No.	Grain	Single Cavity No.	Top Punch No.
412263 c/o	288gr		C23LY2786695



.40 Caliber (.410 diameter)

• A new Paul Matthews design
• This tapered .40 cal bullet is ideal for black powder silhouette shooting
• It allows for heavier powder charges because it can be seated out of the case farther than other designs. • Top Punch #: 678

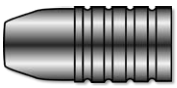
Bullet No.	Grain	Single Cavity No.	Top Punch No.
410678 c/o	395gr		C23LY2786778

43 Mauser

• Designed for the 11mm Mauser rifle
• Also used in the old .44-60, .44-77, and .44-90 Sharps and Remingtons
• Top Punch #: 251

Bullet No.	Grain	Single Cavity No.	Top Punch No.
446110 c/o	340gr		C23LY2786704

.45 Caliber (Hollow Point)



• This is the famous .45-330
• Made for Mr. Gould, editor of Shooting and Fishing • Superior performance in all .45 cal cartridges
• Top Punch #: 191

Bullet No.	Grain	Single Cavity No.	Top Punch No.
457122	330gr	C23LY2650122	C23LY2786701

• This is the standard .45-70 Government bullet
• Original soft bullet weighed 405 grains
• Top Punch #: 374

Bullet No.	Grain	Single Cavity No.	Top Punch No.
457124 c/o	385gr		C23LY2786719

• Flat nose bullet for the 45-70
• Original 405 grain .45-70
• Top Punch #: 191

Bullet No.	Grain	Single Cavity No.	Top Punch No.
457193	405gr	C23LY2640193	C23LY2786701

• Gas check design .45 cal bullet for the .458 Winchester Mag and single shot rifles where a gas check is desired for higher velocity
• Top Punch #: 374

Bullet No.	Grain	Single Cavity No.	Top Punch No.
457671 c/o	475gr		C23LY2786719

• Original Schmitzer design for B.P.C.S. where a high ballistic coefficient is required • A very accurate bullet in most .45 caliber rifles • Top Punch #: 658

Bullet #	Grain	Single Cavity #	Top Punch Part #
457658 c/o	480gr		C23LY2786755

• A new Paul Matthews design
• This tapered 45 cal bullet is ideal for black powder silhouette shooting
• It allows for heavier powder charges • Top Punch #: 677

Bullet No.	Grain	Single Cavity No.	
457677 c/o	490gr	C23LY2640677	

• Designed by Postell for long range target shooting • One of the best long range target bullets ever designed, widely used for B.P.C.S

SHOTSHELL RELOADERS

MEC Marksman™
Introducing the all new MEC Marksman™, single stage metallic reloader.
Reload with the ultimate precision tool. The MEC Marksman is made of ductile cast iron for strength and durability and MEC's patent-pending shell holder self-centers each cartridge.
The ram provides smoothness and accuracy for every load.
Compatible with all 7/8-14 thread dies to change calibers quickly.
Reload .22 Hornet to .416 Rigby with one convenient machine.
MEC Marksman™ ..... C23ME1311080 ..... $238.13

Shell Holder Tray
Convenient tray to hold shell holders that mounts directly to the MEC Marksman™.
Shell Holder Tray ..... C23ME1311134 ..... $11.26

Press Tray
Additional tray that mounts directly to the MEC Marksman™. Store bullets, cases or small items within easy reach with this convenient tray.
Press Tray ..... C23ME1311133 ..... $11.26

Dust Cover
Cover designed specifically for the MEC Marksman™.
Protect your press from dust accumulation with this cover with MEC logo featured on the front.
Dust Cover
C23ME1311100 ..... $31.99

Powder Measure
The powder measure is used to measure out the powder for reloading. Measure powder by lifting the handle and dropping it back down. The powder measure can measure from 1gr. To 60g.
Powder Measure
C23ME1311091 ..... $92.49

Press Base
Additional base for easy installation and is compatible with the MEC Jig Fixture mounting system. The press base bolts to the press, raising it up for better visibility and clearance. Base is also designed to hold reloading dies on the sides, keeping your dies close at hand while reloading
Press Base ..... C23ME1311150 ..... $38.99

Short Handle
Additional handle available with shortened length for additional clearance.
Short Handle
C23ME1311159 ..... $26.49

Scale Kit
Measure your powder precisely with the MEC scale kit.
Kit contains scale, pan and 100g calibration weight.
Scale Kit ..... C23ME1311078 ..... $44.49

Digital Calipers
Measure brass and finished cartridges with high precision digital calipers. Measures both Inches and millimeters. Caliper has locking screw to maintain specific measurement for quick measurements and consistency.
- *Measuring Range: 0-6"/150mm*
- *Accuracy: ±0.001"/.02mm*
- *Repeatability: 0.0005"/01mm*

Digital Calipers ..... C23ME1311079 ..... $67.49

Bullet Puller
Disassemble your bullets with the bullet puller. Simply insert the bullet with the corresponding cap piece and strike against a hard, flat surface. Please follow product instructions carefully.
Bullet Puller ..... C23ME1311095 ..... $33.49

Funnel Kit
The funnel kit is used to pour the powder from the pan of the scale kit into the brass when reloading. Includes two funnels and five sized tubes.
Funnel Kit ..... C23ME1311089 ..... $24.99

Powder Trickler
The Powder Trickler is an easy to use tool to add additional powder to your measured amount to reach the desired weight.
The brass straw carries powder from the hopper with a simple turn of the handle.
Powder Trickler
C23ME1311088 ..... $25.99

Vibratory Tumbler
Vibratory Tumbler for cleaning used brass.
Use with the MEC corn media for the ultimate clean.
Vibratory Tumbler ..... C23ME1311097 ..... $105.49

Corn Media
14/20 grit for cleaning brass with the vibratory tumbler.
Corn Media ..... C23ME1311103 ..... $24.99

Rotary Sifter
Sift your brass quickly and efficiently with the Rotary Sifter. Just pour your clean brass and media into the middle hopper, close and rotate the handle to separate brass from media.
Rotary Sifter ..... C23ME1311096 ..... $44.49

Pan Sifter
Use the pan sifter to sort tumbled brass from your cleaning media.
Pan Sifter ..... C23ME1311105 ..... $9.79

Brass Bright Polish
Use MEC Brass Bright to clean and polish your brass.
Keep your Brass Bright and make it easier to clean your brass after firing.
Brass Bright Polish
C23ME1311102 ..... $13.49

Case Lube
Use MEC Case Lube to lubricate your cartridge brass before the re-sizing process. Recommended for standard and carbide re-sizing dies. Easy to use and will not leave a sticky residue.
Case Lube
C23ME1311094 ..... $13.49

Deburring Tool
Deburring Tool chamfers the inside and outside of the case mouth.
Deburring Tool ..... C23ME1311129 ..... $35.99

Pricing subject to change without notice. Not responsible for typographical errors.

SHOTSHELL RELOADERS

All MEC Reloaders Include
1 Charge Bar & 3 Powder Bushings

Gauge	Charge Bar	Bushings
10 ga.	2 oz	37, 40, 44
12 ga.	1-1/8 oz	29, 30, 32
16 ga.	1oz	23, 25,29
20 ga.	7/8 oz	20, 22, 24
28 ga.	3/4 oz	14, 16, 21
.410 ga.	1/2 oz	10, 11, 12
.410 ga.	3"	11/16oz

The 600 Jr. Mark V

- Time-tested excellence is built into this single-stage reloader featuring a quick, simple operation with minimal effort.
- Load four to six boxes per hour.
- Can be upgraded with the 285 CA primer feed (not available in .410 bore), eliminating the need to handle each primer individually.
- The 600 Jr. Mark V is adjustable for 3" shells, and is available in 10, 12, 16, 20 and 28 gauge and .410 bore. Die sets are available in all gauges.
- Value and reliability: Look no further than the world's #1 selling shotshell reloader - the MEC 600 Jr. Mark V!

All MEC Reloaders Include
1 Charge Bar & 3 Powder Bushings

Gauge	Charge Bar	Bushings

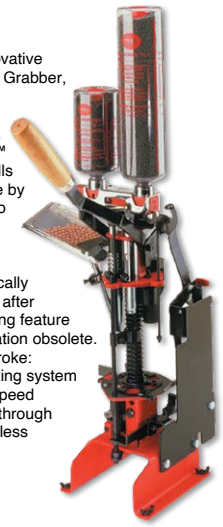
The Sizemaster

- Loaded with premium features.
- Includes highly accurate "Power Ring" collet re-sizer returns every base to factory specifications.
- Re-sizing station handles brass or steel heads, both high and low base.
- The E-Z Prime auto primer feed is standard equipment. It dispenses primers automatically (automatic primer feed not available on .410 bore).
- The press is adjustable for 3" shells and is available in 10, 12, 16, 20, 28 gauge and .410 bore. Die sets are available.

The Sizemaster *(12 Gauge)* ..... C23ME812012 ....$376.73
The Sizemaster *(28 Gauge)* ..... C23ME812028 ....$404.78
The Sizemaster *(.410 Gauge)* ..... C23ME8120410 .$376.50

The 8567N Grabber



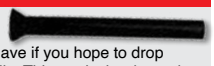
- The 8567N Grabber has everything you need for high-speed, efficient operation and unbeatable precision.
- The multiple operations at six stations speedily produce a finished shell with every stroke of the handle. It has a fully automatic primer feed, as well as auto-cycle charging, and our exclusive three-stage crimp. The "Power Ring" resizer gives consistent, accurately sized shells for optimum gun performance, without interrupting the reloading sequence. The operator simply puts in the wads and shell casings and removes a loaded shell with each pull of the handle.
- Superior engineering and unique versatility is exhibited in the 8567N Grabber.

All MEC Reloaders Include
1 Charge Bar & 3 Powder Bushings

Gauge	Charge Bar	Bushings
12 ga.	1-1/8 oz	29, 30, 32

8567N Grabber *(12 Gauge)* ..... C23ME8567N12 ....$622.68

The 9000GN



- The 9000GN has all the innovative features found on the 8567N Grabber, plus automatic indexing and finished-shell ejection for quicker and easier reloading.
- Our revolutionary Auto-Dex™ automatically moves the shells through each reloading stage by simply returning the handle to the top of its stroke. Accurately resized shells are achieved with each stroke.
- Finished shells are automatically ejected from the shell carrier after final crimping. This time-saving feature makes one-more-hand operation obsolete.
- Finished shells with every stroke: The fastest, smoothest indexing system ever made. Our factory-set speed provides uniform movement through every reloading stage regardless of operator action.

Gauge	Charge Bar	Bushings
12 ga.	1-1/8 oz	29, 30, 32
20 ga.	7/8 oz	20, 22, 24
.410 ga.	1/2 oz	10, 11, 12

9000GN *(12 Gauge)* ..... C23ME9000GN12 ..... $762.90

MEC Reloading ACCESSORIES

Drop Tube

The MEC Drop Tube is a must-have if you hope to drop powder and shot without any spills. This particular drop tube is intended for use with 12-gauge and 20-gauge loads. If you are a serious 12- or 20-gauge reloader, this replacement drop tube is a great item to have on hand.

Drop Tube *(12 & 20 gauge)*..... C23ME205 .....$1.79

Bottles and Bottle Support

Bottle *(Small)*
C23ME301L13X.....$10.29
Bottle *(Large)*
C23ME8042.....$13.99
Bottle Support for Progressives
C23ME8938.....$37.49
Bottle Support for Single Stages
C23ME8939 .....$37.49
EZ-Fill Funnel
C23ME8994 .....$9.79

Measure Assembly

The MEC Measure Assembly offers a solid construction that throws accurate powder charges on a consistent basis.
This assembly consists of precision ground slides and surfaces in a perfectly made primary casting that ensures a precision fit. Accurate measures are critical when reloading, so MEC goes to great lengths to ensure the product surpasses expectations.

Measure Assembly..... C23ME8098CA.....$21.99
Grommet *(Rubber)* ..... C23ME304G $1.79
Washers *(Brass)*..... C23ME304W $1.79

Primer Cup

Designed for the 600 Jr., 700 Versamc, and Sizemaster, the MEC Primer Cup is an inexpensive but handy accessory to have on hand.

Primer Cup ..... C23ME326 .....$9.79

Spring

In addition to multi-axis spring formers, coiling machines for extra fine wire, spring formers, torsion spring machines, and extension spring machines, the company now has over 5,000 machines throughout the world. For people who do reloading on a MEC spring machine, this replacement part is imperative.

Spring ..... C23ME330 .....$1.79
Spring Pad..... C23ME331 .....$2.79

Primer Seat Assembly

This primer seat assembly package is competitively priced and an excellent accessory to have on hand. With this, reloaders find sessions easier, quicker, and more efficient, which results in better quality and more consistent loads.

Package..... C23ME325CP $13.79
12 Gauge..... C23ME525CA12 ..$15.29

Dust Cover

The MEC Dust Cover protects MEC reloaders by keeping them clean and dust-free. This dust cover is designed to fit the 9000 Series, Sizemaster, Hustler, and Grabber reloaders equipped with 12-inch shot bottles.

Mec Dust Cover..... C23ME8807..... $37.49

Shell Checker

Now you can easily measure the precision of your reloaded shells to be sure they will chamber properly. Precision machined holes, labeled "GO" and "NO GO" test for size and roundness.
This durable, stainless steel tool accommodates 10,12,16,20 and 28 gauges, plus .410 bore.

Shell Checker ..... C23ME8486 ..... $18.29

SHOTSHELL RELOADERS

The Super-Sizer

Proper resizing is important with today's close gun tolerances. MEC offers a radically new system. The shells they resize will work in the most exacting shotguns. No competitor has any piece of equipment that can resize like the MEC Super-Sizer. The MEC Super-Sizer is different. It's better. The Super-Sizer can update conventional reloaders and take advantage of MEC's exclusive Power-Ring Collet resizing device. Simply place a shell in Power-Ring and pull down on the handle. Can handle steel or brass, high or low brass.

The Super-Sizer *(12 Gauge)* ..... C23ME811912 ....$143.97
The Super-Sizer *(20 Gauge)* ..... C23ME811920 ....$143.95

Lead Shot Charge Bars

Bars bored for powder bushings are designated 502 series for progressive tools and 302 series for single-stage tools. The number below either series indicates the amount of shot the bar will dispense. For example, a 302-118 is a single-stage charge bar and will drop 1-1/8 oz. of shot. Powder holes only are bored to accept bushings. It is mandatory that your order for bars includes both the series number and the weight of the shot charge.

Single Stage $20.49		Progressive Stage $20.49	
Lead Shot	**Item No.**	**Lead Shot**	**Item No.**
7/8 oz.	C23ME30278	3/4 oz.	C23ME50234
11/16 oz.	C23ME3021116	1 oz.	C23ME502100
1 oz.	C23ME302100	1-1/8 oz.	C23ME502118
1-1/8 oz.	C23ME302118	1-7/8 oz.	C23ME502178
1-1/4 oz.	C23ME302114		

Rubber Insert for Bar

The soft insert to help eliminate shearing when larger shot sizes and hard lead shot are used.
Rubber Insert for bar ..... C17ME8440 .....$2.49

Powder Bushings

MEC offers an assortment of different bushings to accommodate different loads and different powders. Consult your handloader guide for the proper bushings for your needs.
Powder Bushings.....$5.79

RELOADING EQUIPMENT

Pro-Pak Reloading Kits

"An Investment in Quality Tools."

Redding has selected the best reloading components and put them into one neat, money-saving package. This kit was created for both the first-time reloader to get started right and for the more advanced reloader desiring to upgrade his equipment.

The Boss and Big Boss Pro-Paks contain the following:

- *The Boss or Big Boss Reloading Press* – Redding's best selling presses.
- *Model 2 Powder and Bullet Scale.* Simply the most sensitive, most accurate scale on the market.
- *Powder Trickler* – Heavy stable companion to the powder scale.
- *Pad Style Case Lube Kit* – Consists of non-skid lube pad and best case lube.
- *Deburring Tool* – The cutting edges are ground correctly for clean chatterless cuts.
- *Model 18 Case Preparation Kit* – Plastic accessory handle with all the tools and brushes you need to properly clean your fired cases before resizing.
- *Powder Funnel* – Made of tough Lexan® and nearly indestructible.
- *Metallic Cartridge Reloading* – All new 3rd Edition. A single source for detailed information on advanced handloading issues, while offering a wide variety of loading data.

Big Boss Pro-Pak,
w/o Dies and shellholder ..... C23RB40000 .$429.49

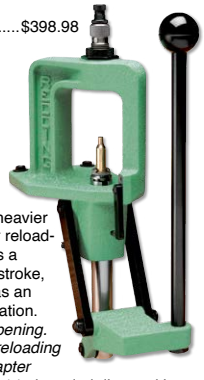
The Boss Press

The BOSS is powerful, remarkably easy to use, and yet sensitive enough to seat primers without crushing them. Take a look at all the features The Boss offers and you'll be convinced– when it comes to "O" Type reloading presses, this one is truly the right choice.

Features:

- Rigid cast iron frame.
- 36" frame offset gives the best visibility and access of all comparable presses.
- "Smart" primer arm automatically moves in and out of position with ram travel. Priming arm is positioned where it should be – at the bottom of ram travel for the lowest leverage and best feel.
- Offset handle is in the most comfortable operating position yet out of the way for best access and visibility.
- Positive ram travel stop.
- Powerful compound linkage.
- 3 holes for rigid mounting.
- Accepts all standard 7/8"-14 threaded dies and universal shell holders.
- Shell holders may be rotated to any comfortable position desired.
- Includes primer catcher.

The Boss Press ..... C23RB72100 ...$174.48



UltraMag Reloading Press

One glance and you will see what sets the Ultramag apart from all the competition. Aside from its rugged design, is the unique location of its compound leverage system. Unlike other reloading presses, the UltraMag's compound leverage system is connected at the top of the press frame. This allows you to develop literally tons of pressure without the usual concern about press frame deflection, which can cause misalignment. By creating this design Redding has been able to eliminate the need for tie bars, "O" frames and other after-thoughts that restrict the frame opening and thus the utility of the reloading press. It's the strongest reloading press Redding has ever made.

Ultra Magnum Reloading Press
C23RB70000 ..... $398.98

The Big Boss Reloading Press

Simply a larger version of Redding's popular "Boss" reloading press!

The "Big Boss" has all the desirable features of the "Boss" reloading press but it's built on a heavier frame with a longer ram stroke for reloading magnum cartridges. It features a 1" diameter ram with over 3.8" of stroke, uses a "Smart" primer arm and has an offset ball handle for ease of operation.

Features: • Large 4-1/2" frame opening. • 3-13/16" of ram stroke for easy reloading of magnum cartridges. • Steel adapter bushing accepts all standard 7/8"-14 threaded dies and is removable for use with oversized dies.• Frame with bushing removed accepts 1-1/4" x 12 dies.

Big Boss Reloading Press ..... C23RB79000 ...$221.98

The T-7 Turret Reloading Press

The T-7 combines strength, power and convenience with the speed and versatility of a turret press. "Cast iron construction, powerful compound linkage and a rigid seven station turret combine to make the Redding T-7 the best turret press ever!"

The design criteria was to create the ultimate turret press. Redding's engineering team started with their time proven cast iron construction and turret support that is second to none. They added powerful compound linkage with over 3.8" of ram travel. A 1" diameter through boar ram was chosen with the "smart" primer arm and primer collection system borrowed from Redding's Ultramag. Another station was added to the turret for even greater versatility and an optional "Slide Bar Automatic Primer Feeding System" was designed. After adding a few more subtle refinements and built the way only Redding builds 'em, they're confident that they have created the best turret press ever.

RB67002

• Seven station turret head • 1" diameter ram. • 4-3/4" press opening • 3-11/16" ram stroke • Tubular spent primer collection system. • Ball handle • Accepts all standard 7/8"-14 threaded dies and universal shell holders. • Shellholders may be rotated to any comfortable position desired • Interchangeable turret heads. • Competition die compatible.

T-7 Turret Reloading Press ..... C23RB67000 ...$385.48
Extra Turret For T-7 Press ..... C23RB67002 .....$90.98
Slide Bar Primer Feed System ..... C23RB99600 .....$57.48

Deburring Tool

Removes burrs and bevels case mouths for easy bullet seating. Hardened precision ground flutes make clean, easy, chatter-free cuts.
Accepts all cases from .17 to .45 caliber.
Deburring Tool ..... C23RB09000 .....$29.49

Flash Hole Deburring Tool

This tool quickly removes burrs, creating more consistent ignition. This process only needs to be done once for the complete life of a piece of brass. This flash hole deburring tool is for flash holes measuring 0.060". .22-.338 Pilot.
Flash Hole Deburring Tool ..... C23RB06100 .....$31.99

Primer Pocket Uniformer

The Redding Primer Pocket Uniformer Tool is designed to cut primer pockets to a uniform depth and square them up with the case head. This helps to increase shot to shot consistency to help create the most accurate ammunition possible.
Pocket Uniformer - *Large Primers*.... C23RB09100 .....$36.98
Pocket Uniformer - *Small Primers*.... C23RB09105 .....$36.98

Powder Funnel

- Nearly indestructible, super-tough Lexan™.
- Fits all cartridge cases from .22 to .45 caliber.
- Anti-static prevents powder from sticking.

Powder Funnel ..... C23RB13000 .....$9.28

Case Preparation Kit

All the tools you need in one package for removing dirt and powder residue from the inside of case necks and primer pockets. Kit comes complete with accessory handle, large and small primer pocket cleaners and three (3) case neck brushes to handle all cartridges from .22 thru .45 caliber
Case Preparation Kit ..... C23RB18000 .....$30.48

Stuck Case Removal Kit

Sooner or later everyone does it. Too little case lubricant (or using ordinary oil) and the case seizes in the resizing die. Usually, the rim pulls off and it is almost impossible to remove the stuck case without damaging the die. This case removal kit provides an easy solution to your problems.
Stuck Case Remover Kit ..... C23RB22000 .....$25.99

Case Lube Pad (Pad-Type)

The most popular way to properly lubricate cases for resizing and case forming. The bottom side of the pad includes non-skid feet so it won't skate all over your bench when you are using it. Kit includes 2 oz. plastic bottle of Redding Case Lube.
Case Lube Kit (Pad-Type) ..... C23RB12012 .....$22.99
Case Lube *Pad Only* ..... C23RB12010 .....$16.29

Imperial Lubricants

Redding is committed to maintaining the integrity of this product by producing it to the exact formulation that made it so popular.
Imperial Sizing dies Wax 1 oz. ..... C23RB07500 .....$8.78
Imperial Sizing dies Wax 2 oz. ..... C23RB07600 .....$11.48
Imperial Dry Neck Lube 1 oz. ..... C23RB07700 .....$9.29

Imperial "Bio Green" Case Lubricant

Redding now introduces a new plant based sizing lube which is highly effective, completely bio-degradable and totally renewable. Imperial Bio Green Case Lubricant can be used on any pad type lubricant applicator and provides superior lubrication capabilities. It will not stain your brass and offers easy water cleanup making it perfect for use with ultrasonic case cleaners

Bio Green Lubricant ..... C23RB07300 .....$8.99

REDDING
RELOADING EQUIPMENT

Match-Grade Model 3BR Powder Measure

The Match-Grade Model 3BR was created to be the ultimate powder measure... "out of the box" match ready! It quickly became Redding's most popular powder measure for two very good reasons ...Its broad range of charging capacity and its performance record.
3BR Powder Measure *(5-100 grains)*
C23RB03500 .....$199.49
3BR Powder Measure *w/both Chambers (0-10 gr & 5-100 gr)*
C23RB03700 .....$237.99

Competition PR-50 Powder Measure

The PR-50 powder measure represents our latest in the series of limited range "Competition" powder measures optimized with the precision rifleman in mind. The engineering target range was approx. 50-60 grains with the ideal use range extending from approx. 35 to 75 grains. This powder measure uses all of the engineering features and knowledge gained from our other Competition powder measures. All Competition Powder Measures use a special rotating operating handle which is slightly heavier to help you maintain a more uniform stroke.
Competition PR-50 Powder Measure
C23RB03900 .....$218.49

Model 3 Powder Measure

The original Redding Model 3, time proven for accuracy and reliability. It has a micrometer metering chamber right in front for easy setting and reading. The micrometer makes it possible to record your favorite settings and return to the same place weeks later when you wish to create the same load. Precision machined cast iron frame to give you years and years of service. All Redding Powder Measures feature hand honed frames and hard chromium drums for long life. An extremely sharp cutting surface easily cuts and meters even the most difficult powders. Charging range approx. 5 to 100 grains
Powder Measure .....C23RB03000..... $155.99
Powder Measure Stand.....C23RB06000 .....$43.98

Competition Model 10X Pistol & Small Rifle Powder Measure

The Model 10X- Pistol Powder Measure uses all of the benchrest proven features of the model BR-30. These were combined with a special drum and small hemispherical metering plunger to achieve an ideal powder charge range of 1 to 16 grains. The maximum charge capacity is about 25 grains, depending upon powder.
10x Competition Pistol Powder Measure
C23RB03400 .....$233.98

Drop Tube

This friction fit extended powder drop tube is designed to fit all of current Redding powder measures and their funnel. Longer drop tubes allow powder to flow freely and stack better on loads that fill the case. The Redding extended drop tube allows cases to be filled completely, consistently and accurately. The extended tube is 4-1/2 inches long.
Drop Tube .....C23RB03818 .....$16.29

Model No. 2 Powder & Bullet Scale

This scale is designed and manufactured to the same accuracy and sensitivity standard as Redding's RE-1 scale but includes a magnetic dampened beam swing for extra fast readings. The hardened and ground knife edges ride in precision milled stainless steel bearing seats that will not crack, slip, or lose their alignment in any way. Don't forget, Redding scales have a lifetime guarantee.
• 505 grain capacity • 1/10 grain accuracy • Pour spout pan
• Simple two counterpoise system
• 1/10 grain over/under graduations
Model N0. 2 Powder Scale.....C23RB02000 .....$107.99

Model No. 5 Powder Trickler

Turn the knob and you add powder to the scale pan a granule or two at a time. Brings underweight charges up to accurate readings fast. Solid, stable, low center of gravity. Weighs a full pound so it won't squirm all over your bench while you are trying to use it. Ideal height for most powder scales.
Mod. #5 Powder Trickler .....C23RB05000 .....$28.98

Collet Closeup

Model 1400-XT Case Trimming Lathe

This case trimmer works just like a lathe…the case turns while the cutter is stationary. This means that you cannot cut a crooked case neck again, even if you try. All other case trimmers on the market work the other way around. The frame is made of cast iron so that it will never wear out. It is built to maintain its precision alignment through years of service. One collet supplied with trimmer fits all popular rifle and pistol cases…you won't have to buy more. The Cutter shaft adjusts to accommodate the longest magnum cases with ease. There are both coarse and fine adjustments for case length allowing adjustments of .001" or less.
Model 1400 case trimmer supplied with the following:
• Universal collet • High speed cutter shaft
• Six pilots- .22, 6mm, .25, .270, 7mm and .30 Cal
• Two neck cleaning brushes (For .22 thru .30 Cal)
• Two primer pocket cleaners (Large & Small)
Model 1400-XT Case Trimmer
C23RB14000 .....$123.49

Case Neck Gauge

This tool allows you to accurately measure the neck wall thickness of the cartridge case and determine its uniformity. Two mandrel sizes are supplied to allow measurement of all cases from .17 cal. to .338 cal, including cases with small (.060) flash holes. For your convenience the mounting base allows direct attachment to your reloading bench. Pilot stops are required for each caliber. Two pilot stops are supplied with the tool, RB06121, .22 cal. and RB06130, .30 cal.
Case Neck Gauge.....C23RB26400 .....$114.48

Master Hunter (MH-C) Die Sets

Master Hunter Die Sets were inspired by the success of our National Match Dies. Experienced hunters know that full length resizing is important when a high stress follow-up shot is needed in the "real world" of hunting.

The Master Hunter "Deluxe" Die Sets now add the option of neck sizing for optimal on-the-range load development.

Master Hunter (MH-C) 2-Die Set

- Combines a Full Length Sizing Die with a Carbide Size Button and the extraordinary Redding Competition Seating Die.

National Match Die Set

The success of our specialized National Match Die Sets has created the demand for us to offer additional options beyond the limits of sanctioned cartridges to meet the needs of other precision oriented AR platform shooters. The name change (NM-C) indicates that all of our National Match Die Sets are now supplied with carbide size buttons.

The sets include: a full length Sizing Die with carbide size button, the Competition Bullet Seating Die and a Taper Crimp Die.

- *We use the finest alloy steels obtainable.*
- *Our dies are machined on Hardinge Super-Precision® lathes capable of holding the tightest tolerances in the industry.*
- *We guarantee our dies to produce ammunition that will properly fit any standard (SAAMI) chamber, regardless of action type.*
- *To maintain tolerances and guarantee that your dies will last a lifetime, they are heat treated in atmospherically controlled furnaces.*
- *All dies are hand polished for smooth, flawless functioning, inspected, and are ultra sonically cleaned before packaging.*
- *The die box is a handy cartridge loading block and storage package. Inside is a spare decapping pin, hex wrench, and a place for your shellholder!*
- *All Redding dies use the industry standard 7/8-14 threaded bodies.*

Premium Deluxe Die Sets

Redding has now added two popular upgrades to a select group of "Series A" dies to create the new Premium Deluxe Series Die Sets. The upgrades include combining a Carbide Size Button in the full length sizing die and the Bullet Seating Micrometer on the seating die. The Premium Deluxe Die Set contains: a carbide Size Button in the full length sizing die, the Bullet Seating Micrometer on the seating die and a standard Series A neck sizing die.

Die Sets For Straight Wall Cases

Die sets for straight wall cases contain three dies. This is necessary because it is not possible to full length resize straight wall cases and expand the neck for proper bullet fit in one operation. The full length resizing die contains a decapping rod assembly. The expander die contains a neck expanding plug. The seating die includes bullet guide, built-in crimp ring and the proper seating plug.

.45 Colt	C23RB80191	$53.99

Competition Seating Die

This design, covered by U.S. Patent No. 4,862,567, has beat the concentricity problems inherent in all other seating dies of this type. Tighter manufacturing tolerances have been made possible due to the details of the patented seating stem system. The bullet guide to seating stem fit is so precise that the seating stem can actually be demonstrated to "float" on a column of air. The seating stem is precision ground to exactly match bullet diameter. No seating die on the market is built to this level of precision. Alignment and accuracy are enhanced by the cartridge case and bullet being completely supported and aligned in a close fitting, precision ground sleeve before the bullet seating begins. The micrometer is calibrated in .001" increments for precise seating depth and is infinitely adjustable (without clicks). The micrometer also has a "zero" set feature that allows you to zero the micrometer to your rifle or favorite seating depth.

Body Dies

Body Dies are designed to full length resize the case body only and bump the shoulder position for proper chambering without disturbing the case neck. They are made without internal parts and intended for use only to resize cases which have become increasingly difficult to chamber after repeated firing and neck sizing.

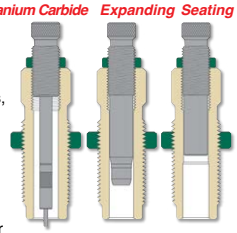
Bullet Seating Micrometer

Redding Bullet Seating Micrometers are for use with most standard Redding Seating Dies and provide a direct replacement for the original seat plug.

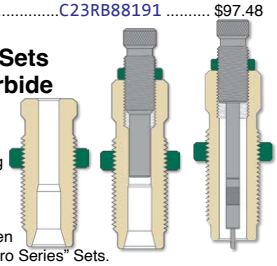


Redding Bullet Seating Micrometers for bottleneck cartridges are available for traditional bullet shapes (STD) and for VLD bullet shapes (VLD). They are also available for handgun and straight wall cartridges with traditional bullet shapes (STD) and flat nose bullet designs (FLAT).

*Not for use with our Competition Seating Dies

Seat Plug #	Item No.	Price
#18	C23RB09078	$42.98

Titanium Carbide Expanding Seating



Titanium Carbide Pistol Dies

Titanium carbide differs considerably from other carbides, and is the ideal material for resizing cartridge cases. Titanium carbide has the highest hardness of any readily available carbide. The difference is in the microstructure. Viewed under a microscope it appears smooth and rounded, which presents a slippery non-galling surface, ideal for lubeless resizing of cartridges.

.380 Auto	C23RB88170	$97.48
9mm Luger	C23RB88172	$115.49
.38 Spec/ .357 Magnum	C23RB88282	$97.48

Pro Series Die Sets In Titanium Carbide

The "Pro Series" is a specially prepared three (3) die set for use in progressive reloading machines. Since the most popular machines do not make use of an expander die, it has been eliminated in the new "Pro Series" Sets. The sizing die is the extraordinary Redding Titanium Carbide, complete with a decapping unit.

Competition Pro Series Dies are identical to the Pro Series, only with the addition of a Competition Bullet Seating Die with micrometer adjustment.

.38 Super Auto	C23RB58271	$189.98

Taper Crimp Dies

Designed for handgun cartridges which headspace on the case mouth where conventional roll crimping is undesirable. Also available for some revolver cartridges, for a taper crimp or for use when loading flush seated wadcutters or cast bullets which have no crimping groove or cannelure. Manufactured to the same high quality standards as all other Reloading dies.

24 Nosler	C23RB85320	$47.99

.45 Colt / 454 Casull	C23RB86191	$32.49

Pistol Case Expander Dies

Designed for handgun cartridges, these dies gently bell the mouth of the cartridge for more accurate bullet insertion into the finished case. Stop shaving lead bullets and align them properly in the case.

.450 Bushmaster	C23RB93781	$41.99

Pricing subject to change without notice. Not responsible for typographical errors.

Neck Sizing Bushings

Redding Neck Sizing Bushings freely interchange in all Redding Bushing type Neck Sizing Dies. By Selecting the correct bushing, you are now able to provide the right amount of neck tension to properly hold the bullet without excessive resizing.

To Determine Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer. From this measurement subtract .002" to .003". This allows for approximately .001" brass spring back after sizing and will result in a proper press fit for the bullet of .001" to .002"

The last three digits of the Part number are the Bushing Interior Diameter, sizes: .185" to .360" Available

Neck Sizing Bushing, *Steel* ..... C23RB73XXX **$18.49**

The last three digits of the Part number are the Bushing Interior Diameter, sizes available: .262 c/o, .263 c/o, .286 c/o, .288, .292 c/o, .294 c/o

Type S Elite Set

The Type S Elite set is comprised of a Type S Bushing Full Die, A Type S Bushing Neck Die and the unparalleled Redding Competition Seating Die. All Type-S dies use an interchangeable bushing to control neck diameter and tension to an increment of 0.001". Bushings are available in hardened steel but also are available with a TIN (Titanium Nitride) coating for even greater lubricity.

SAECO Moulds

Mould handles are ductile iron castings with solid hardwood grips. They should be ordered separately and fit all SAECO mould blocks (1-4 cavity).

Saeco Mould Handles ..... C23RB29000 ..... $59.49

SAECO Precision Bullet Moulds

Machined from solid cast iron blocks one cavity at a time. • Copper alloyed pearlitic cast iron for tight grain structure, dimensional stability and extended life.

2-Cavity Mould

Caliber	Grain	Mould Description	Item No.	Price
.32	95gr	Semi-Wad Cutter	C23RB62325	$130.99

SAECO Sizing Dies

SAECO sizing dies are made with a unique prelead that fits the "as cast" bullet diameter for a depth of approximately .3 inch. This special entrance throat insures that the bullet feeds into the sizing diameter in absolute straight alignment.

The constriction between the two diameters is a gentle taper which eliminates lead shearing and sizes the bullet concentrically. The dies are finished by internal honing known as micro-finishing which produces a mirror like finish and a sizing hole that is perfectly round. Your bullets will look like polished silver with no lead shavings.

SAECO Sizing Dies **$336.98**

SAECO Lead Hardness Tester

A precision instrument to accurately determine the hardness of a bullet casting alloy. A SAECO Lead Hardness Tester will pay for itself many times over by allowing you to convert inexpensive scrap lead of unknown composition into casting alloy of known and reproduceable hardness. It provides a standard by which you can check the quality of purchased cast bullets.

Lead Hardness Tester ..... C23RB42000 ..... $219.49

Instant Indicator

This instrument provides an extremely fast and accurate method for comparing the shoulder position of fired and/or sized cases and bullet seating depth uniformity. The addition of the "Range Adapter" makes this instrument more versatile and may now be used at the range or in the field without requiring the use of a reloading press.

- *Check uniformity of shoulder bump*
- *Check bullet seating depth uniformity*
- *Compare sized cases to fired cases to determine the amount of headspace*
- *Sort cases fired in two or more rifles • Sort sized cases for uniformity*
- *Set up sizing die correctly• Check trim length uniformity • Sort bullets for uniformity*
- *All Instant Indicators also include one bore diameter bushing, surface contactor, shoulder contactor, headspace gauge and complete instructions.*

Instant Indicator with Dial Indicator *(6.5 Creedmoor)* ..... C23RB27446 ... $156.49

Instant Indicator without Dial Indicator *(6.5 Creedmoor)* ..... C23RB17446 ... $119.99

Instant Indicator without Dial Indicator *(.223 Remington)* ..... C23RB17111 ... $129.99

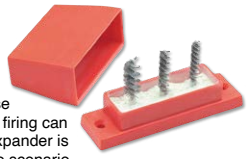
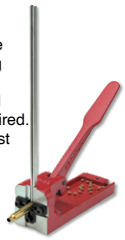
FORSTER PRODUCTS



Co-Ax® Press

- Snap in and out die change. Change from sizer to seater in two seconds!
- Positive spent primer catcher. All spent primers and carbon pass through a tube and into a container. All working parts are kept free from dirt and abrasive.
- Floating guide rods. Perfect alignment is ensured with floating guide rod.
- Long life. There is no torque on the head of the Co-Ax®. Due to design of the linkage and pivots, all forces are in equilibrium whether at maximum work load or at rest.
- Powerful mechanical advantage. The Co-Ax® has three times the M.A. of the ordinary "C" press. Full length sizing may be accomplished by operating the handle with your little finger!
- Perfect alignment of die and case is assured. The shell holder jaws are designed to float with the die, permitting the case to center in the die.
- The Co-Ax® has an abundance of working room for either right or left hand operators. No frame supports or swinging primer arms to interfere.
- Accepts any standard 7/8"x14" reloading die, some with existing rings.
- Unique top priming device seats primers to factory specifications. The seater is always at right angles to the case head. Primers will not flip or tip. They will be seated straight, level and at a uniform distance below the case head. Primers can not be crushed, nor will they protrude from the case head and cause premature firing.
- Top of the stroke provides a rock solid stop for consistency.

Co-Ax® Press w/ "S" jaws ..... C23FP028271 ..... $376.99
Short Handle ..... C23FPSH1000 ..... $21.99



Case Graphiter

When sizing a fired case, pulling the expander button through the inside diameter of the case can present a problem because residual deposits left from firing can create friction when the expander is withdrawn. In a worst case scenario, that friction can cause distortion or stretching of the case neck. Proper lubrication of your case necks is the answer, but oils are not recommended because of the very real possibility of gunpowder contamination. The Forster Case Graphiter is constructed of tough, impact resistant plastic and the base is drilled to permit permanent mounting to a loading bench. Three brushes are mounted in the base. They will accommodate all calibers from .22 to .35. The Case Graphiter comes with enough white "motor mica" to process 2000-3000 cases. By moving the case neck up and down on the correct graphite-covered brush, the neck can be cleaned and lubricated at the same time. A cover is also included to keep dust and grit from contaminating the white graphite.

Case Graphiter ..... C23FP011341 ..... $15.99
Extra powdered graphite (White Motor Mica) ..... C23FP011341012 ..... $5.49

CO-AX® Primer Seater

Unlike other seaters, ours is designed so the operator can eliminate all slop when working with a specific cartridge. That translates into perfect seating, reliable ignition and reduced misfires. No additional shellholders are required. The E-Z-Just jaws close to securely grip most modern rifle and pistol cases with a rim thickness of .045" to .072".• Built-in primer flipper tray. Large and small primer tubes have an open slot and primers stack sideways for added safety.

CO-AX® Primer Seater (includes E-Z-Just Jaws)
C23FP011521 ..... $103.99

Primer Tube Loader

The Primer Tube Loader aligns all primers with just a few flicks of the wrist.

Primer Tube Loader
C23FP11521099 ..... $14.99

Cross Bolt Die Locking Ring

Easy to use cross bolt that connects the two ends of the ring instead of a traditional screw design that tightens directly into the threads of the die. The Forster cross bolt locking ring will fit any standard 7/8"x14 dies from most manufacturers

Cross Bolt Lock Ring
(Single Ring) ..... C23FPDIEG10 ..... $6.49
(12 Pack) ..... C23FPDIEG10DOZEN $54.49

Full Length Die

Bench Rest® Seater Die

Full Length Die & Bench Rest® Seater Die Set

Rugged construction in a non-crimping style. Bench Rest Dies are made of high grade materials on precision machines. Dies are glass-hardened for long wear and minimum friction. Interiors are polished mirror-smooth. Special attention is given to head space, tapers and diameters so that brass will not be overworked when resized. Our sizing die has an elevated expander button which is drawn through the neck of the case. Since most of the case neck is still in the die when expanding begins, better alignment of the case and neck is obtained. Our Bench Rest Seating Die is the chamber type. The bullet is held in alignment in a close fitting channel. The case is held in alignment in a tight fitting chamber.

Both bullet and case are held in perfect alignment during the entire bullet seating process.

Stuck Case Remover

The easy way to remove the decapping rod and expander ball when a case is stuck in the die.

We have developed this simple, inexpensive stuck case remover to work on any sizing die. The unique design even works on stuck cases which have the decapping rod and expander ball stuck in the die. All components are hardened for long life and a washer is included to protect the top of your die.

Stuck Case Remover ..... C23FPSC1000 ..... $22.49

Hand Held Outside Neck Turner Pilots

- Precision machined with special angles and reliefs designed specifically for neck turning; cutter approach angle allows turning right up to the case shoulder.
- Micrometer adjustment knob allows fine adjustments in either direction; easily adjustable to .0005″. Index marks at increments of .001″ are clearly stamped on the tool body.
- Dedicated Pilots are sold separately, .002″ to .0025″ smaller than the bullet diameter

Pilot No.	Diameter	Item No.	Price

Co-Ax® Case & Cartridge Inspector

Forster's exclusive Co-Ax® Case & Cartridge Inspector provides you with the ability to ensure uniformity by measuring three critical dimensions: neck wall thickness, case neck concentricity, and bullet runout. Measurements are in increments of one-thousandth of an inch so accuracy is superb. The Inspector is unique because it checks both the bullet and case alignment in relation to the centerline (axis) of the entire cartridge or case.

The .17 caliber pilot is not compatible with this tool.

Co-Ax® Case & Cartridge Inspector
C23FP010482 ..... $104.49

Hand Outside Neck Turner

- The industry's only carbide neck thickness cutter - This durable, smooth cutting carbide is precision ground with special angles and reliefs designed specifically for neck turning. The cutter approach angle allows turning right up to the case shoulder.
- Micrometer Adjustment Knob - This makes it simple to affect fine adjustments in either direction. .001" (thousandth) index marks are clearly stamped on the body of the tool. Easily adjustable to a half-a-thousandth of an inch.
- Centerless Ground Pilots (mandrels) - Our standard pilots are precision ground .002" to .0025" smaller than bullet diameter.

Hand Held Outside Neck Turner
C23FPHOT100 ..... $84.99

Quick-Change Jaws for Co-Ax® Press

While a case is in the Quick-change Jaws, it's supported by spring-loaded jaws that contact the base of the cannelure for more positive extraction. The jaws are also self acting, so when a cartridge is placed in the die and the handle of the Co-Ax Press is activated, the jaws can open and close on the cartridge case. When the handle is raised, the jaws automatically open and release the case.

- *S-Large – holds .468″ to .562″ rim*
- *S-Small – holds .343″ to .422″ rim*
- *LS-Large – holds .531″ to .625″ rim*
- *LS-Small – holds .312″ to .375″ rim*

"S" Large ..... C23FP028271201 ..... $47.99
"S" Small ..... C23FP028271202 ..... $47.99
"LS" Large ..... C23FP028271203 ..... $47.99
"LS" Small ..... C23FP028271204 ..... $47.99

Co-Ax® Jaw Shell Holders

The heads of the cases and rims are unmarked by the shell holder jaws because the shell holder actually floats and permits the cartridge case to find its exact center in the die. When a case is in the shell holder it's supported by spring loaded jaws which contact the base of the cannulure for more positive extraction. The shell holder is also self acting, so when a cartridge is placed in the die and the handle of the press is activated, the jaws can open and close on the cartridge case. When the handle is raised, the jaws automatically open and release the case. Standard "S" Jaws are included with the Co-Ax® Press.

Calibers that will fit optional "LS" Jaws:
.22 Hornet, .378 Weatherby, .45-70 Government
.256 Win Magnum, .416 Rigby, .45-90, .348 Winchester

Replacement "LS" Jaws ..... C23FP001251 ..... $31.99

Pricing subject to change without notice. Not responsible for typographical errors.

FORSTER PRODUCTS

Original Case Trimmer

The old standby! The Original, Forster Case Trimmer is the right choice for most calibers with bullet diameters from .171" to .459" . It is actually a fine miniature lathe with a superior shell holder design based on a Brown & Sharpe type collet. Collets #1 through #4 fit this Original Case Trimmer and hold the rims of most rifle and pistol calibers within that range. Our Original Case Trimmer allows you to take your handloads to a new level. It allows you to expand your system by adding many "accurizing" case trimmer accessories.

Collet & Pilot not included

Original Case Trimmer ..... C23FPCT1010 ..$98.99

See Next Page for Forster Sizing Chart

Case Trimmer Pilot.....$3.79
Case Trimmer Collet.....$10.09
Neck Reamer.....$19.69

Original Case Trimmer Kit

w/ 6 Pilots & 3 Collets

Our Original Case Trimmer allows you to go as far as you need to go with your reloading because it allows you to expand your system by adding any of the accuracy accessories. *Kit includes Collets 1, 2 & 3 and Pilots 22, 24, 25, 27, 28 & 30.*

Original Case Trimmer Kit C23FPCTK100 $131.99

Classic Case Trimmer

Larger than our Original Case Trimmer, our Classic was the first production model trimmer on the market to accommodate a large range of classic cartridges. It's suitable for more than three-hundred different big bore calibers from popular big game rifles to classic black powder calibers (the Classic trims case lengths from 1 7/8" long through 4 1/8" long; shorter cases can be trimmed by mounting on a standard length base). For collectors of vintage firearms, for "Cowboy" competitors and reenactors, and for owners of fine English single and double rifles chambered in hard hitting calibers like 500 Nitro Express, .416 Rigby, 50 Sharps, .475 Nitro Exp, etc., this is the hand case trimmer that will allow accurate reloading. Collets #5 through #8 fit the Classic Case Trimmer. Collets and pilots for the Classic Case Trimmer are available separately. See collet and pilot search. *Collet not included*

Original Case Trimmer C23FPCLCT00 $110.99

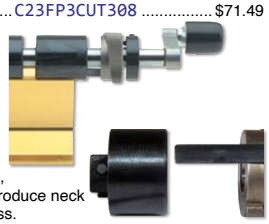
See Next Page for Forster Sizing Chart

Case Trimmer Collet.....$12.99

3-in-1 Case Mouth Cutter

Trims case length and chamfers inside and outside in one step!

Forster Products' new 3-in-1 Case Mouth Cutter is the first carbide case trimmer accessory that performs three functions simultaneously. In one simple step, this product:



- Trims the case to length
- Chamfers the inside case mouth to an angle of 14°
- Chamfers the outside case mouth to an angle of 30°

To further save you time, the 3-in-1 Case Mouth Cutter is the first cutter to employ high-quality blades made from US-manufactured carbide steel. They should never need sharpening if used exclusively on brass cases. The carbide cutter blades are factory adjusted on the blade holder to ensure precise cutting. Only Forster Products offers carbide blades - you won't find them anywhere else.

Three caliber choices are available (224, 243, 308) with more to come.

For *.224* ..... C23FP3CUT224 ..... $71.49
For *.264* ..... C23FP3CUT264 ..... $71.49
For *.308* ..... C23FP3CUT308 ..... $71.49

Outside Neck Turner

Turns case necks concentric to its true axis. An inside neck reamer will reduce the thickened wall of a case, but it does not always produce neck walls of uniform thickness.

The Outside Neck Turner accessory provides neck walls of uniform thickness and exact outside neck diameter. Turner consists of a cutter head which carries an adjustable circular carbide cutter. Caliber sizes: 17 (requires .17 Cal. Case Trimmer Cutter Shaft and .17 Cal. Carbide Cutter), 224, 243, 257,277, 263, 284, 308, 311, 323, 333, 358 and 375.

(Pilot Not Included)

Outside Neck Turner ..... C23FPONT1010 ..... $49.99

Outside Neck Turners & Pilots

Standard pilots are precision ground .002" to .0025" smaller than bullet diameter. Occasionally, our standard pilot may have to be ground to fit your specific circumstances. This can be caused by variation in brass hardness, wall thickness, or by variations in other manufacturer's neck and expander dimensions. Almost any special size pilot is available on a special order basis, made to your specifications.

Outside Neck Turner Pilots, *(Each)*..... $11.79

Case Trimmer Accessory Case

This handy case allows you to store your accessories in a convenient and space-saving manner. The attractive case holds Case Trimmer Collets and Pilots, an Outside Neck Turner with Pilots, Neck Reamers, a Primer Pocket Chamfering Tool with Center, and Primer Pocket Cleaners. Double wall construction gives super strength and is impervious to heat or cold - will not crack or peel. Positive action latch insures dust-free storage. Save time and organize your loading area with this useful accessory case.

Accessory Case *(Yellow)*..... C23FPAC5000 ..... $14.79

Neck Reamers

For Original, Classic & Power Case Trimmers

Thick case necks can cause high chamber pressures and flyers. The Forster Neck Reamer mounts in the cutter of a Forster Case Trimmer in place of the pilot and removes the excess brass from the neck walls. The Forster Neck Reamer is manufactured from high grade, wear-resistant tool steel and ground .0025" to .003" over the maximum bullet diameter. The staggered tooth design cuts the brass smoothly without chattering. Photo illustrates three different sizes.

Neck Reamer #220

Power Adapter for Case Trimmers

Turns any Forster hand trimmer into a power trimmer. Fits Original, Classic, or .50 BMG. Here is an easy, affordable way to turn your Forster hand trimmer into a power trimmer. Simply remove the handle from your trimmer and replace it with this adapter, then use any electric screwdriver or power drill to provide the power. The cutter shaft and the stop collar are unchanged so accurate case length settings are maintained. It's a great way to make better use of your limited reloading time because in "power mode" you'll be able to trim more than 200 cases per hour.

Case Trimmer Power Adapter.... C23FPPA1000 .....$15.29

Short & Long Case Trimmer Bases

Note: 1/2" (.500") of adjustment is built into the "Original" Case Trimmer which allows the trimmer's capacity to be widened before the Long Case Trimmer Base becomes necessary.

To widen the "Original" trimmer base and take advantage of its wider capacity, simply move out both the bearing and the housing by 1/4".

Short Case Trimmer

Case Trimmer Base, short 4 5/8" length, required for trimming 9mm luger or shorter. Standard replacement and two optional bases are available for the Original, and Classic Case Trimmers, all made with the sturdy, uniquely Forster design.

(4-5/8" long base) ..... C23FPCTB102 ..... $25.49

Long Case Trimmer

Case Trimmer Base, long 6 1/2" length, required for outside neck turning long cartridges and for hollow pointing long cartridges. Standard replacement and two optional bases are available for the Original, and Classic Case Trimmers, all made with the sturdy, uniquely Forster design.

(6-1/2" long base) ..... C23FPCTB103 ..... $25.49

Universal Hollow Pointer

(Shown Here On Case Trimmer)

Assembled round can be hollow pointed for increased expansion on impact. This accessory is used on the Case Trimmer and can handle factory or hand loaded cartridges. The large drill size is recommended for pistol cartridges: the small drill for rifle cartridges.

(1/8" Drill Size)..... C23FPHP8 ..... $23.99
(1/16" Drill Size)..... C23FPHP16 ..... $23.99

Universal Bullet Puller

Tough, rugged, and dependable. Pulls bullets as a result of a reloading problem or because standard ammunition requires alteration. Two versions for use on most reloading presses :

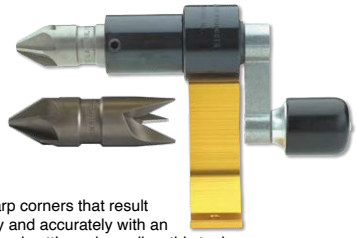
- Standard: For use with standard loading presses with a 7/8"-14 thread and bullets from 17 cal. to 458 cal. Not intended for use with the Forster Products Co-Ax Press
- Universal: For use with the Co-Ax® Press. Also works with standard loading presses with a 7/8"-14 thread and bullets from 17 cal. to 458 cal
- Sure grip reduces chance of damage, meaning the reloader can salvage more components and save money

• Solid steel collets are sold separately.

Universal ..... C23FPUP1010.....$24.99

Standard ..... C23FPBP1010.....$24.99

Collet



- Solid steel • Heat treated
- Hand polished for smooth operation
- Collets fit both Standard and Universal Bullet Pullers

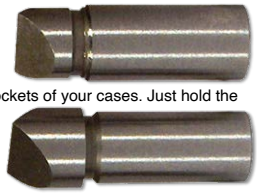
Inside/ Outside Deburring Tool

Deburring Tools

Dents, irregularities and burrs, as well as sharp corners that result from trimming a case can be removed quickly and accurately with an Inside/Outside Deburring Tool. Precision-ground cutting edges allow this tool to cut free and clean. It handles all cartridge cases from .17 to .45 caliber (For inside and outside deburring.) Installed on your loading bench, the DBT Base offers instant availability and ease of operation when chamfering large numbers of cases.



Inside/Outside Deburring Tool ..... C23FPDBT1000 ..... $23.49
Base for Deburring Tool - Base Only ..... C23FPDBT2000 ..... $32.99

Primer Pocket Chamfering Tool

The Primer Pocket Chamfering Tool, used with the Primer Pocket Center (sold separately), is the fastest, most accurate method for removal of military crimp when reloading military brass.

Primer Pocket Chamfering Tool Only ..... C23FPPPCT01 ..... $26.49
Primer Pocket Center ..... C23FPPPCEO2 ..... $9.29

Primer Pocket Cleaner

Our tool steel Primer Pocket Cleaner helps ensure consistent ignition and reduce the incidence of misfires by removing powder and primer residue from the primer pockets of your cases. Just hold the case mouth over the Primer Pocket Center (Sold Separately) with one hand while you quickly and easily clean the primer pockets by turning the Case Trimmer handle. There's no tightening or loosening of collects required.

Primer Pocket Center ..... C23FPPPCEO2 ..... $9.29

Headspace Gages

This is the only way to reliably measure and test the length of the rifle chamber. Accuracy and safety is threatened when excessive headspace exists. Unsupported brass fired in a rifle action with excessive headspace may rupture, allowing gas to blow rearward like rocket exhaust. Head-space Gages are made with painstaking care to ensure accurate testing of your rifle's chamber. Gunsmith - "When chambering a new barrel, these tools are invaluable in ensuring a tight, accurate, safe chamber". If your rifle closes on a **GO Gage**: Rifle chamber will accept any ammo that is made within S.A.A.M.I. (industry standard) specifications. **NO-GO Gage**: Rifle chamber may have excessive headspace. Most Gunsmith chamber a rifles headspace between the GO and NO-GO dimensions.

Cutter Shaft for Original Case Trimmer

The Forster Cutter Shaft fits the Original Case Trimmer only, and it is the standard .490″ diameter. Shaft included with the Trimmer for .204″ to .459″ caliber case mouths. The Cutter Shaft does most of the hard work of a Forster Case Trimmer: a bit with a cutting blade trims the case neck; the high-alloy steel shaft holds all of the rotating specialized case conditioning accessories.

Cutter Shaft ..... C23FPCT1010CTC400 ..... $24.49

Decapping Pin for Sizing Die

- *Spare/replacement Decapping Pin fits Full Length, Bushing Bump and Neck Sizing Dies.*
- *Special Long pin is for cases with small flash holes*

Long Decapping Pin (5 pack) ..... C23FPDIEIL5P $3.99
Special Long Decapping Pin (5 pack) ..... C23FPDIEILSPCL5P $5.79

FORSTER PRODUCTS

Ultra Micrometer Seater Die

The Ultra Micrometer Seater Die is a non-crimping style seater die (except for the 30-30) that holds the bullet and case in perfect alignment while the bullet is press-fit seated. A handy micrometer fixes the bullet seating depth to your specifications.

- Includes all the popular straight line seating features of the original Bench Rest Seater Die plus an ultra-accurate micrometer for adjusting bullet seating depth
- Micrometer allows fine adjustments in either direction; easily adjustable to .0005″ Index marks at increments of .001″ are clearly marked
- After you have seated your bullet close to the desired depth and measured it, simply adjust the micrometer stem down to the desired depth and the cartridge will be exactly the length you need
- Eliminates much of the trial and error that was once associated with seating accurate rounds
- Bright, white markings make micrometer easy to read

MTM CASE-GARD™ QUALITY SHOOTING SPORTS ACCESSORIES

LT-150M - Universal Loading Tray Magnum Sized Tray

This tray accommodates shooters loading traditional rifle calibers from .17 to .48 Win. and pistol cartridges in 9mm, .38 and .45 calibers. **Now, the LT-150M also Includes today's "fatter" calibers, like WSM, WSSM, Remington Ultra Mag. and 500 S&W.**

Improved Universal Loading Tray..... C23MTLT150M30 $9.29

Universal Loading Tray

Compact version of the 150, it fits almost all calibers sold in America w/more than 150 cavities for different calibers.

Universal Loading Tray..... C23MTLT50 ..... $7.29

AF-7 Universal Powder Funnel Set

- Small multi-caliber powder funnel – .222 to 45
- Adapt top Powder Funnel – For use with adapters and drop tube. Also fits .500 S&W
- Magnum adapter for WSM, WSSM and Ultra Mags
- And to keep it all together, a high-quality, see-thru storage case

Universal Powder Funnel Set..... C23MTAF7 ..... $18.49

MTM CASE-GARD™ QUALITY SHOOTING SPORTS ACCESSORIES

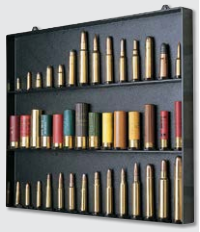
Cast Bullet Box

Made from see-thru polypropylene for easy identification. This box has a strong snap-latch, living hinge. Sold in bundled stacks of 2 boxes, this holds 160, 45 ACP or 200, 9mm Luger.

Cast Bullet Box..... C23MTCAST116 .. $3.99

MTM CASE-GARD™ QUALITY SHOOTING SPORTS ACCESSORIES

Shell & Wad Hopper



One of the nice things about MTM Case-Guard - it's run by a bunch of shooters. And, we're ALWAYS looking for ways to make the whole process of shooting and reloading a more pleasurable experience. Introducing the Shell & Wad Hoppers. Sold as a twin pack, each Shell & Wad Hopper holds and dispenses over 300 empty 12 ga. hulls or 500 wads, keeping them confined and at your fingertips. With a set of shell & Wad Hoppers, dealing with empty hulls and wads is no longer a hassle and yes, can be a pleasure.

Shell and Wad Hopper..... C23MTWH01 .....$13.79

Cartridge Display Board

The long awaited answer for sportsmen who have been "squirreling away" rare items. Board has space for 42 rounds. Each is held securely upright by a unique clip which grasps the cartridge or hull base - no glue required.

Bullet Display Board..... C23MTCBD1..... $33.99

Primer Flipper

With the Primer Flipper simply dump a box of primers into the flipper, replace the top, and gently shake the unit; within seconds all of the primers are anvil-side up.

Primer Flipper..... C23MTPF $3.29

V-Max™

The leading varmint bullet with polymer tip and streamlined design results in ultra flat trajectories. The match grade jacket design provides maximum accuracy at all ranges as well as explosive expansion, even at low velocities.

1.) Polymer Tip: *The sleek polymer tip improves ballistic performance, accuracy, and initiation of expansion.*

2.) Higher Ballistic Coefficient: *Provides the maximum bearing surface for added in-flight stability*

3.) Swaged Lead Core: *Allows for precise formation of the core up and around the tip, with a cavity under the tip seam*

4.) Precise Boattail & Flatbase Design: *Utilizing the proper base design provides incredible in-flight stability.*

InterLock®

1.) Inner Grooves: Strategically weaken the upper section of the jacket ensures consistent, controlled expansion.

2.) Tapered Jacket: Jacket thickness precisely controlled for expansion at all velocities.

3.) One-Piece Core: Retains more mass and energy for deep penetration and large, consistent wound channels.

4.) InterLock® Rings: Ensures the core and jacket are locked in one piece

FTX® Rifle

FLEX TIP® Bullet Technology: Safe to shoot in tubular magazines as well as any other firearm. Upon impact, the soft tip compresses into the bullet, initiating immediate expansion across a wide range of velocities.

Interlock® Ring: Mechanically locks the core and jacket together for maximum weight retention and deep penetration.

Ballistically Efficient Secant Ogive: The secant ogive profile delivers stability, ultra flat trajectories and amazing accuracy. ***Specially Engineered Jacket:*** The heavy jacket over the shank of the bullet combined with our proven InterLock® design controls expansion and enhances accuracy.

DGS® -

Dangerous Game Solid™

The DGS® bullet incorporates the flat nose concept with meplat diameters to resist deformation and achieve ultimate straight deep penetration.

1.) Flat Nose: *Eliminates possible deflections and resists deformation to achieve straight, deep penetration*

2.) DGS® Uniformity: *Each caliber utilizes the same profile for both DGX® & DGS® bullets, offering the ultimate uniformity, which is ideal when shooting both bullet types through the same firearms* ***3.) Copper Clad Steel Jacket:*** *The heavy copper clad steel jacket & high antimony lead core penetrate deep through hide, muscle and bone.*

50 Bullets per Box

A-Max®

Designed by match shooters for match shooters. With an ultra-low drag tip, our A-Max match bullets feature an aerodynamic secant ogive that delivers flat trajectories with excellent uniformity and concentricity.

- Rapid, explosive expansion with limited penetration.
- Recommended muzzle velocity range: 2000+ fps.
- These bullets are not recommended for hunting medium and large game.

1.) Polymer Tip:
The sleek polymer tip improves ballistic performance, accuracy, and initiation of expansion.

2.) High Ballistic Coefficient.

3.) Swaged Lead Core:
The swaging process provides excellent uniformity and balance for consistent performance and accuracy.

4.) AMP™ Bullet Jacket: *These new bullet jackets are a technological advancement in design, tooling and manufacturing that combine to produce the most consistently concentric bullet jackets available. Hornady AMP jackets have virtually zero tolerance for concentricity and near zero wall thickness variation.*

Caliber	Dia.	Grain	Qty.	Item No.	Price

Hornady
Accurate. Deadly. Dependable.
MATCH

Match™

The profile of the Match bullet delivers low drag and flat trajectories with the best ballistic coefficient possible. It's swaged lead core provides uniformity & concentricity for accuracy at long ranges.

1.) High Ballistic Coefficient: *The most efficient profiles with the highest possible ballistic coefficient.*

2.) Secant Ogive, Boattail Spire Point Profile: *Geometric profile works to produce low drag and flatter trajectories.*

3.) Swaged Lead Core: *Excellent uniformity & balance*

4.) Jacket: *Drawn to the tightest tolerance and concentricity achievable.*

5.) Boattail: *Then angle of the boattail is unique to each caliber and weight to maximize ballistic coefficient and accuracy.*

ELD-X

ELD-X™ Bullets

- ***Best-In-Class BC's:*** The Heat Shield™ tip is immune to the effects of aerodynamic heating and retains its shape to maintain the highest-in-class BC over its entire trajectory.
- ***Match Accurate Hunting Bullets:*** Streamlined secant ogive with optimum boattail design + highly concentric AMP® bullet jackets + patent pending Heat Shield™ tip combine for radically superior aerodynamic efficiency.
- ***Devastating Conventional Range Performance:*** With high velocity 0-400 yard impact, the bullet continually expands throughout its penetration path. The thick shank of the jacket and high InterLock® ring keep the core and jacket together providing 50-60% weight retention.
- ***Best Extended Range Terminal Performance:*** Upon low velocity 400+ yard impacts, the Heat Shield™ tip drives backward into the bullet to initiate expansion. Exhibiting conventional expansion with a large mushroom and 85-90% retained weight the bullet provides deep penetration and large wound cavities.

HAP® - *Hornady® Action Pistol*

Modeled after the legendary XTP bullet design, HAP (Hornady Action Pistol) bullets are further refined into the perfect competition projectile. While XTP bullets use folds and a cannelure to aid in controlled expansion and terminal performance, we have eliminated these from HAP bullets leaving only a sleek and balanced projectile with a protected nose that aids in consistent and reliable feeding in autos. Bullet jackets feature industry-leading concentricity combined with precision swaged cores to deliver the very best in accuracy and performance. Don't just compete – win with Hornady HAP pistol bullets.

- **BUILT FOR COMPETITION** Expansion isn't an issue in action pistol shooting, so we removed the expansion-aiding features like the skives and cannelure. The result is a bullet that delivers the accuracy its sleek appearance promises.
- **NO EXPOSED LEAD** A jam can cost the match for a competitive shooter, and that's why our copper jacket protects the nose of our HAP bullet. The design ensures smooth feeding every time.
- **SWAGED CORE** The core of the HAP bullet is cold swaged from pure lead to deliver consistency, balance and stability in flight. It delivers peak, pinpoint accuracy with every shot.
- **COPPER JACKET** The copper jacket protects the nose and ensures a smooth and quick feed into your gun.

FMJ - *Handgun Bullets*

Hornady® FMJ's are built with a rugged jacket unlike those of so many of our competitors. The thin plated full metal jacket from other manufacturers is easily distorted and often breaks or separates when the bullet impacts the target. The FMJ features a heavier jacket, and punches into targets without deforming or breaking the jacket. FMJ bullets are carefully designed and manufactured to give superior functioning in semi-automatic handguns, and they deliver match-grade accuracy!

FTX® Handgun

FLEX TIP® Bullet Technology: Safe to shoot in tubular magazines as well as any other firearm. Upon impact, the soft tip compresses into the bullet, initiating immediate expansion across a wide range of velocities.

Interlock® Design: Mechanically locks the core and jacket together for maximum weight retention and deep penetration.

Ballistically Efficient Secant Ogive: The secant ogive profile delivers stability, ultra flat trajectories and amazing accuracy. ***Specially Engineered Jacket:*** The heavy jacket over the shank of the bullet combined with our proven InterLock® design controls expansion and enhances accuracy.

XTP® & XTP® Mag™

1.) Controlled Expansion: Precise serrations divide the XTP in six symmetrical sections, strategically weakening the jacket & initiating controlled expansion. ***2.) No Exposed Lead:*** The copper jacket protects the nose of the bullet, so the hollow cavity functions properly on impact

3.) Swaged Core: Totally uniform in the core density for balanced expansion and in-flight stability

4.) Cannelure: Helps achieve accurate, consistent crimping, and keeps the core and jacket locket together.

5.) Drawn Copper Jacket: Expansion is controlled by varying jacket thickness down the length of the XTP®.

Back in 1982, Swift started out making handgun bullets using C&H dies in a loading press. The rifle bullets were made from 22 rimfire hulls with Corbin tools. Further testing and bullet refinement led to what was to become known as the A-Frame®, with a copper-jacketed and bonded core design. The A-Frame® bullet became a commercial offering in 1984, to begin selling bullets through the mail. As sales grew, a punch press was purchased and production was born. Ten years later executive Bill Hober joined forces to form what is the Swift™ Bullet Company of today. This has all led to the development and successful introduction of the Scirocco® bullet line with the Signature Black Tip™ and now the NEXT GENERATION Scirocco II®, as well as additional A-Frame® offerings. Today A-Frame® and Scirocco II® bullets are sold around the world to reloaders, to Remington in the U.S. and Canada, and to Norma and Lapua overseas for loaded ammunition.

A-Frame® Rifle Bullets

For 25 years A-Frame® rifle bullets have set the standard by which all bullets are measured. With its controlled expansion of 2.2x and 95%+ weight retention A-Frame® penetrates deep and mushrooms perfectly, making it the choice of hunters for use on any game, anywhere in the world. With its unique cross-member jacket design and the bonded front core, the Swift A-Frame® Bullet has become famous for its ability to combine three critical performance features – controlled expansion to 2X original diameter, deep penetration and 95% weight retention at all velocities. This has made it the bullet that hunters shoot with confidence, at any game,of any size, close up or far off.

A-Frame® Heavy Rifle Bullets

Heavy rifle A-Frame® bullets are for use on dangerous game. The bullet initiates expansion at 1650 feet per second on the low end and stays together at 3000+ feet per second on the high end. Controlled expansion of 2x its original caliber and 95%+ weight retention make the A-Frame® bullet superior in downrange energy and stopping power. Terminal performance is unequaled.

Scirocco® II

Scirocco II bonded is the perfect bullet design for today's fast, flat-shooting, long-range cartridges. Its secant ogive, 15-degree boat tail base and Signature Black Tip™ create a sleek, aerodynamic profile that helps maintain down-range velocities and flat trajectories. The extra heavy tapering jacket wall with an internally bonded lead core provides structural integrity, reliable expansion and penetration with 80%+ weight retention.

Long Range Speciality Bullets

MatchKing bullets are not recommended for hunting.
Widely favored for their extreme accuracy, these bullets have been used for short-range varminting.

BlitzKing - Thin jacketed bullets, utilizing an acetal resin tip, designed to expand or fragment violently upon impact. Especially for varmints.
GameKing - Boat tailed hunting bullets. Hollow point or spitzer in configuration.
MatchKing - Match grade target bullets. Hollow point boat tail design, except SI1400. Should not be used for big game Hunting.
Pro Hunter - Flat Base hunting bullets. Available in a wide range of configurations.
Varminter - Frangible bullets, intended for varmint shooting.
Sports Master - Handgun bullets with reliable expansion over a wide range of velocities
Tournament Master - Handgun bullets for serious competitors. For silhouette shooters and big game hunters worldwide.

Abbreviation Key:
FN-Flat Nose; **FMJ**-Full Metal Jacket; **FMJBT**-Full Metal Jacket Boat Tail **FPJ**-Full Profile Jacket; **HP**-Hollow Point; **HPBT**-Hollow Point Boat Tail **JHP**-Jacketed Hollow Point; **JHC**-Jacketed Hollow Cavity; **JSP**-Jacketed Soft Point; **RN**-Round Nose; **SBT**-Spitzer Boat Tail; **SMP**-Semi-Pointed; **SPT**-Spitzer **LRSB**-Long Range Specialty Bullet

LEHIGH DEFENSE

Controlled Fracturing®

- A minimum of four separate wound channels resulting in extensive damage
- CNC machined from solid copper or brass, not formed or swaged
- Exceptional accuracy
- Razor sharp petals for maximum terminal performance
- Deep penetrating base projectile
- Expansion is initiated by hydraulic energy – expansion only where it is required

• 50 bullets per Box

Pistol	Weight	Dia.	Item No.	Price
9mm	105gr	.355"	C23ZL02355105SP	$50.49
.45 ACP	170gr	.451"	C23ZL02451170SP	$75.99

High Velocity Controlled Chaos

- Many wound channels resulting in extensive damage
- CNC machined from solid copper or brass, not formed or swaged
- Exceptional accuracy from the advanced manufacturing process
- A separate base for penetration along the original trajectory
- No lead designs for agencies requiring green projectiles

• 100 bullets per Box

Caliber	Weight	Dia.	Item No.	Price
.224	45gr	.224"	C23ZL05224045CuSP	$62.74

Xtreme Cavitator

- CNC machined from solid copper or brass, not formed or swaged
- Exceptional accuracy from the advanced manufacturing process
- Barrier-blind projectile
- Deep penetrating with large wound cavity
- Expansion is initiated by hydraulic energy – expansion only where it is required

• 50 bullets per Box

Xtreme Penetrator

- Progressive nose geometry for deep, straight penetration
- CNC machined from solid Copper and/or Brass to overcome barriers to penetration
- Radial flutes that force the hydraulic energy inward to build pressure
- Exceptional acceleration that creates high pressure energy spikes
- Minimal surface area to increase the force at the point of contact and sharp cutting edges that defeat barriers
- A permanent wound cavity that is 2 to 4 times greater than flat or ball nose bullets
- Available for both handguns and rifles
- Ballistics Testing - FBI Standard 10% Ballistics Gelatin
- Barrier: 4 Layers of Denim

BARNES

VARMIN-A-TOR™

Varmint Bullet with DETON-A-TOR™ core

Taking it to the limit is the name of the game with varmint hunters! Barnes Bullets is pleased to re-introduce this copper-jacketed, lead-core, hollow-point varmint bullet – with the highly explosive DETON-A-TOR core. The VARMIN-A-TOR varmint bullet has all the accurate and explosive tendencies sought after by varmint shooters at the right price – CHEAP! A scored nose cavity and thin, tapered jacket assures that this bullet will vaporize anything in its path. *• 100 Bullets per Box*

TSX®

Triple-Shock® X Bullet

The TSX was introduced in 2003 and has become Barnes' most popular hunting bullet. The TSX has gained worldwide recognition as one of the deadliest, most dependable bullets you can buy. Try these all-copper bullets and realize the added benefits of improved accuracy, reduced barrel fouling and increased velocity.

Tipped TSX®

Tipped Triple-Shock® X Bullet

Now, Barnes has improved on perfection by adding a streamlined polymer tip.

The new Tipped TSX features the same 100-percent copper body with multiple rings cut into the shank. It delivers the same gnat's-eyelash accuracy and "dead right there" performance—but with an added polymer tip that boosts BC and improves long-range ballistics. The tip and a re-engineered nose cavity provide even faster expansion. Complete penetration, virtually 100-percent weight retention and four razor-sharp cutting petals that double bullet diameter means the new Tipped TSX creates more internal damage than any competing bullet. Instant expansion and perfect penetration ensures cleaner, quicker kills. The Barnes Tipped TSX—accept no imitations.

• 100% lead-free • Grooved for lower pressures
• Higher ballistic coefficient • Deadly accuracy
• 99-100% weight retention

• 50 Bullets per Box

Match Burners™

Barnes is now offering the most accurate and affordable line of match bullets on the market. Providing competitive shooters with pin-point precision, as well as high BC on boattail bullets for flatter trajectory (*FB offerings for Benchrest) the all-new Match Burners have redefined accuracy while offering optimum caliber/bullet-weight ratios. From Benchrest, High Power Rifle, 3-Gun, and Tactical matches to everyday target shooting, these premium Match Burners have proven to deliver aggressive results. Designed specifically with the competitive shooter in mind, Match Burners will perform time and time again building and maintaining any marksman's confidence.

BARNES

OPTIMIZED FOR YOUR TARGET™

Varmint Grenade®

Lead Free

Introduced in 2007, the Varmint Grenade has rapidly become one of the most popular varmint bullets around. Based on a design Barnes developed for military applications, the hollow-cavity, flat-base bullet features a copper-tin powdered metal core surrounded by a guilding metal jacket. The bullet remains intact at ultra-high velocities in fast twist barrels, while its highly frangible core fragments violently on impact. Produces instant fragmentation, virtually vaporizing ground squirrels and prairie dogs, even at long range. Varmint Grenades instantly expend their energy, seldom exiting large predators like bobcats and coyotes, leaving valuable pelts virtually undamaged.

• Lead Free • Flat Base

BARNES®

OPTIMIZED FOR YOUR TARGET™

MPG™ Multi-Purpose Green Bullets

Barnes offers bullets featuring Multi-Purpose Green (MPG™) technology developed for military and law enforcement applications. MPG bullets feature a highly frangible, powdered-metal copper-tin core inside a guilding metal jacket. Unlike frangible bullets lacking a protective jacket, MPG bullets remain intact under the rigors of handling, feeding and firing. This eliminates the primary cause of jammed actions and plugged barrels often experienced when firing frangible ammunition. • *100 Bullets per Box*

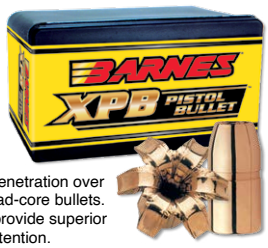
Barnes® Original Rifle Bullets



Produced by pressure-forming pure copper tubing around a pure lead core, this highly reliable bullet was the first custom bullet available to American handloaders. Introduced in 1939, it was long the favorite of professional hunters who demanded performance they could depend on, each and every time. On impact, Barnes's Original bullets typically expand to more than 200 percent of their original diameter and retain 70 to 90 percent of their original weight.

Barnes® Buster™

Hunting Bullets for Handguns and Lever Rifles

Available for .44, .45, and .500 magnum revolvers, as well as for .45-70 rifles, this premium hunting bullet combines bone-crushing power with pass-through penetration.

Unlike conventional expanding bullets, the Barnes® Busters™ track straight without deflection or deformation.

These tough bullets are specifically designed to deliver maximum penetration, even in large game. In one field test, a Barnes® Buster™ fired from a .45-70 T/C Encore drove completely through an American bison, anchoring it on the spot. These cannelured, heavy-for-caliber bullets drive deep through dense muscle and bone.

Bullets remain intact—jackets won't separate from the core.

• *50 Bullets per Box*

.500 S&W	.500"	400gr	FN FB	C23BX30672	$71.49

M/LE™ Bullets

Barnes® introduces an all-new line of M/LE bullets designed for military, law enforcement, and training use. Based on technology Barnes® developed for military applications, this new line of bullets fills a critical niche in the fast-growing Tactical market. Excellent options for personal and home defense as well.

M/LE TAC-TX™

The same all-copper body & deadly performance of the TAC-X™ bullets, but with the addition of a streamlined polymer-tip which increases the ballistic coefficient, improving long-range ballistics.

• *50 Bullets per Box*

M/LE TAC-XP™ Pistol Bullets

TAC-XP™ pistol bullets perform exceptionally well in FBI test protocols. All-copper construction prevents contamination of lead-free practice environments. Deep nose cavity ensures maximum expansion after passing through standard barriers. Superior on intermediate barriers Great for LE & personal defense.

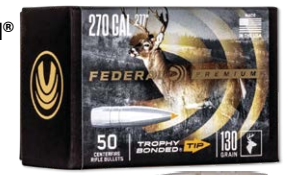
FEDERAL PREMIUM

Terminal Ascent™ Bullets



- Match-grade long-rang accuracy in a bonded hunting bullet
- Extremely high ballistic coefficient
- Exclusive Slipstream polymer tip helps flatten trajectories and initiate low-velocity expansion
- Less wind drift and drop
- AccuChannel groove technology minimizes drag
- Copper shank and bonded lead core retain weight for deep penetration at any range

ACCURA OUTDOORS
THE ART OF ACCURACY

Round Nose Flat Point Hollow Point

Highborn®

Premium Bonded Pistol Bullets

Starting with only certified lead and copper, their product is built with the utmost care and technique. They maintain absolute precision in every step of the manufacturing process. Constant inspection during manufacturing and packaging means they produce one of the most accurate products you can buy. Comparable to match grade quality, PowerBond bullets are a fraction of the price. Accura Bullets takes a lot of pride in their bullets and they know you will appreciate the effort - with every group you put in the A-Zone!

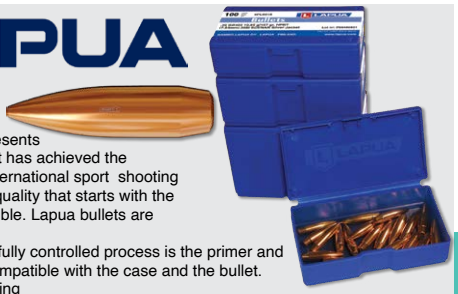
ATLANTA ARMS



Atlanta Arms Handgun Bullets

Located in Covington, GA, Atlanta Arms employs over 30 highly trained personnel, all with the mindset of delivering the highest quality projectiles on the market. They have recently moved to a 20,000 sq. ft. climate controlled manufacturing facility to allow for increased production and quality in precision loading. With the new warehouse addition, Atlanta Arms is now capable of supplying numerous shooting facilities across the country, ranging from South Florida up to Canada.

LAPUA

Reloading Bullets

Our Scenar match bullet represents the very high end of its class: it has achieved the 600/600 world record of the international sport shooting federation (ISSF). Consistent quality that starts with the raw materials makes this possible. Lapua bullets are practically handmade.

The finishing touch of the carefully controlled process is the primer and powder, which are perfectly compatible with the case and the bullet. Working together with the leading powder and primer manufacturers, we carefully choose the powder and a dependable primer that best fits each cartridge type. Reliability and accuracy are continuously tested in test shootings.

MAGNUS BULLET CO.

Allstar/Magnus Bullets

Magnus Pistol Bullets

Magnus Cast Bullets are manufactured with state of the art machinery from virgin alloys consisting of 91% lead, 4% tin and 5% antimony. This mix gives you a lead bullet hard enough to be fired at 1200 FPS with little or no leading problems in most handguns, but will not shatter upon impact with steel targets.

Partition®

- ***Nosler Engineering:*** Nosler's special lead-alloy dual-core provides superior mushrooming characteristics at virtually all impact velocities

- ***Fully Tapered Copper-Alloy Jacket:*** Ruptures instantly at the thin jacket mouth, yet the gradual thickening long the bullet's axis controls expansion and curls the jacket uniformly outward at high and low velocities.

- ***Nosler's Integral Partition:*** Support the expanded mushroom and retains the rear lead-alloy core. The enclosed rear core retains more than two-thirds of the original bullet weight for deep penetration

- ***Dual-Core Construction:*** Every Partition® bullet delivers optimum length, weight and ogive design for maximum in-flight and terminal performance.

Sporting Handgun Revolver

- ***Tapered Copper-Alloy Jacket:*** *Extremely concentric, tapered jacket is built for maximum accuracy and enhanced game-taking ability.*
- ***Well-Defined Cannelure:*** *Holds Jacket and core together and permits a tight crimp that eliminates bullet movement within the case.*
- ***Form-Fitted Pure Lead Core:*** *Allows for reliable expansion and maximum accuracy across a broad velocity range.*

Varmageddon™ Bullets

- **Ultra-Thin Jacket**
- **Nosler Proven Accuracy**
- **Special Lead-Alloy Core**
- **Streamlined Flat-Base Design**
- ***Metallic Black Polymer Tip:*** *Nestled in the jacket mouth is the streamlined polymer tip*
- ***Hollow Point:*** *Designed for optimum flight and expansion characteristics*
- ***Ultra-Thin Jacket Mouth:*** *Assures violent expansion at either end of the velocity scale.*

- ***Varmint Jacket Wall Design:*** *The uniform,gradual thickening at the bullet's mid-section is design to keep Varmageddon bullet together until impact-at any velocity.*

Custom Competition™

CUSTOM COMPETITION
MATCH BULLETS

Nosler® has blended the accuracy of its Custom Competition™ bullet jackets with its own ultra-precise, lead-alloy cores to create the performance standard for match rifle and pistol bullets.

- ***Nosler Hollow Point:*** *Provides small meplat for reduced drag and increased aerodynamic efficiency.*
- ***Custom Quality Jacket:*** *Engineered to exhibit unmatched accuracy.*
- ***Form-Fitted, Lead-Alloy Core:*** *For maximum bullet stability and balance.*
- ***Pronounced Boat Tail Design:*** *Provides excellent flight characteristics over a range of velocities.*

Ballistic Tip™ Hunting

- ***Nosler Ballistic Tip®*** *Streamlined polymer tip, color-coded by caliber, resists deformation in the magazine and initiates expansion upon impact.*
- ***Fully-Tapered Jacket and Special Lead-Alloy Core:*** *Allows controlled expansion and optimum weight retention at all practical velocity levels. The heavy jacketed base prevents bullet deformation during firing.*
- ***Heavy Jacketed Base:*** *Acts as a platform for large-diameter mushroom.*
- ***Ballistically Engineered Solid Base®:*** *Boat tail configuration combines with the streamlined polymer tip for extreme long-range performance and for easier loading.*

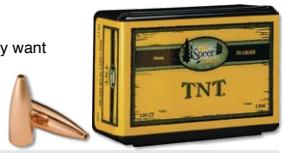
Varmint Rifle Bullets



TNT Green®

Exclusive non-lead bullet technology gives Speer TNT Green an edge over all other options—and all varmints. The bullet uses a thin jacket around a compressed powder core to produce not only long-range accuracy, but also explosive expansion and instant energy release on impact.

Caliber	Diameter	Weight	Type	Qty.	Item No.	Price
22 Hornet	.224"	30gr	TNT Green	100/Box	C23SP1021	$29.99

TNT®

Speer TNT gives predator and varmint hunters what they want most— long-range accuracy and maximum destruction on impact. Its thin precision jacket features internal fluting to ensure complete bullet disruption, while its high ballistic coefficient produces the flattest trajectories possible.

Caliber	Diameter	Weight	Type	Qty.	Item No.	Price

Target & Plinking Rifle Bullets

Jacketed Hollow Point

High-volume shooters need consistent and affordable bullet options. The Speer® Jacketed Hollow Point delivers—without the hefty price tag.

Caliber	Diameter	Weight	Type	Qty.	Item No.	Price
22	.224"	33gr	HP	100/Box	C23SP1014	$14.49
45	.458"	300gr	HP/CANN	50/Box	C23SP2482	$25.99

Target Match

Shooting at extreme range requires a special kind of bullet. Speer Target Match projectiles have what it takes to go the distance— any distance—thanks to a low drag profile, precision jacket and consistent hollow point.

Caliber	Diameter	Weight	Type	Qty.	Item No.	Price
22	.224"	52gr	Match BTHP	100/Box	C23SP1036	$18.99
30	.308"	168gr	Match BTHP	100/Box	C23SP2040	$30.49

TMJ®

Speer TMJ stands in a category all its own. Standard FMJ bullets sacrifice accuracy by adding a separate piece of jacket to cover the bullet base— or leave exposed lead. TMJ rifle bullets totally encapsulate the lead core for cleaner, more accurate performance.

Caliber	Diameter	Weight	Type	Qty.	Item No.	Price
30	.308"	110gr	TMJ RN	100/Box	C23SP1846	$25.99

TMJ = Total Metal Jacket, RN = Round Nose, HP = Hollow Point, BTHP = Boat-Tail Hollow Point, CANN = Cannulure

Big Game & Self-Defense Rifle Bullets

Impact

- Molecularly fused jacket maximizes weight retention and improves accuracy
- Slipstream polymer tip increases downrange energy and initiates low-velocity expansion
- High ballistic coefficients for flatter trajectories and better long-range performance
- Close-range penetration and long-distance expansion

Caliber	Diameter	Weight	Type	Qty.	Item No.	Price
6.5mm	.264"	140gr	Impact	50/Box	C23SPTB264H1	$31.99
30	.308"	172gr	Impact	50/Box	C23SPTB308H1	$37.99
30	.308"	190gr	Impact	50/Box	C23SPTB308H2	$37.99

Grand Slam™

With a tapered, precision-drawn jacket and a long nose, the Grand Slam bullet is engineered to blow through the thick hides, heavy bones and tough bodies of the world's biggest game—without sacrificing accuracy. On impact, internal jacket flutes allow consistent expansion, yet the bullet retains most of its weight for deep penetration every time.

Caliber	Diameter	Weight	Type	Qty.	Item No.	Price
270	.277"	130gr	GSSP	50/Box	C23SP1465	$19.29

Target & Action Handgun Bullets

TMJ®

Speer® uses Uni-Cor® technology to take full metal jacket bullets to their highest level of evolution with the Total Metal Jacket. Other FMJ bullets have an accuracy-robbing second piece to cover the lead, or have lead exposed at the base, which can deform under pressure. TMJ's seamless jacket means this can't happen. Airborne lead goes down, and TMJs won't foul ported recoil compensators like open-base bullets do.
We swage each bullet twice, ensuring consistent diameters and a uniform heel.
TMJ bullets are great for action pistol competition.

Lead Handgun

Speer cold-formed lead bullets are even better than ever with a technologically advanced, multi-layer lube. The coating won't burn off, virtually eliminating leading problems and ensuring cleaner, more accurate shooting. It also won't melt off in storage or transport and is dry to the touch.

Deepcurl® Hunting

Speer® electrochemically bonds the DeepCurl jacket to the lead core to create the toughest, most accurate handgun hunting bullet possible. Pre-formed petals expand reliably and consistently and the bullet's high weight retention ensures deep penetration on heavy-bodied game.

Gold Dot® Personal Protection

Law enforcement professionals trust Gold Dot for a reason.
The bullet's exclusive manufacturing process bonds the uniform jacket to the core one molecule at a time, ensuring proper expansion and nearly 100/Box percent weight retention. The result is immediate, threat stopping performance.

Plastic Training Bullets & Cases

For informal target practice in places with a minimum backstop, finding the proper ammo isn't always easy. Speer Plastic Training Bullets & Cases make the perfect practice load. Reusable molded plastic cases and bullets powered by CCI® large pistol primers provide an accurate and inexpensive alternative.
They are designed for 25-foot shooting.

Caliber	Qty	Bullet No.	Case Part No.	Price
38	50/Box	C23SP8510	C23SP8515	$11.49

*Note: 45 cal. bullet is used with standard brass case. * For 45 Auto only.*

Empty Shot Capsules

Create custom shot cartridges with a different shot size or velocities with our Empty Shot Capsules. Simply fill them with size 8 or 9 shot (not included), snap in the base wad, and load like a conventional bullet. Shot Capsules include base wads.

Caliber	Qty.	Item No.	Price

BERGER

Berger®
Reloading Manual

The Berger "Reloading Manual 1st Edition contains a wealth o information from some of most well-known names in the firearms industry. There is something in this manual for every type of reloader from the most well-seasoned veteran looking for highly technical information, to the beginning reloader just cutting his teeth looking for the basics.

Berger Reloading Manual 1st Ed.... C20BB5011111 .. $25.49

Match Grade Bullets

The Berger Legacy, a family business rich in tradition and reputation. Starts with the J4, finest jackets available with a near perfect wall concentricity... less than .0003. Cores are cut from lead that is 99.9% pure with .5% antimony-shaped and swaged through specially built dies-for a bullet, round to .0001.

Match Grade Moly Coated Bullets

Bullets with Moly-Coated technology--creating a benefit in the reduction of friction.

- *Easier and less bore cleaning with less fouling*
- *Longer barrel life • Reduction in chamber pressure*
- *Allowing loading for increased velocity*
- *Improved exterior ballistics • Reduction in bullet drop*
- *Less bullet deformation*

Varmint Bullets

Our Varmint line features bullets that are used most often by hunters focused on the tightest possible accuracy. As a direct result of the accuracy of our competition target bullets, hunters insisted upon having an equally accurate product. Berger Varmint bullets are proven in the field to deliver these results, as well as a level of expansion that varmint hunters require for their predator applications.

Clean Shot
Handgun/Shotgun Powder

Clean Shot smokeless propellant has become a strong favorite of competitive pistol shooters in America. Its consistency of ignition, efficiency, virtual lack of residue, ease of loading, low smoke, consistency of velocity and accuracy have all been witnessed by top competitors. The density of Clean Shot is approximately 0.65 grams/cc. It contains a level of flash suppressant, which aids in visual comfort to the shooter. It's spherical geometry assures highly consistent powder drops, when making rounds on a progressive loader.

1-Pound ..... C23ZKD03203 .....$32.49
5-Pound ..... C23ZKD032035 .....$146.99

Auto Pistol
Handgun Powder

For loaders interested in attaining standard or +P velocities in 9mm Luger, an optimized propellant for the .357 SIG, as well as correct energy levels for cycling carbines with subsonic loads, this propellant is a wise choice. The density of Auto Pistol is approximately 0.95 grams/cc. It contains a level of flash suppressant, which aids in visual comfort to the shooter. It's spherical geometry assures highly consistent powder drops, when making rounds on a progressive loader.

1-Pound ..... C23ZKD03603 .....$32.99
8-Pound ..... C23ZKD036038 .....$234.49

Ultimate Pistol
Handgun Powder

This pistol propellant has no reloading powder exact equivalent. It is faster in burn rate than Accurate® No.5, and slower in burn rate than Accurate® No.2. It is comparable in burn rate to CFE Pistol and Auto Comp, but it has superior consistency in charge weight drops through a volumetric charger. This fact makes Ultimate Pistol a logical choice for competitive shooters, where consistent velocities through a compensated pistol are required to win. The density of Ultimate Pistol is approximately 0.92 grams/cc. It contains a level of flash suppressant, which aids in visual comfort to the shooter. It's spherical geometry assures highly consistent powder drops, when making rounds on a progressive loader.

1-Pound ..... C23ZKD03607 .....$32.99
8-Pound ..... C23ZKD036078 .....$234.49

Major Pistol
Handgun Powder

Major Pistol is made as a high-intensity pistol propellant. The gas generation rate is appropriate for cartridges of the 9mm, 10mm Auto, .357 SIG, light-bullet magnum pistol loads, and other high intensity pistol cartridges. The density of Major Pistol is approximately 0.98 grams/cc. It contains a level of flash suppressant, which aids in visual comfort to the shooter. Its spherical geometry assures highly consistent powder drops, when making rounds on a progressive loader.

1-Pound ..... C23ZKD03701 .....$30.99
8-Pound ..... C23ZKD037018 .....$225.99

Heavy Pistol
Handgun Powder

Ballistic results for this propellant show it appropriate for magnum pistol applications, .300 Blackout with supersonic lightweight projectiles and some other specialty ammunition. The density of Heavy Pistol is approximately 0.98 grams/cc. It contains a level of flash suppressant, which aids in visual comfort to the shooter. It's spherical geometry assures highly consistent powder drops, when making rounds on a progressive loader.

1-Pound ..... C23ZKD03702 .....$30.99
8-Pound ..... C23ZKD037028 .....$225.99

Buffalo Rifle
Rifle Powder

Buffalo Rifle has a burn rate optimized for straight walled rifle cartridges, as well as reduced recoil/reduced energy loads in virtually all rifle applications. Chambers where the bullet diameter is virtually the same as the internal case diameter, such as .38-55 Winchester, .45-70 Gov't and numerous Schuetzen calibers, will benefit from Buffalo Rifle. The density of Buffalo Rifle is approximately 0.87 grams/cc. It contains a level of flash suppressant.

1-Pound ..... C23ZKD06001 .....$46.99
8-Pound ..... C23ZKD060018 .....$351.99

SBR-SOCOM
Rifle Powder

SOCOM smokeless powder has no reloading propellant equivalent. It is faster in burn speed than ACCURATE 1680® and slower in burn speed than Winchester 296 or Hodgdon H110. The propellant gas generation rate is appropriate for .300 Blackout, 7.62x39, straight-walled rifle cartridges, and especially .458 SOCOM, where rapid transformation from powder to gas is desired. The density of SOCOM is approximately 0.99 grams/cc. It contains a level of flash suppressant. Its spherical geometry assures highly consistent powder drops, when making rounds on a progressive loader.

1-Pound ..... C23ZKD06301 .....$31.49
8-Pound ..... C23ZKD063018 .....$222.99

Tactical Rifle
Rifle Powder

While Tactical Rifle is optimized for 55 grain .223 Remington and 5.56mm, and 147/150 grain .308 Winchester and 7.62mm, it also provides sub-minute accuracy with match loads we've evaluated. The density of Tactical Rifle is approximately 1.0 gram/cc. It contains a level of flash suppressant. Its spherical geometry assures highly consistent powder drops, when making rounds on a progressive loader.

8-Pound ..... C23ZKD073018 .....$227.99

Match Rifle
Rifle Powder

Match Rifle is an excellent propellant for long range shooting. Shot with a 77 grain Sierra Match King, in a 5.56mm chamber it launches bullets beyond 2800 fps from a 20" AR-15 barrel. That velocity capability makes Match Rifle a natural fit for Service Rifle and CMP competitions. The density of Match Rifle is approximately 1 gram/cc. It contains a level of flash suppressant. Its spherical geometry assures highly consistent powder drops, when making rounds on a progressive loader.

1-Pound ..... C23ZKD07306 .....$30.99

Precision
Rifle Powder

This propellant has a burn rate and temperature sensitivity very similar to Hodgdon® VARGET. These characteristics and propellant density closely track with the same characteristics of VARGET. The density of Precision Rifle is approximately 0.9 grams/cc. It contains a level of flash suppressant. Its extruded geometry is of a narrow diameter, and cut short.
Therefore, its drop consistency through a volumetric charger is quite consistent for an extruded propellant.

1-Pound ..... C23ZKS06202 .....$49.49
8-Pound ..... C23ZKS062028 .....$357.49

AR-PLUS
Rifle Powder

AR-Plus provides additional cleanliness and flash suppression for AR platforms chambered in popular bottlenecked cartridges. As with our other spherical propellants, AR-Plus flows like water through a volumetric charger. Loaders will see no more than 1/10th of a grain of variation in charge weight from a powder drop.

1-Pound ..... C23ZKD07304 .....$30.99
8-Pound ..... C23ZKD073048 .....$227.99

Long Rifle
Rifle Powder

Long Rifle is optimized for the 6.5 Creedmoor. Whether with lightweight, moderate or heavy bullets loaded in this cartridge, Long Rifle yields high loading densities and optimized velocities. If you seek accuracy, one of the keys is to find a propellant that can "fill the case and seek maximum velocity". The density of Long Rifle is approximately 0.9 grams/cc. It contains a level of flash suppressant. Its extruded geometry is of a narrow diameter, and cut short. Therefore, its drop consistency through a volumetric charger is quite consistent for an extruded propellant.

1-Pound ..... C23ZKS06501 .....$48.99
8-Pound ..... C23ZKS065018 .....$503.99

SW4350
Rifle Powder

SW4350 is the slowest of all the 4350 derivatives. As such, it ha broad capabilities in moderate calibers where other 4350 derivatives cannot reach 100% loading density. It also has enhanced capabilities in larger magnum calibers, where other 4350 derivatives cannot reach. The density of SW4350 is approximately 0.9 grams/cc. It contains a level of flash suppressant. Its extruded geometry is of a narrow diameter, and cut short. Therefore, its drop consistency through a volumetric charger is quite consistent for an extruded propellant.

1-Pound ..... C23ZKS07005 .....$50.49
8-Pound ..... C23ZKS070058 .....$368.99

SW 50BMG
Rifle Powder

This propellant is optimized for .50 BMG. Its burn rate is slower than WC 860 (surplus, pull-down, or virgin) and faster than US 869. It is a spherical propellant, manufactured with flash suppressant, and has a density of approximately 1 gram/cc.
SW 50BMG is a canister form of Explosia bulk and Lovex canister propellant D100-01.

1-Pound ..... C23ZKD10001 .....$37.49
8-Pound ..... C23ZKD100018 .....$239.99

MULTI PURPOSE BLACK
Black Powder Substitute

This powder if perfect for Hunters and Cowboy Action Shooters. For use in Muzzleloaders and Black Powder Cartridges, this powder is clean, powerful, dependable and accurate! Moisture resistant and virtually non-corrosive.

1-Pound ..... C23ZKBLACKPOWDER $27.99

THE HUNTER
Black Powder Substitute

These Pellets give serious hunters and shooters the pre-measured Convenience they demand. Pellets have also proven exceptionally accurate, making them the choice for hunters and shooters. These are 50 caliber, 50 grain velocity equivalent pellets.

1-Pound ..... C23ZKBLACKPELLET $29.99

Pricing subject to change without notice. Not responsible for typographical errors.

ACCURATE

Handgun Powder

No. 2®

No. 2® Improved. A fast burning, low density ball propellant developed for use in .38 Special loads. Excellent for target loads in almost all handgun cartridges, especially where low pressure and clean burning are desired.

1-Pound ..... C23AA21 ..... $32.99
5-Pounds ..... C23AA25 ..... $148.49

No. 5®

Relatively fast burning double base, ball propellant developed for use in the .45 ACP.

1-Pound ..... C23AA51 ..... $35.49
8-Pounds ..... C23AA58 ..... $249.49

No. 7®

Developed for .38 Super Auto ammunition. It has become a favorite propellant for IPSC shooters who load the .38 Super Auto. Somewhat more specialized in applications than No. 2® and No. 5®, it is well suited to high intensity cartridges, such as .357 Sig. It is a good choice for magnum handgun cartridges (such as .357, .41 and .44 Magnum) when slightly less than full power loads are preferred.

1-Pound ..... C23AA71 ..... $35.49
8-Pounds ..... C23AA78 ..... $249.49

No. 9®

This double base, ball propellant gives excellent velocities for the pressures generated, and with less flash than comparable powders. It is intended for use in large capacity handgun cartridges (.357, .41, .44 magnum, and .454 Casull). No. 9® is also suited to some small rifle cases (.25/20, .30 Carbine) and the .410 shotgun. No. 9® performs best with heavier bullets in most cartridges. A heavy bullet pull is required for consistent performance when using lighter bullets.

1-Pound ..... C23AA91 ..... $35.99
8-Pounds ..... C23AA98 ..... $249.49

TCM®

Producing 2,000 fps at the muzzle with virtually no recoil, this accurate and fun little cartridge brings handgun performance to a new level for small game hunting and plinking. Accurate TCM also has a place with old favorites, with data for hunting loads in .357 Magnum, .41 Magnum and high-pressure .45 Colt cartridges.

1-Pound ..... C23AA0554 ..... $32.99
8-Pounds ..... C23AA0614 ..... $149.99

11FS®

No. 11FS is intended for full-power loads in magnum handguns and smaller capacity rifle cartridges.
This double-base spherical propellant was developed with an eye toward personal defense and incorporates a flash-suppressant that substantially reduces muzzle signature in low light conditions. In the .300 Blackout, No. 11FS is capable of extremely high velocities with lighter bullets.

1-Pound ..... C23AA0552 ..... $36.49
8-Pounds ..... C23AA0612 ..... $256.99

4100®

A fine-grained, double-based ball propellant developed for use with .410 bore shotshell. This powder actually delivers similar velocities at lower chamber pressures. This is especially true of the large "Magnum" handgun calibers such as the .44 Rem. Mag., .454 Casull, etc.

1-Pounds ..... C23AA41001 ..... $31.99
4-Pounds ..... C23AA41004 ..... $120.99
8-Pounds ..... C23AA41008 ..... $228.49

Rifle Powder

1680®

A double base, ball propellant developed specifically for the 7.62 x 39mm cartridge in which it performs well due to excellent loading density. It is the best powder for the .22 Hornet. Also suitable for small capacity cases such as the T/CU series, the .222 Remington and the .223 Remington with lighter bullets.

1-Pound ..... C23AA16801 ..... $37.49
8-Pounds ..... C23AA16808 ..... $267.99

2015®

A single base, short-grained, extruded propellant developed specifically for "bench rest" cartridges, such as the PPC and BR series. 2015® is extremely flexible, giving excellent performance in many cartridges from .22 Hornet to .458 Winchester Magnum.

1-Pound ..... C23AA20151 ..... $41.99
8-Pounds ..... C23AA20158 ..... $309.49

2200®

Accurate 2200® has been reintroduced to fill the increasing demand for a high performance small caliber propellant.17, 19 and 20 caliber shooters will appreciate the excellent performance of 2200 with a wide range of bullets. Small granule size allows excellent metering and flow through small neck cases.

1-Pound ..... C23AA22001 ..... $37.49
8-Pounds ..... C23AA22008 ..... $267.99

2230®

A double base, ball propellant developed for use in the .223 Remington (5.56 NATO). 2230® Is very popular with modern service rifle shooters.

1-Pound ..... C23AA22301 ..... $37.49
8-Pounds ..... C23AA22308 ..... $267.99

2460®

Medium-burning ball propellant is increasing in popularity with NRA, IHMSA, and bench rest shooters. It is slightly slower than 2230® and shows a small pressure advantage over 2230® in bores of 7mm and over. An excellent choice in .308 Winchester, 2460® is appropriate for use with M1 and M14 (M1A) service rifles.

1-Pound ..... C23AA24601 ..... $37.49
8-Pounds ..... C23AA24608 ..... $267.99

2495®

(Also known as XMR-2495® and 2495BR®). Very similar to 4895®, this single base, extruded propellant gives satisfactory performance in a wide variety of cartridges. It offers service rifle shooters who prefer extruded propellants and Accurate alternative to our 2520®.

1-Pound ..... C23AA24951 ..... $41.99
8-Pounds ..... C23AA24958 ..... $309.49

2520®

Medium-slow burning, ball propellant gives excellent results in medium capacity cases (308 class) and certain applications in large bore cartridges. 2520® has a pressure curve appropriate for use with M1 and M14 (M1A) service rifles.

1-Pound ..... C23AA25201 ..... $37.49
8-Pounds ..... C23AA25208 ..... $267.99

2700®

Ball propellant, 2700® fills the gap between 2520® and our 4350®. It is intended to be used as a heavy bullet powder in many cartridges. (Bullet weights lighter than those listed may not maintain our standards for shot-to-shot consistency.) Exceptions to this are notably the .17 Remington, .22-250 Remington and the .220 Swift with varmint bullets, where it excels.

1-Pound ..... C23AA27001 ..... $37.49
8-Pounds ..... C23AA27008 ..... $267.99

4064®

Very similar to IMR 4064®. This single base rifle propellant is short cut for better metering while delivering the performance shooters have come to expect from 4064®. This propellant has been introduced to meet the needs of service rifle competitors and hunters who prefer extruded powders. Admirers of the .30-06 will especially like this propellant.

1-Pound ..... C23AA40641 ..... $41.99
8-Pounds ..... C23AA40648 ..... $309.49

4350®

The old favorite. America's most popular reloading propellant for rifle cartridges. A slow-burning, single base, extruded propellant especially well suited for .243 and .270 loads as well as heavy loads in a host of large capacity cases.

1-Pound ..... C23AA43501 ..... $41.99
8-Pounds ..... C23AA43508 ..... $309.49

5744®

First, it is double base with a high percentage of Nitroglycerin. In fact, 50 Sharps was used in some of the development work for this propellant. Nitroglycerin contributes to excellent shelf life and reduces the effects of humidity and temperature. Second, 5744's short length provides uniform metering so you can spend more time shooting and less weighing charges. Third, 5744® has a relatively low bulk density. In fact, ease of ignition and consistent velocity, regardless of powder position in the case, are the two main criteria.

1-Pound ..... C23AA57441 ..... $54.49
8-Pounds ..... C23AA57448 ..... $402.49

MagPro®

Designed especially for the new range of very efficient short magnum rifle cartridges. Optimum velocities at nearly full case capacity in these "modern" calibers. It has the flow required for progressive loading machines. Also a good choice for the standard magnum cartridges.

1-Pound ..... C23AAMAGPRO1 ..... $37.49
8-Pounds ..... C23AAMAGPRO8 ..... $267.49

Accurate LT-32 Smokeless Gun Powder

LT-32 is an extruded powder with extremely small kernels (roughly .0275″). This powder is designed to perform like the legendary "T-322″ powders which worked brilliantly in short-range benchrest cartridges, especially the 6mm PPC. Early testers report that Accurate LT-32 meters superbly and is easy to tune. Western claims LT-32 exhibits very low standard deviation.

1-Pound ..... C23AA0584 ..... $47.49
8-Pounds ..... C23AA0654 ..... $357.49

IMR®
LEGENDARY POWDERS

IMR-3031
A propellant with many uses, IMR 3031 has long been a favorite of .308 Match shooters using 168-grain match bullets. It is equally effective in small-capacity varmint cartridges from .223 Remington to .22-250 Remington, and it's a great .30-30 Winchester powder.

1-Pound ..... C23DU30311 ..... $46.99
8-Pounds ..... C23DU30318 ..... $329.99

IMR-4064®
One of the most versatile propellant in the IMR line, used for 223 Remington, 22-250 Remington, 220 Swift, 6mm Remington, 243 Winchester Super Short Magnum, 308 Winchester, 338 Winchester Magnum, and the list goes on and on. Versatility with uniformity and accuracy.

1-Pound ..... C23DU40641 ..... $47.49
8-Pounds ..... C23DU40648 ..... $330.99

IMR-4166®
This powder is the first in the series of Enduron™ propellants. It's a perfect burn speed for cartridges like the .308 Win, 22-250 Remington, 257 Roberts and dozens more. IMR 4166™ is a positively versatile, match grade propellant.

1-Pound ..... C23DU41661 ..... $49.99
8-Pounds ..... C23DU41668 ..... $354.99

IMR-4198
This fast burning rifle powder gives outstanding performance in cartridges like the 222 Remington, 221 Fireball, 45-70, and 450 Marlin. Varmint shooters with small-bore cartridges love it. Proven metering and necessary elements were added to make it extremely insensitive to hot/cold temperatures. IMR 4198 is outstanding in cartridges like the 222 Remington, 444 Marlin and 7.62 X 39.

1-Pound ..... C23DU41981 ..... $49.49
8-Pounds ..... C23DU41988 ..... $348.99

IMR-4895
Originally a military powder featured in the .30-06, IMR 4895 is extremely versatile. From .17 Rem to the .243 Win to the .375 H&H mag, accuracy and performance are excellent. Favorite of match shooters.

1-Pound ..... C23DU48951 ..... $47.49
8-Pounds ..... C23DU48958 ..... $330.99

IMR-4227
Like other powders manufactured by the company, IMR Powder 4227 Rifle Powder is perfectly engineered and thoroughly tested prior to being sold. This magnum powder produces near true magnum velocities; for reloading, it is a popular choice.
In addition to outstanding velocity, this powder has been proven time after time to produce high-performance results.
When accuracy counts, this powder delivers. Commonly used in .221 Fireball and .22 Hornet cartridges, the powder is easy to meter.

1-Pound ..... C23DU42271 ..... $49.49
8-Pounds ..... C23DU42278 ..... $348.99

IMR 4955™
IMR-4955 It falls directly between IMR 4451 and IMR 7977 in burn speed, providing top performance for all cartridges used for big game. Enduron® powders, are temperature insensitive, clean burning, minimizes copper fouling and is totally safe for the environment. Adding this propellant to the Enduron® line filled in an important place in the chart.

1-Pound ..... C23DU949551 ..... $49.99
8-Pounds ..... C23DU949558 ..... $354.99

IMR-4350
For short magnums, there are few products that deliver the same quality as IMR Powder 4350 Rifle Powder. This product is manufactured by a company with more than 200 years in the business of reloading, and on that alone, all types of shooters have a genuine trust in every powder purchased.
This particular rifle powder works great for Winchester and Remington short magnums with bullet weights between light and medium. Compared to the competition, this powder has been shown to bolster accuracy and enhance performance far better.

1-Pound ..... C23DU43501 ..... $49.49
8-Pounds ..... C23DU43508 ..... $354.99

IMR-4451
Enduron extruded powder, IMR 4451, gives top performance in the venerable 30-06, 270 Winchester and 300 Winchester Short Magnum, to name just a few. This propellant is ideally suited for many, many mid-range burn speed cartridges.
Simply scroll through the list of cartridges on the Hodgdon Reloading Data Center, and see how many of your favorite cartridges are covered with this fine powder. Once the shooter tries this one in that favorite cartridge, his search is over!

1-Pound ..... C23DU44511 ..... $49.99
8-Pounds ..... C23DU44518 ..... $354.99

IMR-4831
Slightly slower in burn speed than IMR 4350, IMR 4831 gives top velocities and performance with heavier bullets in medium sized magnums.

1-Pound ..... C23DU48311 ..... $49.49
8-Pounds ..... C23DU48318 ..... $354.99

8208 XBR®
IMR 8208 XBR The latest in the versatile IMR line of fine propellants, this accurate metering, super short grained extruded rifle powder was designed expressly for match, varmint, and AR sniper cartridges. Ideally suited for cartridges like the 223 Remington/ 5.56mm, 308 Winchester/ 7.62mm NATO and the 6mm PPC, shooters will find IMR 8208 XBR totally insensitive to changes in temperature, while yielding max velocities and "tack driving" accuracy. Clearly, the competitor's "choice" and the Varmint Hunter's "dream powder".

1-Pound ..... C23DU82081 ..... $48.49
8-Pounds ..... C23DU82088 ..... $339.99

IMR 8133
This new powder is designed for large, magnum cartridges, such as .300 Win Magnum, .300 Remington Ultra Magnum, and 28 Nosler, among others.
With the slowest burn rate among Enduron powders, 8133 has burn properties similar to Hodgdon Retumbo.

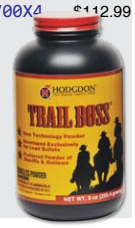
1-Pound ..... C23DU981331 ..... $49.99
8-Pounds ..... C23DU981338 ..... $354.99

IMR-7828 SSC®
This magnum rifle powder has exactly the same burn rate as standard IMR 7828 and uses the same data. However, due to the super short kernels, metering is virtually as good as a spherical powder. This allows up to 4% more powder space in the case and in many loads yields more velocity than standard 7828. Such loads are marked with an asterisk in the data to show where standard 7828 will not fit.

1-Pound ..... C23DU7828SSC1 ..... $46.49
8-Pounds ..... C23DU7828SSC8 ..... $324.49

IMR-7977
The slowest burn rate Enduron Technology extruded powder is IMR 7977, and is a true magnum cartridge propellant. It yields outstanding performance in such cartridges as the 300 Winchester Magnum, 7mm Remington Magnum, 338 Lapua and a host of others. Loading density is perfect for magnums, nicely filling the case at maximum charges, contributing to superb uniformity and accuracy. The 7mm Remington Magnum "never had it so good"!

1-Pound ..... C23DU79771 ..... $49.99
8-Pounds ..... C23DU79778 ..... $354.99



HODGDON
THE BRAND THAT'S TRUE

HI-SKOR 700-X
This extruded flake powder is ideally suited for shotshells in 12- and 16-gauge where clay target and light field loads are the norm. It doubles as an excellent pistol target powder for such cartridges as the 38 Special, 45 ACP and many more.

HI-SKOR 700-X *(14 oz.)* ..... C23HD700X14 ..... $26.99
HI-SKOR 700-X *(4-Pound)* ..... C23HD700X4 ..... $112.99

Trail Boss®
This spherical powder screams "No whimps, please!" H110 is designed to develop high operating pressures that the .357 and .44 Mag. boys love. The high velocities developed with proper loading of this powder produce incredible accuracy down range.

(9 ounces) ..... C23HDTB1 ..... $27.99
(2-Pound) ..... C23HDTB2 ..... $94.49

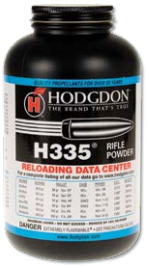
THE BRAND THAT'S TRUE

Rifle Powder

CFE 223™
(Copper Fouling Eraser)

This versatile spherical rifle propellant incorporates in its formula CFE, Copper Fouling Eraser. This ingredient, originally used in military propellant, greatly deters copper fouling. It contributes to longer periods of top accuracy with less barrel cleaning time. Being a spherical powder, metering is superbly accurate. CFE 223 yields top velocities in many cartridges such as the 204 Ruger, 223 Remington/5.56mm NATO, 22-250 Remington and the 308 Winchester/7.62mm NATO, plus many, many more.

CFE 223™ *(1-Pound)* ..... C23HDCFE2231 .....$37.99
CFE 223™ *(8-Pound)* ..... C23HDCFE2238 ....$274.99



CFE BLK

This new powder provides full function of AR-type rifles throughout the range of bullet weights, and is perfect for those subsonic reduced loads. In addition to being the perfect solution for the .300 Blackout, it performs beautifully in many smaller capacity cartridges, in particular, varmint cartridges such as the .17 Hornet, .17 Ackley Hornet, .218 Bee, .221 Fireball and many more. It also yields top performance in the 6.8 Remington SPC and the 7.62X39MM Russian cartridge. This fine powder meters like a dream and leaves no copper residue, extending accuracy for longer shooting periods, and making clean-up quick and easy. It is truly a remarkable new propellant!

CFE BLK *(1-Pound)*..... C23HDBLACK1.....$37.99
CFE BLK *(8-Pound)*..... C23HDBLACK8.....$274.99

H335®

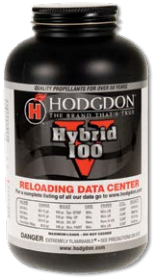
This spherical powder is what the military uses for loading the .223 or 5.56 NATO. Bruce and J.B. Hodgdon find it to be the powder of choice for their .222 and .223 prairie dog guns. One of J.B.'s is a custom XP1OO in .223 that shoots one hole groups with this powder. Like BL-C(2), H335 works very well in most cases from .30/06 down.

H335® *(1-Pound)*
C23HDH3351 .....$37.49
H335® *(8-Pound)*
C23HDH3358 .....$272.99

H380®

Was an unnamed spherical rifle propellant when Bruce Hodgdon first laid his hands on it. After he shot a few rounds in his varminter (a wildcat at that time now known as the .22-250) and found it shot one hole groups with a 38 gr. charge behind a 52 gr. bullet, he named the powder after the charge weight, thus H380. H380 is also a fantastic propellant for the .220 Swift, .243, 6mm Rem., .257 Roberts, .30/06 and others.

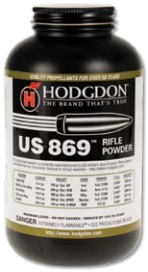
H380® *(1-Pound)* ..... C23HDH3801 .....$38.99
H380® *(8-Pound)* ..... C23HDH3808 .....$280.49



BL-C(2)®

This spherical powder is the propellant of choice for the .308. It's actually military specification for the .308 (7.62 NATO). Known to the more experienced handloaders as "Ball C", BL-C (2) performs well in most cases smaller than .30/06.

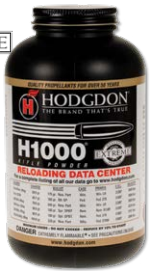
BL-C(2)® *(1-Pound)* ..... C23HDBLC23 ..... $37.49
BL-C(2)® *(8-Pound)* ..... C23HDBLC28 ..... $272.99



Hybrid 100V

The chemistry of a spherical powder is combined with the geometry of an extruded propellant, creating a smooth-metering, super short granule extruded shaped propellant with high energy. Hybrid 100V has a burn speed between H4350® and H4831®, yielding superb performance in such popular calibers as .270 Winchester, .243 Winchester Super Short Magnum, 7mm Remington Magnum, 300 Winchester Magnum and dozens more.

Hybrid 100V *(1-Pound)*..... C23HDHY1001 .....$37.49
Hybrid 100V *(8-Pound)*..... C23HDHY1008 .....$269.49



US 869®

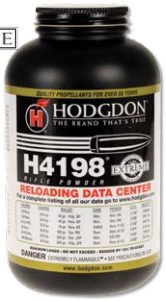
Outstanding 50 BMG propellant that offers significant advantages in many magnum rifle applications! US869 is a true magnum Spherical rifle powder that is superb with heavy bullets in big, overbore rifle cartridges. US869 is a dense propellant that allows the shooter to use enough powder to create maximum velocities in cartridges such as the 7mm Remington Ultra Magnum, .300 Rem. Ultra Magnum, .30-378 Weatherby Mag. and others. US869 is superior in the 50 Caliber BMG where it yields high velocity and great accuracy with 750 to 800 grain projectiles. This is a fine 1000-yard match propellant! Effected minimally by varying temperatures, a key feature for top competition and hunting accuracy.

US 869® *(1-Pound)*..... C23HDUS8691 .....$39.49
US 869® *(8-Pound)*..... C23HDUS8698 .....$281.99

H1000™

This very slow burning Extreme Extruded powder is perfect for highly overbored magnums like the 7mm Rem. Mag., 7mm STW and the 30-378 Weatherby. In addition, .270 Win., and .300 Win. Mag. In a short period of time this powder has achieved considerable notoriety among long range match shooters.

H1000™ *(1-Pound)* ..... C23HDH10001 .....$51.49
H1000™ *(8-Pound)* ..... C23HDH10008 .....$361.99



H322®

This powder has won more benchrest matches than all other propellants combined. H322 is capable of amazing accuracy in all small and medium capacity cases. It is outstanding in the .223 and .222 as well as the .22 and 6mm PPC cartridges. H322 is a very short grained extruded powder that flows through the measure as well as most spherical powders. H322 also is a favorite for many TCU and IHMSA cartridges. Take the Extreme Tour.

H322® *(1-Pound)* ..... C23HDH3221 .....$50.49
H322® *(8-Pound)* ..... C23HDH3228 .....$353.99

H4198

This specialized extruded powder works extremely well in the 7.62 x 39 Russian. H4198 is also excellent for the .222 with 50 gr. bullets and some rather unique calibers including the .45/70 and the .444 Marlin. This propellant also works well in some obsolete American rifle cartridges such as .32/40 Ballard and .40/70 Maynard. Take the Extreme Tour.

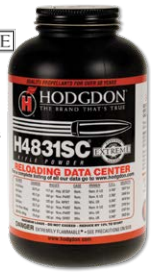
H4198 *(1-Pound)*..... C23HDH41981 .....$50.49
H4198 *(8-Pound)*..... C23HDH41988 .....$353.99

Please see ordering information for requirement on shipping powder.

H4350

This extruded powder provides superior performance in cartridges from 22-250 to the 460 Weatherby. It's medium slow burning speed works best with heavier projectiles. H4350 has been changed to the short cut version, just like H4198 and H4831. The shorter granules give more precise metering and more consistent charge weights than the old long cut version, plus superior loading density without sacrificing the outstanding ballistic performance that made H4350 famous. H4350 gives similar ballistics to IMR 4350, however, always consult the Hodgdon reloading manuals for accurate, safe loads.

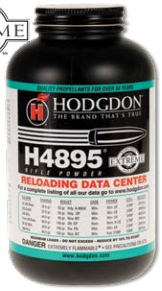
H4350 *(1-Pound)*..... C23HDH43501 .....$51.49
H4350 *(8-Pound)*..... C23HDH43508 .....$361.99



H4831®
Newly Manufactured

This extruded powder is a real stalwart of Hodgdon rifle powders. Hodgdon was the first supplier to introduce this popular burning rate in 1950. Bruce Hodgdon and Tom Shepherd, our Sales Manager, both prefer this powder with all bullet weights in the .270, .280 Rem., and 6mm Rem. H4831 has a wide range of use. It's a relatively slow burning propellant, so it does a great job with heavier bullet weights in .25/06, .257 Weatherby, and .338 Win., as well as the cartridge listed in our description of H450.

H4831® *(1-Pound)* ..... C23HDH48311.....$51.49
H4831® *(8-Pound)* ..... C23HDH48318.....$361.99



H4831SC®

In 1950, Hodgdon became the first supplier to offer this popular burning rate. It has since become a real stalwart of Hodgdon rifle powders. General Manager Tom Shepherd prefers it with most bullet weights in the .270, .280 Rem. and 6mm Rem. Slow burning H4831 has a wide range of uses, and does great with heavier bullet weights in .25/06, .257 Wby, .338 Win. and dozens of others. For superb metering, try H4831SC® (shortcut). Take the Extreme Tour.

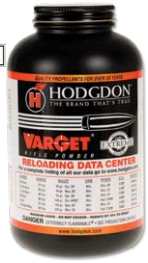
H4831SC® *(1-Pound)* ..... C23HDH4831SC1 .....$51.49
H4831SC® *(8-Pound)* ..... C23HDH4831SC8 .$361.99

H4895®

This is the most versatile of all rifle powders. This extruded powder is great for .17 Rem., .22-250, .308, and .458 Win. If you're a rifle shooter and don't want to store a lot of different rifle powder, this is the one for you. It is amazingly accurate in almost every cartridge listed in our data. It's original use was in the .30/06 and it was the first powder Bruce Hodgdon sold to the loading public. Our H4895® performs similar to most lots of IMR 4895.

H4895® *(1-Pound)* ..... C23HDH48951 .....$50.49
H4895® *(8-Pound)* ..... C23HDH48958 .....$353.99

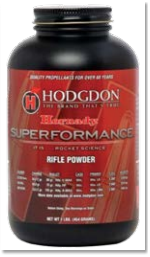
HODGDON
THE BRAND THAT'S TRUE



Rifle Powder

LEVERevolution®

Hodgdon and Hornady have teamed up on the same spherical propellant used in Hornady's factory ammunition. Yield velocity gains in excess of 100 fps, with even greater gains over factory ammunition. Other cartridges include the 35 Remington, 308 Marlin Express, 338 Marlin Express and the 25-35 Winchester.



LEVERevolution® *(1-lb.)* .....C23HDLEVER1 ..... $37.99
LEVERevolution® *(8-lb.)* .....C23HDLEVER8 ..... $274.99

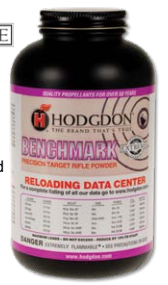
Varget®

The perfect powder for competitive Match shooting 223 Remington and Heavy bullets. Outstanding performance and velocity can be obtained in such popular cartridges as the 223 Remington, 22-250 Remington, 308 Winchester, 30-06, 375 H&H and many more.

Varget® *(1-Pound)* .....C23HDVAR1.....$51.49
Varget® *(8-Pound)* .....C23HDVAR8.....$361.99

Superformance®

Superformance delivers striking velocities in cartridges like the 22-250 Remington, 243 Winchester and 300 Winchester Short Magnum. Velocities well in excess of 100 fps over the best published handloads and even larger gains over factory ammunition! Because this propellant is tailored for specific applications, the number of cartridges and bullets is limited, but where it works, it really works!



Superformance® *(1-Pound)* .....C23HDSUPER1..... $37.99
Superformance® *(8-Pound)* .....C23HDSUPER8..... $274.99

Retumbo®

"Echo of Thunder" was designed for such cartridges as the 300 Remington Ultra Magnum, 30-378 Weatherby, 7mm Remington Ultra Magnum, the 7mm STW and many more cartridges with very large capacity cases and relatively small bores. Shooters can expect up to 40-100 feet per second more velocity than other magnum powders, depending on choices of bullets and primers. **Retumbo®** is new extruded propellant that incorporates all the great features of Hodgdon's Extreme family of powders.

Retumbo® *(1-Pound)*..... C23HDRET1 .....$51.49
Retumbo® *(8-Pound)* ..... C23HDRET8 .....$361.99

Benchmark

Extreme Extruded propellant was developed for precision cartridges. Ideally suited for benchrest and small varmint cartridges like the 6mm PPC, 22 PPC,6mm BR, 22 BR, 223 Rem. and 222 Rem. Performs superbly in the 308 Winchester with light match bullets like the 147 gr. and 155 gr. versions. Small, easy metering granules, flow through progressive presses.

Benchmark *(1-Pound)* ..... C23HDBM1 ..... $50.49
Benchmark *(8-Pound)* ..... C23HDBM8 ..... $353.99

Shotgun & Pistol Powders

HP-38®

HP38 is a spherical powder that is great for low velocity and mid-range target loads in the .38 Special, .44 Special, 9mm and .45 ACP. This extremely high energy powder provides economy in loading due to the light charge weights it requires.

HP-38® *(1-Pound)*.....C23HDHP381 .....$36.99
HP-38® *(8-Pound)*.....C23HDHP388 .....$258.49

Tite Group®

As the name implies, this spherical propellant was designed for accuracy. Because of the unique design, this powder provides flawless ignition with all types of primers including the lead-free versions. Unlike pistol powders of the past, powder position in large cases (.45 Colt, .357 Magnum and others) has virtually no effect on velocity and performance. Cowboy Action, Bullseye and Combat Shooters should love this one!

Tite Group® has it all, low charge weight, clean burning, mild muzzle report and superb, uniform ballistics

Tite Group® *(1-Pound)*.....C23HDTG1.....$30.49
Tite Group® *(4-Pound)*.....C23HDTG4.....$112.49
Tite Group® *(8-Pound)*.....C23HDTG8.....$219.49

Tite Wad®

Through advanced technology, Hodgdon Powder Co. has produced a superior flattened spherical shotgun powder. Unlike spherical propellants in the past, Tite Wad features low charge weights, mild muzzle report, minimum recoil and reduced residue for optimum ballistic performance. This outstanding propellant designed for 12 gauge only, meters superbly and is ideal for 7/8, 1 and 1-1/8 ounce loads. As the name implies, "A little goes a long way!"

Tite Wad® *(14 oz.)* .....C23HDTW1.....33.99
Tite Wad® *(4-Pound)*.....C23HDTW4.....132.49
Tite Wad® *(8-Pound)*.....C23HDTW8.....251.49

Clays®

Developed for 12 gauge clay target shooters. This extra clean burning propellant is perfect for 7/8, 1 and 1-1/8 oz. loads. Trap, skeet, and sporting clays' shooters will love it. Clays also performs well in many handgun applications. These include .38 Special and .45 ACP. This exclusive Hodgdon introduction will surprise even veteran shooters with its performance characteristics.

Clays® *(14 oz.)* .....C23HDCLAYS14.....$30.99
Clays® *(4-Pound)* .....C23HDCLAYS4.....$127.49
Clays® *(8-Pound)*.....C23HDCLAYS8.....237.49

International®

International is the second in the "Clay" series of powders. It is positioned in burning speed to accommodate 12 ga., 2 3/4" light, medium and heavy 1 1/8 oz. loads, with some very nice 1 oz. listings. Also, it works splendidly in 20ga., 7/8 oz. target and light field loads. As with CLAYS, clean burning and flawless functioning is the rule.

International® *(14 oz.)*.....C23HDINT14.....$30.99
International® *(4-Pound)*.....C23HDINT4.....$127.49
International® *(8-Pound)*.....C23HDINT8.....$237.49

Longshot®

This spherical shotshell powder is the most versatile heavy field propellant Hodgdon has ever produced. Great field loads in 10 ga., 12 ga., 16 ga., 20 ga., and 28 ga. are shown herein. This propellant provides true magnum velocities with superb patterns. In addition, LONGSHOT is the best choice for those competitors shooting "race" games such as "Buddy" shoots, "Annie Oakleys" and more.

Longshot® *(1 Pound)*.....C23HDLS1.....$35.49
Longshot® *(4-Pound)*.....C23HDLS4.....$134.49
Longshot® *(8-Pound)*.....C23HDLS8.....$256.49

Universal Clays®

Is an extremely small grain extruded flake powder. This small grain provides consistent charge weights through the powder measure. As the third member of the Clays technology powders, Universal is one of the most versatile of all our pistol/shotshell propellants. It loads nearly all of the straight wall pistol cartridges as well as 12 ga. 1-1/4 oz. through 28 ga. 3/4 oz. target loads. Pistolaro's and skeet shooters should love it.

Universal Clays® *(1-Pound)*..... C23HDUN1 .....$35.99
Universal Clays® *(4-Pound)*..... C23HDUN4 .....$132.99
Universal Clays® *(8-Pound)*..... C23HDUN8 .....$254.49

HS-6®

This is an excellent spherical propellant for all bullet weights in the 9mm. HS6 also performs well in most straight wall pistol cartridges and is well suited for the .45 ACP. It's a dual purpose powder that many shotgunners prefer as well as pistol shooters. It propels 1-1/4 - 1-1/2 oz. of shot in the 12 ga. and 1 oz. of shot in the 20 ga. quickly with minimum recoil. Perfect for upland game, rabbit and squirrel.

HS-6® *(1-Pound)*.....C23HDHS61.....$37.99
HS-6® *(8-Pound)*.....C23HDHS68.....$274.99

Lil Gun®

The 410 BORE has long been difficult to load due to shortcomings in powder fit, metering, along with poor burning characteristics. Not any more! LIL'GUN was designed to fit, meter and perform flawlessly in the .410 BORE. No more spilled shot or bulged cases. In addition, LIL'GUN has many magnum pistol applications and is superb in the 22 Hornet.

Lil' Gun® *(1-Pound)*.....C23HDLIL1.....$35.99
Lil' Gun® *(4-Pound)*.....C23HDLIL4.....$135.49
Lil' Gun® *(8-Pound)*.....C23HDLIL8.....$259.49

H110®

This spherical powder screams "No whimps, please!" H110 is designed to develop high operating pressures that the .357 and .44 Mag. boys love. The high velocities developed with proper loading of this powder produce incredible accuracy down range. H110 is also recommended for the .30 carbine and the 410 ga.

H110® *(1-Pound)*.....C23HDH1101 .....$36.99
H110® *(8-Pound)*.....C23HDH1108 .....$268.99

Cannon Fuse

Water Resistant and Lacquered

Cannon Fuse *15 Feet*.....C23HDFUSE1 .....$24.49

CFE™ Pistol

The technology developed for the U.S. Military that greatly deters copper fouling is now available in CFE™ Pistol for your reloads!

This excellent spherical pistol propellant utilizes our CFE formula, Copper Fouling Eraser, virtually eliminating copper fouling, plus providing top velocities with clean burning and minimal muzzle flash. For competitive shooters and hand loaders seeking the perfect powder for target or self-defense loads, CFE Pistol provides optimum performance in cartridges like the 9mm Luger, 38 Super, 40 S&W, the venerable 45 ACP and many more.

CFE™ Pistol *(1-Pound)*..... C23HDCFEPISTOL1 ....$34.49
CFE™ Pistol *(8-Pound)*..... C23HDCFEPISTOL8 ..$241.99

RAMSHOT

Silhouette

Silhouette is a double based, modified (flattened) spherical powder that performs well in medium sized handgun cases. Silhouette's low flash signature, high velocity, and clean burning properties make it a perfect choice for indoor ranges and law enforcement applications. *Ideal Calibers: 9mm, .38 Super, .357 Sig, 10mm*

Silhouette Pistol Powder *(1-Pound)* ..... C23RU4000 ..... $35.99
Silhouette Pistol Powder *(4-Pounds)* ..... C23RU4005 ..... $127.99

Zip

Zip is a double based, modified (flattened) spherical powder that performs extremely well in small to medium sized handgun cases. Clean, fast burning and consistent with a wide range of cartridges, Zip is a great choice for target and competitive shooters. Zip's versatility and ability to perform at low charge weights also makes this powder the choice of high volume, cost conscious reloaders.
Ideal Calibers: 9mm, .38 Special, .40 S&W, .45 ACP

Zip Pistol Powder *(1-Pound)* ..... C23RU4015 ..... $31.49
Zip Pistol Powder *(4-Pounds)* ..... C23RU4020 ..... $112.49

True Blue

True Blue is a double based, spherical powder that performs extremely well in most handgun cases. The load range for True Blue is currently from the .380 Auto to .454 Casull weights in progressive loaders. True Blue's physical size contributes to excellent metering properties and consistency of charge weights when run through a progressive loader. True Blue's high bulk density contributes to a fuller case capacity and more consistent loads.
Ideal Calibers: 9mm, .38 Special, .357 Mag, .45 ACP

True Blue Pistol Powder *(1-Pound)* ..... C23RU4025 ..... $31.49
True Blue Pistol Powder *(4-Pounds)* ..... C23RU4030 ..... $112.49

Enforcer

Enforcer is a double based, spherical powder that produces high velocities in a wide variety of large handgun calibers. Enforcer's physical size lends itself to excellent consistency in charge weights through a progressive loader due to its ease of metering. Enforcer's high bulk density contributes to a full case capacity and more consistent loads. Enforcer also performs well in some small rifle cases such as the .22 Hornet.
Ideal Calibers: .357 Magnum, .44 Magnum, 454 Casull, .480 Ruger

Enforcer Pistol Powder *(1-Pound)* ..... C23RU4035 ..... $31.49
Enforcer Pistol Powder *(4-Pounds)* ..... C23RU4040 ..... $112.49

Competition

Competition is a double based, modified (flattened) spherical powder that is designed for the 12-gauge clay target shooter who is interested in cleanliness, low recoil and consistency. Competition is a fluffy powder that provides for low recoil, is clean burning and is not position sensitive, which makes it a good choice for the Cowboy Action Shooter.
Ideal Calibers: 12 Ga., Cowboy Action Pistol Calibers

Competition Shotshell Powder *(1-Pound)* ..... C23RU401112 ..... $36.99
Competition Shotshell Powder *(4-Pounds)* ..... C23RU4010 ..... $155.99
Competition Shotshell Powder *(8-Pounds)* ..... C23RU4013 ..... $277.99

Please See Ordering Information for Requirement on Shipping Powder

X-Terminator

X-Terminator is a double-based, spherical powder that is designed for the high volume, .223 varmint hunter who demands a clean burning powder. X-Terminator will not bridge going into the small diameter necks of the .22 centerfire calibers and produces excellent velocities.
Ideal Calibers: .222 Rem, .223 Rem, and .22 Bench rest calibers

X-Terminator Rifle Powder *(1-Pound)*
C23RU4045 ..... $31.49
X-Terminator Rifle Powder *(8-Pounds)*
C23RU4050 ..... $222.99

Big Game

The name indicates that Ramshot Big Game is used predominately in the .270 and 30-06 classes of cartridges but it also performs well in the short action family of cartridges. Big Game's performance in the .22-250 is quickly making it one of the most popular.
Ideal Calibers: .22-250, 6mm, 7mm-08

Big Game Rifle Powder *(1-Pound)*
C23RU4055 ..... $31.49
Big Game Rifle Powder *(8-Pounds)*
C23RU4060 ..... $222.99

Tac

Ramshot TAC is a versatile rifle powder that performs well in a number of different calibers. TAC has the ability to provide some of the industry's highest velocities for 80 grain bullets in the .223 caliber while maintaining SAAMI pressure guidelines. TAC is a double-based powder providing for ease of metering and consistent charge weights.
Ideal Calibers: .223 Rem, 308 Winchester

Tac Rifle Powder *(1-Pound)*
C23RU4065 ..... $33.99
Tac Rifle Powder *(8-Pounds)*
C23RU4070 ..... $243.99

Magnum

The muzzle velocities achieved in the magnum class of cartridges are some of the highest in the industry. Magnum's excellent velocities coupled with its cleanliness make it a great choice for high volume match shooters. Ramshot Big Boy powder was renamed Ramshot Magnum in 2001. Big Boy and Magnum are the exact same powder - just a new name. Data using Ramshot Big Boy is applicable for Ramshot Magnum.
Ideal Calibers: .25-06, .270 WSM, 7mm Rem Mag, .300 WBY, .300 Win Mag, 300 RUM
Magnum Rifle Powder *(1-Pound)*
C23RU4072 ..... $31.49
Magnum Rifle Powder *(8-Pounds)*
C23RU4075 ..... $222.99

Hunter

Hunter is the new powder in the Ramshot line and is the perfect spherical powder for medium caliber rifles Hunter meters great, is clean burning, and produces outstanding velocity in traditional medium caliber cartridges and the new Winchester Short Magnum family of cartridges. Ramshot hunter performs consistently throughout a wide range of temperatures making it a perfect powder for your hunting loads. Ideal Calibers: .270 Win, .223 WSSM, 7mm WSM, 270 WSM, 300 WSM
Hunter Rifle Powder *(1-Pound)*
C23RU4080 ..... $31.49
Hunter Rifle Powder *(8-Pounds)*
C23RU4085 ..... $222.99

LRT Smokeless Powder

As one of the slowest spherical powders ever developed, LRT, was created for high performance at extreme ranges. Designed specifically for the 338 Lapua Magnum using heavy, high ballistic coefficient bullets . LRT offers high load densities and low standard deviations for superior accuracy. Hunters who prefer the advantages of overbore magnums like the 257 Weatherby or 30 Nosler will find that LTR meters more easily and produces flatter trajectories than rival propellants.
LRT Smokeless Powder *(1-Pound)*
C23RU4090 ..... $31.49
LRT Smokeless Powder *(8Pounds)*
C23RU4092 ..... $222.99

WINCHESTER
SMOKELESS PROPELLANTS

Since 1892, Winchester Smokeless Propellants have provided quality, high performance powders to the ammunition loading factories, the U.S. Military, and reloaders. It is safe to say that more ammunition is loaded in America today with Ball Powder propellants than any other powder type. Are you ready to take advantage of the choice of loading professionals?

572 Ball Powder®

This Winchester powder is strategically designed to do a myriad of jobs. First it has the correct burn rate to create the famous 3 ¼ dram equivalent, 1 ¼ oz, 1330 fps 12 gauge load, originated by Winchester. And, it does it with any brand case! Back Fence competitors and pheasant hunters will be delighted. Now, that is just one application, and it goes on to provide clay target loads superb in 20 gauge and 28 gauge, top field loads in both, and, outstanding field loads for the wonderful 16 gauge. In addition, 572 has a vast number of pistol applications, ranging from the 25 ACP to the 45 ACP, and all popular calibers in between. This is one positively versatile and useful propellant.

1-Pound ..... C23WP5721 ..... $36.99
4-Pound ..... C23WP5724 ..... $140.49
8-Pound ..... C23WP5728 ..... $268.99

AutoComp Ball Powder®

AutoComp is extremely fine in the .38 Super, 9mm, .45 ACP & .40 S&W race guns. It's just the perfect burning speed to feed the compensators with a higher volume of gas. With AutoComp competitors get off faster shots with minimal muzzle flash, It's a winner.

1-Pound ..... C23WPAC1 ..... $35.99
8-Pound ..... C23WPAC8 ..... $249.49

AA® Super Handicap

Super Handicap is the same propellant used in Winchester's Super Handicap ammunition. This slow-burning, high energy propellant gives the shooter great handicap or long range sporting clays loads at up to 1250 fps with a 1-1/8 ounce shot charge.

1-Pound ..... C23WPWSH1 ..... $35.99
8-Pound ..... C23WPWSH8 ..... $249.49

748 Ball Powder®

Powder of choice by Winchester and the U.S. military for 5.56mm and 223 Rem. ammunition. The low flame temperature of 748 extends barrel life. It can be used in a wide variety of centerfire rifle loads including .222 rem, 30-30 Win, and up to 458 Win. Mag. Combine Winchester components with 748 to duplicate 308 Win. factory load ballistics. 748 is recommended for use with the new 308 Fail Safe bullets

1-Pound ..... C23WP7481 ..... $38.99
8-Pound ..... C23WP7488 ..... $281.49

231 Ball Powder®

As the most popular reload propellant 231 is a pistol powder ideally suited to the 38 Special, 45 auto, and 9mm standard loads. Consistency, clean burning low flash, and a broad range of applications make this a powder of choice on any pistol cartridge reloader's shelf.

1-Pound ..... C23WP2311 ..... $36.99
4-Pound ..... C23WP2314 ..... $135.49
8-Pound ..... C23WP2318 ..... $258.49

296 Ball Powder®

Developed for Winchester factory loaded ammo .357 Mag., .44 Mag. and .410 bore. Its high loading density provides optimal velocity. 296 is also the powder type used by Winchester for factory loaded 410 bore AA loads. However, 296 is not suitable for most rifle cartridges.

1-Pound ..... C23WP2961 ..... $36.99
4-Pound ..... C23WP2964 ..... $137.99
8-Pound ..... C23WP2968 ..... $269.49

WST Super-Target® Ball Powder®

Target shotshells and standard velocity handgun propellant. Ideal for use in .45 Auto match applications. Consistent, clean, low flash and smoke are benefits to the shooter. Powder of choice for reloading AA shells

1-Pound ..... C23WPWST1 ..... $43.99
4-Pound ..... C23WPWST4 ..... $159.49
8-Pound ..... C23WPWST8 ..... $308.99

WSF Super-Field® Ball Powder®

Super-Field propellant is the propellant of choice for Winchester 20 ga AA target Load and 12ga 3-3/4 dram equivalent Super-X load. WSF is an ideal choice to maximize velocities in 12 gauge 1-1/8 oz. and 1-1/4 oz. loads. Super Field also performs well in 38 Super, 9mm and .40 S&W pistol loaded. Excellent propellant for fast shooting action pistol application.

1-Pound ..... C23WPWSF1 ..... $35.99
4-Pound ..... C23WPWSF4 ..... $129.49
8-Pound ..... C23WPWSF8 ..... $249.49

760

Combine Winchester components with 760 to duplicate .30-06 factory load ballistics. Recommended as an excellent choice for 7mm-08 and .30-06 Fail Safe bullet. 760 has ideal flow characteristics which give it an advantage over other propellants with similar burn rates.

1-Pound ..... C23WP7601 ..... $38.99
8-Pound ..... C23WP7608 ..... $281.49

Winclean 244

This Ball Powder® is ideally suited to 38 Special, 45 Auto, and 9mm standard loads. Consistency, clean burning, featuring a low flash and useful across a broad range of applications make this powder a perfect choice for pistol cartridge handloaders. With addition of the WinClean process, this powder reduces copper fouling and residue, extending accuracy for longer shooting periods.

1-Pound ..... C23WP2441 ..... $35.49
4-Pound ..... C23WP2444 ..... $126.49

StaBALL

StaBALL 6.5 is the world's first temperature-insensitive BALL® Powder, stable in extreme-hot or -cold conditions. It provides optimal loading density in cartridges appropriate for the burn speed, which is ideal for 6 Creedmoor, 6GT, 6.5 Creedmoor, 7MM-08, 270 Winchester and many more. Typical of a ball powder, precise metering contributes to improved velocity and pressure standard deviations, ingredients that are paramount to match grade accuracy! This "environmentally green" propellant has copper fouling reducer additives, meaning longer durations of competition and field shooting without having to clean the bore. Precision accuracy throughout the match!

1-Pound ..... C23WPSTABALL1 ..... $41.49
8-Pound ..... C23WPSTABALL8 ..... $296.49

StaBALL HD

StaBALL™HD is a temperature-insensitive, double-base, BALL® Powder, stable in extreme hot or cold conditions. This slow-burning magnum powder provides optimal loading density in large capacity magnum cartridges appropriate for the burn speed, which is ideal for 6.5 PRC, 7MM Remington Mag, 300 PRC and many more. Typical of a BALL powder, precise metering contributes to improved velocity and lower standard deviations, ingredients that are paramount to match grade accuracy!

1-Pound ..... C23WPSTABALLHD1 ..... $45.49
8-Pound ..... C23WPSTABALLHD8 ..... $337.49

StaBALL HD

StaBALL™ Match is a temperature insensitive, double-base, BALL® Powder, stable in extreme-hot or -cold conditions. This powder provides optimal loading density in cartridges appropriate for the burn speed, which is ideal for high-BC heavy for caliber bullets in 223 Remington, 224 Valkyrie, 22-250 Remington, 308 Winchester, 30-06 and many more. Typical of a BALL powder, precise metering contributes to consistent velocity and pressure with lower standard deviations, ingredients that are paramount to match grade accuracy!

Pro Reach™
Long range shotshell powder
Formulated for long range 12 gauge clay target shooting, Pro Reach gives shooters the ability to reach out and dust clays at remarkable distances.
- Specially formulated for long distance 12 gauge shooting
- Ideal for games such as Back Porch, Annie Oakley, Protection and Buddy
- For use in 12 gauge hunting loads

1-Pound.....C23HPPROREACH1..... $38.49
8-Pounds.....C23HPPROREACH8... $276.99

Extra-Lite™ *Smokeless shotshell powder*
Our new shotshell propellant provides less cost, less recoil and less headaches for those 12 gauge shooters transitioning from 1 1/8 ounce to 7/8 and 1 ounce loads. We understand that many shooters are looking for a powder that will have a density that allows use of standard components (wads and cases). These same shooters also want pressure levels that guarantee complete combustion across a broad temperature range while still being clean burning. Well... now they have it with Extra-Lite from Alliant Powder®.
- Powder density allows use of standard available components (wads and cases)
- Pressure level assures complete combustion across temperature ranges
- Extremely clean burning • Made in the USA
- Lot to Lot consistency

Power Pistol®
- Fast burning & consistent high performance 9mm, .40 S&W and 10mm
- Great for light 12 gauge loads economical and accurate.
- Secondary uses moderate pistol cartridge.

1-Pound.....C23HPPP1 ..... $39.99
4-Pounds.....C23HPPP4 ..... $147.49

Unique® *Now cleaner burning!*
- Most versatile powder made with most hulls, primers & wads.
- Good in all popular pistol calibers
- Great for light 12, 16, 20 & 28 gauge loads

1-Pound.....C23HPUN1 ..... $38.49
4-Pounds.....C23HPUN4 ..... $144.49
8-Pounds.....C23HPUN8 ..... $263.49

VIHTAVUORI

N310
Very fast burning and competitive with Bull's eye and Accurate No.2.
- It has applications in a very wide range from the .25 ACP to the 9mm Luger.

N310 *(1lb Bottle)*..... C23VIN3101.....$50.99
N310*(4lb Bottle)*..... C23VIN3104.....$171.99

N320
A handgun powder comparatively fast burning rate.
- Useful in many popular cartridges
- Available data includes; 9mm Luger, .38 Special, .357 Mag., .44 Mag., .45ACP & .45 (Long) Colt.
- Burning rate generally is perhaps a tad faster than 231 or generally about like a Red Dot.

N320 *(1 lb Bottle)*..... C23VIN3201.....$50.99
N320 *(4 lb Bottle)*..... C23VIN3204.....$171.99

N330
N330 handgun powder provides a wide range of latitude for the handgun shooter, serving well for everything from light target to heavier high-velocity loadings. This is a versatile, medium burning N300-series powder suitable for an exceptionally broad range of applications, especially designed for 9 mm Luger but also suitable for .38 Special, .40 S&W, .44 S&W Special and .45 Colt.

N330 *(1 lb Bottle)*..... C23VIN330.....$50.99
N330 *(4 lb Bottle)*..... C23VIN3304.....$171.99

N340
With a burning rate not dissimilar to Winchester 540 or Herco, this powder is a wide application type.
Handgun Cartridge Date available: 30 Luger, 9mm Luger, .38 S&W (Colt New Police), .38 Super Auto, .38 Special, .357 Mag., .44 Mag., .45 Auto & .45 (Long) Colt.

N340 *(1 lb Bottle)*..... C23VIN3401.....$50.99
N340 *(4 lb Bottle)*..... C23VIN3404.....$171.99

N350
This is the slowest burning propellant in the N300 series. Burning speed is about like Blue Dot, "Hi-Skor" 800-X or No.7. Data is available for: 9mm Luger, .38 Super Auto, .38 Special, .357 Magnum, .44 Mag. & .45 Auto.

N350 *(1 lb Bottle)*..... C23VIN3501.....$50.99
N350 *(4 lb Bottle)*..... C23VIN3504.....$171.99

3N37
Burning speed is between N340 & N350, close to "Hi-Skor" 800-X, and therefore has applications also in handgun cartridges
- Data is available for all popular handgun calibers
- The characteristics of this propellant make it very desirable for competitive handgun shooting.

3N37 *(1 lb Bottle)*..... C23VI3N371.....$50.99
3N37 *(4 lb Bottle)*..... C23VI3N374.....$171.99

3N38
A powder for the high velocity loads of the 9mm Luger and the .38 Super with moderate bullet weight
- Designed specially for competitive handgun shooting.

3N38 *(1 lb Bottle)*..... C23VI3N381.....$50.99
3N38 *(4 lb Bottle)*..... C23VI3N384.....$171.99

N105
This special powder has a burning rate between N350 and N110
- It is especially developed for handgun cartridges with heavy bullets and/or large case volume
- Reloading data is available for 9x21mm, .38 Super Auto, .357 Mag., .40 S&W, 10mm Auto, .44 Rem. Mag. & .45 Win. Mag.

N105 *(1 lb Bottle)*..... C23VIN1051.....$45.09

Vihtavuori Reloading Powders

- Are manufactured by the most stringent production processes and quality controls.
- Ensure clean burning and repeatable shooting properties in all weather and conditions.
- Have uniform and superb quality based on full control of the whole production chain beginning from the production of nitrocellulose to the bottling of the end product
- Strict quality acceptance limits have helped reloaders and cartridge manufacturers to achieve similar loads regardless of the production lot for more than 80 years.
- Have achieved a strong position among top class shooters around the world.

RIFLE POWDERS

N110

Our fastest rifle powder which is used for small capacity cartridges like the .22 Hornet. This Powder is also a superb performer with heavy magnum pistol cartridges, like .357 S&W Magnum, .357 Maximum, .44 Magnum & .454 Cassull.

N110 *(1 lb Bottle)*..... C23VIN1101 .....$46.99
N110 *(8 lb Bottle)*..... C23VIN1108 .....$312.99

N120

Slower burning powder for small capacity rifle cases and for lighter bullets in many .22 caliber loads. N120 needs higher pressure than N110 in order to optimize burning. Burning rate is near to Accurate 1680, IMR 4198 and Reloder 7. N120 is suitable also for 7,62x39, .30-30 Winchester and .444 Marlin.

N120 *(1 lb Bottle)*..... C23VIN1201 .....$46.99
N120 *(8 lb Bottle)*..... C23VIN1208 .....$312.99

N130

This powder is used in many factory loaded caliber .22 and 6 mm PPC cartridges. Suitable also for lighter bullets in caliber .223 Remington and for straight-wall rifle cases like .45-70 Government and .458 Winchester Magnum. Burning rate is close to Hodgdon H322 and Accurate 2230.

N130 *(1 lb Bottle)*..... C23VIN1301 .....$46.99
N130 *(8 lb Bottle)*..... C23VIN1308 .....$312.99

N133

Developed by VihtaVuori for SS109-M855 ammunition in 5.56 x 45 with 4,0 g bullets

- Thus, it is ideal for the .222 Remington, .223 Rem., and .45-70 Government and other applications where a relatively fast burning rifle propellant is needed
- Famous all over the world for the championship winning 6 mm PPC benchrest cartridges.

N133 *(1 lb Bottle)*..... C23VIN1331 .....$46.99
N133 *(8 lb Bottle)*..... C23VIN1338 .....$312.99

N135

A good choice for medium weight (< 10 g) bullets in the .308 Winchester and alike

- This moderate burning propellant is optimal for heavier bullets (4,5 g) in the 5.56x45 and similar .22 centerfires.

N135 *(1 lb Bottle)*..... C23VIN1351 .....$46.99
N135 *(8 lb Bottle)*..... C23VIN1358 .....$312.99

N140

Ideal propellant for moderate to heavy bullets in medium length cartridges such as .308 Winchester and similar 6.5 mm and 7mm rounds

- Superb performance in gas operated actions.

N140 *(1 lb Bottle)*..... C23VIN1401 .....$46.99
N140 *(8 lb Bottle)*..... C23VIN1408 .....$312.99

N150

Similar applications to N140, moderately slow powder that can help refine rifle cartridge ballistics when N140 is just a tad too fast and N160 is a tad too slow

- Accurate performer with heavy bullets (11 g) in 7.62, 6.5 & 7 mm bolt guns
- Excellent propellant for cartridges with long case, like the .30-06 Springfield and .375 H&H Magnum.

N150 *(1 lb Bottle)*..... C23VIN1501 .....$46.99
N150 *(8 lb Bottle)*..... C23VIN1508 .....$312.99

N160

A relatively slow powder ideally suited to many magnum and standard rounds requiring a slow propellant, like the .300 Winchester Magnum & .300 H&H Magnum

- A perfect propellant for the family of 6mm high capacity cartridges
- N160 is destined to being one of the most popular Vihtavuori powders.

N160 *(1 lb Bottle)*..... C23VIN1601 .....$46.99
N160 *(8 lb Bottle)*..... C23VIN1608 .....$312.99

N165

A very slow burning magnum propellant for use in high capacity magnum cartridges

- Somewhat interchangeable with N160, select the propellant which better fills the cartridge case and choose the N165 in the case of heavier bullets.

N165 *(1 lb Bottle)*..... C23VIN1651 ..... $46.99
N165 *(8 lb Bottle)*..... C23VIN1658 ..... $312.99

N170

As a very slow burning reloading powder, N170 is a top choice for very large capacity cases such as the .300 Weatherby Mag. and .300 Remington Ultra Mag. and also offers good performance in most of the belted Magnum cartridges. The N170 powder is used by reloaders in shooting disciplines such as long-range big-game hunting and target shooting.

N170 *(1 lb Bottle)*..... C23VIN1701 ..... $46.99

20N29

20N29 is a single-based, surface treated powder with grain dimensions of 2,3 mm length and 1,3 mm diameter. The burning rate is slower and grain size larger than those of the N100 series powders. 20N29 is primarily used in large caliber and magnum applications with heavy bullets and in long-range target shooting. It has also gained a good reputation when used eg. in .300 Lapua Magnum and .30-378 Weatherby Magnum.

20N29 *(8 lbs Bottle)*..... C23VI20N298 ..... $312.99

24N41

Vihtavuori 24N41 is a single-based treated rifle powder very similar to the 20N29. It has a very large grain size (length 2,3 mm by diameter 1,3 mm) and an extremely slow burning rate ideally suited to the .50 BMG. It can also be used for some large capacity cases, such as the .300 Lapua Magnum, .300 Rem. Ultra Mag, and the .338 Lapua Magnum. Of the two, 24N41 is slightly faster than 20N29, with a renewed relative burning rate of 39 for the 24N41 compared to 36 for the 20N29, when N110 is given the index 100.

24N41 *(8 lbs Bottle)*..... C23VI24N418 ..... $312.99

N32C

This porous powder fills the case much better than most conventional smokeless propellants, providing the loading density needed for those classic black powder cartridges. Compared to N320, the case filling ratio can be up to 50% higher. This also makes the powder safer to use – a reloader won't be able to make double or triple loads in big volume cases by accident. Tin Star gives reliable ignition in all conditions, burns clean and leaves very little fouling or residue.

N32C *(1 lbs Bottle)*..... C23VIN32C1 ..... $44.49

N555

Vihtavuori's N555 smokeless rifle powder is designed for precision rifle platforms chambered in cartridges such as 6mm Creedmoor, 6.5 Creedmoor, .284 Winchester, .260 Remington and .30-06 Springfield and for rifle calibers with large case volume and comparatively small bullet diameters, among others.

N555 *(1 lbs Bottle)*..... C23VIT11958 ..... $56.99
N555 *(8 lbs Bottle)*..... C23VIT55580 ..... $374.99

HIGH ENERGY RIFLE POWDERS

N565

- Developed specifically for military sniping applications
- Extremely temperature stable
- A bit slower burning than N570
- Created specifically for the .338 Lapua Magnum with 250 gr bullets

N565 *(1 lb Bottle)*..... C23VIN5651 .....$56.99
N565 *(8 lb Bottle)*..... C23VIN5658 .....$374.99

N560

A bit slower burning than N160

- High Energy propellant gives outstanding performance in large magnum cartridges an in many 6,5 mm family of cartridges loadedwith heavy bullets.

N560 *(1 lb Bottle)*..... C23VIN5601 .....$56.99
N560 *(8 lb Bottle)*..... C23VIN5608 .....$374.99

N540

A bit slower burning than N140

- Superb long-range performance with heavy bullets in the .308 Winchester and in many 6.5 and 7mm cartridges with medium case capacity.

N540 *(1 lb Bottle)*..... C23VIN5401 .....$56.99
N540 *(8 lb Bottle)*..... C23VIN5408 .....$374.99

N530

Burning rate close to N135

- Especially for .223 Remington
- Excellent also for .45-70 Government.

N530 *(1 lb Bottle)*..... C23VIN5301 .....$54.99
N530 *(8 lb Bottle)*..... C23VIN5308 .....$326.49

N550

A bit slower burning than N150

- Ideal performance with heaviest bullets of the above mentioned range of cartridges.

N550 *(1 lb Bottle)*..... C23VIN5501 .....$56.99
N550 *(8 lb Bottle)*..... C23VIN5508 .....$374.99

N570

This powder is a hybrid of single and double based powders. The result produces a velocity increase of 5 to 10 percent while pressure levels remain the same. For most rifle cartridges this increase will be approximately 100-200 fps.

N570 *(1 lb Bottle)*..... C23VIN5701 .....$56.99
N570 *(8 lb Bottle)*..... C23VIN5708 .....$374.99

WINCHESTER

Winchester Primers

For those who'd rather make their own, we carry the finest quality primers and wads for all your needs. Handloaders know exactly what to look for in components - Winchester. Primers priced per thousand.

FEDERAL PREMIUM

Federal Premium® Brass

Federal Premium® has some of the best brass in the business-the problem is, it was hard for handloaders to get their hands on the calibers they desired. Federal begins to address this problem in 2010 by offering first run, unprimed brass in a variety of common calibers.

Features & Benefits:

• Premium® Brass • First run, unprimed • Available for rifle and handgun

Handgun	Per Bag	Item No.	Price
9mm	100 count	C23FAPH9UPB100	$34.99
.45 Auto	100 count	C23FAPH45UPB100	$42.49

Brass Cartridge Cases

- **Tight Wall Concentricity:** *Concentricity helps to ensure proper bullet seating in both the case and the chamber of your firearm. Higher concentricity also aids in a uniform release of the bullet on firing, for optimal velocity and accuracy.*
- **Uniform Case Wall Thickness**
- **More Reloads per Case**
- **Consistent Weight and Capacity:** *Every single Hornady case, regardless of the lot in which it was produced, is virtually identical to other Hornady cases in the same caliber. For you, this means consistent pressures, velocity and accuracy — every time.*

SIG SAUER®

Component Brass

SIG SAUER® cases are made from American, premium brass.
These casings are rigorously tested to ensure unparalleled durability and dependability. Each casing undergoes rigorous in-line and post-production quality assurance testing to ensure a flawless casing.
BRASS ONLY. NOT LOADED AMMUNITION.

LAPUA

Reloading Cases

Advanced metallurgical research and manufacturing techniques ensure that Lapua cases are leaders in uniformity and quality. Lapua cases are the best in the world.
The marksmen themselves think this way.
The .220 Russian, for example, is the number one choice of the best benchrest shooters all over the world. All our cases are strong and uniformly precise. Lapua cases are manufactured to be reloaded, again and again, dozens of times.
Case construction Base *The base section is hard and strong, and the dimensions remain constant and will hold primers tight in primer pocket even after repeated reloading.*

Body *The brass body section is hard and firm. It is easy to extract after firing, whether full sizing or only neck sizing was used in reloading.*

Neck *Strict tolerances in concentricity and wall thickness are used in manufacturing. The neck and shoulder are annealed to withstand repeated reloading.*

NOSLER®

NOSLER® Brass

Each piece of brass is completely prepped and ready to load.
The case mouths have been chamfered and deburred. Together, Nosler bullets and brass are the ingredients for the perfect load. Each piece of Nosler® cartridge brass bears the "Nosler" headstamp and is manufactured under the company's strict policy of "quality first." With uncompromising attention to detail, each round of Nosler cartridge brass is made to precise dimensional standards and tolerances using top-grade materials to maximize accuracy and consistency while extending case life. Each piece of brass is completely prepped and ready to load. Case mouths are deburred and chamfered. Flash holes are deburred, and then checked for proper alignment. Every piece of brass is full-length sized, and then visually inspected to ensure that it is free from manufacturing flaws or blemishes. Each box of brass is weight-sorted so that every piece in a box is weight-matched within +/- 1/2 grain.

- *Fully prepped, ready to load*
- *Case mouths are chamfered and deburred • Hand-inspected and weight-sorted*
- *Flash holes are deburred and checked for proper alignment*
- *Quality made, Nosler Brass is packaged in quantities of 25, 50 and 100, 250 count.*
- *Each piece of brass is full length sized and trimmed to proper length.*

Winchester® Components

Only the best! To most metallic cartridge and shotshells reloaders, that means using Winchester® Ammunition Components. That's because reloaders know Winchester understands the demands of shooters and hunters wanting to develop the "perfect load." You can rest-and reload-assured that every Winchester ammunition component-from brass, powder and primers, to bullets, wads and shot-is made to meet and exceed the most demanding requirements and performance standards in the world: Yours.

Shell cases for handguns and rifles are engineered to precise tolerances to ensure smooth-feeding and positive chambering. Winchester carries unprimed rifle shell cases and both primed and unprimed handgun shell cases.

Multiple Varieties of

Rifle* & *Handgun

Component Bullets Available!

Preparation:

Due to the manufacturing process and/or shipping, case mouths may no be perfectly round. To ensure a round case, cases must be sized (or have the expander ball of the sizing die run through case neck) and deburred/chamfered prior to loading.

Unprimed Rifle Brass

For high quality, Winchester Unprimed Brass Rifle Cartridge Cases - 100/bag are preferred by many hunters and competitive shooters. During manufacturing, cases go through annealing to produce the correct hardness that holds the bullet securely in place but also provides flexibility when firing. Because of this, the cases may have a light stain near the neck. Sometimes the cases arrive with imperfect mouths due to manufacturing or shipping. For reloading, the mouth needs to be resized, as well as chamfered and deburred. If wanted, an expander ball can be pushed through the neck in line with the sizing die.

Federal Premium®

Trophy® Coper

- Choice of MeatEater
- Copper bullet construction provides up to 99 percent weight retention for the deepest penetration in an expanding bullet
- Tipped bullet cavity is optimized for expansion across a broad velocity range
- Grooved bullet shank for increased accuracy across a wide range of firearms
- Polymer tip and boat-tail design increase the ballistic coefficient for higher downrange velocity, energy and less bullet drop

FEDERAL PREMIUM SYNTECH™

Syntech™ Range

- Polymer-encapsulated Syntech bullet prevents metal-on-metal contact in the bore, eliminating copper and lead fouling, while extending barrel life
- Exclusive primer formulation provides reliable, consistent ignition
- Clean-burning propellants minimize residue and fouling
- Significantly reduces the required frequency of cleaning
- Absence of a copper jacket minimizes splash-back on steel targets • Less perceived recoil

Caliber	Grain	Bullet	Velocity	Qty.	Item No.	Price

Syntech™ Defense™

- Best terminal performance in its class
- Hollow-point bullet separates into three segments and a deep-penetrating core on impact
- Core achieves 12 to 18 inches of penetration in both bare ballistics gel and through heavy clothing
- Segments create three secondary wound channels more than 6 inches deep
- Blue polymer jacket reduces barrel heat and friction and eliminates metal fouling
- Extremely reliable Catalyst lead-free primer

Hi Bird™ Fiber Wad

- Fiber wad and gas-sealing over-powder wad
- Cellulose-based filler material
- High-power 12-gauge loads maximize long-range lethality
- Lead shot is engineered for the optimum blend of hardness and density for even patterns and more downrange energy
- Perfect for the field or competition

• 25 Rounds per Box

Ga	Length	Vel.	Drams	Shot Oz.	Shot Size	Item No.	Price
12	*New* 2-3/4"	1330 fps	MAX	1-1/4	5	C23FAHVF12HW5	$18.99

Hevi Bismuth™

- Softer than steel and tungsten
- More downrange energy
- Pellets are alloyed and cast in the USA
- Rear-deploying FLITECONTROL FLEX wad creates more consistent efficient patterns
- Higher pellet counts than comparably performing steel
- Safe and effective for use in both classic and modern shotguns

FEDERAL PREMIUM

Upland Steel

Doves are done. Federal® Upland Steel serves up the patterns and power hunters need for hard-to-hit birds at a price that keeps them shooting all day. The loads are consistent and reliable, with high velocities that make the most of the steel payload. They're the perfect choice for doves and other light upland game, especially in areas that require the use of non-lead shot.

• Quality steel payloads • High velocities • Reliable performance
• Priced for fast-paced, high-volume dove hunts and other upland game

• 25 Rounds per Box

Gold Medal® Grand™ Paper

The look, feel and performance of Gold Medal® Paper shotshells made them the favorite of the most serious clay target shooters. Now there's an even better option—Gold Medal Grand™ Paper. The loads combine Federal Premium® Ammunition's classic paper hull and high-quality brass head with an improved design that provides less felt recoil and improved shot hardness.

• Exclusive Federal Premium paper hull design
• Two-piece wad utilizes SoftCell™ technology to decrease perceived recoil and produce more uniform patterns than one-piece designs
• Brass head ensures flawless cycling and extraction
• Lead shot is engineered for the optimum blend of hardness and density for even patterns and maximum downrange power.

• 25 Rounds per Box

Black Cloud® High Velocity

- High-speed options offer more energy and shorten lead times
- Rear-opening FLITECONTROL FLEX™ wad provides the tightest patterns possible through both ported and standard waterfowl chokes
- Payload of 40 percent FLITESTOPPER® steel pellets and 60 percent Premium® steel for dense patterns
- Catalyst™ lead-free primer and clean-burning, temperature-stable propellant drastically reduce residue
- Black nickel head inhibits corrosion
- Sealed crimp defeats moisture in extreme conditions

Premium® Buckshot

Many hunters use buckshot on deer and other medium game animals. There's no questioning buckshot's performance at close range. And our patented spiral stacking process with plastic shot cup and buffering ensures dense patterns and a powerful blow. Premium shot is copper-plated for uniform pellets and deep penetration

BallistiClean Frangible™ Slug & Buckshot

Train hard without making hard sacrifices. BallistiClean® frangible slug and buckshot loads provide uncompromising reliability and performance with Catalyst™, the only 100 percent leadfree primer design proven as reliable as conventional lead styphnate primers. Combined with BallistiClean's non-lead projectiles, which break up on impact with hard targets, these slug and buckshot loads result in the safest shooting and most realistic, effective training.

- 40-grain Segmented HP bullet breaks into three pieces on impact
- 75-percent less perceived noise than standard .22 LR
- No hearing protection needed
- Standard .22 LR case
- Excellent accuracy

• 50 Rounds per Box

Caliber	Grain	Bullet	Item No.	Price
.22 LR	40gr	CPRN	C23CC0970	$8.49

Quiet-22™
.22 Long Rifle

- Ultra-quiet plinking round in 22-caliber LR rifles
- 75% reduction in perceived noise of standard velocity .22 LR
- Standard CCI .22 LR case
- Excellent accuracy and low velocity (710 feet per second)
- Better performance than an air rifle with similar noise levels
- No hearing protection required
- Great for backyard plinking and youth shooting
- Ideal for legal shooting areas where noise is a concern

• 50 Rounds per Box

Gold•Dot
Short Barrel
Personal Protection

Speer Gold Dot Short Barrel Ammunition is loaded with bonded core bullets and designed for home defense and personal protection. Bonding the jacket to the core means the elimination of core-jacket separations and superior weight retention. The nickel plated cases create a smoother functioning cartridge and increased durability.

Blazer® AMMUNITION

Blazer®

Blazer uses aircraft-grade aluminum that's heat-treated to make an economical cartridge case. As the case is the most expensive component of any cartridge, our aluminum case lets us give you a cartridge that has all the performance of brass-case ammo at a more attractive price. We load Speer bullets and CCI primers, both with a long record of happy users. You also get selection, from 25 Auto to 45 Colt. Blazer also features a selection of bullet weights and styles, something you can't get in typical "white box" ammunition or imports. Blazer is a great option to reduce the cost of practice. It lets you shoot more, and more often.

LAWMAN AMMUNITION

Lawman Ammunition

Perfect for those times when you don't need an expensive hollow point bullet, like training or target practice. For indoor ranges there's Lawman Clean Fire Patented Clean Fire priming and Speer TMJ Bullets virtually eliminate airborne lead, barium and antimony at the firing point. Since Lawman Clean Fire has the same bullet weight and velocity as regular Lawman and Gold Dot loads, recoil and point of impact are the same for realistic training.

Naturalis®

The new Naturalis® design uses state of the art technology to produce consistent, controlled expansion. The polymer valve design uses hydraulic force to create the optimum mushrooming effect at the widest velocity range on the market. The bullet is designed and manufactured by using pure copper. The material, design and controlled expansion ensures a solid and nearly unbreakable construction.

Core-Lokt® Centerfire Rifle Ammunition

The Core-Lokt bullet design is the original controlled-expansion bullet – and one of the most effective ever developed. Its progressively tapered copper jacket is locked to a solid lead core, promoting perfectly controlled expansion and high weight retention for absolutely dependable on-game results.

• Core-Lokt® Soft Point *- Soft point shape provides broad frontal area for high energy impact and rapid expansion. Bullet cores are "Lokt" in place to provide deep penetration. Jackets designed for progressive, reliable expansion to almost twice the original diameter.*

• Core-Lokt® Pointed Soft Point *- Spitzer shape profile for improved velocity and flatter trajectory. Bullet cores are mechanically locked in place to provide deep penetration. Jackets designed for progressive, reliable expansion to almost twice the original diameter.*

Premier® AccuTip™-V

At impact, AccuTip's gold polymer tip is driven rearward causing the thin jacket and soft lead core to fragment violently. First and foremost, though, it gets there precisely shot after shot – it's the most accurate varmint bullet you can shoot.

- *Gold polymer tip acts as a wedge, splintering bullet into fragments at impact*
- *Thin jacket and soft lead core disintegrate and cause massive terminal damage at all ranges*

Nitro Turkey™ Buffered Loads

Remington® Nitro Turkey loads contain our Nitro Mag extra-hard lead shot. Our unique manufacturing process yields shot that is as hard and round as copper-plated shot. In fact, Nitro Turkey Magnums will pattern as well as other copper-plated, buffered loads without the higher cost. Utilizing a specially blended powder recipe and Remington's advanced Power Piston® one-piece wad, Remington's Nitro Turkey Load delivers a full 1 7/8 oz. payload at 1210 fps while delivering 80% pattern densities with outstanding knockdown power at effective ranges.

• Copper shot performance, value price • Nitro Mag® extra hard lead shot

• Patterns over 80% with Super Full choke ***• 10 Shotshells per Box***

Nitro Pheasant® Loads

Thousands of loads in development, decades of success in the field. Only Nitro Pheasant® uses Remington's own Copper-Lokt® copper-plated lead shot with high antimony content. The hardest lead we make for hunting, stays rounder, flies truer, patterns tighter for greater penetration. Available in both high-velocity and magnum loadings in either 12- or 20-gauge, Nitro Pheasant gives you the maximum pattern density and lethal energy needed to bring down these tough birds.

Remington®

Nitro-Steel® High Velocity

Now with additional hard-hitting, higher velocity offerings. Premier, zinc-plated, 100% round pellets fly straight, delivering true close to long-range pattern performance. And NITRO-STEEL® is fully compatible with aftermarket ported and wad-stripping chokes. It's a proprietary blend of components that produces more dead birds than any other load, year after year.

Wingmaster HD™

Remington has brought back the wingmaster HD, the one-stop hop in duck and goose high-density shot shell rounds. Testing proves Wingmaster HD delivers the best combination of pellet energy and pattern density resulting in high pattern energy on target. At 11.6 g/cc, Remington's tungsten blend is 6% denser than lead and 49% denser than steel. Wingmaster HD features higher retained energy, with uniform, smooth, round pellets for dense and efficient patterns. • 10 Rounds per Box

PREMIER® TSS

New ultra-dense Tungsten Super Shot (TSS) payloads deliver increased lethal range, denser patterns and more knockdown power. A density of 18 g/cc makes a smaller shot size viable over what you'd choose in lead, with an energy and velocity increase to boot. Every load is tuned for the tightest and most consistent patterns possible

When the biggest bucks somehow materialize out of nowhere you better be ready to make the most of it. Remington's buckshot lets you shoot with the confidence once possible only with a rifle. The reasons for choosing Remington are numerous. Some say it's unbeatable value. Regardless of the reason, we remain unwavering in our spirit of a legendary brand.

Express® Buckshot – *Buffered*

One of the great values in shotgun deer loads. A combination of heavy cushioning behind the shot column and a granulated polymer buffering helps maintain pellet roundness for tight, even patterns. Packed in 5-round boxes. • 5 Shotshells per Box

Gauge	Length	Dram	Velocity	Pellets	Shot	Quantity	Item No.	Price

Express® Managed-Recoil® Buckshot

With less felt recoil than full velocity loads, Express Managed-Recoil Buckshot is an ideal close-range performer. Less recoil means second shot recovery is quicker, allowing the user to get back on target more easily. These new loads are built with the same precision of our standard 8-pellet 00 Buckshot loads and are buffered for dense patterns, allowing for highly effective performance at up to 40 yards.

12	2-3/4	3	1200 fps	8	00	C23RT20282	$8.99

Slugger® Rifled Slug

Always in the forefront of deer slug technology, we redesigned our 12-gauge Slugger Rifled Slug for a 25% improvement in accuracy. Also, at 1760 fps muzzle velocity, our 3" 12-ga. Magnum slugs shoot 25% flatter than regular 12-ga. slugs. Packed in convenient, easy-carrying 5-round boxes. Also available in a reduced recoil loading.

Slugger® High Velocity Slugs

Remington® introduces the first high-velocity Foster-style lead slug. This higher velocity slug exits the barrel at 1800 fps, 13% faster than standard 1 oz. slugs. The 7/8 oz. Slugger High Velocity delivers 200 ft-lbs more energy at 50 yards with flatter trajectory on deer than standard 1 oz. slugs. Produced in most popular slug loadings — 2 3/4" and 3" 12-gauge and 2 3/4" 20-gauge with a 1/2 oz. lead slug. Designed for the avid deer hunter using smooth bore guns. • 5 Slugs per Box

Premier® Nitro Sporting Clays

Smoke targets and conquer the competition with Premier Nitro Sporting Clays— the finest sporting clay loads in the world today. The shell's extra velocity gives you an added advantage for those long crossers — making target leads shorter for ultimate clay-crushing satisfaction. The unique Remington Premier gold hull has earned a reputation as one of the most "reloader friendly" designs ever to hit the clay target-shooting world. This shotshell also makes a great high-velocity dove load.

PMC AMMUNITION

After 40 years of supplying high quality, dependable ammunition to the U.S. civilian market, PMC® has joined forces with Poongsan Corporation of Korea to expand its markets in the Global ammunition arena. Taking pride in the large number of types and zero-defect performance of its ammunition, Poongsan uses carefully selected high quality raw materials and ensures the high performance of sporting ammunitions by carrying out stringent quality inspections and target tests, all the same as those for military ammunition.

Metal Ammo Cans w/Bandoleer

This packaging is durable, indestructible, and perfectly suited to protect and transport your ammunition. They are available in a variety of sizes and types for certain PMC products.

• Bullet: FMJ-BT

Caliber	Grain	Velocity	Qty.	Item No.	Price
.223 Rem	55gr	3200 fps	1680/Can	C23PM223AMB	$916.49
.50	660gr	3080 fps	100/Can	C23PM50ALINKMB	$599.99

PMC® Bronze *Pistol*

The same quality and dependability built into our Starfire ammunition is incorporated throughout our extensive line of PMC training ammunition and standard hollow point or soft point ammunition. All PMC cartridges must pass through the rigorous inspection of our electronic powder station. This station accurately measures the propellant charge in each round. If the propellant in any cartridge varies by a tiny amount-just two tenths of one grain- the system stops and the cartridge is discarded. No other ammunition manufacturer can truthfully assure you greater uniformity and reliability than PMC!

PM45A

Full Metal Jacket

Lead core is enclosed by a strong metal jacket on this non-expanding, deep penetrating bullet. Provides smooth, reliable feeding in all types of semi-auto handguns.

• 50 Rounds per Box

Caliber	Grain	Velocity	Item No.	Price
.25 Auto	50gr	750 fps	C23PM25A	$24.49
.32 Auto	71gr	900 fps	C23PM32A	$25.49

.45 Auto	230gr	830 fps	C23PM45A	$25.49

Full Metal Jacket-Flat Point

Non-expanding and deep penetrating, this general purpose bullet is a good choice for target use because of its accuracy. Its lead core is enclosed by a metal jacket, which eliminates barrel leading. Provides smooth, reliable feeding in semi-automatic handguns.

• 50 Rounds per Box

Caliber	Grain	Velocity	Item No.	Price
.40 S&W	165gr	989 fps	C23PM40D	$20.49
.40 S&W	180gr	985 fps	C23PM40E	$20.49

Full Metal Jacket-Truncated Cone

The truncated cone shape of this bullet makes feeding smooth and reliable in semi-autos. Cannot lead barrels because its lead core is enclosed by a heavy metal jacket.

• 50 Rounds per Box

Caliber	Grain	Velocity	Item No.	Price
10mm Auto	200gr	1050 fps	C23PM10A	$35.49

Jacketed Hollow Point

The exposed lead at the tip of the PMC jacketed hollow point rapidly initiates uniform, controlled expansion that progresses to the depth of the hollow point cavity. Penetration is also controlled for maximum energy transfer to the target, assuring its suitability as a hunting bullet. Excellent accuracy and bullet integrity.

• 50 Rounds per Box (unless noted)

Caliber	Grain	Velocity	Item No.	Price

Remington

Managed-Recoil® Slugger® Rifled Slug

Slugger Managed-Recoil Rifled Slugs offer remarkably effective performance but with 45% less felt recoil than full velocity Sluggers. With effective energy out to 80 yards, these 1-ounce slugs easily handle the majority of shotgun deer hunting ranges. Less recoil means sighting-in at the range becomes a more comfortable, fun experience. *• 5 Slugs per Box*

Ga.	Shell	Dram	Velocity	Oz.	Item No.	Price

Premier® AccuTip™ Bonded Sabot Slug

with Power Point Tip

It doesn't just look intimidating, it's flattening whitetails and competitors in the tipped-slug market with devastating ferocity. Guided by our new Power Port™ Tip, the AccuTip Bonded Sabot Slug delivers a degree of accuracy and terminal performance unmatched by any other we tested. This masterpiece of aerodynamics consistently prints tiny 100-yard groups and transfers tremendous knockdown force out to the farthest reaches of shotgun range. It's the largest tipped slug you'll find anywhere.

Hornady

Accurate. Deadly. Dependable.®

Custom™ Rifle Ammunition

Custom™

High Performance Hornady Bullets: *Millions of successful hunts have proven the accuracy and deadly knockdown power of the famous Hornady InterLock, SST and InterBond bullets we load into every Hornady Custom rifle cartridge.*

Powder: Each cartridge is loaded to ensure optimal pressure, velocity and consistency, from lot to lot.

Highest Quality Brass: *Much of the brass is made by Hornady, the rest carefully selected for reliable feeding, corrosion resistance, hardness and the ability to withstand maximum chamber pressure.*

Primers: *Like the powder, each primer is carefully matched to individual loads, and specially selected for their ability to quickly, completely and reliably ignite the powder charge.*

LEVERevolution®

- Up to 2500 fps muzzle velocity than conventional lever gun loads
- Exceptional accuracy and overwhelming downrange terminal performance
- Patented FTX® bullet featuring Flex Tip® Technology
- Up to 40% more energy than traditional flat point loads
- **Elastometer Flex Tip®:** *This high-tech elastometer tip dramatically improves the ballistic coefficient, while still providing shock-absorbing safety in magazine*
- **Propellant:** *New propellants provide maximum muzzle velocity at conventional pressures, resulting in flatter trajectories and more downrange energy*
- **Case and Primer:** *Like Hornady® ammunition, our LEVERevolution® rounds use the highest quality cases and primers available. Consistent components translate to consistent shooting in the field*

Vintage Match™

Vintage Match™ ammunition is built to replicate the original military performance specifications unique to these wartime rifles. With the advent of the CMP Vintage rifle and Vintage Sniper Matches, Vintage Match™ ammunition was developed with the Match shooter in mind and is meant to provided superior quality, off-the-shelf ammunition for the shooter who is looking for a match grade alternative to surplus or hand-loaded ammunition. Vintage Match™ offers exceptional accuracy for classic service rifles such as the Mauser, Lee-Enfield, Mosin-Nagant, Swedish Mauser or any other rifles chambered for these storied cartridges

Superformance® Match™

Superformance® Match™ Ammunition achieves muzzle velocities of 100-200 fps faster than ANY conventional ammunition. Hornady® A-MAX® and Boattail Hollow Point Match™ bullets, now featuring revolutionary AMP™ (Advanced Manufacturing Process) bullet jackets set the standard. Topped with the finest bullets, Superformance® Match™ ammunition marries the very best cartridge cases with extremely stable propellants. These propellants are custom blended for each individual load to provide TRUE ammunition performance enhancement. High power competitors, as well as law enforcement and military shooters and snipers, will benefit form the Superformance® Match™ advantages - higher muzzle velocity, phenomenal accuracy, increased range and reduced wind drift • 20 Rounds per Box

** 5.56 NATO is not for use in rifles chambered in .223 Rem.*

SUPERFORMANCE™

Superformance™

High velocities without higher heat and pressure; Increase your favorite rifle's performance up to 200 fps WITHOUT extra chamber pressure, recoil, muzzle blast, temperature sensitivity, fouling or loss accuracy. Superformance® uses progressive propellants that take your favorite SST®, GMX®, and InterBond® bullets to levels of performance that are simply unattainable with conventional ammunition.

It *IS* Rocket Science!

- *Its is Fast: 100 to 200 fps faster than any conventional ammunition*
- *Its is Accurate: Uncompromising accuracy without increase felt recoil*
- *It is Consistent: Unfailing performance across a broad range of temperatures*
- *It is Versatile; This new breed of ammunition is available in .223 to .458, and is safe for use in ALL firearm types including semi-autos, lever guns & pump actions*

CRITICAL DEFENSE®

Critical Defense®

Designed for short-range defensive situations, a new breed of FTX® bullets are at the forefront of the Critical Defense® Rifle ammunition line. The bullet's patented Flex Tip® not only helps keep the nose cavity free from clogging as it passes through heavy clothing but also helps the bullet expand at low velocities.

SUBSONIC AMMUNITION

Subsonic - Rifle

- Impact velocities of 960 to 1020 fps into ballistic gelatin, providing 16-18" penetration and 90%+ weight retention
- Designed to expand at velocities as low as 900 fps
- Low flash signature is ideal for both suppressed and unsuppressed performance.

VARMINT EXPRESS

Varmint Express®

Polymer tipper V-MAX™ bullets delivers match accuracy, high ballistic coefficients wind defying trajectories and rapid fragmentation up on contact. Each Varmint Express® offering is loaded with high quality cases and carefully selected propellant and primers that are all chosen to provide the best performance in each individual load. The NTX® bullet features a non-traditional core material that is formed through a proprietary process on-site at the Hornady® bullet factory. Purpose built to deliver complete fragmentation, even at low velocities, the NTX® composite core provides varmint hunters a new alternative for use in areas with lead restrictions.

Superformance® Varmint™

SUPERFORMANCE VARMINT

Varmint hunters can now reap the benefits of Hornady Superformance® propellant technology in their favorite varmint cartridges. Superformance® Varmint ammunition delivers muzzle velocity increases of 100 to 200 feet per second from EVERY gun. Accuracy, increased range, flatter trajectory, less wind drift and devastating terminal results are all realized with Superformance® Varmint ammunition. Featuring industry leading polymer tipped Hornady V-MAX™ bullet, Superformance® Varmint ammunition achieves match accuracy and rapid fragmentation AND extends cartridge efficiency and performance.

Varmint Express® Rimfire

Hornady® Varmint Express® .17 HMR, .17 Mach 2, and .22 WMR Ammunition delivers industry leading accuracy and deadly performance that has "mist'-ified varmints for years! Loaded with the veerable V-MAX™, XTP® or alternative NTX® bullet, Hornady® Varmint Express® Rimfire ammunition is an excellent choice for plinking or varmint hunting.

- **Hand Inspected:** *Every Varmint Express cartridge is hand inspected before leaving our factory, ensuring there are no cosmetic flaws and imperfections.*
- **Powder:** *The powder in a Varmint Express cartridge is selected for its consistency from lot to lot. That means consistent accuracy & optimum pressure and velocity on every shot.*
- **Select Brass:** *All the cases chosen for use in our Varmint Express ammo are made in America and meet Hornady's stringent quality standards.*
- **Primers:** *Each primer is matched with a specific Varmint Express load to ensure quick, complete ignition.*

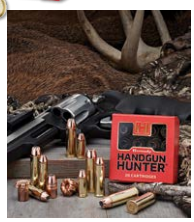
CRITICAL DEFENSE



Critical Defense® .22 WMR

• Unaffected by thick and heavy clothing, the 45 gr. FTX bullet delivers superior controlled expansion and terminal ballistics. It offers superb accuracy and devastating terminal performance in a rifle. • Optimized for short-barreled firearms, the 22 WMR features clean burning propellants with low flash and blast to help protect night vision. • Silver nickel-plated cases prevent corrosion and are easily visible in low-light situations. *• 50 Rounds per Box*

Caliber	Grain	Bullet	Item No.	Price
.22 WMR	45gr	FTX®	C23H083200	$18.79

Handgun Hunter™

Hornady Handgun Hunter™ ammunition is built around a bullet as rough and rugged as the conditions and game demand. The MonoFlex® handgun projectile is manufactured with a tough copper alloy that achieves deep penetration and 95% weight retention. Bullet expansion across a range of velocities is aided with an elastomer material added to the bullet's open cavity. Upon impact, the elastomer compresses, then pushes out and causes the bullet to expand faster than a standard hollow point design.

- *Monoflex® Bullet Technology*
- *Elastomer Material*
- *Premium Components*

Custom™ Handgun

At Hornady®, we have introduced over 60 different jacketed pistol bullets based on what you, the shooter, have requested. All Hornady® Custom™ pistol ammo is loaded with either the famous XTP® (eXtreme Terminal Performance) bullet, our full metal jacket (FMJ) or our FTX® (Flex Tip® Expanding) bullet. All are extremely accurate and deliver excellent terminal performance! This is what makes our pistol bullets the preferred choice for hunters, competitive shooters and plinkers.

Hornady
Accurate. Deadly. Dependable.®

Critical DUTY®

The FlexLock® is an "intelligent bullet" that reacts differently depending on the barrier it encounters, delivers "barrier blind" performance after penetrating urban barriers such as plywood, sheet metal and even auto glass.

***1.) FlexLock™ Bullet** incorporates two revolutionary Hornady features: the patented Flex Tip® that initiates consistent expansion every single time while preventing any clogging, and the heavy duty InterLock® band that locks the jacket and core together.*

***1.) Cannelured Bullet with Crimped Base** ensures no bullet setback during feeding.*

***2.) InterLock® Band** works to keep the bullet and core from separating for maximum weight retention and proven terminal performance through all FBI test barriers.*

***3.) Core** is made of high-antimony lead making it extremely tough, delivering controlled expansion for unparalleled terminal performance consistency through all FBI test barriers.*

Cowboy™

Like all Hornady ammo, our Cowboy Action rounds are engineered to perform flawlessly. Thanks to our swaged bullets, the projectile flattens at the target instead of fragmenting. Our propellants are the cleanest-burning, and the diamond knurling means the bullet is lubed the entire length of the bearing surface. It all adds up to the highest quality cowboy ammo on the market.

Critical Defense® .410 Triple Defense™

Delivering effective shot patterns that place all projectiles on a man-sized target at seven yards, the new Critical Defense® 410 features a unique Triple Defense™ projectile column consisting of two .35 caliber round balls topped with one non-jacketed FTX® slug. Unique to the Critical Defense® 410, the 41 caliber FTX® slug actually engages the gun's rifling, and contacts the target nose-on, enabling the patented Hornady Flex Tip® technology to assist in expansion for greatly enhanced terminal performance. Each 35 caliber round ball is made of high antimony, cold swaged lead to resist deformance and provide excellent penetration. Critical Defense® 410 Triple Defense™ – you be the JUDGE!

Critical Defense®

Purpose-built for concealed carry guns!

All Critical Defense® ammunition is loaded in nickel cases for increased visibility in low-light situations. Premium low flash propellants deliver performance, even in very short barreled handguns, and wont disrupt your vision. Reliable expansion and dependable terminal performance can be counted on for on concealed carry/personal protection.

- Unaffected by thick and heavy clothing, including denim and leather
- FTX® bullet delivers superior controlled expansion and large, deep wound cavities over a wide range of velocities
- Clean burning and efficient propellants reduce recoil in lightweight handguns, and perform consistently at all temperatures • Minimal muzzle flash protects night vision
- Feeds reliably in pistols • Silver nickel plating prevents corrosion and is easily visible in low light conditions
- Bullets are custom designed for individual loads
- The most effective, consistent, and reliable concealed carry ammunition available today!

Hornady®
Accurate. Deadly. Dependable.®

VERSATITE™ WAD

Heavy Magnum® Coyote

The NEW Hornady® Heavy Magnum® Coyote shotgun loads deliver lethal results and minimal pelt damage out to 50 yards! Loads with 1-1/2 ounces of nickel plated lead shot in your choice of either a BB or 00 buckshot offering, these 3-inch, 12 gauge shotshells are the perfect answer for close range predators. Both loads feature the Hornady® Versatite® wad that strips cleanly from the shot string for excellent pattern density and a short shot column for maximum effect on target.

FTX® Custom Lite Slugs

Although extremely effective, 12 gauge slugs deliver a fair amount of recoil. Now, hunters have an alternative with the new FTX® Lite Shotgun Slug. This load is idea for youngsters, women and anyone looking to tame the recoil of their rifled barrel slug gun – offering 40% less felt recoil compared to standard 12-gauge options. Loaded with the same 200-grain FTX® projectile used in the original, the SST® Lite leaves the muzzle at 1575 fps, but is a mild recoiling load capable of taking the largest Midwest whitetail out to 150 yards.

12-Gauge: *Velocity (fps) / Energy (ft/lb.)*

SUPERFORMANCE® SHOTGUN SLUGS

MONOFLEX™

Superformance® Shotgun Slugs

At the heart of the new Superformance® Shotgun slug in the MonoFlex® – a monolithic solid projectile from gilding metal (95% copper/ 5% zinc) and topped with the Hornady® exclusive Flex Tip® feature that works as a catalyst for uniform expansion, even at the low velocities of longer range impacts. The MonoFlex® won't seperate, and retains 95% of its original weight. Specifically engineered to deliver accuracy, penetration and extremely high weight retention, the MonoFlex® is a non-traditional/alternative metal option that is a fantastic choice for ALL hunters. Fueled by the use of our specially blended propellants, the Superformance® Shotgun Slug is built to deliver maximum velocity for flatter trajectories and enhanced terminal performance. The slug's internal sabot and gas seal construction is scientifically engineered to tap gases that deliver uniform pressure and velocity while working to force open the petals and uniformly push the slug toward its target – accurately!

Subsonic

With the recent popularity of subsonic ammunition we are proud to present our PPU Subsonic Line. The Subsonic Line ammunition is manufactured to strict quality production standards and will exceed all expectations. Subsonic ammunition has been in use by military, law enforcement, and training because of its lower noise and lower recoil benefits. Give it a try yourself and experience the benefits firsthand and see why subsonic ammunition is gaining popularity with shooters

VOR-TX Expander Tipped Slug

The all-copper Expander Tipped slug opens instantly on impact into six razor-sharp petals that plow a wide wound channel and deposit massive amounts of energy throughout the entire length of the cavity. High weight retention sustains bullet momentum to create a long wound channel for maximum destruction of tissue, bone and vital organs to effectively and humanely take down game.

- *Slug functions terminally at low velocities*
- *High velocity with flat trajectory*
- *Engineered nose cavity instantly expands to double diameter and penetrates deep ensuring cleaner, quicker kills*
- *Proven on game performance* *• 5 Rounds per Box*

Gauge	Shell	Bullet	Velocity	Item No.	Price
12	2-3/4"	Exp. Tip	1450 fps	C23BX20733	$16.29
12	3"	Exp. Tip	1500 fps	C23BX20737	$17.99

VOR-TX® Rifle Ammunition

Barnes® VOR-TX® is precision ammunition loaded with the deadliest bullets on the planet. Barnes, the leader in bullet innovation offers hunters the ultimate in accuracy, terminal performance and handloaded precision in a factory loaded round. Multiple grooves in the bullet's shank reduce pressure and improve accuracy. Bullets open instantly on contact – no other bullet expands as quickly. Nose peels back into four sharp-edged copper petals destroying tissue, bone and vital organs for a quick, humane kill.

Safari Ammunition

Loaded with either the Partition® or Nosler Solid™ and designed for the same point of impact with either bullet, Nosler Safari Ammunition provides the ultimate versatility for any dangerous game situation.

- *Cases checked for correct length*
- *Necks sized, chamfered and trued*
- *Flash holes checked for proper alignment*
- *Powder charges are meticulously weighed*
- *Finished rounds are visually inspected and polished*
- *Nickel Plated Cases*

Safari Ammunition Nosler® Solid™

- **Flat-Nose Design:** *Reduces deflection off of bone and muscle for deep penetration and an impressively straight wound channel*
- **Solid™ Bullet Construction:** *Lead-free alloy delivers lethal penetration*
- **Concentric Design:** *Seating groove produces optimal load versatility*
- **Designed for Same Point of Impact as Partition bullets of same weight and caliber**

Safari Ammunition - Nosler® Partition®

- **Nosler Engineering:** *Nosler's special lead-alloy dual-core provides superior mushrooming characteristics at virtually all impact velocities.*
- **Full Tapered Copper-Alloy Jacket**
- **Nosler's Integral Partition:** *Supports the expanded mushroom and retains the rear lead-alloy core. The enclosed rear core retains more than two-thirds of the original bullet weight for deep penetration*
- **Dual-Core Construction:** *Every Partition® bullet in the Nosler® line delivers optimum length, weight, and ogive design for maximum in-flight and terminal performance.*

Defense™ Handgun Bonded Ammunition

Bonded PERFORMANCE™ handgun bullets are designed with a tapered jacket and specially engineered lead alloy core for predictable expansion and penetration. The polymer tip resists clogging and aides smooth, reliable feeding. Bonded PERFORMANCE™ handgun bullets are available exclusively in Nosler® DEFENSE™ handgun ammunition in either a jacketed hollow point or polymer tipped configuration.

Cross Trainer/ Competition

- Poly/copper projectile is frangible – breaks up upon impact with hardened steel
- Stainless steel casing provides strength, power, alignment and less weight
- Flies fast, flat, accurate, and with less recoil for smoother target reacquisition
- Increased efficiency and cycle rate
- Reduced bore fouling and corrosion
- Lead-free for compliance at ranges
- Magnetic • Reloadable • *20 Rounds per Box*

Caliber	Grain	Velocity	Item No.	Price

Pentagon

The Pentagon's higher velocities and greater impact energy than conventional composite bullets are credited to the monolithic copper bullet's lighter weight and the NovX patented 2-piece stainless steel cartridge case design. The net result is a defensive cartridge that is lighter to carry concealed, easier to shoot, provides for fast sight picture acquisition on follow-up shots through reduced muzzle flip, and superior terminal performance to quickly end defensive engagements.

• Monolithic Copper Hollow Point • Controlled Opening on Impact • Maximize Penetration • Optimal Hydrostatic Shock • Environmentally Safe, Lead-Free Projectiles • Petal Expansion to Twice the Bullet Diameter

Close Encounter

Delivering unmatched performance with less recoil and faster cycling, the NovX High-Nickel Stainless Steel Case is the ideal choice for home and self defense situations. The 300 BLK Home + Self-Defense fragmenting projectile penetrates all common barriers while reducing the chance of ricochet and downrange or collateral damage liability—offering an exceptional level of accuracy and dependability over other fragmenting rounds.

Gold Dot® Short Barrel®

At one time, packing a compact handgun meant sacrificing performance and ammunition selection. Speer® Gold Dot® Short Barrel® ammunition has changed that. It is designed to work in barrels as short as 1.9 inches while producing less felt recoil and achieving reliable expansion and penetration.

• Maximum performance in barrels as short as 1.9 inches • Reliable feeding in sub-compact handguns • Consistent expansion and performance at a variety of distances and velocities • Gold Dot® Hollow Point bullet

Outdoor Master™

NEW Sierra® Outdoor Master™ cartridges utilize innovative components and production processes that deliver an economical cartridge suitable for all purposes. Packed with hard-hitting terminal performance and the same attention to detail that Sierra is famous for, Outdoor Master will get you outside with confidence.

• Power Jacket is topped with Sports Master™ Jacketed Hollow Point (JHP) bullets.
• Specially placed skives in the jacket around the tip of the bullet provide positive, uniform, and controlled expansion.
• Cartridges are loaded with brass casings, making reloading with conventional equipment easy and economical.
